

NEW YORK STATE RACING & WAGERING BOARD 2007

ANNUAL REPORT & SIMULCAST REPORT

MISSION STATEMENT

Our mission is to ensure that New York State's legalized pari-mutuel operations, charitable gaming activities and Class III Indian Gaming facilities operate with integrity and are in full compliance with New York's statutes, the Board's rules, and the tribal-State Class III Gaming Compacts, respectively.

We safeguard the interest of the public, including the taxpayers and patrons by ensuring that the regulated entities and their employees participating in, or benefiting from legalized gambling operate with probity. We expeditiously respond to all public concerns.

Executive management espouses that personal integrity is paramount for all Board employees who must ensure honest and proper conduct of legalized gambling and other regulated activities. To properly serve the public, all employees must perform their duties in an ethical manner that is above reproach. To meet this goal we advocate teamwork, intra-agency communication, mutual respect, training, and advancement to reach each employee's potential.

Only through vigilance, competence and dedication can the Board and its employees be successful in performing its statutory responsibilities.

DANIEL D. HOGAN
CHAIRMAN

MICHAEL J. HOBLOCK, JR.

JOHN G. CANSDALE
EXECUTIVE DIRECTOR

CHAIRMAN'S MESSAGE

JULY 1, 2008

TO: THE HONORABLE DAVID A. PATERSON, GOVERNOR
MEMBERS OF THE NEW YORK STATE LEGISLATURE, AND
LAURA L. ANGLIN, DIRECTOR OF THE BUDGET

On behalf of the New York State Racing and Wagering Board, I submit to you the Board's 2007 Annual Report as required by Chapter 346 of the Laws of 1973. This report presents statistical information on gaming activities in the Empire State, as well as information on the Board's purview, legislative and rulemaking initiatives, and organizational structure. As in years past, the Simulcast Report, as required by Racing, Pari-Mutuel Wagering and Breeding Law Section 1002.2, is incorporated into the Annual Report.

Along with maintaining and improving its oversight in all aspects of the gaming activities it regulates, the Board also recognizes that the gaming industry represents an important segment of the state's economy. In 2007, with the expansion of account wagering to include the internet and other wagering opportunities, total pari-mutuel handle rose to over \$2.6 billion representing an \$11.3 million increase over 2006. The combined handle for Bingo and Games of Chance in 2007 was over \$350 million with charitable organizations receiving a net profit of over \$57 million.

Under the continued leadership of Governor Paterson in association with the State Legislature, other public officials, and industry leaders, we will continue our efforts to uphold New York's preeminence in gaming regulation.

Handwritten signature of Daniel D. Hogan

Daniel D. Hogan

ABOUT THE BOARD

RACING

Each year the Board issues track licenses and/or race dates to each of the state's operating racetracks, both thoroughbred and harness. The Board also issues simulcast licenses to the racetracks and off-track betting corporations to enable simulcasting of New York and out-of-state races.

It is the Board's responsibility to protect the honesty and integrity of all horse races conducted in New York. All racing participants including jockeys, drivers, owners, trainers, grooms, track management, agents concessionaires, veterinarians, exercise riders, and others who work at New York State racetracks must be licensed by the Board each year. The licensing process involves a complete criminal background check, including a review of the applicant's experience, if any, in other states, an assessment of the applicant's character and fitness, and in some cases, a determination of the applicant's competency to perform the duties for which the license is sought. Once issued, a license may be suspended or revoked by the Board for any just cause.

Each race conducted in New York is observed by at least three stewards or presiding judges. The stewards'/judges' viewing stand is located near the finish line of each racetrack and is equipped with several television monitors to permit a viewing of multiple angles of each race. The stewards observe the races to make sure that all conduct is in accordance with rules and regulations.

CHARITABLE GAMING

The primary focus of the charitable gaming unit is to work with licensed organizations to bring them into compliance with state law and Board rules.

By law, the Board is required to review applications for registration and identification numbers for any charitable organization seeking to conduct games of chance or bingo. The Board denies applications for those who are not charitable or who have been excluded by statute, i.e.: political party organizations and labor unions.

Staff reviews quarterly reports from charitable organizations and, on occasion requires an audit to be done to make certain that the proceeds from charitable gaming and bingo are used for charitable purposes.

CLASS III INDIAN GAMING

Board inspectors patrol the Class III gaming facilities at all times to monitor and confirm games are run consistent with the "compact" (i.e.: treaty) between the Indian Nation and the State of New York. The Board's primary role is to protect the patrons by ensuring that the games are conducted properly.

Each compact requires that all individuals involved with Class III gaming must be properly certified as a gaming employee by the Board. The Board's licensing division is responsible for the review and subsequent approval or denial of the applications submitted.

GOVERNANCE

Daniel D. Hogan

Chairman

Daniel D. Hogan was appointed Chairman of the New York State Racing and Wagering Board by Governor George Pataki and confirmed by the New York State Senate on June 22, 2006. Concurrently, Mr. Hogan serves as Chairman of the Agriculture and New York State Horse Breeding and Development Fund; Vice-Chairman of the New York State Thoroughbred Breeding and Development fund; Vice Chairman of the Harry M. Zweig Memorial Fund; and Co-Chairman of the New York State Task Force on Retired Racehorses

Chairman Hogan's lengthy background within the public sector include Commissioner of the New York State Office of General Services (OGS) where he was responsible for the management of an office that delivers diverse support services to all state agencies including leasing, design and construction, information technology, procurement services, inter-agency mail services and more.

Chairman Hogan began his 21-year career in public service in 1985 as a Legislative Aide to former State Senator John B. Daly. In 1995, Hogan joined Governor Pataki's administration where he has since served in a variety of positions, including: Director of Public Information at the former Department of Social Services; Executive Deputy Commissioner of the New York State Office for Temporary and Disability Assistance; Senior Policy Advisor and Acting Chief of Staff for Lt. Governor Mary O. Donohue; and Governor Pataki's Director for Special Projects.

Prior to his appointment with OGS in 2004, Chairman Hogan served as the Director of the Governor's Office of Regulatory Reform, where he was responsible for assisting in Governor Pataki's efforts to promote new private sector job creation by streamlining comprehensive business permitting and licensing assistance.

Chairman Hogan, a native of Niagara Falls, graduated from State University College at Buffalo. He currently resides in Slingerlands with his wife, the former Carrie Platt, and their three children.

John B. Simoni

Member

John B. Simoni was appointed as a Board Member of the New York State Racing and Wagering Board by Governor George Pataki and confirmed by the New York State Senate on June 22, 2006. Mr. Simoni is a Korean War Veteran serving in Korea and long time resident, businessman, and former horse owner from Saratoga County. In 1955, he founded and has since served as President of Mohawk Office Products, Inc, a multi-million dollar office furniture and supply retail corporation located in Schenectady, New York. Among John's experiences within the public sector include Chairman of the Saratoga County Industrial Development Agency, Board Member and Chairman of the Capital District Regional Planning Commission, Supervisor for the Town of Charlton and Saratoga County Board, and Board Member of the Adirondack Planning Commission.

Member Simoni's community service extend to his current role as member and past president of the Mohawk Club in Schenectady, and past memberships with the St. Claire' Hospital Foundation Board, Heritage Home for Women, Empire Aero Science Museum, and Albany Airport Advisory Board.

John is also no stranger to the world of horse racing. He got his start working as a groomer at the Saratoga track in high school and his love for the sport prompted him to own and race his own standardbreds for over twenty years at some of New York's prominent harness tracks including Vernon Downs, Saratoga Raceway, and Yonkers Raceway.

Michael J. Hoblock

Member

Mr. Hoblock has served with distinction as a member of the Board since 1997, serving as Chairman for eight of those years.

Mr. Hoblock has a lengthy background in public service. Starting in 1978, he served three terms in the New York State Assembly, followed by six years as a member of the Colonie Town Board and three years as Albany County Executive. In 1994, Mr. Hoblock was elected to the New York State Senate.

Mr. Hoblock voluntarily served with the United States Marine Corps and is a veteran of the Vietnam War. As a Marine, Mr. Hoblock served as an Infantry Company Commander, Judge Advocate and Military Judge. Later he established a private practice where he practiced law for 25 years.

As co-owner of Standardbreds in the early 1970's, Mr. Hoblock had the opportunity to experience the racing industry firsthand as an active participant. While his horses raced primarily at harness tracks in New York State, Mr. Hoblock gained valuable knowledge that has served him well in his role as Chairman of the Board. In addition, as a legislator, he was instrumental in securing passage of legislation that was beneficial to the charitable gaming industry. From 1979 to 1985, he also served as Vice-Chairman of the Elks Government Relations Committee and assisted with the formation of the NYS Division of CONPOR, the Conference of Private Organizations.

John G. Cansdale

Executive Director

John G. Cansdale was appointed Executive Director in 2005. Prior to joining the Racing and Wagering Board Mr. Cansdale served as Director of Industry Development with Empire State Development (ESD), New York State's economic development agency, where he was responsible for identifying and cultivating opportunities for business growth in the Destination Retail and Entertainment industry. Mr. Cansdale developed and negotiated incentive packages to maximize economic development through investment and job growth and successfully negotiated an \$88 million deal with Bass Pro Shops for a signature store on the Buffalo waterfront.

In addition to his duties at ESD Mr. Cansdale served as General Counsel to the Olympic Regional Development Authority (ORDA) in Lake Placid. At ORDA, Mr. Cansdale was responsible for negotiating contracts for sponsorships, concessions, World Cup and other international events held at the ORDA facilities; as well as advising the President and Board of Directors on general business matters of the Authority.

Mr. Cansdale is a graduate of the University of Buffalo and University of Buffalo School of Law. Prior to joining ESD Mr. Cansdale worked in private law practice in Western New York and operated several businesses in Buffalo, NY and Orlando, FL.

RACING OPERATIONS & INVESTIGATIONS

Officiating and Integrity

Each race conducted at a New York thoroughbred racetrack is observed by at least three stewards; one employed by the Racing and Wagering Board, one employed by the racing association and one employed by the Jockey Club. At the harness tracks each race is observed by at least three judges who all serve as employees of the Racing and Wagering Board. The stewards and judges viewing stand is located near the finish line of each racetrack and is equipped with several television monitors to permit the viewing of multiple angles of each race. The stewards observe the races to ensure that all conduct is in accordance with rules and regulations.

There are few racing jurisdictions that have equaled New York's strong stand on integrity in horse racing. Over the past decade, the Board has enabled more capable and qualified people to become stewards and presiding judges and now have a cadre of qualified individuals who have passed newly instituted coursework. Examples of the testing and preparation are:

- All New York State Racing and Wagering Board (NYSRWB) Associate and Presiding Judges and Starters are now licensed by the United States Trotting Association (USTA), before being hired. A test must be passed to obtain each license. USTA rules courses were held.
- All NYSRWB full time Stewards must attend the Louisville Equine Steward Certification Class. They must also attend periodic seminars in order to keep their licenses valid.
- All current Judges are retested periodically on the rules, equipment, medications and procedures and the training tests are updated frequently.
- New officials receive extensive on-the-job training at their new positions before being hired full-time.

Regulatory Activities

During the calendar year 2007, the Board issued 1,321 rulings for violations of racing laws, rules and regulations, at both harness and thoroughbred tracks. The rulings include, but are not limited to, driving and riding infractions, general conduct violations, human and equine drug violations, general business practice violations and several other rule and law violations. The main office of the Racing and Wagering Board issued 497 violations that are not assigned to a specific track.

Summary of Ruling by Track (including fines)

Issued by RWB Main Office	497
Monticello Raceway	153
Saratoga Raceway	125
Yonkers Raceway	172
Buffalo Raceway	95
Finger Lakes Racing Association	79
New York Racing Association	69
Batavia Downs	49
Tioga Downs	46
Vernon Downs	36
Total	1,321

LICENSING

Participants in New York State racing are required to obtain an occupational license. Good character and integrity of all participants are important to the continuity of the sport. Every application is reviewed, updated and carefully processed by the Licensing unit before a license is issued. Also, by statute, fingerprinting is required of each applicant. Where it is believed that an applicant's background and associates may warrant a finding that his/her participation in racing would be inconsistent with the public interest or the best interest of racing generally, a thorough investigation is conducted before unfavorable action is taken in the form of a denial, suspension or revocation of his/her license.

The chart below reflects the total number of licenses issued to participate in racing in 2006 and 2007, including multi-year licenses that were active during the year. Individuals that hold licenses for more than one occupation (i.e. owner/trainer or trainer/driver) are counted twice, once in each category.

In 2007, 571 horsemen received a National Racing Compact (NRC) License.

EQUINE DRUG TESTING

The Equine Drug Testing Program (EDTP) for all thoroughbred and harness racing in New York State is performed by the New York State College of Veterinary Medicine at Cornell University in Ithaca, New York, under contract with the New York State Racing and Wagering Board. The Equine Drug Testing Program (EDTP) at Cornell University continues to be one of the leading equine drug-testing programs in the world.

Equine drug testing is mandated by Chapter 47-A of the Consolidated Laws of the State of New York, The Racing, Pari-Mutuel Wagering and Breeding Law in Section 902 (*See next page*).

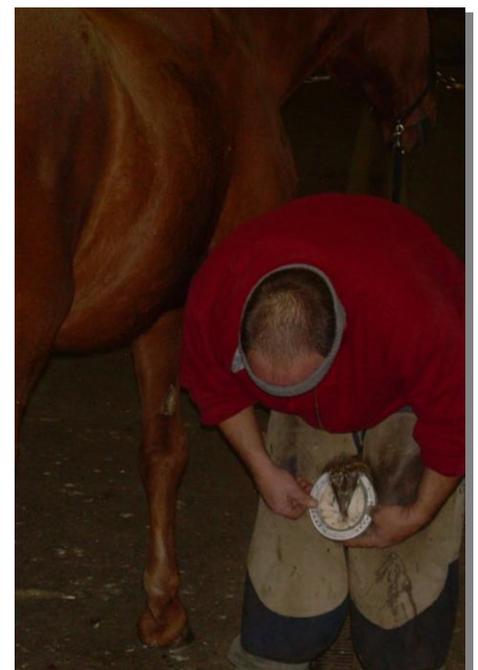

In the year 2007, **67,726** total samples of both urine and blood were collected and sent for testing at Cornell University. The director of the EDTP is Dr. George A. Maylin (*pictured on next page*) who began his career as a veterinarian in 1965. Dr. Maylin has held several distinguished positions throughout his career including Director of Cornell Research and Reference Center, Director of Equine Drug Testing and Research Program and Division Chief of Toxicology Diagnostic Laboratory at New York State College of Veterinary Medicine, among others. Dr. Maylin is also responsible for the publication of numerous documents, studies and reports in the fields of pharmacology, toxicology, exercise physiology, chemistry and immunochemistry. From the gathering of the original blood and urine samples that are collected in the presence of the owner, trainer or representative, throughout transport and subsequent testing, the chain of custody is strictly maintained. This is necessary as blood and urine samples may be evidence in future litigation. All sample containers are identified and sealed against tampering upon collection. All samples are identified with unique numbers and the EDTP personnel do not know the identity of the horse involved.

Under Board procedures, when the EDTP detects and confirms the presence of a prohibited substance, the laboratory immediately informs the Board's Director of Racing Operations and its Chief Counsel. Immediately thereafter, the Director of Racing Operations informs the steward or presiding judge at the racetrack where the horse's sample originated, along with other appropriate Board personnel. Investigation into the matter is begun after the horse and its' trainer are identified by the steward or presiding judge.

The sample identifying numbers are matched by the steward or presiding judge to his previously locked documentation of collected samples. After identification, investigation into the circumstances, including interviews with all involved parties begins. The trainer is afforded the option of having a "split" sample of the original tested at an approved laboratory of his/her choice at his/her expense. After the investigation is completed and all other information is gathered and studied, the licensee if necessary, is assessed a penalty from the State steward or presiding judge. Should the licensee not agree with the penalty given, there is an appeals process that affords the licensee a full hearing

before a board-appointed hearing officer. Upon receipt of the hearing officer's completed report, the three member Board renders a decision. A listing of the most commonly used medicines in the equine racing world is contained within the Board's rules. Also contained are the number of hours "out" (before race day) that these listed drugs may be administered. The only allowable medication on race day is furosemide and is only permitted to be given to horses properly enrolled in a furosemide medication program as prescribed.

EQUINE DRUG TESTING

Section 902

Equine drug testing and expenses

1. In order to assure the public's confidence and continue the high degree of integrity in racing at the pari-mutuel betting tracks, equine drug testing at race meetings shall be conducted by a land grant university within this state with a regents approved veterinary college facility. The state racing and wagering board shall promulgate any rules and regulations necessary to implement the provisions of this section, including administrative penalties of loss of purse money, fines, or denial, suspension, or revocation of a license for racing drugged horses.

2. Notwithstanding any inconsistent provision of law, on and after April first, nineteen hundred eighty-six, all costs and expenses of the state racing and wagering board for equine drug testing and research shall be paid from an appropriation from the state treasury, on the certification of the chairman of the state racing and wagering board, upon the audit and warrant of the comptroller and pursuant to a plan developed by the state racing and wagering board as approved by the director of the budget.

INDIAN GAMING

Indian Gaming Regulation

The Indian Gaming Regulation Act (IGRA) contains a regulatory scheme designed to provide different levels of jurisdiction depending upon the type of gambling that is to occur on Indian lands. The IGRA divides gambling into three types and establishes a regulatory scheme for each. Class I gaming is described as “social games played solely for prizes of minimal value or traditional forms of Indian gaming engaged in as part of, or in connection with, tribal ceremonies or celebrations.” Class I gaming is under the exclusive jurisdiction of Indian tribes, and is not subject to the provisions of the IGRA. Class II gaming is defined as “the game of chance commonly known as bingo including (if played at the same location) pull-tabs, lotto, punch boards, tip jars, instant bingo and other games similar to bingo.” Class II gaming is under tribal jurisdiction, subject to the provisions of the IGRA and oversight by the National Indian Gaming Commission. States are not permitted to regulate any Class II gaming activity. Under the IGRA, Class III gaming may only be conducted pursuant to the terms of a compact between a tribe and the state in which its lands are located. Class III gaming is defined as all other types of gambling, including banked card games (e.g., baccarat and blackjack), slot machines, pari-mutuel wagering and jai alai.

Gaming Inspectors

The Board maintains a constant, twenty-four hour presence within each gaming facility. Board gaming inspectors are experienced, professional investigators, specially trained to monitor casino gaming activities with the respective Nation or Tribal gaming inspectors, security officers and surveillance departments. Board gaming inspectors conduct compliance examinations on a regular basis to ensure that gaming operations such as dealing procedures, internal accounting controls and other safeguards strictly conform to the applicable provisions of their respective compacts.

Casino patrons regularly seek state gaming inspectors to clarify the rules of the games and for recourse after filing complaints with casino managers and Nation or Tribal gaming regulators. Board gaming inspectors conduct investigations, interviews, review surveillance videotapes, and prepare detailed narrative reports as part of their normal duties.

New York Compacts

Class III compacts exist between the State and the Oneida Indian Nation of New York, Saint Regis Mohawk Tribe and Seneca Nation of Indians. On April 16, 1993, Governor Mario M. Cuomo signed the Oneida Indian Nation of New York’s Compact on behalf of the State of New York. The Compact was subsequently approved by the Department of the Interior, on June 4, 1993. The Oneidas opened their Turning Stone Casino Resort on June 20, 1993. Governor Cuomo signed the Saint Regis Mohawk Tribe’s Compact on June 9, 1993. The Compact was subsequently approved by Interior on December 4, 1993. The Mohawks opened their Akwesasne Mohawk Casino on April 10, 1999. Finally, Governor George E. Pataki signed the Seneca Nation of Indians’ Compact on August 18, 2002. Approval was received from Interior on October 25, 2002. The Senecas opened their Seneca Niagara Casino on December 31, 2002, the Seneca Alleghany Casino on May 1, 2004, and the Seneca Buffalo Creek Casino on July 3, 2007. Contained in each compact are standards and specifications for each game authorized for conduct at an Indian casino, the rules and internal controls governing the operation of the gaming facility, procedures for certification and/or registration of gaming employees and companies transacting business with the casino, and a system for mediating disputes.

Licensing

The Board's Licensing Division is responsible for the review and subsequent approval or denial of the applications submitted by all persons involved with Class III gaming in the State. Under the Oneida and Mohawk compacts, no person may commence or continue employment as a gaming employee unless he or she is the holder of a valid gaming employee certification and license issued by the Board and the Nation or Tribal gaming commission, respectively, or, in the case of the Seneca compact, the employee has been issued a finding of suitability by the Board and a license issued by the Seneca Gaming Authority. The term "gaming employee" is broad, meaning any person employed in the operation or management of Class III gaming, whether employed by the Nation or Tribe or by any enterprise providing on-site services to the Nation or Tribe within a Class III gaming facility and any other person whose employment duties require or authorize access to restricted areas of the gaming facilities not otherwise opened to the public. The level of scrutiny to which employee applicants are subject depends upon the nature of their responsibilities at the casino, their degree of access, and their ability to influence gambling activities on the gaming floor.

At a minimum, each applicant for a gaming employee certification or suitability must submit a completed license application, state and federal fingerprint cards and, when warranted, Royal Canadian Mounted Police fingerprint cards. Provided that the application is complete and all required documentation has been submitted, the Board forwards a copy of the application to the New York State Police who conduct a background investigation of the applicant. The Board also forwards the fingerprint cards to the Division of Criminal Justice Services, the Federal Bureau of Investigation and, when warranted, the Royal Canadian Mounted Police for a fingerprint-based search of their files.

The State Police report the results of their investigation to the Board. The Board reviews the fingerprint returns and each background investigation report and evaluates each applicant using compact-enumerated criteria to determine eligibility for certification or suitability, as appropriate.

Class III, or casino-style gaming on Native American lands, came to New York State as a result of the passage by the United States Congress of the Indian Gaming Regulatory Act (IGRA) of 1988, 25 U.S.C. §2701 et seq

Pursuant to each compact, enterprises or individuals wishing to conduct gaming-related business with a Class III gaming facility must hold a Board-issued gaming service registration or be found suitable by the Board prior to providing gaming services, gaming supplies or gaming equipment to the casinos. As with "gaming employee," the term "enterprise" and the scope of business conducted that requires registration is quite broad. "Enterprise" means any individual, trust, corporation, partnership, or other legal entity of any kind; provided, however, that with respect to a corporation, the term "enterprise" shall include each other corporation or other legal entity that directly or indirectly controls a majority of the voting interests in such corporation. Furthermore, with respect to any trust, or other form of unincorporated business organization, the term "enterprise" also includes each corporation or other legal entity that controls a majority of the "gaming services". "Gaming services" is defined

as those services provided to the Nation or Tribal gaming operation in connection with the operation of Class III gaming, including maintenance or security services for the Class III gaming facility, gaming schools or training activities, promotional services, printing or manufacture of betting tickets, and manufacture, distribution, maintenance, testing or repair of gaming equipment. "Gaming supplies" means those goods or supplies, which are specially designed for use in the operation of a Class III game or activity. "Gaming equipment" means any machine, device or equipment that is specially designed or manufactured for use in the operation of a Class III game or activity.

INDIAN GAMING

Regulatory Costs

Federal law permits, and each compact dictates, that all of the State's regulatory expenses for both personnel and equipment be either paid for directly, or be reimbursed, by the regulated Indian Nation or Tribe.

Activity

The following charts illustrate the Licensing Department activity related to applications received from the five Indian Casinos operating in New York State:

2007	ONEIDA NATION	MOHAWK TRIBE	SENECA ALLEGANY	SENECA NIAGARA	SENECA BUFFALO

BREEDING AND DEVELOPMENT

The Agricultural and New York State Horse Breeding and Development Fund

The Agricultural and New York State Horse Breeding Development Fund was established by the LaVerne Law in 1965. The law empowered the Fund to promote the breeding of harness horses and the conduct of equine research in the state.

In order to carry out its legislative mission the Fund receives money from the mutual handle at the licensed tracks across the state and uses this money to provide purse money for the New York Sire Stakes in these major areas:

Sire Stakes Races At The Pari-Mutuel Tracks

The most talented New York-bred 2 and 3 year olds vie for enhanced purses at the state's pari-mutuel tracks. The top performers meet for the \$150,000 finals on the "Night of Champions" normally held at Yonkers Raceway (See Next Page)

State Fair Racing

Provides an opportunity for 3 year olds to race at Goshen Historic Track over the July 4th weekend and both 2 and 3 year olds to race at an exciting three-day meet historically held at the New York State Fairgrounds in Syracuse. The "State Fair Series", formally "The Syracuse Mile", pari-mutuel meet is now held at the newly opened Tioga Downs and features 2-year-old and 3-year-old races for the top New York-bred trotters and pacers.

Late Closer Events For Sire Stakes

A program designed for late-blooming 2 and 3 year olds, with multiple legs leading to a lucrative final for the leading point earners in the series.

County Fair Racing

The best "earn as you learn" program in Sire Stakes racing. Non-pari-mutuel racing at more than 20 agricultural fairs throughout New York State. Championship races at each age and gait top off a summer of local fairs throughout the state.

Additional Objectives

In addition to the above, the Fund provides assistance to county agricultural societies to maintain and repair racing facilities. The Fund also contributes to both the 4-H program and the Dr. Harry M. Zweig Fund for Equine Research at Cornell University.

New York State Thoroughbred Breeding and Development Fund

Mission Statement:

To promote and encourage the breeding, raising and racing of quality thoroughbred horses in New York for the purpose of protecting and preserving New York's green belt sector and rich agricultural heritage.

The New York State Thoroughbred Breeding and Development Fund encourages the breeding and maintenance of thoroughbred horses in New York by distributing financial incentives to breeders and owners whose horses compete successfully in New York-based races. The Fund was created in 1973 by an act of the state legislature and has since returned nearly \$330 million back into the industry. By statute, a percentage of wagering handle from the New York Racing Association (NYRA), Finger Lakes Racing Association (FLRA), and all six of the statewide Off-Track Betting Corporations is paid to the Fund. Also, the Fund receives a percentage of handle on in-state thoroughbred races made at harness tracks. Additionally, the Fund receives a percentage of breakage revenue from the Off-Track Betting Corporations. The percentage differs depending on the revenue source. In 2007, the Fund received nearly \$15 million from all these sources with NYRA and New York City Off-Track Betting accounting for most of the revenue. By law, 2% of the total revenue goes to the Zweig Fund at Cornell University for equine research. Lastly, the Breeding Fund, pursuant to a contract with Delaware North (parent company of FLRA), receives a percentage of the gross win on video gaming machines at Finger Lakes. The Fund is entitled to 1.247% of the gross win. The same contract exists between the Breeding Fund and NYRA - but construction of the video gaming program remains unfinished. According to widely accepted gaming industry analysts, the Breeding Fund can expect to receive approximately \$7M annually from its NYRA video gaming contract.

CHARITABLE GAMING

Local Law Option

Bingo and games of chance licenses can only be issued by the municipality where a charitable organization is located. Before doing so, the municipality must adopt a local law or ordinance authorizing licensed games of chance or bingo within the geographic boundaries of the municipality.

If a municipality wants to adopt a bingo or games of chance local law or ordinance, it must be approved by a majority of voters in a referendum. Such a referendum can be conducted during a general election, or at a special election set by the governing body of the municipality.

There is one exception to the referendum process described above. In the case of villages located within towns that already have a games of chance local law or ordinance, the village may agree to subject itself to the town's games of chance local law or ordinance through a permissive referendum. Under a permissive referendum, the village trustees adopt a resolution authorizing the town to issue games of chance licenses in the village. If no one objects to a village resolution within 30 days after passage, the resolution becomes final. However, village residents may request a referendum by presenting a petition with the number of voters' signatures comprising 20 percent of the registered voters. The fate of the resolution will then depend upon the approval or disapproval of the village electors.

Compliance

Compliance with state law and rules and regulations is a major focus of the Board's regulatory function. The Board conducts routine and random inspections of charitable gaming facilities. When rule violations are found, a compliance conference is held as a means to resolve violations and other problems that may hinder the organization's efforts to properly conduct gaming. The compliance conference is a meeting held between members of the Board's staff and representatives of the licensed charitable organization. This is an informal meeting during which both parties seek to reach a mutually agreed upon arrangement so the organization can continue its charitable gaming activities while ensuring that the operations are in compliance.

In 2007, Board staff conducted 28 compliance conferences with representatives from various licensed charitable organizations. Thousands of dollars in charitable funds were voluntarily redirected into charitable gaming bank accounts as a direct result of these compliance meetings. Board staff held with members in charge of licensed authorized organizations statewide. Likewise, \$39,000 was paid to the Board in 5% additional license fees based upon unreported bell jar ticket sales.

Public Outreach

Public Outreach is an integral part of the Board's operations as it works to promote compliance with the Rules and Regulations. The Board educates charitable groups on how to properly manage their gaming by attending numerous statewide conferences held by groups including the American Legion, VFW, Fraternal Order of Eagles and the Loyal Order of Moose and hosting several countywide seminars such as the New York State Town Clerk's Association Conference (NYSTCA), the New York Conference of Mayors (NYCOM) and several local government conferences and meetings.

Registration and Identification

With a local law in place, certain non-profit organizations are eligible to apply for a games of chance and/or bingo registration and identification number (ID Number). This number is issued by the Board and signifies that an organization has met the statutory requirements to qualify as an authorized organization. Once an ID number is issued, the number remains with that organization as long as it conducts charitable gaming activities at least once a year. ID numbers are free of charge and allow the organizations to obtain the respective license from the municipal clerk so they may raise money from bell jars (pull tabs), raffles, Las Vegas nights or bingo.

In 2007, the Board issued **145** games of chance ID numbers and **35** bingo ID numbers. To date the Board has issued 8,766 games of chance and 8,852 bingo ID numbers, although many of these organizations may no longer actively conduct charitable gaming.

Licensing

All licenses are issued by the clerks at the local level. Depending upon the situation it could be the town clerk, city clerk or village clerk, depending upon the local law in that municipality. County clerks do not issue charitable gaming licenses.

License Fees:

Bingo: \$18.75 per occasion.
Las Vegas night: \$25.00 per occasion.
Bell Jar tickets: \$25.00 for calendar year.
Raffles: No license fee is charged for raffles that profit less than \$30,000 in a calendar year. In rare instances when an organization will profit more than \$30,000 in a calendar year then a license fee of \$25.00 for the calendar year is charged.

CHARITABLE GAMING

In 2007, the municipal clerks reported issuing the following number of licenses:

Licenses issued by municipal clerks	
Bingo	872
Bell Jar	1,581
Las Vegas Night	574
Raffles	350
Total	3,377

All municipal clerks retain 40% of the license fee they collect and remit the remaining 60% to the State Comptroller. In 2007, the following license fees were reported as collected by the municipal clerks:

License Fees collected by municipal clerks	
Bingo	\$ 836,641
Bell Jar	40,803
Las Vegas Night	38,240
Raffles	2,538
Total	\$ 953,924

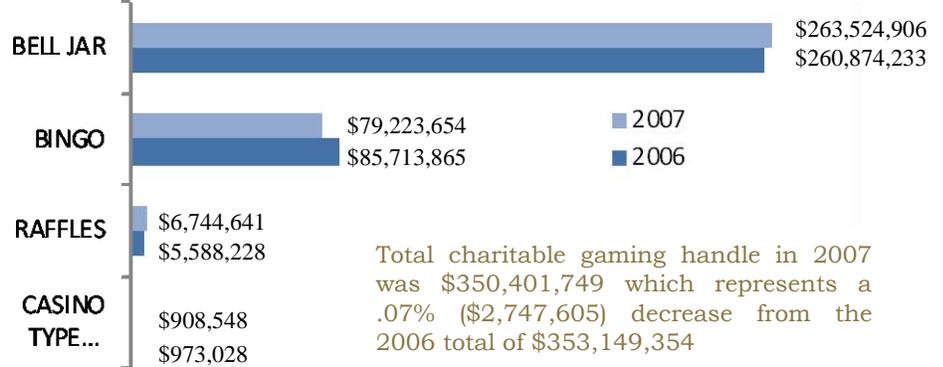

Organizations are required to remit an additional license fee to the clerk or the Board when submitting the appropriate financial reporting form.

In 2007, the following additional license fees were reported as collected by the municipal clerks and the Board:

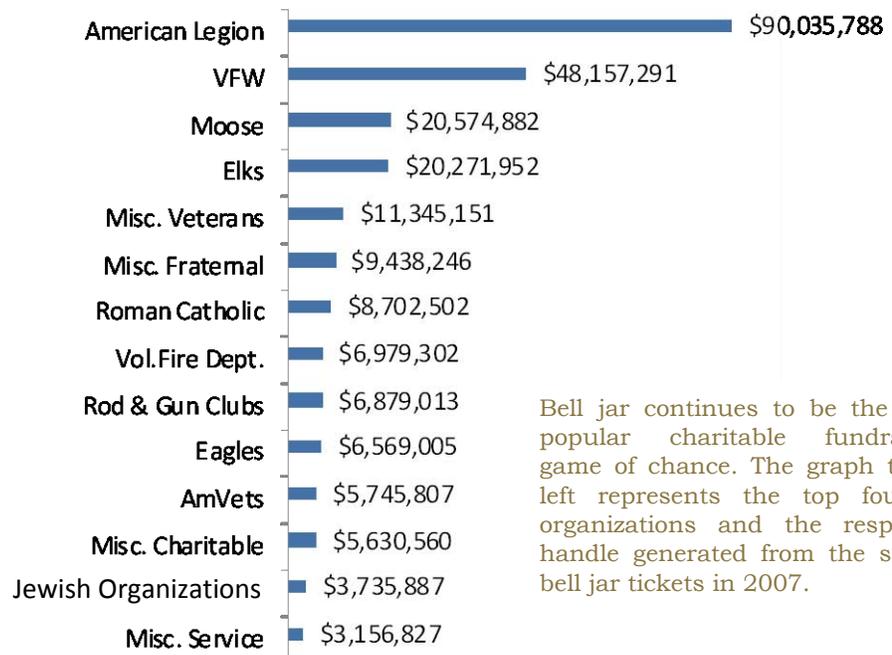

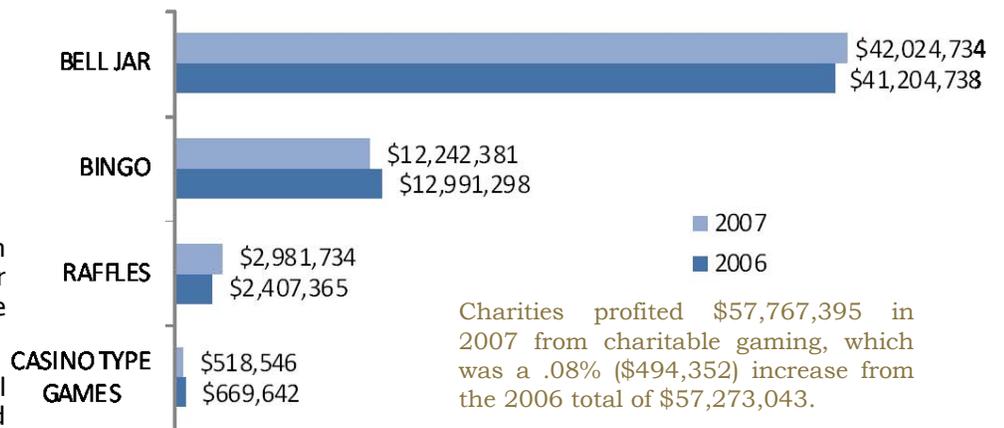

Additional License Fees collected by municipal clerks or the Board	
Bingo (clerk)	\$ 460,171
Bell Jar (the Board)	2,221,966
Las Vegas Night (clerk)	23,933
Raffles (clerk)	15,185
Total	\$ 2,721,255

Charitable Gaming Handle

Profit to Charities

Bell jar continues to be the most popular charitable fundraising game of chance. The graph to the left represents the top fourteen organizations and the respective handle generated from the sale of bell jar tickets in 2007.

CHARITABLE GAMING

Bell Jar Compliance and Enforcement

The Racing and Wagering Board is responsible for all licensing and enforcement activities related to the manufacture, distribution and sale of bell jar tickets to licensed authorized organizations in the state. A primary function of the Board is to curtail the trafficking of illegal bell jar tickets into the state and eliminate those illegal activities that siphon revenues away from their intended charitable purposes.

All bell jar tickets must be approved by the Board before they can be sold to charities in New York. In 2007, 6,840 types of bell jar tickets were approved for sale into New York State. To date, the Board has received 79,758 tickets for review and has approved 73,030 tickets.

The Board conducts statewide investigations jointly with the New York State Police, New York State Liquor Authority, and the Attorney General's Office, as well as federal, state and local law enforcement agencies. In 2007, Board investigations led to the arrest and criminal convictions of 5 individuals.

Bell Jar Activity Calendar Year 2007

Number of Licensed Organizations.....	1,581
License Fees Remitted to Clerks.....	\$ 40,803
Number of Bell Jar Deals Sold.....	154,895
Gross Ticket Sales.....	\$ 263,524,906
Prizes Awarded.....	\$ 191,024,251
5% Additional Fees.....	\$ 2,221,966
Net Profit to Organizations.....	\$ 42,024,734

Raffles

Raffles, depending on the threshold of the net proceeds derived there from, must be licensed by the municipality in which an authorized organization is domiciled; licensed via a series of verified statements; or operated pursuant to the provisions of Section 190-a of the General Municipal Law. For a detailed explanation of each of the three raffle categories and instructions for conducting these charitable fund raisers, please review the Guidelines To Running Raffles on the Special Features section of the Board's website:

<http://www.racing.state.ny.us/>

In 2007, a total of \$9,641,917 was wagered on raffles resulting in net profits of \$2,998,626 for charitable causes. (See chart on page 14).

Casino-Type Games of Chance

Casino-type games of chance, also known as Las Vegas nights, include games like roulette, craps, blackjack, money wheels, bang, and other games played at carnivals and festivals.

In 2007, a total of \$908,548 was wagered at 574 licensed Las Vegas Night occasions. This activity raised \$518,546 for charitable purposes. (see chart on page 14)

Bingo

In 2007, \$5,299,338 million bingo players attended 15,659,611 licensed bingo occasions wagered \$79,223,654 and generated net profits of \$12,242,381 for charity. (see chart on page 14)

Games of Chance and Bingo Manufacturers and Supplies

The Board has many responsibilities with regards to licensing games of chance and bingo manufacturers and suppliers. In 2007, the Board issued 64 licenses for games of chance manufacturers and suppliers and 51 licenses to bingo manufacturers and suppliers.

Total sales by games of chance manufacturers and suppliers equaled \$11,374,041.

Total sales by bingo manufacturers and suppliers equaled \$6,793,665.

Total fees collected by the Board from licensed bingo and games of chance manufacturers and suppliers equaled \$248,076.

The statistics reported on pages 17-21 are compiled from reports filed by municipal clerks. There are 1,107 municipalities required to report charitable gaming activities from which, 1,063 filed and 44 did not file.

2007 BOARD RULES

The Board adopted the following rules in 2007

Account Wagering A new Part 5300 was passed by emergency adoption to establish licensing and regulatory standards in relation to the conduct of internet and telephone account wagering by New York authorized pari-mutuel operators.

Use of the Whip in Harness Racing An amendment to Rule 4117.8(c)(3) to permit the reasonable use of the whip at one-quarter of a mile before the finish in place of the previous permitted use from the one-eighth distance before the finish.

Blood Gas Testing Procedures Amendments to Parts 4038, 4043, 4109, and 4120 to authorize and provide procedures for testing, and to govern related matters, including disciplinary action, in order to detect and deter the practice known as “milkshaking” in harness and thoroughbred racing.

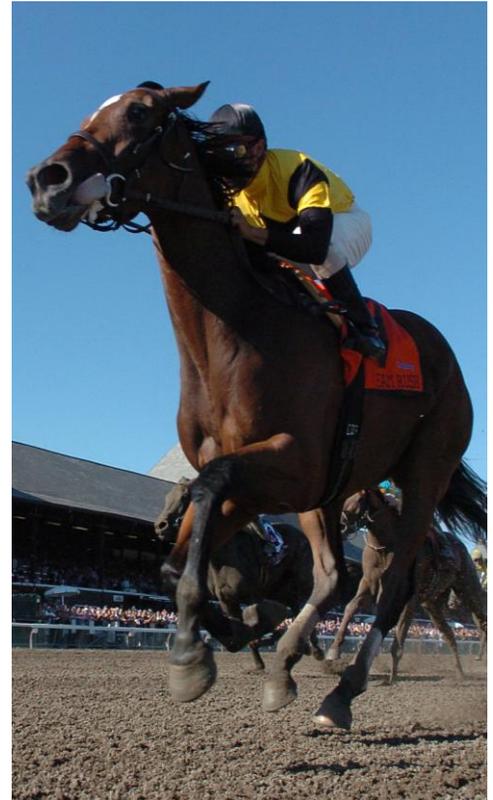

Games of Chance and Bingo New Rules 5620.23 and 5620.24 to authorize the conduct of the games of chance known as Treasure Chest Raffles and Search for the Queen of Hearts

Wagering While on Duty Amendments to Rules 4005.4 and 4122.10 to prohibit pari-mutuel department employees of harness and thoroughbred tracks from betting during those parts of any day on which the employee is actually working in that capacity.

Disqualification of a Horse An amendment to thoroughbred Rule 4035.2 (by emergency adoption) to prohibit intentional or careless interference during a race. This amendment clarifies the authority of the stewards concerning situations that were not addressed specifically by the prior provisions of this Rule.

Failure to Finish as Result of Break from Gait An amendment to harness Rule 4117.2 provides the judges with discretion to determine the appropriate order of finish at a track without a continuous hub rail where a horse leaves the course as a result of a break from its gait.

Single-Service Use of Syringes and Needles An amendment to Rules 4043.11 and 4120.16 to mandate that all hypodermic syringes and needles be used only once by licensed veterinarians, and to provide for the collection, security and disposal of the used syringes and needles.

2007 LEGISLATION

2007 Legislation Affecting the Racing and Wagering Board

Chapter 60 of the Laws of 2007

Extended various simulcasting authorizations in Article X of the Racing, Pari-Mutuel Wagering and Breeding Law through June 30, 2008. Chapter 60 also extended, through December 31, 2008, the existing tax rate and payments to the New York State Thoroughbred Breeding and Development Fund on regular and multiple wagers placed on-track on races conducted by the non-profit racing association.

Chapter 169 of the Laws of 2007

Amended Section 213-a of the Racing, Pari-Mutuel Wagering and Breeding Law and various provisions of the Workers' Compensation Law to clarify that workers' compensation benefits secured by the Jockey Injury Compensation Fund are for the benefit of those jockeys and exercise riders who are licensed by the Racing and Wagering Board.

Chapter 293 of the Laws of 2007

Renumbered Racing, Pari-Mutuel Wagering and Breeding Law Section 910 to Section 912 in relation to the Task Force on Retired Race Horses. This law extended the authorization for the Task Force through December 31, 2009, amended the date for issuance of the report, and added a requirement for investigation of the use of artificial turf at race courses.

Chapter 197 of the Laws of 2007

Amended Sections 245, 330, and 431 of the Racing, Pari-Mutuel Wagering and Breeding Law to authorize the Chairperson of the New York State Racing and Wagering Board to designate another person to act in his stead in the event of his inability to attend a meeting of three racing industry-related breeding funds. The Chairperson of the Racing and Wagering Board is a member of each of these public benefit corporations.

Chapter 441 of the Laws of 2007

Amended Section 495-a of the General Municipal Law in relation to the conduct of bingo. This law authorized the conduct of bingo games without a license provided no participant or other person pays anything of value for the opportunity to participate, such games are conducted in municipalities which have authorized the conduct of licensed bingo, and such games are conducted in private homes or enumerated types of residential complexes, or by certain bona fide charitable organizations and entertainment businesses. This is generally known as "free bingo."

Chapter 162 of the Laws of 2007

Amended Section 476 of the General Municipal Law to authorize the conduct of bonus ball bingo effective July 3, 2007.

Chapter 440 of the Laws of 2007

Amended Section 221 of the Racing, Pari-Mutuel Wagering and Breeding Law by providing an increased percentage of thoroughbred purses be withheld and paid for a limited period of time to the representative horsemen's association at tracks operated by the non-profit racing association.

Chapter 535 of the Laws of 2007

Added a new Section 912 to the Racing, Pari-Mutuel Wagering and Breeding Law in relation to the recognition and enforcement by the New York State Racing and Wagering Board of license denials, suspensions and revocations imposed by other racing and gambling jurisdictions.

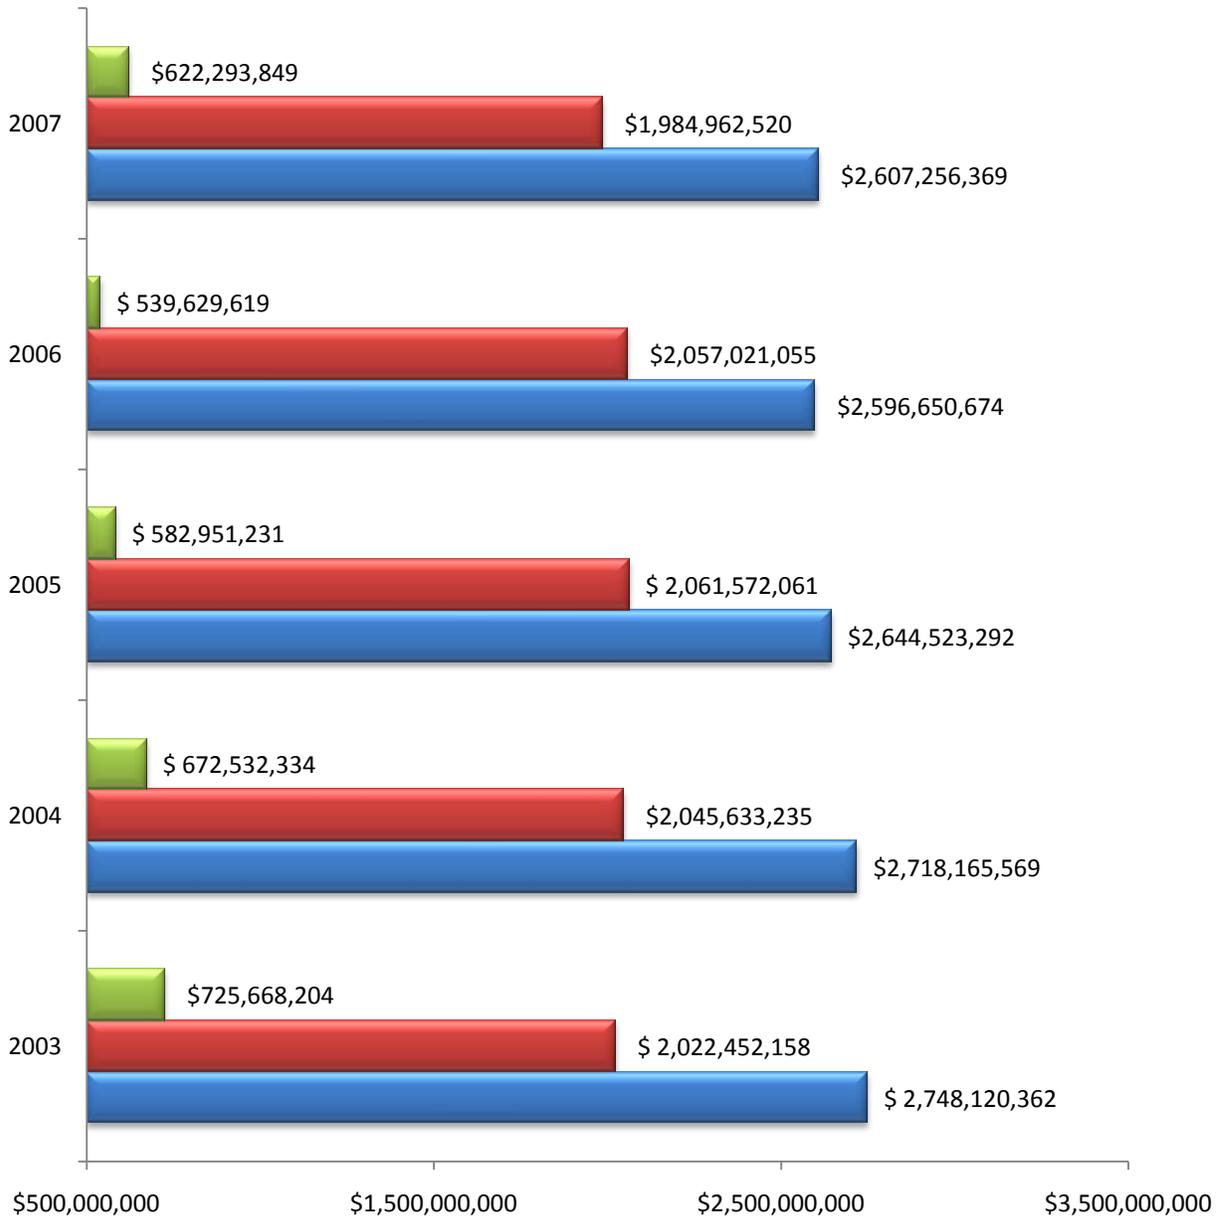

Chapter 681 of the Laws of 2007

Amended Section 532 of the Racing, Pari-Mutuel Wagering and Breeding Law in relation to the distribution of surcharge payments by extending through August 31, 2012 the previously enacted authorization for payment to Buffalo Raceway of 50% of the Section 532 surcharge on winning wagers placed on races conducted at that harness racetrack.
