**C202109V2 – Haivision Equipment, Installation and Maintenance
Question and Answer Summary – Amendment One
Issued: March 22, 2022**

Q.1: Where physically will both “Haivision 6 slot Chassis” (F-MB6X-RAC) be installed?

A.1: One Haivision 6 slot Chassis will be installed at each of the following locations:
One Broadway Center, Schenectady, NY 12305 and Empire State Plaza, Albany, NY 12223.

Q.2: Where the “Haivision 6 Slot Chassis” are installed, is the B-MX4E-SD14-UHD Makito X4 SDI Encoder Blade and B-MX4D-SD14-UHD Makito X4 SDI Encoder and Decoder Appliances?

A.2: Please refer to pages 27 and 28 of the IFB, under section 3.1 Scope, for a detailed listing of equipment installation locations.

Q.3: For the Commission’s headquarters’ spare Haivision Encoder, is the blade or appliance model preferred?

A.3: The appliance model is required.

Q.4: Are the encoder and decoder appliance spare power supplies required where the “Haivision 6 Slot Chassis” will be installed?

A.4: Yes.

Q.5: Where physically will both “Haivision SRT Gateways” be installed?

A.5: One Broadway Center, Schenectady, NY 12305.

Q.6: The Haivision SRT Gateway 100 Mbps appliance (S-SG-10) is a single server with a single power supply, how can the “dual-power and dual-server” redundancies requirement be met?

A.6: The Specifications for the 2 Haivision SRT Gateway appliances under Section 3.1, on page 26, are amended to read as follows:

Haivision SRT Gateway appliance ~~with dual power and dual server redundancies~~, 100mbps aggregate output, includes configuration. **One unit will be active; one unit will serve as the redundant backup.**
