4200.3	Amendments
4200.4	[Repealed]
4200.5	Modification of a decision

§ 4200.1. Powers reserved.

All powers of the commission not specifically defined in this Subchapter are reserved to the commission under the law creating the commission and specifying its powers and duties. The commission may issue such orders and directives as may be deemed by it to be in the public interest and in the interest of quarter horse racing consistent with the provisions of chapter 1023 of the Laws of 1970, as amended.

§ 4200.2. Obligations of licensee.

Every license to hold a race meeting is granted by the commission upon the condition that the licensee shall enforce the laws of the State of New York and shall accept and enforce all rules and regulations and commission orders and directives. It shall be the duty of every licensee and the officers, directors, employed officials and employees of the licensee to enforce the law, rules and regulations and orders and directives of the commission. Failure to enforce, or comply with such rules and regulations, orders or directives may constitute sufficient cause for revocation of a license by the commission or result in a fine, suspension or other disciplinary action by the commission.

§ 4200.3. Amendments.

This Subchapter may be changed or amended by a majority of the commission at a regular or a special meeting. An order or directive issued by the commission may likewise be changed or amended or overruled at a regular or special meeting of the commission. The commission may adopt new rules and regulations, make exceptions or waive any rule or regulation in individual instances if in the judgment of the commission it may be deemed advisable. However, such action shall not be deemed a precedent

nor a waiver by the commission of any rule or regulation involving the same or a similar situation which may occur in the future.

§ 4200.4. [Repealed]

§ 4200.5. Modification of a decision.

The commission may rescind or modify any penalty or decision imposed or made by racing officials at any quarter horse racing meeting.

§ 4216.1. Pools—calculation and distribution.

The pari-mutuel pools shall be calculated and distributed as follows:

(a) Win, place, show, daily double or twin double wagers form separate wagering pools with payoffs calculated independently of each other.

(b) From each pool there shall be deducted this percentage provided by statute, the remainder being the net pool for distribution, less the breaks, as provided by the Pari-Mutuel Revenue Law.

(c) *Win pool.*

(1) The net pool divided by the amount wagered on the horse finishing first determines the payoff per dollar, including profit and wager.

(2) When two horses finish first in a dead heat, the money in the win pool is divided the same as in a place pool calculation.

(d) *Place pool.*

(1) The amounts wagered on horses finishing first and second are deducted from the net pool to determine the profit. This profit is divided in half, and the halves, in turn, divided by the two amounts mentioned above. This determines the profit per dollar, to which is added the wager.

(2) When two horses finish second in a dead heat, one half of the profit is allocated to the tickets representing wagers on the horse finishing first, and the remaining half is allocated equally to the wagers on horses finishing in the dead heat for second.

(3) When two horses in the field or coupled as an entry run first and second, the place pool shall be distributed the same as in a win pool.

(e) *Show pool.*

(1) The amounts wagered on the horses finishing first, second and third are deducted from the net pool to determine the profit. This profit is divided into three equal parts, and each part, in turn, divided by the three amounts mentioned in subdivision (d) of this section. This determines the profit per dollar, to which is added the wager.

(2) When two horses finish third in a dead heat, one third of the profit is allocated to the tickets representing wagers on the horse finishing first, one third to the wagers finishing second and the remaining third equally to wagers on the horses finishing in the dead heat for third.

(3) When two horses in the field or coupled as an entry finish first and second, first and third or second and third, two thirds of the profit is allocated to the tickets representing wagers on the field or entry, and the remaining one third to the wagers on the other horse.

(4) When one horse in the field or coupled as an entry finished first or second, and the other part of the entry or field finished third in a dead heat with another horse, one half of the profit is allocated to the tickets representing wagers on the field or entry, one-third to the horse finishing first or second, and the remaining one-sixth to the wagers on the horse finishing third in the dead heat with the field or entry.

(5) When three horses in the field or coupled as an entry run first, second and third, the place and show pools shall be distributed the same as a win pool.

(f) When only two horses finish, the show pool, if any, shall be distributed the same as in a place pool.

(g) When only one horse finishes, the place and show pools, if any, shall be distributed the same as in a win pool.

(h) In any race in which no horse finishes, all money wagered on the race shall be refunded upon presentation and surrender of pari-mutuel tickets sold thereon.

(i) Payment where no wagering on a horse in the win, place or show pools.

(1) In the event that there is no money wagered to win on a horse which has finished first, the pool will be refunded.

(2) In the event that there is no money wagered to place on a horse which finished first or second, the net pool will be distributed to wagers on the horse upon which money was wagered to place and which did so finish; if none, the pool will be refunded.

(3) In the event that there is no money wagered to show on a horse which has finished first, second or third, the net pool will be distributed to wagers on the horses upon which money was wagered to show and which did so finish, as in a place pool; if only one, to wagers upon such horse as in a win pool, if none, the pool will be refunded. Should these circumstances be foreseeable when a pool closes, an immediate announcement shall be made to hold all tickets because all betting combinations are not covered.

§ 4216.2–4216.5. [Reserved]

§ 4216.6. Parlay betting.

(a) When consistent with the public interest and the best interests of racing generally, with permission of the board, the track operator may offer parlay betting as a service to the betting public.

(b) The parlay is not a pari-mutuel pool, but is a series of bets combining betting entries in win, place or show pools in each of two or more separate races in chronological order. The initial amount bet constitutes the bet on the first betting entry in the first parlay race (leg); if successful, the payoff from winning the first leg (to the lowest penny) is then bet on the betting entry designated in the second leg; if again successful, and if the parlay continues, the payoff from winning the second leg is then bet (to the lowest penny) in the third leg; etc.

(c) A parlay bet may combine any of the races on the program and must combine at least two and not over six races. Bets are limited to win, place or show pool types for which a corresponding pool is conducted on the race selected. The races in a parlay must be chronological but need not be consecutive nor combine the same type pool. The parlay shall be designated on one pari-mutuel ticket which may also evidence other parlay bets combining the same races.

(d) A parlay bet may not combine bets in the same race or earlier races (so-called reverse bets) nor on races on other programs.

(e) While payoffs inserted as bets in subsequent races are broken to the lowest penny (unlike regular payoffs), payoffs to the parlay bettor shall be broken to the lowest dime. Resulting parlay breakage shall be reported separately and added to regular breakage at the end of the program for the purpose of taxation and distribution.

(f) Parlay payoffs will be so inserted as bets in subsequent pools by the track operator that the amount of such bets, including their effect on the betting odds, will be displayed as soon as possible after the initial change of the morning line display. (Bet totals in such pools shall be displayed in truncated fashion, to the lowest dollar.)

(g) If any taxing authority requires the withholding of any portion of a winning parlay payoff prior to the completion of all bets in the parlay, such parlay shall thereupon terminate at such point and be payable to the ticket holder without further completion, selections in future races being voided. Such consequence shall be publicly announced and prominently displayed by the track operator who shall inform the public by explanation and examples of the operation of this subdivision before the start of the racing program.

(h) Parlay wagers may be cancelled by the ticket holder, in accordance with track policy on cancellations, only prior to the start of the first parlay race in which a parlay selection starts. Thereafter, the parlay must either be completed or be terminated by operation of these rules in order to be entitled to a payoff. The holder of the parlay ticket shall not have the option to cash in such bet prior to completion after a designated parlay entry actually starts in a race.

(i) If a race, pool or betting entry in a parlay is scratched (which includes an entry being declared a nonstarter for betting purposes, or a race or pool being declared "off") the parlay shall be constituted by the remaining legs; if there are no remaining legs, the parlay terminates.

(j) A bet on a coupled entry or field is considered a bet on the remaining part of such coupled entry or field in the event any part of such entry or field starts for pari-mutuel purposes in accordance with section 4215.19 of this Title. Parlay tickets incorporating an entry or field in which a scratch occurs are refundable only in accordance with subdivision (h) of this section.

(k) Copies of this section shall be made available to the public by the track operator.

THE DAILY DOUBLE

§ 4217.1. Rules printed in program.

The rules for daily double betting shall be printed in the daily racing programs sold to the public within the premises of the racing associations.

§ 4217.2. Not a parlay.

The daily double is not a parlay and has no connection with or relation to the pool shown on the totalizator board.

§ 4217.3. Prerequisites.

In order to win a daily double, it is necessary for the purchaser of daily double ticket to select the winners of each of the two races specified for the daily double. If either of his selections fails to win, his contract is voided, except as provided in this Part.

§ 4217.4. Entries; fields.

Entries and fields may be included in the first and second races of the daily double. In the event that part of an entry or field is scratched before the running of the first race of the daily double there shall be a refund, and the provisions of section 4215.19 of this Subchapter shall govern. In the event that part of an entry or field is scratched in the second race after the running of the first race thereof, there shall be a consolation payoff.

§ 4217.5. Posting the payoff.

The payoff shall be posted after the result of the first race is declared “official” and before the second race is run, except in the event of a dead heat in the first race when the posting of the payoff may be deferred until the second race has been run.

§ 4217.6. Calculation, distribution of pools.

The daily double pool shall be calculated and distributed as follows: the net pool divided by the amount wagered on the winning combination determines the payoff per dollar bet.

§ 4217.7. Failure to select a winner and race cancellations.

(a) If no daily double ticket is sold designating the winner of the first race, or the first race is cancelled or declared “no race”, the daily double shall be declared off and the gross pool refunded.

(b) If no daily double ticket is sold combining the winners of the first and second races, or the second race is cancelled or declared “no race”, the net pool shall be distributed to holders of tickets designating the winner of the first race, as in a win pool and the daily double shall terminate.

§ 4217.8. Dead heats.

(a) In the event of a dead heat either in the first race or second race of the daily double, two winning combinations result. The amounts wagered on both winning combinations are deducted from the net pool to determine the profit. This profit is divided in half, and the halves, in turn divided by the two amounts mentioned in this Part. This determines the profit per dollar, to which is added the amount of the wager.

(b) In the event of a dead heat in both races of the daily double, four winning combinations result. The amounts wagered on these four winning combinations are deducted from the net pool to determine the profit. This profit is divided into four equal parts, and each part, in turn, divided by the four amounts mentioned in this Part. This determines the profit per dollar, to which is added the amount of the wager.

§ 4217.9. Effect—horse scratched, excused.

(a) Should any horse in the first or the second race of the daily double be scratched or excused by the judges, before the running of the first race, all money wagered on combinations including such horse shall be deducted from the daily double pool and shall be refunded upon presentation and surrender of pari-mutuel tickets sold thereon. Horses coupled with a starter in a coupled entry or field shall be governed by the provisions of section 4215.19 of this Subchapter.

(b) Should any horse in the second race of the daily double be scratched or excused by the judges after the running of the first race of the daily double, a consolation pool will result. In such case, all tickets combining the scratched or excused horse with the actual winner of the first race shall become consolation tickets and shall be paid a price per dollar bet determined as follows: the net daily double pool shall be divided by the total purchase price of all daily double tickets designating the winner of the first race of the daily double and the result obtained shall constitute the consolation price per dollar bet. The amount set aside for these consolation payoffs will be deducted from the net daily double pool.

THE QUINELLA

§ 4217.10. Quinella.

(a) The quinella is a form of pari-mutuel wagering. Each bettor selects two horses to place first and second in the designated quinella race, the order of placing of the said two horses being immaterial. The quinella is not a parlay and this pool shall be held entirely separate from all other pools, and is in no way a part of the daily double, exacta, triple, superfecta, straight, place or show pools.

(b) [Reserved]

(c) Races in which quinella pools are to be conducted shall be approved by the board and shall be clearly designated in the racing program.

(d) The design of quinella tickets shall be clearly and immediately distinguishable from other pari-mutuel tickets.

(e) Scratch. If a horse is scratched or declared a nonstarter no further tickets may be issued designating such horse and all tickets previously issued designating such horse shall be refunded and the money deducted from the gross pool.

(f) Failure to select a winning combination. If no ticket is sold on a winning combination in a quinella pool, the net pool shall be apportioned among those holding tickets designating the horse placing first with any other horse and those holding tickets designating the horse placing second with any other horse, in the same manner in which a place pool is calculated.

(g) Dead heat. In case of a dead heat between two horses for the first place, that combination shall be the winner of the quinella pool. In cases of a dead heat for first place involving more than two horses, the net pool shall be calculated and distributed to holders of tickets combining any two dead-heated horses as in a win pool dead heat.

(h) In case of a dead heat between two horses for second place, the pool shall be figured as a "place pool", the holders of tickets combining the winning horse and one of the two horses placing second participating in the payoff.

(i) In case of a dead heat for second place and no tickets are sold on one of the two winning combinations, the entire net pool shall be calculated as a win pool and distributed to those holding tickets on the other winning combination.

(j) If no tickets combine the winning horse with either of the place horses in the dead heat the pool shall be apportioned among those holding tickets designating the first place horse and any other horse, and those holding tickets designating a second place horse with any other horse, as in a place pool in which a dead heat for place occurs.

(k) If no ticket is sold that would require distribution of a quinella pool to a winner as defined in this section, the track shall make a complete and full refund of the quinella pool.

(l) In the event fewer than four betting interests start, the quinella pool shall be declared off and the gross pool refunded.

(m) This section shall be prominently displayed throughout the betting area of each track conducting the quinella and printed copies of this section shall be distributed by the track to patrons upon request.

(n) Winning combination. The numbers of the first two horses as made official shall be the winning combination regardless of their respective order of finish, except that where more than one of such horses is part of a coupled entry or field with another of such horses, only the one best finisher of such horses shall be counted in the winning combination for payoff, and the horse or horses not in such coupled entry or field finishing the same, or, if applicable, next finishing, shall be the other part of the winning quinella combination. For example, if two horses in a coupled entry (or field):

(1) finish first and second, or in a dead heat for first, the winning combination will be the number of such entry or field and the number of the third finishing horse not part of such entry or field;

(2) finish first and in a dead heat for second, the winning combination will be the number of such entry or field and the number of the other horse dead-heated for second who is not part of such coupled entry or field;

(3) finish in a three-horse dead heat for win with another horse not part of such entry or field, the winning combination will be the number of such entry and the number of the horse not part of such entry.

§ 4217.11. [Repealed]

EXACTA

§ 4217.13. Exacta.

(a) The exacta is a form of pari-mutuel wagering. Each bettor selects in order the first and second place finisher in the designated exacta race. The exacta pool shall be held entirely separate from all other pools and is in no way a part of the daily double, twin double, or win, place or show pools.

(b) [Reserved]

(c) Races in which exacta pools shall be conducted shall be approved by the commission and shall be clearly designated in the racing program.

(d) The design of exacta tickets shall be clearly and immediately distinguishable from other pari-mutuel tickets.

(e) Scratch. If a horse is scratched or declared a nonstarter, no further tickets may be issued designating such horse and all tickets previously issued designating such horse shall be refunded and the money deducted from the gross pool.

(f) Failure to select a winning combination. If no exacta ticket is sold combining the winner and second place horse in order, the net pool shall be distributed to holders of exacta tickets designating the winner to win. In the event one horse only finished and is declared winner, the net pool shall be distributed to holders of exacta tickets designating the winner to win.

(g) *Dead heat.*

(1) In the event of a dead heat for win, the net pool shall be distributed to each combination of winners separately as in a win pool dead heat.

(2) In the event of a dead heat for second, the pool shall be divided as in a win pool dead heat among exacta tickets combining the winner with each second place horse.

(h) In the event fewer than four betting interests start, the exacta shall be declared off and the gross pool refunded.

(i) This section shall be prominently displayed throughout the betting area of each track conducting the exacta and printed copies of this section shall be distributed to patrons upon request by the track.

(j) Winning combination. The numbers of the first two horses as made official shall be the winning combination except that where more than one of such horses is part of a coupled entry or field with another of such horses, only the best finisher of such horses shall be counted in the winning combination for payoff, and the horse or horses not in

such coupled entry or field finishing the same, or, if applicable, next finishing, shall be the other part of the winning exacta combination. For example, if two horses in a coupled entry (or field):

(1) finish first and second, or in a dead heat for first, the winning combination will be the number of such entry or field and the number of the third finishing horse not part of such entry or field;

(2) finish first and in a dead heat for second, the winning combination will be the number of such entry or field and the number of the horse dead heated for second who is not part of such coupled entry or field;

(3) finish in a three-horse dead heat for win with another horse not part of such entry or field, the winning combination will be the number of such entry and the number of the horse not part of such entry.

§ 4217.14. Triple.

(a) The triple (or other approved name) is a form of pari-mutuel wagering. Each bettor selects in order the first, second and third placed horses in the designated triple race. The triple pool shall be held entirely separate from all other pools and is not part of a daily double, exacta or other wagering pool.

(b) [Reserved]

(c) Races in which triple pools shall be conducted shall be approved by the board and shall be clearly designated in the program.

(d) The design of triple tickets shall be clearly and immediately distinguishable from other pari-mutuel tickets.

(e) Scratch. If a horse is scratched or declared a nonstarter, no further triple tickets may be issued designating such horse, and all triple tickets previously issued designating such horse shall be refunded and the money deducted from the gross pool.

(f) Failure to select a winning combination; short finishes.

(1) Failure to select, in order, the first three horses shall result in a payoff on triple tickets selecting the first two horses in order; failure to select the first two horses shall result in a payoff on triple tickets selecting the winner; failure to select the winner to win shall cause a refund of all triple tickets.

(2) If less than three horses finish, payoff shall be made on tickets selecting the actual finishing horses, in order, ignoring the balance of the selection.

(g) Dead heats. In the event of a dead heat or dead heats, all triple tickets selecting the correct order of finish, counting a horse in a dead heat as finishing in either position

dead-heated, shall be winning tickets and distribution shall be made in accordance with established pari-mutuel practice relative to dead heats.

(h) Coupled entries and fields are permitted in trifecta races. In such races no wagers may be accepted or issued (including “wheel” or “box” type bets) which couple the same coupled entry or the same field in the same combination.

(i) No triple wagering shall be conducted on any race having fewer than 6 betting entries. If fewer than six betting interests start, the triple shall be declared off and the gross pool refunded. If time permits, with the approval of the judges, a track may schedule exacta wagering in place of triple wagering.

(j) This section shall be prominently displayed throughout the betting area of each track conducting the triple, and printed copies of this section shall be distributed by the track to patrons upon request.

SPECIAL BETTING RACES

§ 4217.15. Special betting races.

Prior to permitting pari-mutuel betting on any other than the usual win, place and show pool in a race or the daily double pool on the first and second races, the licensee of a quarter horse race track shall apply for and receive the approval of the commission, and such special betting races shall only be conducted as provided for in the rules and regulations and by the order of the commission.

§ 4217.16. Additional authorized wagers.

In addition to the types of wagers authorized by this part, an association or corporation may, with the prior permission of the board, offer any type of pari-mutuel wagering as defined by Chapter 9, Pari-Mutuel Wagering, Uniform Rules of Racing, as adopted and published in December, 1996, by the Association of Racing Commissioners, International at 2343 Alexandria Drive, Suite 200, Lexington, Kentucky 40504-3276. This is available for public inspection at the New York State Racing and Wagering Board located at #1 Empire State Plaza, Suite 1201, Albany, New York 12223 or 1 Penn Plaza, 7th Floor, New York, New York 10119, both addresses, and at the Department of State, 41 State Street, Albany, New York.

Section	
4218.1	Possession of hypodermic equipment and controlled substances
4218.2	Drug detection facilities
4218.3	Drug detection programs
4218.4	Records of veterinarian

§ 4218.1. Possession of hypodermic equipment and controlled substances.

(a) No person other than a board veterinarian, track veterinarian or a practicing veterinarian licensed by the board shall have or possess in or upon the premises of a licensed quarter horse race track, including premises which he occupies or has a right to occupy, or shall have or possess in his personal property or effects upon such premises the following:

(1) any equipment which may be used for hypodermic injection or other infusion into a horse or any vial, bottle, or cartridge designed and usable for such purposes; or

(2) any controlled substance, listed in schedule I through IV of United States code, Title 21 (Food and Drugs) section 812, or any drug which has not been approved for use in the horse by the Federal Food and Drug Administration. Not included in this prohibition are liniments, antiseptics, ointments, leg paints, washes and other products commonly used in the daily care of horses.

(b) Subdivision (a) of this section shall not apply to any person who may have in his possession a controlled substance or hypodermic syringe for which he has obtained prior written permission from the judges to possess and use for his own personal health pursuant to prescription of a physician.

(c) All bottles and other containers kept in or about any tack room or elsewhere on the premises of a racing association shall bear a label stating plainly the contents thereof, including the name of each active ingredient; provided, however, that this section shall not apply if each container bears either a veterinarian's label or a regular prescription label with a pharmacist's name and address, prescription number and the name of the prescribing veterinarian.

(d) Each track is required to use all reasonable efforts to prevent and detect violations of this section. Each track, the board and the judges or their designees shall have the right to enter into or upon the buildings, stables, rooms, motor vehicles or other places within the grounds of such track to examine the same and to inspect and examine the personal property and effects of any person within such places; and every person who has been granted a license by the board, by accepting his license, does consent to such search including a personal search and to the seizure of any drugs or hypodermic syringes, hypodermic needles or other devices and if the board shall find that any person has refused to permit any such search or seizure it may impose such punishment as may be appropriate.

(e) A report shall be made to the Bureau of Narcotics of the Department of the Treasury of the United States of all cases in which it is reported to the board that narcotics or other controlled substances have been detected in a specimen from any horse; and if any veterinarian or physician has been involved therein, a similar report shall be made to the New York State Education Department.

§ 4218.2. Drug detection facilities.

(a) Each track operator shall provide such facilities, appurtenances and equipment for drug detection programs, or other related activities as the board may specify.

(b) No person shall enter or be present at any time in any enclosure set aside by direction of the board for the taking and examination of samples from horses except the staff immediately in charge of such work, the board, its chairman and members, its staff, the judges, the custodians of the horse, or such other persons as may be authorized by this Part.

§ 4218.3. Drug detection programs.

Programs for the detection of the presence of drugs in horses programmed to race shall be conducted at each track unless otherwise ordered by the board.

(a) *Pre-race testing.*

(1) Blood or other samples shall be taken from every horse programmed to race, prior to the race in which it is programmed, at a time and in a location specified by the board or its representative.

(2) The trainer or his representative shall accompany the horse at the prescribed time and to the prescribed locations, and shall manage the horse as directed. Willful failure to be present at, or a refusal to allow, the taking of any such sample, or any act or threat to impede or prevent or otherwise interfere therewith shall constitute a violation of this Part and shall subject the person or persons guilty thereof to punishment as may be appropriate.

(3) Blood samples will be taken by the State veterinarian or, under his supervision, by a graduate veterinarian.

(4) A horse shall not race if it has not been tested in accordance with the provisions of this section.

(5) Whenever a laboratory test indicates the presence of a drug, restricted substance, or a foreign substance the identity of which cannot be established in a sample taken from a horse, the judges shall scratch the horse and take such further action as they deem necessary.

(6) Unless specifically permitted in writing by the presiding judge, a horse, once the pre-race test sample is taken, shall not be transported from the grounds except to be transported to the racecourse where it is scheduled to race if such racecourse is not part of the grounds where the test sample is taken.

(b) *Post-race testing.*

(1) The winner and at least one other horse designated by the judges shall be sent to the testing facility immediately after each race.

(2) Blood, urine, and such other samples as may be required shall be attempted to be taken from the designated horse at a time and in an enclosure specified by the board or its representative, until such horse is released by the board veterinarian.

(3) The trainer or his representative shall accompany the horse at the prescribed time and to the prescribed location, and shall manage the horse as directed. Willful failure to be present at, or a refusal to cooperate in the taking of any such sample, or any act or threat to impede or prevent or otherwise interfere therewith shall subject the person or persons guilty thereof to such punishment as may be appropriate.

(4) Blood samples will be taken by the board veterinarian or, under his supervision, by a graduate veterinarian. Urine samples shall be gathered by a board inspector.

(5) Where deemed necessary to obtaining a urine sample by the board veterinarian, a horse may be permitted to return to its stable prior to release if accompanied by a board inspector.

(c) (1) The judges may require at any time that any horse be sent to the testing enclosure for the taking of such specimens of blood, urine or other materials as shall be directed, as well as for an examination for “sponging” and such other examination as shall be directed.

(2) The board veterinarian may also, when so directed by the judges, require the taking of any or all of the foregoing specimens from any horse stabled at a track during a meeting.

(d) The judges, board veterinarian or their designees may take, for analysis, samples of any medicine or other materials which may be found in stables or elsewhere on race tracks or in the possession of any person connected with racing.

§ 4218.4. Records of veterinarian.

(a) Every licensed practicing veterinarian shall keep a written record of his practice concerning horses participating at pari-mutuel quarter horse race meets in this State whether performed at a licensed quarter horse track or elsewhere which shall disclose:

(1) the name of the horse treated;

(2) the nature of the horse's ailment;

(3) the type of treatment prescribed and performed for the horse; and

(4) the date and time of such treatment.

(b) Every such veterinarian shall produce such written records when requested by an official of the board. In addition he shall instruct the trainer of the necessity to submit the report required by section 4236.2 of this Subchapter relating to joint aspiration.

(c) Before a licensed veterinarian administers or prescribes any drug or restricted substance for a horse, he shall ascertain by reasonable inquiry whether the horse has been entered to race at any track and if the horse has been entered he shall not administer or prescribe any drug or restricted substance within the time or in a manner restricted by this Part. If the horse has not been entered to race, but the administration is of a drug which is not permitted to be administered within 72 hours of a racing program, or longer, he shall so inform the trainer of the fact and of the time applicable. If, however, an emergency exists involving the life or health of the horse, he may proceed to treat or prescribe for the horse but shall report the matter as promptly as practicable to the board veterinarian or judges at the pertinent track.

(d) The attending veterinarian shall complete and submit daily a form prescribed by the board which will contain each horse entered to race on that day and treated by him with furosemide. The form shall also contain the following information:

- (1) Name of the track;
- (2) Name of the trainer;
- (3) Description of the horse;
- (4) Tattoo number; and
- (5) The dose, route and time of administration.

The form must be signed by the attending veterinarian and filed at a location designated by the board.

§ 4231.13. Time for making other objections.

(a) An objection on (any of the following) grounds may be received up to 48 hours exclusive of Sunday after the last race of the last day of the meeting:

(4) that he has run in contravention of the sections relating to partnership or registration.

(b) In any other case an objection must be made within 48 hours of the race being run, exclusive of Sunday, save in the case of any fraud or willful misstatement, when there shall be no limit to the time of objection provided the judges are satisfied that there has been no unnecessary delay on the part of the objector.

§ 4231.14. Judges determine extent of disqualification.

The judges are vested with the power to determine the extent of disqualification in case of fouls. They may place the offending horse behind such horses as, in their judgment, it interfered with, or they may place it last, and they may disqualify it from participation in any part of the purse.

§ 4231.15. Recovery of money distributed.

If by reason of an objection to a horse a race or place is awarded to another horse, the money for such race shall be distributed in accordance with the final placing, and the owner of a horse to which the race or place is finally awarded can recover the money from those who wrongfully received it.

§ 4231.16. Money held pending determination.

Pending the determination of an objection any prize which the horse objected to may have won or may win in the race, or any money held by the association holding the meeting, as the price of a horse claimed (if affected by the determination of the objection), shall be withheld until the objection is determined.

As a result of such interview, the board may restore full riding and/or license privileges to such person after such person has delivered a current sample for analysis, continue such temporary suspension of riding and/or license privileges pending receipt of the result of analysis of any sample directed to be taken at such interview, or take such other action as the board may deem appropriate, including fine, revocation, suspension or the conditioning of continued licensing upon the satisfactory enrollment in and completion of a drug treatment program or drug educational program designated by the board.

The trainer shall be held responsible for any positive test unless he can show by substantial evidence that neither he nor any employee nor agent was responsible for the administration of the drug or other restricted substance. Every trainer must guard each horse trained by him in such manner and for such period of time prior to racing the horse so as to prevent any person whether or not employed by or connected with the owner or trainer from administering any drug or other restricted substance to such horse contrary to this Part.
