ASSESSMENT OF LOCAL SUPPORT

Exhibit IX. A.1.b

Resorts World Hudson Valley – Local Support Summary

Resorts World Hudson Valley has received an outpouring of support from the host community of Montgomery and surrounding areas. In the several months since announcing the project, representatives of Genting Americas have held multiple meetings with members of the community, answered questions and provided information about the project to interested parties.

By and large, the local community views the project as a way to both stimulate and enhance local economic growth and the revenue producer that can provide much needed funds for infrastructure and public works that have been postponed for far too long. Resorts World Hudson Valley has committed $3 million a year, above and beyond shared gaming tax revenues and property taxes, to fund many of the local villages' long-term projects and looks forward to working with the local community for years to come if awarded a Gaming Facility License.

Support from Government

Resorts World Hudson Valley has received the unanimous support of local municipalities including: the Town of Montgomery, the Village of Walden, the Village of Montgomery, and the Village of Maybrook. These surrounding communities understand that the Resort will not only provide well-paying jobs for their residents, but will improve the business climate in the entire region. Additionally, Resorts World Hudson Valley has received the support of Dutchess County Executive Marcus Molinaro and has entered into an agreement with the County to support their local minor-league ballpark and tourism board.

Support from Local Businesses

Resorts World Hudson Valley has also received additional support from the local business community who view the project as a way to revitalize the local economy and increase their customer base. The Resort has received the support of nearly 400 local businesses – with over 50 committing to Letters of Intent to become local vendors of products and services to the Resort and its customers. Local entertainment venues have also entered into Memorandums of Understanding, ensuring that the resort will complement, not compete, with any local offerings and events. The Resort has also received the support of Laborers' International union of North America Local 17 and the Hudson Valley Building and Construction Trades Council.

Support from Residents

Beyond businesses and government, over 1,200 residents of the surrounding area have signed letters of support, stating unequivocally that they view this project as a benefit to their local community.

In total, nearly 2,000 individuals and businesses have stated their support of Resorts World Hudson Valley.

RESOLUTION IN SUPPORT OF THE APPLICATION OF RW ORANGE COUNTY LLC TO DEVELOP AND OPERATE A DESTINATION CASINO RESORT ON LAND LOCATED ADJACENT TO NEW YORK STATE ROUTE 17K IN THE TOWN OF MONTGOMERY.

WHEREAS, on March 31, 2014, the New York Gaming Facility Location Board (the "State Gaming Board") issued a Request for Applications to Develop and Operate a Gaming Facility in New York State (the "RFA") pursuant to The Upstate New York Gaming Economic Development Act of 2013; and

WHEREAS, RW Orange County LLC, an affiliate of Genting Americas, Inc, has or promptly will enter into contracts relating to the purchase of land in the Town of Montgomery, County of Orange, identified on the Town of Montgomery Tax Maps as 31-1-54.211, 31-1-58, 31-1-64, 31-1-65.22, 31-1-74.2, 31-1-75.2, 31-1-94 and 31-1-95 and with additional roadway access for traffic mitigation purposes (the "Project Site'). The Project Site is situated on New York State Route 17K approximately two miles west of the intersection of New York Route 17K and Interstate 84; and

WHEREAS, RW Orange County LLC, its affiliates and principals, are qualified applicants with substantial experience in financing, developing and operating entertainment, restaurant and gaming facilities; and

WHEREAS, RW Orange County LLC has stated an intent to file an application with the State Gaming Board in response to the RFA (the "Application") seeking a license to develop and operate a Gaming Facility, with a hotel and other amenities, including retail space and entertainment venues (the "Gaming Project") on the Project Site. As a condition to filing its application with the State Gaming Board, RW Orange LLC is required to demonstrate community support for its application; and

WHEREAS, the Board of Trustees has discussed matters relating to the potential location of certain types of gaming or casino facilities in the Town of Montgomery; and

WHEREAS, the Board of Trustees recognizes the uniqueness of the Project Site, the qualifications of RW Orange County LLC and the opportunity the Gaming Project represents to the Village of Montgomery; and

WHEREAS, by encouraging the development and operation of the Gaming Project at the Project Site by RW Orange County LLC, the Town of Montgomery, the Villages within the Town and the County of Orange will substantially expand their tourism base by providing services and overnight accommodations for visitors as part of a balanced economy and will expand the tax base of the Town, the Villages within the Town and the County. In addition, the Board of Trustees believes that the development and operation of the Gaming Project at the Project Site would have a positive impact on Orange County and surrounding communities through the increase of property tax revenues and the expansion of employment opportunities for the citizens of Orange County; and

WHEREAS, the Town Board of the Town of Montgomery passed a resolution on Thursday, June 12, 2014, in support for the for the submission of an application by RW Orange County LLC; and

WHEREAS, such project, even if approved for a license by the State Gaming Board, would still be required to comply with local planning, zoning and environmental review processes in the Town of Montgomery for all appropriate approvals in order to ensure the protection of health, safety and welfare of the residents of the community; and

WHEREAS, the Board of Trustees recognizes a landowner's right to develop and has no opposition to development, as long as the development is a responsible one that complies with all the applicable laws and ensures proper protections of our cherished resources and that the public interest is protected; and

WHEREAS, the Board of Trustees is in full support of the Gaming Project and RW Orange County LLC's Application to the State Gaming Board for a license to develop and operate the Gaming Facility at the Project Site.

NOW, THERFORE, BE IT RESOLVED, that the Board of Trustees of the Village of Montgomery hereby fully supports the Application to be filed by RW Orange County LLC with the Town Board of the Town of Montgomery for the development and operation of the Gaming Project on the Project Site and fully supports and encourages the development and operation of the Gaming Project on the Project Site by RW Orange County LLC and its successors and assigns; and it is

FURTHER RESOLVED, that this resolution is intended to satisfy the eligibility requirements of NYS Racing, Pari-Mutuel, Wagering and Breeding Law §1314(2) and specifically to satisfy the condition of local support for the gaming license applicant; and it is

FURTHER RESOLVED, that the Village Clerk is hereby directed to forward a copy of this resolution to the State Gaming Board and the Clerk of the Town of Montgomery.

Motion Made By: Trustee Andolsek

Seconded By: Trustee Hembury

The Resolution was adopted by a vote of 4 ayes, 0 nays with 1 absent.

RESOLUTION #7 OF 2014

THE BOARD OF THE VILLAGE OF MAYBROOK, NEW YORK IN SUPPORT OF THE VILLAGE TO DEVELOP AND OPERATE A DESTINATION CASINO RESORT ON LAND LOCATED ADJACENT TO NEW YORK STATE HIGHWAY ROUTE 17K IN THE TOWN OF MONTGOMERY BY RW ORANGE COUNTY LLC

On a motion by Mayor Leahy, seconded by Trustee Pritchard, the Village Board resolves the following:

WHEREAS, on March 31, 2014, the New York Gaming Facility Location Board (the "**State Gaming Board")** issued a Request for Applications to Develop and Operate a Gaming Facility in New York State (the "**RFA**") pursuant to The Upstate New York Gaming Economic Development Act of 2013;and

WHEREAS, rw Orange County LLC, an affiliate of Genting Americas Inc., has or promptly will enter into contracts relating to purchase of land in the Town of Montgomery, County of Orange, known as Tax IDs 31-1-54.211 31-1-58, 31-1-64, 31-1-65.22, 31-1-74.2, 31-1-75.2, 31-1-94 and 31-1-95 on the Orange County website and with additional roadway access rights for traffic mitigation purposes (the "**Project Site"**). The project Site is situated on New York State Route 17K approximately two miles west of the intersection of New York State Route 17K and Interstate 84; and

WHEREAS, RW Orange County LLC, its affiliates and principals, are qualified applicants with substantial experience in financing, developing and operating entertainment, restaurant and gaming facilities ;and

WHEREAS, rw Orange County LLC has stated an intent to file an application with the State Gaming Board in response to the RFA (the " **Application"**) seeking a license to develop and operate a Gaming Facility, with a hotel and other amenities, including retail space and entertainment venues (the "**Gaming Project"**) on the Project Site. As a condition of filing its application with the State Gaming Board, RW Orange County LLC is required to demonstrate community support for its application; and

WHEREAS, the Village Board has discussed matters relating to the potential location of certain types of gaming or casino facilities in the Town of Montgomery; and

WHEREAS, the Village Board recognizes the uniqueness of the Project Site, the qualifications of RW Orange County LLC and the opportunity the Gaming Project represents to the Village of Maybrook; and

WHEREAS, THE Village Board believes that the development and operation of the Gaming Project Site would have a positive impact on Orange County, New York, and surrounding communities, through the increase of property tax revenues and the expansion of employment opportunities for the citizens of Orange County, New York; and

WHEREAS, the Town Board of the Town of Montgomery passed a resolution on Thursday June 12, 2014 in support for the submission of an application by RW Orange County LLC; and

WHEREAS, such project, even if approved for a license by the State Gaming Board, would still be required to comply with the local planning, zoning, and environmental review process in the Town of Montgomery for all appropriate approvals in order to ensure the protection of the health, safety and welfare of the residents of the community; and

WHEREAS, the Village Board recognizes a land owner's right to develop and has no opposition to development, as long as the development is a responsible one that complies with the all applicable laws and ensures proper protections of our cherished resources and that the public interest is protected; and

WHEREAS, THE Village Board is in full support of the Gaming Project and RW Orange County LLC's Application to the State Gaming Board for a license to develop and operate the Gaming Facility at the Project Site; and

NOW THEREFORE IT IS HEREBY RESOLVED, that in furtherance of the above goals, the Village of Maybrook hereby supports to the location of the Gaming Project on the Project Site within the Town of Montgomery, and

BE IT FURTHER RESOLVED, that the Village Board of the Village of Maybrook fully supports the Application to be filed by RW Orange County LLC with the Town Board of the Town of Montgomery for the development and operation of the Gaming Project on the Project Site and fully supports and encourages the development and operation of the Gaming Project on the Project Site by RW Orange County LLC and its successors and assigns, and

BE IT FURTHER RESOLVED, that this Resolution is intended to satisfy the eligibility requirements of NYS Racing, Pari-Mutuel Wagering and Breeding Law section 1314(2) and specifically to satisfy the condition of local support for the gaming license applicant, and

BE IT FURTHER RESOLVED, that the Village Clerk is hereby directed to forward a copy of this resolution to the State Gaming Board and the Clerk of the Town of Montgomery and moves its adoption.

Maybrook, New York 12543

Attention: Mayor Dennis Leahy

Re: Letter of Understanding

Dear Mayor Leahy:

This letter sets forth certain understandings between RW Orange County LLC ("RW") and the Village of Maybrook (the "Village", together with RW, the "Parties") with respect to RW's application (the "Application") to the State Gaming Board for a gaming license under the Upstate New York Gaming Economic Development Act of 2013 (the "Act") to develop and operate a destination casino resort (the "Project") in the Town of Montgomery (the "Town"), which encompasses the Village.

In connection with the development and operation of the Project in the Town, the Town and the County of Orange (the "County") will substantially expand their tourism base by providing services and overnight accommodations for visitors as part of a balanced economy and will expand the tax base of the Town and the County. Further, the Village Board recognizes the uniqueness of the Project, the qualifications of RW and the opportunity the Project represents to the Village. For these, and other reasons, the Village Board believes that the development and operation of the Project in the Town would have a positive impact on the Village and is in full support of the Project.

In recognition of the passage of the resolution on June 17, 2014 attached hereto as Exhibit A (the "Resolution") and subject to the continued support from the Village of the Project, and provided that the Village does not take any action that is inconsistent with its support of the Project set forth in the Resolution, RW agrees to pay the Village the amounts described on Exhibit B (the "Village Revitalization Payments") for projects which the Village Board reasonably believes to be in furtherance of the economic development and revitalization of the Village, upon the occurrence of the events set forth on Exhibit B.

This letter shall be construed and enforced in accordance with and be governed by the law of the State of New York. The Parties hereby irrevocably submit to the exclusive jurisdiction of the federal court in the Southern District of New York and the State court in Orange County in connection with any action relating to this letter, and waive to the fullest extent permitted by law, any objection to such venue and any claim that such forum is inconvenient.

IN WITNESS WHEREOF, the parties have executed and delivered this Agreement in counterpart originals as of the date first written above.

MOTION CARRIED

The foregoing resolution was thereupon declared duly adopted on June 17, 2014.

Exhibit B

Schedule of Village Revitalization Payments

1. RW will pay the Village $1,000,000 (the "Annual Village Revitalization Payment"), within three business days following the first date (the "Opening Date") on which both: (i) the Village is not in violation of the terms hereof and (ii) RW has received all approvals necessary to construct and open the Project and RW has opened the Project for business to the public.

2. RW will advance a portion of the first Annual Village Revitalization Payment (which portion shall decrease dollar for dollar the amount of the first Annual Village Revitalization Payment) upon 60 days advance written notice from the Village provided that both: (i) the State has awarded RW a Gaming Facility License (as defined in the Act) with respect to the Project and (ii) the Village is not in violation of the terms hereof.

3. Within three business days following each one year anniversary of the Opening Date, RW will pay the Village an additional $1,000,000, so long as both: (i) the Village is not in violation of the terms hereof and (ii) RW (or an RW Affiliate) then continues to operate the Project, the Project remains open for business to the public and all necessary approvals for RW (or an RW Affiliate) to operate the Project and keep it open for business remain in effect. RW Affiliate shall mean an entity controlling, controlled by, or under common control with RW.

Attention: Village Manager

Re: Letter of Understanding

Dear Village Manager:

This letter sets forth certain understandings between RW Orange County LLC ("RW") and the Village of Walden (the "Village", together with RW, the "Parties") with respect to RW's application (the "Application") to the State Gaming Board for a gaming license under the Upstate New York Gaming Economic Development Act of 2013 (the "Act") to develop and operate a destination casino resort (the "Project") in the Town of Montgomery (the "Town"), which encompasses the Village.

In connection with the development and operation of the Project in the Town, the Town and the County of Orange (the "County") will substantially expand their tourism base by providing services and overnight accommodations for visitors as part of a balanced economy and will expand the tax base of the Town and the County. Further, the Village Board recognizes the uniqueness of the Project, the qualifications of RW and the opportunity the Project represents to the Village. For these, and other reasons, the Village Board believes that the development and operation of the Project in the Town would have a positive impact on the Village and is in full support of the Project.

In recognition of the passage of the resolution on June 17, 2014 attached hereto as Exhibit A (the "Resolution") and subject to the continued support from the Village of the Project, and provided that the Village does not take any action that is inconsistent with its support of the Project set forth in the Resolution, RW agrees to pay the Village the amounts described on Exhibit B (the "Village Revitalization Payments") for projects which the Village Board reasonably believes to be in furtherance of the economic development and revitalization of the Village, upon the occurrence of the events set forth on Exhibit B.

This letter shall be construed and enforced in accordance with and be governed by the law of the State of New York. The Parties hereby irrevocably submit to the exclusive jurisdiction of the federal court in the Southern District of New York and the State court in Orange County in connection with any action relating to this letter, and waive to the fullest extent permitted by law, any objection to such venue and any claim that such forum is inconvenient.

IN WITNESS WHEREOF, the parties have executed and delivered this Agreement in counterpart originals as of the date first written above.

RESOLUTION
BOARD OF TRUSTEES OF THE VILLAGE OF WALDEN
RESOLUTION NO. 3-14-15

IN SUPPORT OF THE APPLICATION TO DEVELOP AND OPERATE A DESTINATION CASINO RESORT ON LAND LOCATED ADJACENT TO NEW YORK STATE HIGHWAY ROUTE 17K IN THE TOWN OF MONTGOMERY BY RW ORANGE COUNTY LLC

WHEREAS, on March 31, 2014, the New York Gaming Facility Location Board (the **"State Gaming Board"**) issued a Request for Applications to Develop and Operate a Gaming Facility in New York State (the "**RFA**") pursuant to The Upstate New York Gaming Economic Development Act of 2013; and

WHEREAS, RW Orange County LLC, an affiliate of Genting Americas Inc., has or promptly will enter into contracts relating to purchase of land in the Town of Montgomery, County of Orange, known as Tax IDs 31-1-54.211 31-1-58, 31-1-64, 31-1-65.22, 31-1-74.2, 31-1-75.2, 31-1-94 and 31-1-95 on the Orange County website and with additional roadway access rights for traffic mitigation purposes (the "**Project Site**"). The Project Site is situated on New York State Route 17K approximately two miles west of the intersection of New York State Route 17K and Interstate 84; and

WHEREAS, RW Orange County LLC, its affiliates and principals, are qualified applicants with substantial experience in financing, developing and operating entertainment, restaurant and gaming facilities; and

WHEREAS, RW Orange County LLC has stated an intent to file an application with the State Gaming Board in response to the RFA (the "**Application**") seeking a license to develop and operate a Gaming Facility, with a hotel and other amenities, including retail space and entertainment venues (the "**Gaming Project**") on the Project Site. As a condition of filing its application with the State Gaming Board, RW Orange County LLC is required to demonstrate community support for its application; and

WHEREAS, the Village Board has discussed matters relating to the potential location of certain types of gaming or casino facilities in the Town of Montgomery; and

WHEREAS, the Village Board recognizes the uniqueness of the Project Site, the qualifications of RW Orange County LLC and the opportunity the Gaming Project represents to the Village of Walden; and

WHEREAS, by encouraging the development and operation of the Gaming Project at the Project Site by RW Orange County LLC, the Town of Montgomery, the Villages within the Town and the County of Orange will substantially expand their tourism base by providing services and overnight accommodations for visitors as part of a balanced economy and will expand the tax base of the Town, the Villages within the Town, and the County. In addition, the Village Board believes that the development and operation of the Gaming Project at the Project Site would have a positive impact on Orange County, New York, and surrounding communities, through the increase of property tax revenues and the expansion of employment opportunities for the citizens of Orange County, New York; and

WHEREAS, the Town Board of the Town of Montgomery passed a resolution on Thursday, June 12, 2014 in support for the submission of an application by RW Orange County LLC; and

WHEREAS, such project, even if approved for a license by the State Gaming Board, would still be required to comply with the local planning, zoning and environmental review process in the Town of Montgomery for all appropriate approvals in order to ensure the protection of the health, safety and welfare of the residents of the community; and

WHEREAS, the Village Board recognizes a land owner's right to develop and has no opposition to development, as long as the development is a responsible one that complies with the all applicable laws and ensures proper protections of our cherished resources and that the public interest is protected; and

WHEREAS, the Village Board is in full support of the Gaming Project and RW Orange County LLC's Application to the State Gaming Board for a license to develop and operate the Gaming Facility at the Project Site; and

NOW THEREFORE IT IS HEREBY RESOLVED, that in furtherance of the above goals, the Village of Walden hereby supports to the location of the Gaming Project on the Project Site within the Town of Montgomery, and

BE IT FURTHER RESOLVED, that the Village Board of the Walden fully supports the Application to be filed by RW Orange County LLC with the Town Board of the Town of Montgomery for the development and operation of the Gaming Project on the Project Site and fully supports and encourages the development and operation of the Gaming Project on the Project Site by RW Orange County LLC and its successors and assigns, and

BE IT FURTHER RESOLVED, that this Resolution is intended to satisfy the eligibility requirements of NYS Racing, Pari-Mutuel Wagering and Breeding Law § 1314(2) and specifically to satisfy the condition of local support for the gaming license applicant, and

BE IT FURTHER RESOLVED, that the Village Clerk is hereby directed to forward a copy of this resolution to the State Gaming Board and the Clerk of the Town of Montgomery and moves its adoption.

MOTION to adopt by Trustee Mishk and seconded by Trustee Bowen. The vote was 6 ayes to 0 nays with 1 abstention (Trustee Hoffman recused himself from deliberations in this matter). The Mayor declared the resolution adopted on June 17, 2014.

Certificate

The foregoing is a true and complete copy of a resolution adopted by the Board of Trustees of the Village of Walden at a regular meeting held on June 17, 2014. Public notice was given and the meeting was conducted in full compliance with the New York Open Meeting Law (Public Officers Law, Sections 100-111). Minutes of the meeting will be available as provided by law.

Exhibit B

Schedule of Village Revitalization Payments

1. RW will pay the Village $1,000,000 (the "Annual Village Revitalization Payment"), within three business days following the first date (the "Opening Date") on which both: (i) the Village is not in violation of the terms hereof and (ii) RW has received all approvals necessary to construct and open the Project and RW has opened the Project for business to the public.

2. RW will advance a portion of the first Annual Village Revitalization Payment (which portion shall decrease dollar for dollar the amount of the first Annual Village Revitalization Payment) upon 60 days advance written notice from the Village provided that both: (i) the State has awarded RW a Gaming Facility License (as defined in the Act) with respect to the Project and (ii) the Village is not in violation of the terms hereof.

3. Within three business days following each one year anniversary of the Opening Date, RW will pay the Village an additional $1,000,000, so long as both: (i) the Village is not in violation of the terms hereof and (ii) RW (or an RW Affiliate) then continues to operate the Project, the Project remains open for business to the public and all necessary approvals for RW (or an RW Affiliate) to operate the Project and keep it open for business remain in effect. RW Affiliate shall mean an entity controlling, controlled by, or under common control with RW.

MEMORANDUM OF UNDERSTANDING ("MOU")

GREATEST CHALLENGES INITIATIVE

RW Orange County LLC ("RW") and the Community Foundation of Orange County, Inc. d/b/a Community Foundation of Orange and Sullivan ("Community Foundation"). Each of RW and Community Foundation are hereinafter referred to as a Party, and collectively as the Parties. The Parties hereby agree as follows:

WHEREAS, The State of New York (the "State") has signed into law The Upstate New York Gaming Economic Development Act of 2013 (the "Act") and in connection with the Act has issued a Request for Applications to Develop and Operate a Gaming Facility in New York State (the "RFA");

WHEREAS, the Act was passed to stimulate economic development, i.e. job creation, enhancement of the State's tourism industry and new state and local tax revenue, and have a positive impact on the surrounding communities and regions;

WHEREAS, RW, which is an affiliate of Genting Americas, Inc., is an applicant before the New York State Gaming Commission submitting two separate bids in the Town of Tuxedo, New York and the Town of Montgomery, New York, that each seek a license to develop, construct and operate a destination resort facility, including a casino, hotel and various amenities in Orange County, New York (each, individually, a "Resort", collectively, the "Resorts");

WHEREAS, Community Foundation serves the communities within and surrounding Orange and Sullivan Counties in New York (the "Region"), with a mission to enable charitable individuals and organizations to become meaningful donors by providing trusted support and expertise for their contributions to make a difference in these communities, now and forever;

WHEREAS, the Parties desire to work together to create a program (the "Greatest Challenges Initiative") to identify and fund economic development and related charitable initiatives for the populations and communities with the greatest need for economic development; and

WHEREAS, RW intends to actively support and promote the mission of Community Foundation and the Greatest Challenges Initiative, and the Parties believe they stand to mutually benefit from entering into agreements relating to the terms and conditions of such support.

NOW, THEREFORE, RW and Community Foundation, subject to the terms and conditions herein contained, and in order to effectively respond to this need for economic development and related charitable needs in the Region, in partnership and collaboration with each other, hereby agree as follows:

1. Cooperation. The Parties agree that in the event RW is awarded a license and opens the Resort for business, Community Foundation would benefit from the furtherance of its mission by partnering with RW to respond to the economic development and related charitable need in the Region. In furtherance thereof, the Parties agree to cooperate to develop and participate in a Greatest Need Initiative that collectively address the following needs:

- Community Foundation will assist RW to identify the populations in the Region with the greatest need for support through existing economic development and related charitable initiatives and the creation of new initiatives.

- RW will provide funding (the "Greatest Challenges Fund") in furtherance of existing and new programs identified by the Parties.

- Community Foundation will administer the Greatest Challenges Initiative and its Greatest Challenges Fund.

- RW and Community Foundation will work cooperatively to identify and partner with other stakeholders in the Region with similar missions to join the Greatest Challenges Initiative.

2. Definitive Agreement. It is understood that in the event a license to operate a Resort is awarded to RW, the Parties intend, during the construction period of the Resort, to enter into one or more definitive agreements regarding the development and implementation of the Greatest Challenges Initiative, which such agreement(s) shall replace this Memorandum of Understanding and provide specific detail regarding the Greatest Challenges Initiative (including without limitation the Greatest Challenges Fund). This Memorandum of Understanding outlines preliminary terms of proposed arrangements with RW, and until replaced by one or more definitive agreements, no Party shall be legally bound hereby until the delivery of a fully executed definitive agreement between RW and Community Foundation following the award of a license to RW to operate the Resort.

3. Counterparts. This Agreement may be executed in any number of counterparts, each of which will be deemed an original, but all of which together will constitute one and the same instrument.

MEMORANDUM OF UNDERSTANDING ("MOU")

MAIN STREET VILLAGE NETWORK INITIATIVE

RW Orange County LLC ("RW") and The Ruby Group ("Ruby", each of RW and Ruby are hereinafter referred to as a "Party", and collectively as the "Parties") hereby agree as follows:

WHEREAS, The State of New York (the "State") has signed into law The Upstate New York Gaming Economic Development Act of 2013 (the "Act") and in connection with the Act has issued a Request for Applications to Develop and Operate a Gaming Facility in New York State (the "RFA");

WHEREAS, the Act was passed to stimulate economic development, i.e. job creation, enhancement of the State's tourism industry and new state and local tax revenue, and have a positive impact on the surrounding communities and regions;

WHEREAS, RW, which is an affiliate of Genting Americas, Inc., is an applicant before the New York State Gaming Commission submitting a bid in the Town of Montgomery, New York, that each seek a license to develop, construct and operate a destination resort facility, including a casino, hotel and various amenities in Orange County, New York (the "Resort");

WHEREAS, Ruby serves the communities within and surrounding Orange County, New York (the "Region") by providing project management, general contracting and consulting services for developers, owners, landlords tenants and investors active in commercial and residential real estate, and takes an active leadership role for many community groups including the Orange County Chamber of Commerce, Leadership Orange, Honor Flight, Orange County Electrical Licensing Board, Builders Association of the Hudson Valley and many other valuable community programs;

WHEREAS, the Town of Montgomery in New York has three villages within its borders with historic town squares and streets that serve as economic centers and places of shared memory where people still come together to live, work and play (the "Village Main Streets");

WHEREAS, many of the Village Main Streets in the Town of Montgomery are in need of economic revitalization and initiatives to help preserve their character;

WHEREAS, the Parties desire to work together to create a program (the "Main Street Village Network") to identify and fund economic development initiatives to revitalize and preserve the historic character of the Village Main Streets in the Town of Montgomery; and

WHEREAS, the Parties believe they stand to mutually benefit from entering into agreements relating to the terms and conditions of such support.

NOW, THEREFORE, RW and Ruby, subject to the terms and conditions herein contained, in order to effectively respond to the need for economic development and the preservation of the historic character of the Village Main Streets in the Town of Montgomery, in partnership and collaboration with each other, hereby agree as follows:

1. Cooperation. The Parties agree that in the event RW is awarded a license and opens the Resort for business, the Parties would benefit from the furtherance of their respective businesses and mission by partnering to respond to the economic development and

historical preservation of the Village Main Streets. In furtherance thereof, the Parties agree to cooperate to develop and participate in a Main Street Village Network Program and to do the following:

- The Parties will work together to establish a unified strategy to stimulate the economic revitalization and preservation of the historic character the Village Main Streets in the Town of Montgomery.

- RW will provide funding (the "Main Street Village Network Fund") in furtherance of the aims of this Main Street Village Network initiative.

- The Parties will work together to identify and evaluate the needs of small businesses in the Village Main Street areas in the Town of Montgomery, coordinate with other local, state and national programs to identify the gaps in the support currently available to the small business within Village Main Streets, and facilitate the disbursement of funds for the economic development and preservation of the historic character of the Village Main Streets in the Town of Montgomery.

- The Parties will work cooperatively to identify and partner with other stakeholders in the Region with similar missions to join and/or replicate the Main Street Village Network Program.

2. Definitive Agreement. It is understood that in the event a license to operate a Resort is awarded to RW, the Parties intend, during the construction period of the Resort, to enter into one or more definitive agreements regarding the development and implementation of the Main Street Village Network, which such agreement(s) shall replace this Memorandum of Understanding and provide specific detail regarding the Main Street Village Network Program (including without limitation the Main Street Village Network Fund). This Memorandum of Understanding outlines preliminary terms of proposed arrangements with RW, and until replaced by one or more definitive agreements, no Party shall be legally bound hereby until the delivery of a fully executed definitive agreement between RW and Ruby following the award of a license to RW to operate the Resort.

3. Counterparts. This Agreement may be executed in any number of counterparts, each of which will be deemed an original, but all of which together will constitute one and the same instrument.

June 26, 2014

New York Gaming Facility Location Board
C/O New York State Gaming Commission
PO Box 7500
Schenectady, NY 12301-7500

To Whom It May Concern,

I am writing to you as a resident of Orange County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Sincerely,

Brian Maher

To Whom It May Concern,

I would like to submit this letter in support of the Resorts World Hudson Valley project that, with your support and approval, will be built in the Town of Montgomery.

As a business owner in Orange County, I know first-hand the challenges of a struggling local economy. We have made every effort to grow and expand our business, but success has been fleeting. We welcome the development of Resorts World Hudson Valley for the following reasons:

- Genting and Resorts World Orange County LLC have immense resources and are capable of making this project turnkey within two years with little disturbance to residents.
- The resort will quickly transform Montgomery and the county into a bustling hub of economic activity that we have tried for years to create.
- Direct and indirect consistent economic support from Resorts World Hudson Valley:
    - Direct support via local use options for loyalty points, additional tax revenue, and jobs for residents of Montgomery and neighboring towns/counties, including the City and Town of Newburgh.
    - Indirect support via increased property values and a year-round tourist attraction that will drive traffic to local businesses.
- A major capital investment from a *tax-paying* entity is needed to revolutionize the business community here in the Town of Montgomery while reducing the tax burden on our residents.

Resorts World Hudson Valley will energize our local economy. We urge you to, please, grant Resorts World Orange County LLC the ability to re-build the local economy of Montgomery and the surrounding Hudson Valley area.

Sincerely,

- The resort will quickly transform Montgomery and the county into a bustling hub of economic activity that we have tried for years to create.
- Direct and indirect consistent economic support from Resorts World Hudson Valley:
    - Direct support via local use options for loyalty points, additional tax revenue, and jobs for residents of Montgomery and neighboring towns/counties, including the City and Town of Newburgh.
    - Indirect support via increased property values and a year-round tourist attraction that will drive traffic to local businesses.
- A major capital investment from a *tax-paying* entity is needed to revolutionize the business community here in the Town of Montgomery while reducing the tax burden on our residents.

Resorts World Hudson Valley will energize our local economy. We urge you to, please, grant Resorts World Orange County LLC the ability to re-build the local economy of Montgomery and the surrounding Hudson Valley area.

Sincerely,

To Whom It May Concern,

I would like to submit this letter in support of the Resorts World Hudson Valley project that, with your support and approval, will be built in the Town of Montgomery.

As a business owner in Orange County, I know first-hand the challenges of a struggling local economy. We have made every effort to grow and expand our business, but success has been fleeting. We welcome the development of Resorts World Hudson Valley for the following reasons:

- Genting and Resorts World Orange County LLC have immense resources and are capable of making this project turnkey within two years with little disturbance to residents.
- The resort will quickly transform Montgomery and the county into a bustling hub of economic activity that we have tried for years to create.
- Direct and indirect consistent economic support from Resorts World Hudson Valley:
    - Direct support via local use options for loyalty points, additional tax revenue, and jobs for residents of Montgomery and neighboring towns/counties, including the City and Town of Newburgh.
    - Indirect support via increased property values and a year-round tourist attraction that will drive traffic to local businesses.
- A major capital investment from a *tax-paying* entity is needed to revolutionize the business community here in the Town of Montgomery while reducing the tax burden on our residents.

Resorts World Hudson Valley will energize our local economy. We urge you to, please, grant Resorts World Orange County LLC the ability to re-build the local economy of Montgomery and the surrounding Hudson Valley area.

To Whom It May Concern;

As a business and property owner in Orange County I would like to offer my support for the development of a new entertainment and gaming facility in Montgomery NY by Resorts World Hudson Valley. I believe Resorts World Hudson Valley project would result in the greatest positive impact in the region. I believe its central location and proximity to the highways will contribute to the economic development of not only Orange County but also the surrounding counties of Sullivan, Ulster and Dutchess.

As a property owner in the City of Newburgh I am excited about Resorts World Hudson Valley opening in Montgomery. It would allow a workforce to be pulled from a number of chronically underemployed communities such as the City of Newburgh and Middletown. This development would employ 2,500 jobs and 2,000 in construction. This will allow the opportunity for entry level positions and experienced professionals. In addition World Resort Hudson Valley has agreed to provide a shuttle service to transport employees to the Casino from areas deemed necessary.

I am an African American woman owned business, Ferry Godmother Productions. I have created venues that bring quality music events that attract residents and tourists to communities in the Hudson Valley. Currently our destination sites are located in Montgomery at the Orange County Thomas Bull Memorial Park and in the City of Newburgh, where it all began 10 years ago. We are also shovel ready in a number of other communities. Resorts World Hudson Valley would be a driving force for small businesses like mine and I am looking forward to being neighbors.

This is a perfect opportunity for a long overdue economic development in the area. this will help reduce the burden of the tax-payer and help re-build the local economy. I feel Resorts World Hudson Valley is the perfect product to help make my business and many others more viable.

Sincerely,

Aquanetta "FerryGodmother" Wright
Executive Producer

Dear Genting Team:

The Orange County Arts Council is pleased to express support for development of a casino in Orange County. The Arts Council anticipates a casino would result in substantial increases in local purchasing, employment, tourism, tax revenues, economic and community development, and support for local charities.

We look forward to developing a partnership with the selected casino applicant and anticipate the benefits to the community will include meaningful direct support of local artists and arts organizations including, but not limited to:

- Making casino facilities available for community use for gatherings, exhibitions, performances and events.
- Regularly purchasing and commissioning artworks and performances from local artists and arts organizations of all kinds.
- Regularly providing opportunities for local artists and arts organizations to exhibit, perform and sell their work to casino patrons.
- Providing meaningful financial support to local arts organizations.
- Partnering with local school districts to support and expand arts programs.
- Cross-promoting arts and cultural events and encouraging casino patrons to explore the many arts experiences available in Orange County.

We thank you for reaching out to us and look forward to a mutually rewarding partnership with the selected casino applicant.

Sincerely,

Dawn Ansbro

As a business owner in Orange County, I know first-hand the challenges of a struggling local economy. We are constantly making every effort to grow and expand our business. We welcome the development of Resorts World Hudson Valley for the following reasons:

- Genting and Resorts World Orange County LLC have immense resources and are capable of making this project turnkey within two years with little disturbance to residents.
- The resort will quickly transform Montgomery and the county into a bustling hub of economic activity that we have tried for years to create.
- Direct and indirect consistent economic support from Resorts World Hudson Valley:
    - Direct support via local use options for loyalty points, additional tax revenue, and jobs for residents of Montgomery and neighboring towns/counties, including the City and Town of Newburgh, whose unemployment rate in 2013 was reported to be over 10%.
    - Indirect support via increased property values and a year-round tourist attraction that will drive traffic to local businesses.
- A major capital investment from a tax-paying entity is needed to revolutionize the business community here in the Town of Montgomery while reducing the tax burden on our residents.

Resorts World Hudson Valley will energize our local economy. We urge you to, please, grant Resorts World Orange County LLC the ability to re-build the local economy of Montgomery and the surrounding Hudson Valley area.

Sincerely,

Kelley Briggs
Principal, Executive Creative Director

To Whom It May Concern,
I would like to submit this letter in support of the Resorts World Hudson Valley project that, with your support and approval, will be built in the Town of Montgomery.

As a Montgomery business owner, I know first-hand the challenges of a struggling local economy. We have made every effort to grow and expand our business, but success has been fleeting. We welcome the development of Resorts World Hudson Valley for the following reasons:

- Genting and Resorts World Orange County LLC have immense resources and are capable of making this project turnkey within two years with little disturbance to residents.
- The resort will quickly transform Montgomery and the surrounding area into a bustling hub of economic activity that we have tried for years to create.
- Direct and indirect consistent economic support from Resorts World Hudson Valley:
    - Direct support via local use options for loyalty points, additional tax revenue, and jobs for residents of Montgomery and neighboring towns/counties, including the City and Town of Newburgh.
    - Indirect support via increased property values and a year-round tourist attraction that will drive traffic to local businesses.
- A major capital investment from a *tax-paying* entity is needed to revolutionize the business community here in the Town of Montgomery while reducing the tax burden on our residents.

Resorts World Hudson Valley will energize our local economy. We urge you to, please, grant Resorts World Orange County LLC the ability to re-build the local economy of Montgomery and the surrounding Hudson Valley area.

Sincerely,

- Direct and indirect consistent economic support from Resorts World Hudson Valley:
    - Direct support via local use options for loyalty points, additional tax revenue, and jobs for residents of Montgomery and neighboring towns/counties, including the City and Town of Newburgh.
    - Indirect support via increased property values and a year-round tourist attraction that will drive traffic to local businesses.
- A major capital investment from a *tax-paying* entity is needed to revolutionize the business community here in the Town of Montgomery while reducing the tax burden on our residents.

Resorts World Hudson Valley will energize our local economy. We urge you to, please, grant Resorts World Orange County LLC the ability to re-build the local economy of Montgomery and the surrounding Hudson Valley area.

Sincerely,

To Whom It May Concern,

I would like to submit this letter in support of the Resorts World Hudson Valley project that, with your support and approval, will be built in the Town of Montgomery.

As a business owner in Orange County, I know first-hand the challenges of a struggling local economy. We have made every effort to grow and expand our business, but success has been fleeting. We welcome the development of Resorts World Hudson Valley for the following reasons:

- Genting and Resorts World Orange County LLC have immense resources and are capable of making this project turnkey within two years with little disturbance to residents.
- The resort will quickly transform Montgomery and the county into a bustling hub of economic activity that we have tried for years to create.
- Direct and indirect consistent economic support from Resorts World Hudson Valley:
    - Direct support via local use options for loyalty points, additional tax revenue, and jobs for residents of Montgomery and neighboring towns/counties, including the City and Town of Newburgh.
    - Indirect support via increased property values and a year-round tourist attraction that will drive traffic to local businesses.
- A major capital investment from a *tax-paying* entity is needed to revolutionize the business community here in the Town of Montgomery while reducing the tax burden on our residents.

Resorts World Hudson Valley will energize our local economy. We urge you to, please, grant Resorts World Orange County LLC the ability to re-build the local economy of Montgomery and the surrounding Hudson Valley area.

Sincerely,

J Stewart

- The resort will quickly transform Montgomery and the county into a bustling hub of economic activity that we have tried for years to create.
- Direct and indirect consistent economic support from Resorts World Hudson Valley:
    - Direct support via local use options for loyalty points, additional tax revenue, and jobs for residents of Montgomery and neighboring towns/counties, including the City and Town of Newburgh.
    - Indirect support via increased property values and a year-round tourist attraction that will drive traffic to local businesses.
- A major capital investment from a *tax-paying* entity is needed to revolutionize the business community here in the Town of Montgomery while reducing the tax burden on our residents.

Resorts World Hudson Valley will energize our local economy. We urge you to, please, grant Resorts World Orange County LLC the ability to re-build the local economy of Montgomery and the surrounding Hudson Valley area.

Sincerely,

Thomas Lindemann Jr

To Whom It May Concern,

I would like to submit this letter in support of the Resorts World Hudson Valley project that, with your support and approval, will be built in the Town of Montgomery.

As a business owner in Orange County, I know first-hand the challenges of a struggling local economy. We have made every effort to grow and expand our business, but success has been fleeting. We welcome the development of Resorts World Hudson Valley for the following reasons:

- Genting and Resorts World Orange County LLC have immense resources and are capable of making this project turnkey within two years with little disturbance to residents.
- The resort will quickly transform Montgomery and the county into a bustling hub of economic activity that we have tried for years to create.
- Direct and indirect consistent economic support from Resorts World Hudson Valley:
    - Direct support via local use options for loyalty points, additional tax revenue, and jobs for residents of Montgomery and neighboring towns/counties, including the City and Town of Newburgh.
    - Indirect support via increased property values and a year-round tourist attraction that will drive traffic to local businesses.
- A major capital investment from a *tax-paying* entity is needed to revolutionize the business community here in the Town of Montgomery while reducing the tax burden on our residents.

Resorts World Hudson Valley will energize our local economy. We urge you to, please, grant Resorts World Orange County LLC the ability to re-build the local economy of Montgomery and the surrounding Hudson Valley area.

SSG CHARLES DUSENBERRY, U.S. ARMY – K.I.A. APRIL 30, 1945
CPL ROBERT FLANNERY, U.S. ARMY – K.I.A. FEBRUARY 6, 1945

June 20, 2014

To whom it may concern;

I'm the commander of the Veterans of Foreign Wars Post 2064 in the Village of Maybrook, within the confounds of The Town of Montgomery. Our membership is over 400, including the Ladies auxiliary plus their families. I have received numerous responses from members in regards to the building of a casino in Montgomery. They are all in favor of building in this location knowing that it will help boost the economy, produce jobs and possibly return their Elementary school that unfortunately closed due to financial difficulties.

Two to three times per year, The VFW will host a trip to a casino out of state (Pennsylvania or Connecticut). The members often request that I have more trips to casinos during the summer. With a casino built in Montgomery, there will be many trips from the VFW as well as visits from their families.

I believe that building a casino will be mutually beneficial to both the community and casino management.

If your not thinking about Johnny's your mind is wandering.

Johnny's

My name is Harry Toromanides. I am a lifelong Orange County resident, a father of two, an employer of many and one of the founders of Johnny's. Johnny's locations are places where you can get a great breakfast sandwich at 6am and get award winning pizzas and wings at 11pm. and infinite things in between.

In our thirteen years in business we have seen Orange County become one of the most prosperous counties in the state. We have seen the birth of Orange County Choppers, the continued growth of the Woodbury Commons and a revitalized Newburgh waterfront. Orange County is home to some of the most beautiful places to live and work and it seems Orange County and Johnny's has caught the attention of casino developer Genting Inc.

We have made it a point to be a responsible member of our local community, having donated goods and services for various non-profit organizations and fundraisers whenever asked. It is in this spirit that we once again support the local community and its leaders in their efforts to welcome a casino to Orange County. While we look forward to the opportunity to grow our local brand to a larger audience inside a casino, meeting the community's needs is our number one priority. If a casino helps to reopen local schools, raises the community profile and creates vital jobs while respecting our way of life and the wishes of our neighbors I enthusiastically support the cause.

Sincerely,

Harry Toromanides

To Whom It May Concern,

I would like to submit this letter in support of the Resorts World Hudson Valley project that, with your support and approval, will be built in the Town of Montgomery.

As a business owner in Orange County, I know first-hand the challenges of a struggling local economy. We have made every effort to grow and expand our business, but success has been fleeting. We welcome the development of Resorts World Hudson Valley for the following reasons:

- Genting and Resorts World Orange County LLC have immense resources and are capable of making this project turnkey within two years with little disturbance to residents.
- The resort will quickly transform Montgomery and the county into a bustling hub of economic activity that we have tried for years to create.
- Direct and indirect consistent economic support from Resorts World Hudson Valley:
    - Direct support via local use options for loyalty points, additional tax revenue, and jobs for residents of Montgomery and neighboring towns/counties, including the City and Town of Newburgh.
    - Indirect support via increased property values and a year-round tourist attraction that will drive traffic to local businesses.
- A major capital investment from a *tax-paying* entity is needed to revolutionize the business community here in the Town of Montgomery while reducing the tax burden on our residents.

Resorts World Hudson Valley will energize our local economy. We urge you to, please, grant Resorts World Orange County LLC the ability to re-build the local economy of Montgomery and the surrounding Hudson Valley area.

Sincerely,

Business Name: DJ Ricco

To Whom It May Concern,

I would like to submit this letter in support of the Resorts World Hudson Valley project that, with your support and approval, will be built in the Town of Montgomery.

As a business owner in Orange County, I know first-hand the challenges of a struggling local economy. We have made every effort to grow and expand our business, but success has been fleeting. We welcome the development of Resorts World Hudson Valley for the following reasons:

- Genting and Resorts World Orange County LLC have immense resources and are capable of making this project turnkey within two years with little disturbance to residents.
- The resort will quickly transform Montgomery and the county into a bustling hub of economic activity that we have tried for years to create.
- Direct and indirect consistent economic support from Resorts World Hudson Valley:
    - Direct support via local use options for loyalty points, additional tax revenue, and jobs for residents of Montgomery and neighboring towns/counties, including the City and Town of Newburgh.
    - Indirect support via increased property values and a year-round tourist attraction that will drive traffic to local businesses.
- A major capital investment from a *tax-paying* entity is needed to revolutionize the business community here in the Town of Montgomery while reducing the tax burden on our residents.

Resorts World Hudson Valley will energize our local economy. We urge you to, please, grant Resorts World Orange County LLC the ability to re-build the local economy of Montgomery and the surrounding Hudson Valley area.

Sincerely,

Schenectady, N.Y. 12301-7500

To Whom It May Concern,

I am writing to you as a resident of Orange County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

Bruce Cohen — BRUCE COHEN

- Genting and Resorts World Orange County LLC have immense resources and are capable of making this project turnkey within two years with little disturbance to residents.
- The resort will quickly transform Montgomery and the county into a bustling hub of economic activity that we have tried for years to create.
- Direct and indirect consistent economic support from Resorts World Hudson Valley:
    - Direct support via local use options for loyalty points, additional tax revenue, and jobs for residents of Montgomery and neighboring towns/counties, including the City and Town of Newburgh.
    - Indirect support via increased property values and a year-round tourist attraction that will drive traffic to local businesses.
- A major capital investment from a *tax-paying* entity is needed to revolutionize the business community here in the Town of Montgomery while reducing the tax burden on our residents.

Resorts World Hudson Valley will energize our local economy. We urge you to, please, grant Resorts World Orange County LLC the ability to re-build the local economy of Montgomery and the surrounding Hudson Valley area.

Sincerely,

Amuzae, LLC

To Whom It May Concern,

I would like to submit this letter in support of the Resorts World Hudson Valley project that, with your support and approval, will be built in the Town of Montgomery.

As a business owner in Orange County, I know first-hand the challenges of a struggling local economy. We have made every effort to grow and expand our business, but success has been fleeting. We welcome the development of Resorts World Hudson Valley for the following reasons:

- Genting and Resorts World Orange County LLC have immense resources and are capable of making this project turnkey within two years with little disturbance to residents.
- The resort will quickly transform Montgomery and the county into a bustling hub of economic activity that we have tried for years to create.
- Direct and indirect consistent economic support from Resorts World Hudson Valley:
    - Direct support via local use options for loyalty points, additional tax revenue, and jobs for residents of Montgomery and neighboring towns/counties, including the City and Town of Newburgh.
    - Indirect support via increased property values and a year-round tourist attraction that will drive traffic to local businesses.
- A major capital investment from a *tax-paying* entity is needed to revolutionize the business community here in the Town of Montgomery while reducing the tax burden on our residents.

Resorts World Hudson Valley will energize our local economy. We urge you to, please, grant Resorts World Orange County LLC the ability to re-build the local economy of Montgomery and the surrounding Hudson Valley area.

Sincerely,

To Whom It May Concern,

I would like to submit this letter in support of the Resorts World Hudson Valley project that, with your support and approval, will be built in the Town of Montgomery.

As a business owner in Orange County, I know first-hand the challenges of a struggling local economy. We have made every effort to grow and expand our business, but success has been fleeting. We welcome the development of Resorts World Hudson Valley for the following reasons:

- Genting and Resorts World Orange County LLC have immense resources and are capable of making this project turnkey within two years with little disturbance to residents.
- The resort will quickly transform Montgomery and the county into a bustling hub of economic activity that we have tried for years to create.
- Direct and indirect consistent economic support from Resorts World Hudson Valley:
    - Direct support via local use options for loyalty points, additional tax revenue, and jobs for residents of Montgomery and neighboring towns/counties, including the City and Town of Newburgh.
    - Indirect support via increased property values and a year-round tourist attraction that will drive traffic to local businesses.
- A major capital investment from a *tax-paying* entity is needed to revolutionize the business community here in the Town of Montgomery while reducing the tax burden on our residents.

Resorts World Hudson Valley will energize our local economy. We urge you to, please, grant Resorts World Orange County LLC the ability to re-build the local economy of Montgomery and the surrounding Hudson Valley area.

Sincerely,

Joe Fix 175

    - Direct support via local use options for loyalty points, additional tax revenue,and jobs for residents of Montgomery and neighboring towns/counties, including the City and Town of Newburgh.
    - Indirect support via increased property values and a year-roundtourist attractionthat will drive traffic to local businesses.
- A major capital investment from a *tax-paying* entity is needed to revolutionize the business community here in the Town of Montgomery while reducing the tax burden on our residents.

Resorts World Hudson Valley will energize our local economy.We urge you to, please, grant Resorts World Orange County LLC the ability to re-build the local economy of Montgomery and the surrounding Hudson Valley area.

Sincerely,

Annes SoB17

To Whom It May Concern,

I would like to submit this letter in support of the Resorts World Hudson Valley project that, with your support and approval, will be built in the Town of Montgomery.

As a business owner in Orange County, I know first-hand the challenges of a struggling local economy. We have made every effort to grow and expand our business. but success hasbeen fleeting. We welcome the development of Resorts World Hudson Valley for the following reasons.

- Genting and Resorts World Orange County LLC have immense resources and are capable of making this project turnkey within two years with little disturbance to residents.
- The resort will quickly transform Montgomeryand the county into a bustling hub of economic activity that we have tried for years to create.
- Direct and indirectconsistent economic support from Resorts World Hudson Valley.
    - Direct support via local use options for loyalty points, additional tax revenue,and jobs for residents of Montgomery and neighboring towns/counties, including the City and Town of Newburgh.
    - Indirect support via increased property values and a year-roundtourist attractionthat will drive traffic to local businesses.
- A major capital investment from a *tax-paying* entity is needed to revolutionize the business community here in the Town of Montgomery while reducing the tax burden on our residents.

Resorts World Hudson Valley will energize our local economy.We urge you to, please, grant Resorts World Orange County LLC the ability to re-build the local economy of Montgomery and the surrounding Hudson Valley area.

New York Gaming Facility Location Board
C/O New York State Gaming Commission
P.O. Box 7500
Schenectady, N.Y. 12301-7500

To Whom It May Concern,

I am writing to you as a resident of Orange County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

To Whom it May Concern,

I would like to submit this letter in support of the Resorts World Hudson Valley project that, with your support and approval, will be built in the Town of Montgomery.

As a business owner in Orange County, I know first-hand the challenges of a struggling local economy. We have made every effort to grow and expand our business, but success has been fleeting. We welcome the development of Resorts World Hudson Valley for the following reasons:

- Genting and Resorts World Orange County LLC have immense resources and are capable of making this project turnkey within two years with little disturbance to residents.
- The resort will quickly transform Montgomery and the county into a bustling hub of economic activity that we have tried for years to create.
- Direct and indirect consistent economic support from Resorts World Hudson Valley:
    - Direct support via local use options for loyalty points, additional tax revenue, and jobs for residents of Montgomery and neighboring towns/counties, including the City and Town of Newburgh.
    - Indirect support via increased property values and a year-round tourist attraction that will drive traffic to local businesses.
- A major capital investment from a *tax-paying* entity is needed to revolutionize the business community here in the Town of Montgomery while reducing the tax burden on our residents.

Resorts World Hudson Valley will energize our local economy. We urge you to, please, grant Resorts World Orange County LLC the ability to re-build the local economy of Montgomery and the surrounding Hudson Valley area.

Sincerely,

Monica Pennings

June 26, 2014

RW Hudson Valley, LLC
110-00 Rockaway Blvd
Jamaica, NY 11420

To whom it may concern:

Pennings Visions was established in 2007 as the first commercial flex office space building build on 17K west, the gateway to Montgomery since the zone changing to allow multiple uses using the most traveled visible entrances into Montgomery.

With the state curb cut for ease of access to adjacent properties our property offers immediate access to south, east and west industrial lots.

With 14600 square foot of missed use to include 3800 of class A office space. Our properties can be used in a mix of ways to include, small warehouse, machine fabrication and auto maintenance and repair. Our lot has an approved 2000 sqft building that can be put up for mixed storage use as well.
Should you need temporary office space please call.

Best regards,

Chris Pennings

Christopher Jacobs Winery at Pennings Vineyards

Taste the Traditions of the Hudson River Region

June 26, 2014

RW Hudson Valley, LLC
110-00 Rockaway Blvd
Jamaica, NY 11420

To whom it may concern:

Christopher Jacobs Winery started planting its vineyard in 2006. The Chris and Monica Pennings along with their children Christopher and Jacob are 3rd and 4th generation Orange County Farmers.

We offer our facilities for events and will be looking at a bed and breakfast in 2015. We would very much like to be part of RW Hudson Valleys vendor program to offer excursions that can be catered on site or just visits to our vineyard for tastings and a wonderful taste of what the Hudson Valley region has to offer with rich agriculture and farmlands.

Thank you for this opportunity to be part of what would be a huge resurgence of entertainment and tourisim industry for our county.

Regards,

Chris & Monica Pennings

- Direct and indirect consistent economic support from Resorts World Hudson Valley:
    - Direct support via local use options for loyalty points, additional tax revenue, and jobs for residents of Montgomery and neighboring towns/counties, including the City and Town of Newburgh.
    - Indirect support via increased property values and a year-round tourist attraction that will drive traffic to local businesses.
- A major capital investment from a *tax-paying* entity is needed to revolutionize the business community here in the Town of Montgomery while reducing the tax burden on our residents.

Resorts World Hudson Valley will energize our local economy. We urge you to, please, grant Resorts World Orange County LLC the ability to re-build the local economy of Montgomery and the surrounding Hudson Valley area.

Sincerely,

To Whom It May Concern,

I would like to submit this letter in support of the Resorts World Hudson Valley project that, with your support and approval, will be built in the Town of Montgomery.

As a business owner in Orange County, I know first-hand the challenges of a struggling local economy. We have made every effort to grow and expand our business, but success has been fleeting. We welcome the development of Resorts World Hudson Valley for the following reasons:

- Genting and Resorts World Orange County LLC have immense resources and are capable of making this project turnkey within two years with little disturbance to residents.
- The resort will quickly transform Montgomery and the county into a bustling hub of economic activity that we have tried for years to create.
- Direct and indirect consistent economic support from Resorts World Hudson Valley:
  - Direct support via local use options for loyalty points, additional tax revenue, and jobs for residents of Montgomery and neighboring towns/counties, including the City and Town of Newburgh.
  - Indirect support via increased property values and a year-round tourist attraction that will drive traffic to local businesses.
- A major capital investment from a *tax-paying* entity is needed to revolutionize the business community here in the Town of Montgomery while reducing the tax burden on our residents.

Resorts World Hudson Valley will energize our local economy. We urge you to, please, grant Resorts World Orange County LLC the ability to re-build the local economy of Montgomery and the surrounding Hudson Valley area.

- The resort will quickly transform Montgomery and the county into a bustling hub of economic activity that we have tried for years to create.
- Direct and indirect consistent economic support from Resorts World Hudson Valley:
    - Direct support via local use options for loyalty points, additional tax revenue, and jobs for residents of Montgomery and neighboring towns/counties, including the City and Town of Newburgh.
    - Indirect support via increased property values and a year-round tourist attraction that will drive traffic to local businesses.
- A major capital investment from a *tax-paying* entity is needed to revolutionize the business community here in the Town of Montgomery while reducing the tax burden on our residents.

Resorts World Hudson Valley will energize our local economy. We urge you to, please, grant Resorts World Orange County LLC the ability to re-build the local economy of Montgomery and the surrounding Hudson Valley area.

Sincerely,

Richard Vogt

To Whom It May Concern,

I would like to submit this letter in support of the Resorts World Hudson Valley project that, with your support and approval, will be built in the Town of Montgomery.

As a business owner in Orange County, I know first-hand the challenges of a struggling local economy. We have made every effort to grow and expand our business, but success has been fleeting. We welcome the development of Resorts World Hudson Valley for the following reasons:

- Genting and Resorts World Orange County LLC have immense resources and are capable of making this project turnkey within two years with little disturbance to residents.
- The resort will quickly transform Montgomery and the county into a bustling hub of economic activity that we have tried for years to create.
- Direct and indirect consistent economic support from Resorts World Hudson Valley:
    - Direct support via local use options for loyalty points, additional tax revenue, and jobs for residents of Montgomery and neighboring towns/counties, including the City and Town of Newburgh.
    - Indirect support via increased property values and a year-round tourist attraction that will drive traffic to local businesses.
- A major capital investment from a *tax-paying* entity is needed to revolutionize the business community here in the Town of Montgomery while reducing the tax burden on our residents.

Resorts World Hudson Valley will energize our local economy. We urge you to, please, grant Resorts World Orange County LLC the ability to re-build the local economy of Montgomery and the surrounding Hudson Valley area.

I would like to submit this letter in support of the Resorts World Hudson Valley project that, with your support and approval, will be built in the Town of Montgomery.

As a business owner in Orange County, I know first-hand the challenges of a struggling local economy. We have made every effort to grow and expand our business, but success has been fleeting. We welcome the development of Resorts World Hudson Valley for the following reasons:

- Genting and Resorts World Orange County LLC have immense resources and are capable of making this project turnkey within two years with little disturbance to residents.
- The resort will quickly transform Montgomery and the county into a bustling hub of economic activity that we have tried for years to create.
- Direct and indirect consistent economic support from Resorts World Hudson Valley:
    - Direct support via local use options for loyalty points, additional tax revenue, and jobs for residents of Montgomery and neighboring towns/counties, including the City and Town of Newburgh.
    - Indirect support via increased property values and a year-round tourist attraction that will drive traffic to local businesses.
- A major capital investment from a *tax-paying* entity is needed to revolutionize the business community here in the Town of Montgomery while reducing the tax burden on our residents.

Resorts World Hudson Valley will energize our local economy. We urge you to, please, grant Resorts World Orange County LLC the ability to re-build the local economy of Montgomery and the surrounding Hudson Valley area.

Sincerely,

AnnMarie Tasaro

PO Box 7500
Schenectady, NY 12301-7500

To Whom It May Concern,

I would like to submit this letter in support of the Resorts World Hudson Valley project that, with your support and approval, will be built in the Town of Montgomery.

As a business owner in Orange County, I know first-hand the challenges of a struggling local economy. We have made every effort to grow and expand our business, but success has been fleeting. We welcome the development of Resorts World Hudson Valley for the following reasons:

- Genting and Resorts World Orange County LLC have immense resources and are capable of making this project turnkey within two years with little disturbance to residents.
- The resort will quickly transform Montgomery and the county into a bustling hub of economic activity that we have tried for years to create.
- Direct and indirect consistent economic support from Resorts World Hudson Valley:
    - Direct support via local use options for loyalty points, additional tax revenue, and jobs for residents of Montgomery and neighboring towns/counties, including the City and Town of Newburgh.
    - Indirect support via increased property values and a year-round tourist attraction that will drive traffic to local businesses.
- A major capital investment from a *tax-paying* entity is needed to revolutionize the business community here in the Town of Montgomery while reducing the tax burden on our residents.

Resorts World Hudson Valley will energize our local economy. We urge you to, please, grant Resorts World Orange County LLC the ability to re-build the local economy of Montgomery and the surrounding Hudson Valley area.

Sincerely,

CC1

  - Direct support via local use options for loyalty points, additional tax revenue, and jobs for residents of Montgomery and neighboring towns/counties, including the City and Town of Newburgh.
  - Indirect support via increased property values and a year-round tourist attraction that will drive traffic to local businesses.
- A major capital investment from a *tax-paying* entity is needed to revolutionize the business community here in the Town of Montgomery while reducing the tax burden on our residents.

Resorts World Hudson Valley will energize our local economy. We urge you to, please, grant Resorts World Orange County LLC the ability to re-build the local economy of Montgomery and the surrounding Hudson Valley area. This investment is for our children as much as its for ourselves.

Sincerely,

To Whom it May Concern,

I would like to submit this letter in support of the Resorts World Hudson Valley project that, with your support and approval, will be built in the Town of Montgomery.

As a business owner in Orange County, I know first-hand the challenges of a struggling local economy. We have made every effort to grow and expand our business, but success has been fleeting. We welcome the development of Resorts World Hudson Valley for the following reasons:

- Genting and Resorts World Orange County LLC have immense resources and are capable of making this project turnkey within two years with little disturbance to residents.
- The resort will quickly transform Montgomery and the county into a bustling hub of economic activity that we have tried for years to create.
- Direct and indirect consistent economic support from Resorts World Hudson Valley:
    - Direct support via local use options for loyalty points, additional tax revenue, and jobs for residents of Montgomery and neighboring towns/counties, including the City and Town of Newburgh.
    - Indirect support via increased property values and a year-round tourist attraction that will drive traffic to local businesses.
- A major capital investment from a *tax-paying* entity is needed to revolutionize the business community here in the Town of Montgomery while reducing the tax burden on our residents.

Resorts World Hudson Valley will energize our local economy. We urge you to, please, grant Resorts World Orange County LLC the ability to re-build the local economy of Montgomery and the surrounding Hudson Valley area.

Sincerely,

Robert Brehaut

P.O. Box 7500
Schenectady, N.Y. 12301-7500

To Whom It May Concern,

I am writing to you as a resident of Orange County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

Dear Chairman Gearan and Commissioners:

I am writing to you as a business owner who continues to invest in the Town of Montgomery NY and I am personally reaching out to express my own support for the proposed Resorts World Hudson Valley Resort project, and I wanted to discuss why we must to bring this project to Montgomery.

In short: We can't afford not to.

We have seen businesses leave our town, and jobs lost. The loss of these jobs has hurt me and my business. It has forced me to consider cutbacks or raising prices on the backs of the residents of Montgomery. This will drive up everyone's cost of living. Our tax base is eroding, and our local governments are cutting services, our schools are laying off teachers and we can no longer afford maintain the quality of life that so many speak of.

This casino project will bring 2,500 new jobs to our town which will only generate economic activity for our town and add to the customer base that I so desperately need.

Our county has seen its tax based erode recently in our area compounding our precarious budget situation. With the addition of this project, the tax base of our area will be increased. This means we could add revenue to the town without raising taxes on our residents. Moreover, the schools in our surrounding area will see a much needed increase in revenue with the addition of few if any new students which means no new costs. That is "win-win" for everyone.

The Genting Corporation has a history of being a great corporate citizen wherever they operate, and in fact, they are bringing their popular rewards points program to the area as well. In other words, we will have a partner and not a competitor. As you already know, the Genting Corporation is a well-capitalized organization whose own Resorts World New York in Queens has already generated nearly $1 billion for New York State in just a few short years. Resorts World is an oasis in Southeast Queens and is a strong part of the fabric of that community.

But that is not all. Resorts World Hudson Valley will plan and build - at its own cost - Exit 5B off of I-84 into the resort with the approvals from all Federal, State, County and Town. This new exit will come with no cost to the community and alleviate any heavy traffic driving on Rt. 747 and Rt. 17K. Genting's commitment to undertake this project indicates that they plan to help revitalize every business and the entire region.

This project will sustain this area and transform Orange County into a world class destination for residents of Northern New Jersey as well as New York City. I look forward to working with you and discussing this matter further. Please do not hesitate to call on me for any help or assistance you may need.

Best,

Thomas Manza

To Whom It May Concern,

I would like to submit this letter in support of the Resorts World Hudson Valley project that, with your support and approval, will be built in the Town of Montgomery. / TUXEDO

As a business owner in Orange County, I know first-hand the challenges of a struggling local economy. We have made every effort to grow and expand our business, but success has been fleeting. We welcome the development of Resorts World Hudson Valley for the following reasons:

- Genting and Resorts World Orange County LLC have immense resources and are capable of making this project turnkey within two years with little disturbance to residents.
- The resort will quickly transform Montgomery and the county into a bustling hub of economic activity that we have tried for years to create.
- Direct and indirect consistent economic support from Resorts World Hudson Valley:
    - Direct support via local use options for loyalty points, additional tax revenue, and jobs for residents of Montgomery and neighboring towns/counties, including the City and Town of Newburgh.
    - Indirect support via increased property values and a year-round tourist attraction that will drive traffic to local businesses.
- A major capital investment from a *tax-paying* entity is needed to revolutionize the business community here in the Town of Montgomery while reducing the tax burden on our residents.

Resorts World Hudson Valley will energize our local economy. We urge you to, please, grant Resorts World Orange County LLC the ability to re-build the local economy of Montgomery and the surrounding Hudson Valley area.

June 23, 2014

New York Gaming Facility Location Board
C/O New York State Gaming Commission
PO Box 7500
Schenectady, NY 12301-7500

To Whom It May Concern,

I am writing to you as a resident of Orange County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Our Firm **Myles Financial Services** a business organization with its own wealth management firm **Myles Wealth Management;** feel that the whole economy will be uplifted with this new Resort. The new Jobs with the beneficial effect in the increased values of Real estate will greatly benefit the

whole **Hudson Valley Region.** *"A rising tide raises all ships"* and after 37 years in business in Orange County and many hundreds of influential clients who are of like mind with us on the prospects of Genting obtaining approval of its proposal for Tuxedo Ridge resort. We are solidly behind this Venture.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Yours sincerely,

M. Vincent Mezzetti CLU

To Whom it May Concern,

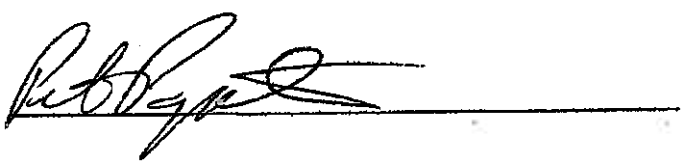
I would like to submit this letter in support of the Resorts World Hudson Valley project that, with your support and approval, will be built in the Town of Montgomery.

As a business owner in Orange County, I know first-hand the challenges of a struggling local economy. We have made every effort to grow and expand our business, but success has been fleeting. We welcome the development of Resorts World Hudson Valley for the following reasons:

- Genting and Resorts World Orange County LLC have immense resources and are capable of making this project turnkey within two years with little disturbance to residents.
- The resort will quickly transform Montgomery and the county into a bustling hub of economic activity that we have tried for years to create.
- Direct and indirect consistent economic support from Resorts World Hudson Valley:
    - Direct support via local use options for loyalty points, additional tax revenue, and jobs for residents of Montgomery and neighboring towns/counties, including the City and Town of Newburgh.
    - Indirect support via increased property values and a year-round tourist attraction that will drive traffic to local businesses.
- A major capital investment from a *tax-paying* entity is needed to revolutionize the business community here in the Town of Montgomery while reducing the tax burden on our residents.

Resorts World Hudson Valley will energize our local economy. We urge you to, please, grant Resorts World Orange County LLC the ability to re-build the local economy of Montgomery and the surrounding Hudson Valley area.

Sincerely,



Business Name: AFFORDABLE AUTO

To Whom it May Concern,

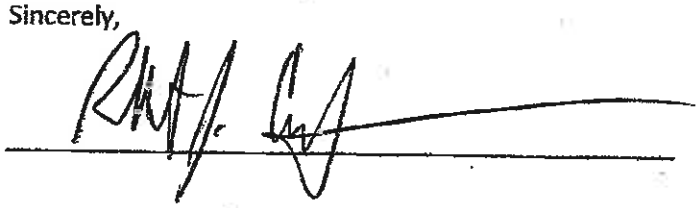
I would like to submit this letter in support of the Resorts World Hudson Valley project that, with your support and approval, will be built in the Town of Montgomery.

As a business owner in Orange County, I know first-hand the challenges of a struggling local economy. We have made every effort to grow and expand our business, but success has been fleeting. We welcome the development of Resorts World Hudson Valley for the following reasons:

- Genting and Resorts World Orange County LLC have immense resources and are capable of making this project turnkey within two years with little disturbance to residents.
- The resort will quickly transform Montgomery and the county into a bustling hub of economic activity that we have tried for years to create.
- Direct and indirect consistent economic support from Resorts World Hudson Valley:
    - Direct support via local use options for loyalty points, additional tax revenue, and jobs for residents of Montgomery and neighboring towns/counties, including the City and Town of Newburgh.
    - Indirect support via increased property values and a year-round tourist attraction that will drive traffic to local businesses.
- A major capital investment from a *tax-paying* entity is needed to revolutionize the business community here in the Town of Montgomery while reducing the tax burden on our residents.

Resorts World Hudson Valley will energize our local economy. We urge you to, please, grant Resorts World Orange County LLC the ability to re-build the local economy of Montgomery and the surrounding Hudson Valley area.

Sincerely,



Business Name: Bonagura Builders

    - Indirect support via increased property values and a year-round tourist attraction that will drive traffic to local businesses.
- A major capital investment from a *tax-paying* entity is needed to revolutionize the business community here in the Town of Montgomery while reducing the tax burden on our residents.

Resorts World Hudson Valley will energize our local economy. We urge you to, please, grant Resorts World Orange County LLC the ability to re-build the local economy of Montgomery and the surrounding Hudson Valley area.

Sincerely,

June 18, 2014

To Whom It May Concern,
I would like to submit this letter in support of the Resorts World Hudson Valley project that, with your support and approval, will be built in the Town of Montgomery.

As a Montgomery business owner, I know first-hand the challenges of a struggling local economy. We have made every effort to grow and expand our business, but success has been fleeting. We welcome the development of Resorts World Hudson Valley for the following reasons:

- Genting and Resorts World Orange County LLC have immense resources and are capable of making this project turnkey within two years with little disturbance to residents.
- The resort will quickly transform Montgomery and the surrounding area into a bustling hub of economic activity that we have tried for years to create.
- Direct and indirect consistent economic support from Resorts World Hudson Valley:
    - Direct support via local use options for loyalty points, additional tax revenue, and jobs for residents of Montgomery and neighboring towns/counties, including the City and Town of Newburgh.
    - Indirect support via increased property values and a year-round tourist attraction that will drive traffic to local businesses.
- A major capital investment from a *tax-paying* entity is needed to revolutionize the business community here in the Town of Montgomery while reducing the tax burden on our residents.

Resorts World Hudson Valley will energize our local economy. We urge you to, please, grant Resorts World Orange County LLC the ability to re-build the local economy of Montgomery and the surrounding Hudson Valley area.

Sincerely,

Margarita Alvarez

To Whom It May Concern,

I would like to submit this letter in support of the Resorts World Hudson Valley project that, with your support and approval, will be built in the Town of Montgomery.

As a business owner in Orange County, I know first-hand the challenges of a struggling local economy. We have made every effort to grow and expand our business, but success has been fleeting. We welcome the development of Resorts World Hudson Valley for the following reasons:

- Genting and Resorts World Orange County LLC have immense resources and are capable of making this project turnkey within two years with little disturbance to residents.
- The resort will quickly transform Montgomery and the county into a bustling hub of economic activity that we have tried for years to create.
- Direct and indirect consistent economic support from Resorts World Hudson Valley:
    - Direct support via local use options for loyalty points, additional tax revenue, and jobs for residents of Montgomery and neighboring towns/counties, including the City and Town of Newburgh.
    - Indirect support via increased property values and a year-round tourist attraction that will drive traffic to local businesses.
- A major capital investment from a *tax-paying* entity is needed to revolutionize the business community here in the Town of Montgomery while reducing the tax burden on our residents.

Resorts World Hudson Valley will energize our local economy. We urge you to, please, grant Resorts World Orange County LLC the ability to re-build the local economy of Montgomery and the surrounding Hudson Valley area.

To Whom It May Concern,

I am writing to you as a resident of Orange County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

To Whom It May Concern,

I am writing to you as a resident of Orange County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

To Whom It May Concern,

I am writing to you as a resident of Orange County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

To Whom It May Concern,

I am writing to you as a resident of Orange County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

Kaitlin Decley

To Whom It May Concern,

I am writing to you as a resident of Orange County who deeply cares about our community and economy here, and I would like to personaliy express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

To Whom It May Concern,

I am writing to you as a resident of Orange County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

To Whom It May Concern,

I am writing to you as a resident of Orange County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

I would like to personally express my support for the proposed Resorts World Hudson Valley project in the Town of Montgomery. I believe we have a once in a lifetime opportunity here to drastically improve our town, as well as the surrounding area. We urge the New York State Gaming Commission to grant Resorts World Hudson Valley a license to operate in our community and enhance our economic growth.

To Whom It May Concern,

I am writing to you as a resident of Orange County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

Donald DeGroat DONALD DEGROAT

To Whom It May Concern,

I would like to submit this letter in support of the Resorts World Hudson Valley project that, with your support and approval, will be built in the Town of Montgomery.

As a business owner in Orange County, I know first-hand the challenges of a struggling local economy. We have made every effort to grow and expand our business, but success has been fleeting. We welcome the development of Resorts World Hudson Valley for the following reasons:

- Genting and Resorts World Orange County LLC have immense resources and are capable of making this project turnkey within two years with little disturbance to residents.
- The resort will quickly transform Montgomery and the county into a bustling hub of economic activity that we have tried for years to create.
- Direct and indirect consistent economic support from Resorts World Hudson Valley:
    - Direct support via local use options for loyalty points, additional tax revenue, and jobs for residents of Montgomery and neighboring towns/counties, including the City and Town of Newburgh.
    - Indirect support via increased property values and a year-round tourist attraction that will drive traffic to local businesses.
- A major capital investment from a *tax-paying* entity is needed to revolutionize the business community here in the Town of Montgomery while reducing the tax burden on our residents.

Resorts World Hudson Valley will energize our local economy. We urge you to, please, grant Resorts World Orange County LLC the ability to re-build the local economy of Montgomery and the surrounding Hudson Valley area.

Sincerely,

CHEZ Kenia

I am writing to you as a resident of Orange County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

To Whom It May Concern,

I am writing to you as a resident of Orange County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

Claude D. DuBois — Claude D. DuBois

To Whom It May Concern,

I am writing to you as a resident of Orange County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

Marco Silvis

To Whom it May Concern,

I am writing to you as a resident of Orange County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area then slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

To Whom It May Concern,

I am writing to you as a resident of Orange County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

To Whom it May Concern,

I am writing to you as a resident of Orange County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy, we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

To Whom It May Concern,

I am writing to you as a resident of Orange County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

James Miller

To Whom It May Concern,

I am writing to you as a resident of Orange County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

Jazmell C. Boone — Jazmell Boone

To Whom It May Concern,

I am writing to you as a resident of Orange County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. To Whom It May Concern,

I am writing to you as a resident of Orange County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

Gail DiMartino

I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

To Whom It May Concern,

I am writing to you as a resident of Orange County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

To Whom It May Concern,

I am writing to you as a resident of Orange County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

Rachael Liy

To Whom It May Concern,

I am writing to you as a resident of Orange County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

Bruce Lott

To Whom It May Concern,

I am writing to you as a resident of ~~Orange~~ Sullivan County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

To Whom It May Concern,

I am writing to you as a resident of Orange County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best, Nancy Orndorff

To Whom It May Concern,

I am writing to you as a resident of Orange County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

Gianna Magliati — Gianna Gagliotti

June 19, 2014

New York Gaming Facility Location Board
C/O New York State Gaming Commission
P.O. Box 7500
Schenectady, N.Y. 12301-7500

To Whom It May Concern,

I am writing to you as a resident of Orange County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

To Whom It May Concern,

I am writing to you as a resident of Orange County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages'small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

To Whom It May Concern,

I am writing to you as a resident of Orange County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting inhundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy: we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

To Whom It May Concern,

I am writing to you as a resident of Orange County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Schenectady, NY 12301-7500

To Whom It May Concern,

I am writing to you as a resident of Orange County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

Over the last several decades, we have seen businesses and investment leave our town, resulting inhundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy, we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

To Whom It May Concern,

I am writing to you as a resident of Orange County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

To Whom It May Concern,

I am writing to you as a resident of Orange County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

To Whom It May Concern,

I am writing to you as a resident of Orange County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

To Whom It May Concern,

I am writing to you as a resident of Orange County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

To Whom It May Concern,

I am writing to you as a resident of Orange County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

To Whom It May Concern,

I am writing to you as a resident of Orange County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

To Whom It May Concern,

I am writing to you as a resident of Orange County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

This project will benefit the Hudson Valley & state at large. I support Resorts World Hudson Valley for a variety of reasons, economically, for the exposure our region needs & for the obvious growth & partnership with local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Montgomery as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

Paul Chiochiolo

To Whom It May Concern,

I am writing to you as a resident of the Town of Montgomery who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Montgomery as well.

Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

To Whom It May Concern,

I am writing to you as a resident of Orange County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

To Whom It May Concern,

I am writing to you as a resident of Orange County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

Derek Messing

I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

To Whom It May Concern,

I am writing to you as a resident of Orange County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

To Whom It May Concern,

I am writing to you as a resident of Orange County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

To Whom It May Concern,

I am writing to you as a resident of Orange County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

To Whom It May Concern,

I am writing to you as a resident of Orange County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

Schenectady, N.Y. 12301-7500

To Whom It May Concern,

I am writing to you as a resident of Orange County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

To Whom It May Concern,

I am writing to you as a resident of Orange County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

To Whom It May Concern,

I am writing to you as a resident of Orange County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

To Whom It May Concern,

I am writing to you as a resident of Orange County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

Schenectady, N.Y. 12301-7500

To Whom It May Concern,

I am writing to you as a resident of Orange County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

To Whom It May Concern,

I am writing to you as a resident of Orange County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

To Whom It May Concern,

I am writing to you as a resident of Orange County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

Silvia Martinez

To Whom It May Concern,

I am writing to you as a resident of Orange County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

To Whom It May Concern,

I am writing to you as a resident of Orange County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

Valerie Wojcik

I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

To Whom It May Concern,

I am writing to you as a resident of Orange County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best, Frank R. Arnodio II Frank R Arnodio II

To Whom It May Concern,

I am writing to you as a resident of Orange County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

brings jobs to local residents.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

To Whom It May Concern,

I am writing to you as a resident of ~~Orange~~ Sullivan County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

Roberto Morrison

To Whom It May Concern,

I am writing to you as a resident of Orange County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. To Whom It May Concern,

I am writing to you as a resident of Orange County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

To Whom It May Concern,

I am writing to you as a resident of Orange County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

Charles D. Koehler

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

To Whom It May Concern,

I am writing to you as a resident of Orange County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

To Whom It May Concern,

I am writing to you as a resident of Orange County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding. our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

To Whom It May Concern,

I am writing to you as a resident of Orange County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

I Support Local hiring & Job opportunities much needed as well as the boost to Stewart Airport.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

Bonnie H. Glazier

To Whom It May Concern,

I am writing to you as a resident of Orange County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

Patricia Brown — PATRICIA BROWN

To Whom It May Concern,

I am writing to you as a resident of ~~Orange~~ Ulster County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. To Whom It May Concern,

I am writing to you as a resident of ~~Orange County~~ Lehigh who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

Jennifer Irwin — Jennifer Irwin

To Whom It May Concern,

I am writing to you as a resident of Orange County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

To Whom It May Concern,

I am writing to you as a resident of Orange County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

Alicia Kassel — 6/25/14

To Whom It May Concern,

I am writing to you as a resident of Orange County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

To Whom It May Concern,

I am writing to you as a resident of Orange County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

To Whom It May Concern,

I am writing to you as a resident of Orange County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

To Whom It May Concern,

I am writing to you as a resident of Orange County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

It's imperative to grow and bring these casinos into the area. We need the jobs and the revenue to help boost the local economy.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

To Whom It May Concern,

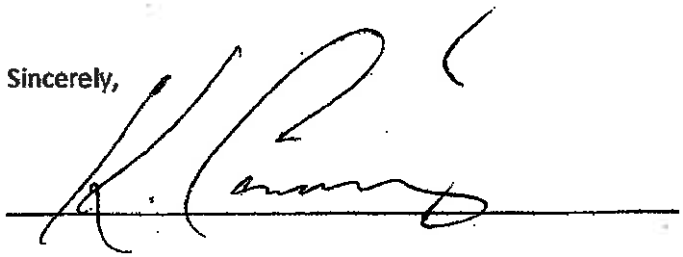
I would like to submit this letter in support of the Resorts World Hudson Valley project that, with your support and approval, will be built in the Town of Montgomery.

As a business owner in Orange County, I know first-hand the challenges of a struggling local economy. We have made every effort to grow and expand our business, but success has been fleeting. We welcome the development of Resorts World Hudson Valley for the following reasons:

- Genting and Resorts World Orange County LLC have immense resources and are capable of making this project turnkey within two years with little disturbance to residents.
- The resort will quickly transform Montgomery and the county into a bustling hub of economic activity that we have tried for years to create.
- Direct and indirect consistent economic support from Resorts World Hudson Valley:
    - Direct support via local use options for loyalty points, additional tax revenue, and jobs for residents of Montgomery and neighboring towns/counties, including the City and Town of Newburgh.
    - Indirect support via increased property values and a year-round tourist attraction that will drive traffic to local businesses.
- A major capital investment from a *tax-paying* entity is needed to revolutionize the business community here in the Town of Montgomery while reducing the tax burden on our residents.

Resorts World Hudson Valley will energize our local economy. We urge you to, please, grant Resorts World Orange County LLC the ability to re-build the local economy of Montgomery and the surrounding Hudson Valley area.

Sincerely,



June 19, 2014

I am writing to you as a resident of Orange County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages'small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

[signature] Ronald S. Fail

To Whom It May Concern,

I am writing to you as a resident of Orange County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting inhundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy, we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best, Edwina E. Wulff

To Whom It May Concern,

I am writing to you as a resident of Orange County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

To Whom It May Concern,

I am writing to you as a resident of Orange County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. To Whom It May Concern,

I am writing to you as a resident of Orange County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

Cheryl Hankin

To Whom It May Concern,

I am writing to you as a resident of Orange County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

Schenectady, N.Y. 12301-7500

To Whom It May Concern,

I am writing to you as a resident of Orange County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Please be conscious of the unemployment rate in the city of NEWBURGH AND TRAIN AND EMPLOY AND BE SINCERE IN YOUR EFFORTS TO GENERATE THE LOCAL ECONOM

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

To Whom It May Concern,

I am writing to you as a resident of Orange County who cares deeply about our local community and economy. I would like to personally voice support for the proposed Resorts World Hudson Valley project. I believe we have a unique and rare opportunity here to drastically improve our county.

Over our recent history, we have seen businesses and investment leave our area, resulting in hundreds of jobs lost. This has cut our tax base, causing fewer contributors to now shoulder even more of the tax burden. With the eroding tax base, our local governments are cutting services, our schools are laying off teachers and have been forced to increase class size. Programs such as after school tutoring, sports, and even kindergarten are now in jeopardy. Unfortunately it seems that it is increasingly difficult to maintain the quality of life that so many of us moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying permanent jobs to our county and surrounding areas, millions for the town and villages' budgets, millions for local school districts, and millions in economic activity for our local businesses.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to the approval of this casino. Please do not hesitate to call on me with any questions.

Thank you,

Scott Perry

To Whom It May Concern,

I am writing to you as a resident of Orange County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know, the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,

To Whom It May Concern,

I am writing to you as a resident of Orange County who deeply cares about our community and economy here, and I would like to personally express my support for the proposed Resorts World Hudson Valley project. I believe we have a one in a lifetime opportunity here to drastically improve our town, as well as the surrounding towns.

Over the last several decades, we have seen businesses and investment leave our town, resulting in hundreds of jobs lost. This has driven up everyone's cost of living in the surrounding area as fewer now have to pay more. Our tax base is eroding, our local governments are cutting services, our schools are laying off librarians and kindergarten is even in jeopardy; we can no longer afford to maintain the quality of life that so many moved here for.

This resort-casino project will bring so much more to our area than slot machines. It will bring over 2,500 well-paying new jobs to our town and surrounding areas, millions for the town and villages' small budgets, millions for our school district and millions in economic activity for our local businesses.

Resorts World Hudson Valley would provide a voice to the farmers and culinarians that are making the Hudson Valley a premier location for food, travel, and sightseeing in the entire Northeast. For years now this area has been providing products to the entire northeast without a bit of recognition. Many of the top restaurants in New York City, Boston, and Philadelphia use the amazing bounty that is produced here locally with little or no recognition. With the platform that Resorts Hudson Valley is bringing to the community a lot of these farmers would be given the opportunity and means to showcase their product and also improve their product with the added revenues the resort would provide.

Resorts World Hudson Valley would nearly double our town's tax revenues. This means we could add resources to the town without raising taxes on our residents. Moreover, the schools in Valley Central School District will see a much-needed increase in revenue that will finally allow our school taxes to be reigned in and programs to be restored.

The Genting Group has a history of being a great corporate citizen wherever they operate. We will have a partner in our community, not a competitor. As you already know,

the Genting Group is a well-capitalized organization. Their Resorts World Casino New York City in Queens has already generated over $1 billion for New York State in just a few short years. Resorts World is a strong part of the fabric of that community, and I am confident they would be a contributing member of our community here in Orange County as well.

I look forward to working with you and discussing this matter further. Please do not hesitate to call on me with any questions or assistance you may need.

Best,
