

Exhibit VIII.D.1.a

INTERNAL CONTROLS AND SECURITY SYSTEMS: PROPOSED INTERNAL CONTROLS

The Commission will develop regulations governing internal controls for all gaming facilities in the near future. To assist the Board in its evaluation of the Applicant, the Board is interested in knowing what standards the Applicant anticipates adhering to at its Gaming Facility. Accordingly, subject to any adjustments required upon promulgation of the future regulations, submit as Exhibit VIII. D.1.a. a full description of the proposed internal controls, electronic surveillance systems, and security systems for the proposed Gaming Facility and any related facilities, including, for example, any contemplated internal audits, independent external audits, separation of accounting and cage processes for independent verifications, cage and count room supervision, gaming floor drop processes, and other asset preservation and secure cash handling systems and processes. Where third---parties are to be engaged (e.g., external audit and law enforcement/safety entities), so indicate. Indicate how these efforts will achieve risk management/control goals at the enterprise/Licensee level as well as regulatory, law enforcement, and other local, regional, State, and Federal levels as applicable.
