Dear Shareholder,

The year 2009 was for Entertainment Properties Trust the same as it was for the economy in general; the most volatile and painful in our, the Company's, lifetime. Proudly though we can also say it was a year of **proof and progress** that sets the stage for future prosperity.

UNPRECEDENTED MARKET TURMOIL

The market dislocation and retrenchment in 2009 was seismic. The extent of capital market losses, reductions in transaction volumes and failures of banks and financial intermediaries was unprecedented since the Great Depression of 75 years prior. EPR experienced interruptions of earnings recognition and cash flows such that we were forced for the first time in our 13 year history to see earnings and dividends per share fall. Importantly, our issues were isolated to a few investments, not systemic in our portfolio, and the reductions were largely consistent with the downside guidance we gave in the first quarter, minimizing surprises.

EPR's share price fell by over 50% in the first 3 months of the year and then recovered, more than tripling from the low by year end. Unlike many other REITs, EPR continued to pay a cash dividend every quarter of the year. Although reduced nearly a quarter from the prior year it was over a 10% yield on the average closing price and part of a total shareholder return of greater than 30% for the year. Our share price recovery was driven by several strengths.

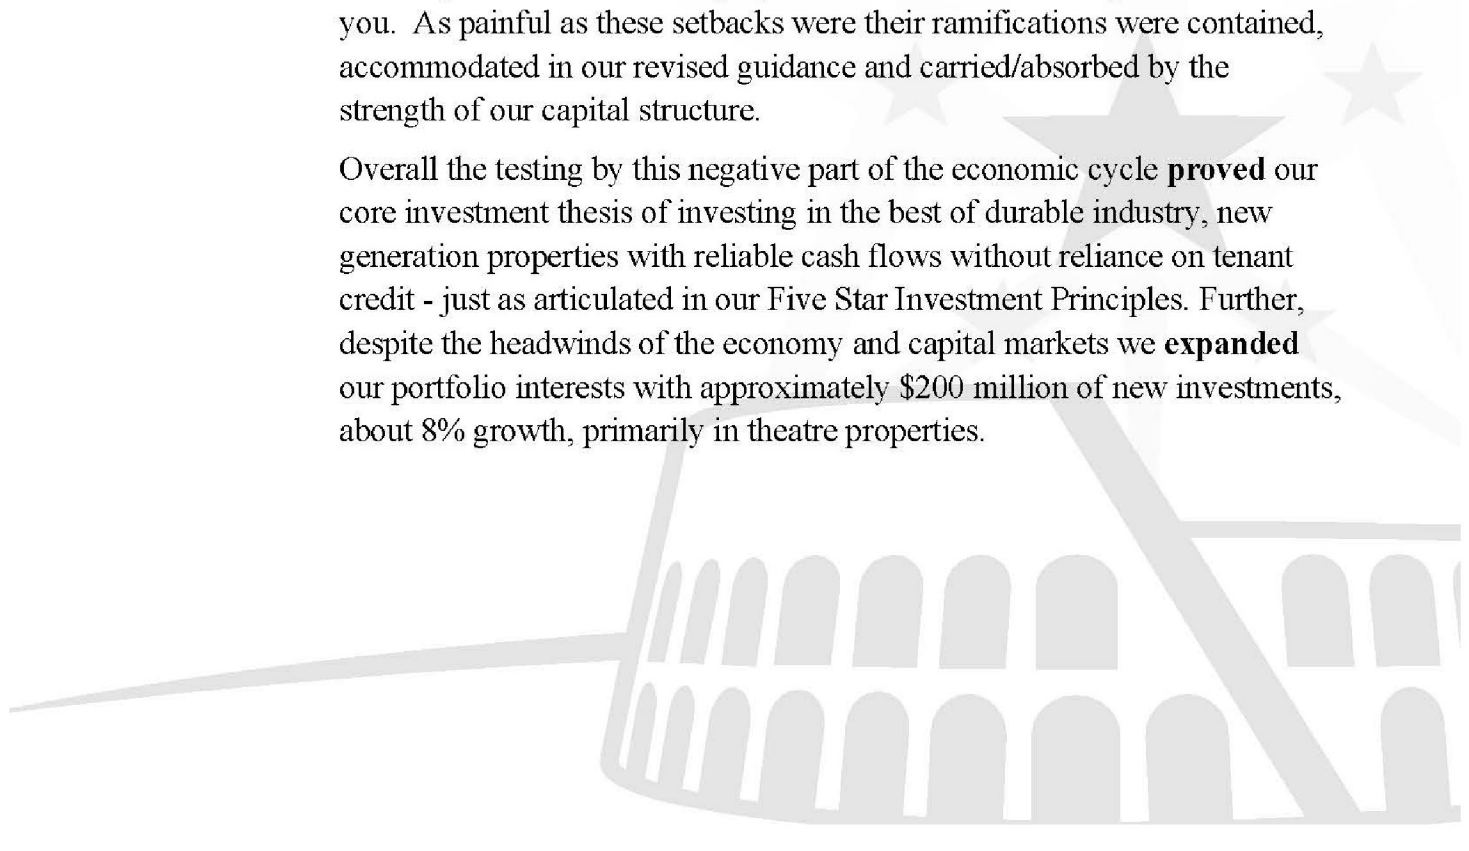

- Outstanding performance of the vast majority of our investment portfolio.
- Strength of our balance sheet and the sensible laddering of our debt obligations.
- Resistance to dilution of shareholder interests; not selling stock in the lows of the market and economic crisis while many advised it out of fear.

PORTFOLIO PERFORMANCE

The anchor of our portfolio, the megaplex movie theatre, which accounts for about two-thirds of our investments, enjoyed a prosperous year in stark contrast to the economy and almost all other retail categories. Box office revenues for the exhibition industry were up 10% as domestic receipts crossed the \$10 billion mark for the first time ever. This was the most important portfolio performance aspect. We finished our 13th year still having never missed a monthly payment on a single theatre investment property. Otherwise all of our in-place income investment categories performed relatively well. Both our ski property and charter public school portfolios operated with substantially unchanged revenues and cash flows. The domestic fine wine industry also operated at about flat levels overall but performance gapped significantly between large and small concerns and we had a couple of minor setbacks with smaller accounts; our original clients as we entered this investment category.

The only significant setbacks we encountered related to development projects that which were stalled, downsized or had yields diminished largely due to capital markets dislocation reflecting the state of the broader economy. These were three projects that I detailed in last year's letter to you. As painful as these setbacks were their ramifications were contained, accommodated in our revised guidance and carried/absorbed by the strength of our capital structure.

Overall the testing by this negative part of the economic cycle **proved** our core investment thesis of investing in the best of durable industry, new generation properties with reliable cash flows without reliance on tenant credit - just as articulated in our Five Star Investment Principles. Further, despite the headwinds of the economy and capital markets we **expanded** our portfolio interests with approximately \$200 million of new investments, about 8% growth, primarily in theatre properties.

BALANCE SHEET STRENGTH

Business cycles are a fact of life. The ability to endure them and prosper in their aftermath is largely a function of balance sheet strength. This means sometimes foregoing the last increment of return on equity to safeguard it in troubled times.

EPR entered the recent Great Recession and 2009 with a well apportioned and structured balance sheet. We have, over our dozen years, largely matched long lived assets with long dated financing, kept asset loans largely below two-thirds of value and total company leverage under half of book value, and laddered maturities in our debt obligations to protect shareholder equity in crisis periods like 2009. These practices **proved** valuable in 2009.

During the year we improved balance sheet quality without massive dilution of shareholder value.

Our revolving credit facility, largely used to finance assets upon acquisition before appropriate long term financing can be arranged, matured during the year. We replaced the \$235 million facility with \$215 million of capacity and although it was about two percentage points higher in spread we gained increased capacity in the covenants for secured asset financing should we need it. We never did.

During the year we raised approximately \$300 million in common equity, including the largest secondary offering in the history of the company, nearly \$200 million. Our stock sales were at an average gross price of over \$30, more than 25% premium to our annual '09 VWAP. About \$200 million of proceeds went to acquire properties, as mentioned earlier, on an unlevered basis. The other third of new equity, approximately \$100 million, was used to reduce our indebtedness.

Overall our balance sheet **progress** during the year included increasing our pool of unpledged assets, lowering our debt to equity and asset ratios and improving our debt to EBITDA ratio.

STEADFAST FOCUS ON SHAREHOLDER VALUE

Sometimes the course of progress is best aided with a well timed and executed retreat. It needs to be a regrouping that fortifies strengths and enables future progress not an abandonment of positions. The year, 2009, did see a regrettable reduction in operating results but our actions were focused on near term preservation of shareholder interests and long term prosperity of the same.

We renewed a borrowing facility at higher cost but with little effect as we minimized its use and gained flexibility with its renewal and restructure. Otherwise we reduced existing debt levels and improved our credit ratios.

In one of the very rare cases in Company history we sold stock below a prior offering price, but only a measured amount. We added to our equity capital base by about 20%. This afforded us a margin of safety in perilous times to protect shareholder value without wholly compromising it.

Development projects were shut down, effectively taking assets into dormancy but we did not lose any of our owned assets. These latent assets are available to now add to shareholder returns in future periods.

I believe your management **proved** its shareholder value focus. I believe our measured steps, despite some possible impressions to the contrary, **advanced** shareholder interests positively in relative terms and positioned the Company for large strides in shareholder value **progress** in the near future.

CAUTIONARY STATEMENT CONCERNING FORWARD LOOKING STATEMENTS

With the exception of historical information, certain statements contained or incorporated by reference herein constitute forward-looking statements as such term is defined in Section 27A of the Securities Act of 1933, as amended (the “Securities Act”), and Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”). The forward-looking statements may refer to our financial condition, results of operations, plans, objectives, acquisition or disposition of properties, future expenditures for development projects, capital resources, future financial performance and business. Forward-looking statements are not guarantees of performance. They involve numerous risks, uncertainties and assumptions. Our future results, financial condition and business may differ materially from those expressed in these forward-looking statements. You can find many of these statements by looking for words such as “will be,” “continue,” “hope,” “goal,” “forecast,” “approximates,” “believes,” “expects,” “anticipates,” “estimates,” “intends,” “plans” “would,” “may” or other similar expressions in this Annual Report on Form 10-K. In addition, references to our budgeted amounts are forward looking statements. Factors that could materially and adversely affect us include, but are not limited to, the factors listed below:

- General international, national, regional and local business and economic conditions;
- Current levels of market volatility are unprecedented;
- Failure of current governmental efforts to stimulate the economy;
- The downturn in the credit markets;
- The failure of a bank to fund a request by us to borrow money;
- Failure of banks in which we have deposited funds;
- Defaults in the performance of lease terms by our tenants;
- Defaults by our customers and counterparties on their obligations owed to us;
- A borrower's bankruptcy or default;
- A significant development project may not be completed as planned;
- The obsolescence of older multiplex theaters owned by some of our tenants;
- Risks of operating in the entertainment industry;
- Our ability to compete effectively;
- The majority of our megaplex theater properties are leased by a single tenant;
- A single tenant leases or is the mortgagor of all our ski area investments;
- A single tenant leases all of our charter schools;
- Risks associated with use of leverage to acquire properties;
- Financing arrangements that require lump-sum payments;
- Our ability to sustain the rate of growth we have had in recent years;
- Our ability to raise capital;
- Covenants in our debt instrument that limit our ability to take certain actions;
- Risks of acquiring and developing properties and real estate companies;
- The lack of diversification of our investment portfolio;
- Our continued qualification as a REIT;
- The ability of our subsidiaries to satisfy their obligations;
- Financing arrangements that expose us to funding or purchase risks;

- We have a limited number of employees and the loss of personnel could harm operations;
- Fluctuations in the value of real estate income and investments;
- Risks relating to real estate ownership, leasing and development, for example local conditions such as an oversupply of space or a reduction in demand for real estate in the area, competition from other available space, whether tenants and users such as customers of our tenants consider a property attractive, changes in real estate taxes and other expenses, changes in market rental rates, the timing and costs associated with property improvements and rentals, changes in taxation or zoning laws or other governmental regulation, whether we are able to pass some or all of any increased operating costs through to tenants, and how well we manage our properties;
- Our ability to secure adequate insurance and risk of potential uninsured losses, including from natural disasters;
- Risks involved in joint ventures;
- Risks in leasing multi-tenant properties;
- A failure to comply with the Americans with Disabilities Act or other laws;
- Risks of environmental liability;
- Our real estate investments are relatively illiquid;
- We own assets in foreign countries;
- Risks associated with owning or financing properties for which the tenant's or mortgagor's operations may be impacted by weather conditions and climate change;
- Risks associated with the ownership of vineyards;
- Our ability to pay dividends in cash or at current rates;
- Fluctuations in interest rates;
- Fluctuations in the market prices for our shares;
- Certain limits on change in control imposed under law and by our Declaration of Trust and Bylaws;
- Policy changes obtained without the approval of our shareholders;
- Equity issuances could dilute the value of our shares;
- Risks associated with changes in the Canadian exchange rate; and
- Changes in laws and regulations, including tax laws and regulations.

These forward-looking statements represent our intentions, plans, expectations and beliefs and are subject to numerous assumptions, risks and uncertainties. Many of the factors that will determine these items are beyond our ability to control or predict. For further discussion of these factors see "Item 1A. Risk Factors" in this Annual Report on Form 10-K.

For these statements, we claim the protection of the safe harbor for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995. You are cautioned not to place undue reliance on our forward-looking statements, which speak only as of the date of this Annual Report on Form 10-K or the date of any document incorporated by reference herein. All subsequent written and oral forward-looking statements attributable to us or any person acting on our behalf are expressly qualified in their entirety by the cautionary statements contained or referred to in this section. We do not undertake any obligation to release publicly any revisions to our forward-looking statements to reflect events or circumstances after the date of this Annual Report on Form 10-K.

PART I

Item 1. Business

General

Entertainment Properties Trust (“we,” “us,” “our,” “EPR” or the “Company”) was formed on August 22, 1997 as a Maryland real estate investment trust (“REIT”), and an initial public offering of common shares of beneficial interest (“common shares”) was completed on November 18, 1997. EPR develops, owns, leases and finances properties for consumer preferred high-quality businesses. As further explained under “Growth Strategies” below, our investments are guided by a focus on inflection opportunities that are associated with or support enduring uses, excellent executions, attractive economics and an advantageous market position.

We are a self-administered REIT. As of December 31, 2009, our real estate portfolio was comprised of approximately \$2.1 billion in assets (before accumulated depreciation). This portfolio includes 95 megaplex theatre properties (including four joint venture properties) located in 33 states, the District of Columbia and Ontario, Canada, nine theatre-anchored entertainment retail centers (including three joint venture properties) located in four states and Ontario, Canada, and land parcels leased to restaurant and retail operators or available for development adjacent to several of our theatre properties. We also own a metropolitan ski area located in Ohio, ten wineries and eight vineyards located in California and Washington and 22 public charter schools located in eight states and the District of Columbia.

As of December 31, 2009, our real estate portfolio of megaplex theatre properties consisted of 7.8 million square feet and was 100% occupied, and our remaining real estate portfolio consisted of 4.1 million square feet and was 92% occupied. The combined real estate portfolio consisted of 11.9 million square feet and was 97% occupied. Our theatre properties are leased to twelve different leading theatre operators. At December 31, 2009, approximately 43% of our megaplex theatre properties were leased to American Multi-Cinema, Inc. (“AMC”), a subsidiary of AMC Entertainment, Inc. (“AMCE”).

As further described in Note 5 to the consolidated financial statements in this Annual Report on Form 10-K, as of December 31, 2009, our real estate mortgage loan portfolio consisted of nine notes receivable with a carrying value of \$522.9 million, including related accrued interest and net of a loan loss reserve. Our real estate mortgage loan portfolio at December 31, 2009 includes mortgage notes receivable with a carrying value of \$163.3 million, including accrued interest, secured by a water-park anchored entertainment village located in Kansas (the first phase of which opened in July 2009) and two water-parks in Texas. We also have a mortgage note receivable for a planned resort development in Sullivan County, New York with a carrying value of \$133.1 million, including accrued interest, and a mortgage note receivable denominated in Canadian dollars that had a carrying value of US \$90.9 million at December 31, 2009, including accrued interest and net of a loan loss reserve of US \$35.8 million. The Canadian denominated mortgage was provided to a partnership for the purpose of developing a 13 level entertainment retail center in downtown Toronto in Ontario, Canada. The development of this center was completed in May 2008 at a total cost of approximately \$330 million Canadian, and contains approximately 330,000 square feet of net rentable area and 25,000 square feet of digital and static signage. We have signed a purchase agreement to acquire this center in early 2010; however, our purchase of this center is subject to various conditions. As a result, we can offer no assurance

that this transaction will be completed or that it will be completed on the terms presently contemplated. See Item 7 –“Management Discussion and Analysis of Financial Condition and Results of Operations - Recent Developments” for more information regarding these three mortgage notes receivable. Additionally, we have five mortgage notes receivable with a combined total carrying value of \$135.6 million, including accrued interest, secured by ten metropolitan ski areas and related development land covering approximately 6,063 acres located in New Hampshire, Vermont, Missouri, Indiana, Ohio and Pennsylvania.

Our total investments were \$2.8 billion at December 31, 2009. Total investments is a non-GAAP financial measure defined herein as the sum of the carrying values of rental properties (before accumulated depreciation), property under development, mortgage notes receivable (including related accrued interest receivable), investment in joint ventures, intangible assets (before accumulated amortization) and notes receivable. Below is a reconciliation of the carrying value of total investments to the consolidated balance sheet at December 31, 2009 (in thousands):

Rental properties, net of accumulated depreciation	\$ 1,854,629
Add back accumulated depreciation on rental properties	258,638
Property under development	12,729
Mortgage notes and related accrued interest receivable, net	522,880
Investment in joint ventures	4,080
Investment in a direct financing lease, net	169,850
Intangible assets, net of accumulated amortization	6,727
Add back accumulated amortization on intangible assets	6,887
Notes receivable and related accrued interest receivable, net	<u>7,204</u>
Total investments	<u>\$ 2,843,624</u>

Management believes that total investments is a useful measure for management and investors as it illustrates across which asset categories the Company’s funds have been invested. Of our total investments of \$2.8 billion at December 31, 2009, \$2.0 billion or 71% related to megaplex theatres, entertainment retail centers and other retail parcels, and \$836.8 million or 29% related to recreational and specialty properties. Furthermore, of the \$836.8 million related to recreational and specialty properties, \$148.6 million related to metropolitan ski areas, \$218.2 million related to vineyards and wineries, \$173.6 million related to public charter schools, \$163.3 million related to the water-park anchored entertainment village development in Kansas and two Texas water-parks, and \$133.1 million related to the planned resort development discussed above. At December 31, 2009, Peak Resorts, Inc. (“Peak”) is the lessee of our metropolitan ski area in Ohio and is the mortgagor on five notes receivable secured by ten metropolitan ski areas and related development land. Similarly, affiliates of Schools, Inc. (“Imagine”) are the lessees of all of our charter schools.

As further described in Note 2 to the consolidated financial statements included in this Annual Report on Form 10-K, during the year ended December 31, 2009, \$35.9 million, or approximately 13% of our total revenue was derived from our four entertainment retail centers in Ontario, Canada and the mortgage note receivable secured by property in Canada described above. The Company’s wholly-owned subsidiaries that hold the Canadian entertainment retail centers, third party debt and mortgage note receivable represent approximately \$228.6 million or 16% of the Company’s net assets as of December 31, 2009.

We aggregate the financial information of all our investments into one reportable segment because our investments have similar economic characteristics and because we do not internally report and we are not internally organized by investment or transaction type.

We believe destination entertainment, entertainment-related, recreational and specialty properties are important sectors of the real estate industry and that, as a result of our focus on properties in these sectors and the industry relationships of our management, we have a competitive advantage in providing capital to operators of these types of properties. Our principal business objective is to be the nation's leading destination entertainment, entertainment-related, recreation and specialty real estate company by continuing to acquire, finance or develop high-quality properties. Our investments are generally structured as long-term triple-net leases that require the tenants to pay substantially all expenses associated with the operation and maintenance of the property, or as long-term mortgages with economics similar to our triple-net lease structure.

As discussed below, we believe attractive investment opportunities are available to us that will enable us to continue to grow our asset base. Due to the downturn in the economy and distress in the capital markets, for most of 2009 we were primarily focused on maintaining adequate liquidity and funding our existing commitments. We completed our amended and restated line of credit in June 2009, six months ahead of its maturity, and as conditions became more favorable in the capital markets toward the latter part of 2009 and our cost of capital improved, we began making new investments. Going forward, we will continue to assess the state of the capital markets, our relative cost of capital and our liquidity position in making new investment decisions. For more information regarding our business, including our investments and capital formation, see Item 7 "Management's Discussion and Analysis of Financial Condition and Results of Operations" including the sections therein titled "Recent Developments" and "Liquidity and Capital Resources."

Megaplex Theatres

A significant portion of our assets consist of megaplex theatres. Megaplex theatres typically have at least 10 screens with stadium-style seating (seating with elevation between rows to provide unobstructed viewing) and are equipped with amenities that significantly enhance the audio and visual experience of the patron. We believe the development of new generation megaplex theatres, including the introduction of digital cinema technology, has accelerated the obsolescence of many of the previous generation of multiplex movie theatres by setting new standards for moviegoers, who, in our experience, have demonstrated their preference for the more attractive surroundings, wider variety of films, enhanced quality of visual presentation and superior customer service typical of megaplex theatres.

We expect the development of megaplex theatres to continue in the United States and abroad over the long-term. With the development of the stadium style megaplex theatre as the preeminent format for cinema exhibition, the older generation of smaller sloped theatres has generally experienced a significant downturn in attendance and performance. As a result of the significant capital commitment involved in building megaplex theatres and the experience and industry relationships of our management, we believe we will continue to have opportunities to provide capital to exhibition businesses within the United States and abroad that seek to develop and/or operate these properties. In addition, the recent distress in the credit markets has also created opportunities to buy existing megaplex theatres at higher yields than in the past as certain current owners seek to generate cash.

Entertainment Retail Centers

We continue to seek opportunities for the development of additional restaurant, retail and other entertainment venues around our existing portfolio. The opportunity to capitalize on the traffic generation of our market-dominant theatres to create entertainment retail centers (“ERC’s”) not only strengthens the execution of the megaplex movie theatre but adds diversity to our tenant and asset base. We have and will continue to evaluate our existing portfolio for additional development of retail and entertainment density, and we will also continue to evaluate the purchase or financing of existing ERC’s that have demonstrated strong financial performance and meet our quality standards. The leasing and property management requirements of our ERC’s are generally met through the use of third-party professional service providers.

Recreational and Specialty Properties

The venue replacement cycle in theatrical exhibition represents what we consider an inflection opportunity, a demand for new capital stimulated by a need to upgrade to new technologies and related amenities. We expect other destination retail, recreational and specialty properties to undergo similar transformations stimulated by growth, renewal and/or restructuring. We have begun and expect to continue to pursue opportunities to provide capital for such new generations of attractive and successful properties in selected niche markets.

Business Objectives and Strategies

Our long-term primary business objective is to enhance shareholder value by achieving predictable and increasing Funds From Operations (“FFO”) and dividends per share (See Item 7 – “Management’s Discussion and Analysis of Financial Condition and Results of Operations - Funds From Operations” for a discussion of FFO), through the acquisition, development and financing of high-quality properties that meet our Five Star Investment Strategy. We intend to achieve this objective by continuing to execute the Growth Strategies, Operating Strategies and Capitalization Strategies described below:

Growth Strategies

As a part of our growth strategy, we will consider acquiring or developing additional megaplex theatre properties, and acquiring or developing single-tenant entertainment, entertainment-related, recreational or specialty properties. We will also consider acquiring or developing additional ERC’s. We may also pursue opportunities to provide mortgage financing for these same property types in certain situations where this structure is more advantageous than owning the underlying real estate.

Our investing strategy centers on five guiding principles which we call our Five Star Investment Strategy:

Inflection Opportunity

We look for a new generation of facilities emerging as a result of age, technology, or change in the lifestyle of consumers which create development, renewal or restructuring opportunities requiring significant capital.

Enduring Value

We look for real estate that supports activities that are commercially successful and have a

reasonable basis for continued and sustainable customer demand in the future. Further, we seek circumstances where the magnitude of change in the new generation of facilities adds substantially to the customer experience.

Excellent Execution

We seek attractive locations and best-of-class executions that create market-dominant properties which we believe create a competitive advantage and enhance sustainable customer demand within the category despite a potential change in tenant. We minimize the potential for turnover by seeking quality tenants with a reliable track record of customer service and satisfaction.

Attractive Economics

We seek investments that provide accretive returns initially and increasing returns over time with rent escalators and percentage rent features that allow participation in the financial performance of the property. Further, we are interested in investments that provide a depth of opportunity to invest sufficient capital to be meaningful to our total financial results and also provide a diversity by market, geography or tenant operator.

Advantageous Position

In combination with the preceding principles, when investing we look for a competitive advantage such as unique knowledge of the category, access to industry information, a preferred tenant relationship, or other relationships that provide access to sites and development projects.

Operating Strategies

Lease Risk Minimization

To avoid initial lease-up risks and produce a predictable income stream, we typically acquire single-tenant properties that are leased under long-term leases. We believe our willingness to make long-term investments in properties offers our tenants financial flexibility and allows tenants to allocate capital to their core businesses. Although we will continue to emphasize single-tenant properties, we have acquired and may continue to acquire multi-tenant properties we believe add shareholder value.

Lease Structure

We have structured our property acquisitions and leasing arrangements to achieve a positive spread between our cost of capital and the rentals paid by our tenants. We typically structure leases on a triple-net basis under which the tenants bear the principal portion of the financial and operational responsibility for the properties. During each lease term and any renewal periods, the leases typically provide for periodic increases in rent and/or percentage rent based upon a percentage of the tenant's gross sales over a pre-determined level. In our multi-tenant property leases and some of our theatre leases, we generally require the tenant to pay a common area maintenance ("CAM") charge to defray its pro rata share of insurance, taxes and maintenance costs.

Mortgage Structure

We have structured our mortgages to achieve economics similar to our triple-net lease structure with a positive spread between our cost of capital and the interest paid by our tenants. During each mortgage term and any renewal periods, the notes typically provide for periodic increases in interest and/or participating features based upon a percentage of the tenant's gross sales over a pre-determined level.

Tenant and Customer Relationships

We intend to continue developing and maintaining long-term working relationships with theatre, restaurant, retail, entertainment, recreation and specialty business operators and developers by providing capital for multiple properties on an international, national or regional basis, thereby creating efficiency and value for both the operators and the Company.

Portfolio Diversification

We will endeavor to further diversify our asset base by property type, geographic location and tenant or customer. In pursuing this diversification strategy, we will target theatre, restaurant, retail, recreation and specialty business operators that we view as leaders in their market segments and have the ability to compete effectively and perform under their agreements with the Company.

Development

We intend to continue developing properties that meet our guiding principles. We generally do not begin development of a single tenant property without a signed lease providing for rental payments during the development period that are commensurate with our level of capital investment. In the case of a multi-tenant development, we generally require a significant amount of the development to be pre-leased prior to construction to minimize lease-up risk. Going forward, we are de-emphasizing the investment in large-scale development projects with other partners in favor of smaller development projects which we control. In addition, to minimize overhead costs and to provide the greatest amount of flexibility, we generally outsource construction management to third party firms.

Capitalization Strategies

Debt and Equity Financing

In 2009 we deleveraged our balance sheet primarily by issuing equity in excess of debt during the year. Our debt to total capitalization ratio (i.e. long-term debt of the Company as a percentage of equity plus total liabilities) was reduced from 48% at December 31, 2008 to 43% at December 31, 2009. We expect to maintain a debt to total capitalization ratio of between 40% and 50% throughout 2010. While deleveraging the balance sheet mitigates the growth in per share results, we believe reduced leverage and an emphasis on liquidity are prudent during the current economic downturn.

Our sources of equity financing consist of the issuance of common shares as well as the issuance of preferred shares (including convertible preferred shares). In addition to larger underwritten registered public offerings of both common and preferred shares, we have also offered shares pursuant to registered public offerings through the direct share purchase component of our Dividend Reinvestment and Direct Share Purchase Plan ("DSP Plan"). While such offerings are generally smaller than a typical underwritten public offering, issuing common shares under the direct share purchase component of our DSP Plan allows us to access capital on a more frequent basis in a cost-effective manner. We expect to opportunistically access the equity markets in the future and, depending primarily on the size and timing of our equity capital needs, may continue to issue shares under the direct share purchase component of our DSP Plan.

Joint Ventures

We will examine and may pursue potential additional joint venture opportunities with institutional investors or developers if the investments to which they relate meet our guiding principles discussed above. We may employ higher leverage in joint ventures.

Payment of Regular Distributions

We have paid and expect to continue to pay quarterly dividend distributions to our common and preferred shareholders. Our Series B cumulative redeemable preferred shares ("Series B preferred shares") have a dividend rate of 7.75%, our Series C cumulative convertible preferred shares ("Series C preferred shares") have a dividend rate of 5.75%, our Series D cumulative redeemable preferred shares ("Series D preferred shares") have a dividend rate of 7.375%, and our Series E cumulative convertible preferred shares ("Series E preferred shares") have a dividend rate of 9.00%. Among the factors the Company's board of trustees ("Board of Trustees") considers in setting the common share distribution rate are the applicable REIT tax rules and regulations that apply to distributions, the Company's results of operations, including FFO per share, and the Company's Cash Available for Distribution (defined as net cash flow available for distribution after payment of operating expenses, debt service, and other obligations).

Competition

We compete for real estate financing opportunities with other companies that invest in real estate, as well as traditional financial sources such as banks and insurance companies. REITs have financed and may continue to seek to finance destination entertainment, entertainment-related, recreational or specialty properties as new properties are developed or become available for acquisition.

Employees

As of December 31, 2009, we had 22 full time employees.

Principal Executive Offices

The Company's principal executive offices are located at 30 W. Pershing Road, Suite 201, Kansas City, Missouri 64108; telephone (816) 472-1700.

Materials Available on Our Website

Our internet website address is www.eprkc.com. We make available, free of charge, through our website copies of our Annual Report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, and amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934 (the "Exchange Act") as soon as reasonably practicable after we electronically file such material with, or furnish it to the Securities and Exchange Commission (the "Commission" or "SEC"). You may also view our Code of Business Conduct and Ethics, Company Governance Guidelines, Independence Standards for Trustees and the charters of our audit, nominating/company governance, finance and compensation committees on our website. Copies of these documents are also available in print to any person who requests them.

Item 1A. Risk Factors

There are many risks and uncertainties that can affect our current or future business, operating results, financial performance or share price. Here is a brief description of some of the important factors which could adversely affect our current or future business, operating results, financial condition or share price. This discussion includes a number of forward-looking statements. See "Forward Looking Statements."

Risks That May Impact Our Financial Condition or Performance

There can be no assurance as to the impact of the U.S. government's attempts to stimulate the economy and approve new regulations on the banking system, financial markets, real estate markets and economy as a whole.

In response to the economic crises affecting the banking system, financial markets, real estate markets and our economy as a whole, President Obama signed the American Recovery and Reinvestment Act of 2009 ("ARRA") into law on February 17, 2009. The administration is also supporting further regulation of the financial industry and various legislative initiatives have been proposed. There can be no assurance what impact the ARRA or other initiatives will have on the banking system, financial markets, real estate markets or the general economy. Although we are not one of the institutions that will be directly affected by the ARRA, and may not be directly affected by those other initiatives should they become law, their ultimate effects on the financial markets and the economy in general could materially and adversely affect our business, financial condition and results of operations, or the trading price of our common stock.

Current levels of market volatility are unprecedented.

The capital and credit markets have been experiencing extreme volatility and disruption for more than 12 months. In many cases, the markets have exerted downward pressure on stock prices and credit capacity for certain issuers. Our plans for growth require regular access to the capital and credit markets. If market disruption and volatility continue or worsen, access to capital and credit markets could be disrupted making growth through acquisitions and development projects difficult or impractical to pursue until such time as markets stabilize.

The downturn in the credit markets has increased the cost of borrowing and has made financing difficult to obtain, each of which may have a material adverse effect on our results of operations and business.

The economic downturn has had an adverse impact on the credit markets and, as a result, credit has become more expensive and difficult to obtain. Some lenders are imposing more stringent restrictions on the terms of credit and there has been a general reduction in the amount of credit available in the markets in which we conduct business, particularly in the mortgage-backed securities market that we have used in the past. The negative impact on the tightening of the credit markets may have a material adverse effect on us resulting from, but not limited to, an inability to finance the acquisition or development of properties on favorable terms, if at all, increased financing costs or financing with increasingly restrictive covenants.

The negative impact of the adverse changes in the credit markets on the real estate sector generally or our inability to obtain financing on favorable terms, if at all, may have a material adverse effect on our results of operations, business, financial condition or performance.

The failure of a bank to fund a request (or any portion of such request) by us to borrow money under one of our existing credit facilities could reduce our ability to make additional investments and pay distributions.

We have existing credit facilities with several banking institutions. If any of these banking institutions which are a party to such credit facilities fails to fund a request (or any portion of such request) by us to borrow money under one of these existing credit facilities, our ability to make investments in our business, fund our operations and pay debt service and dividends could be reduced, each of which could result in a decline in the value of your investment.

The failure of any bank in which we deposit our funds could reduce the amount of cash we have available to pay distributions and make additional investments.

We have diversified our cash and cash equivalents between several banking institutions in an attempt to minimize exposure to any one of these entities. However, the Federal Deposit Insurance Corporation, or "FDIC," only insures interest-bearing accounts in amounts up to \$250,000 per depositor per insured bank. We currently have cash and cash equivalents and restricted cash deposited in certain financial institutions in excess of federally insured levels. If any of the banking institutions in which we have deposited funds ultimately fails, we may lose our deposits over \$250,000. The loss of our deposits may have a material adverse effect on our financial condition.

We depend on leasing space to tenants on economically favorable terms and collecting rent from our tenants, who may not be able to pay.

At any time, a tenant may experience a downturn in its business that may weaken its financial condition. Similarly, a general decline in the economy may result in a decline in demand for space at our commercial properties. Our financial results depend significantly on leasing space at our properties to tenants on economically favorable terms. In addition, because a majority of our income comes from leasing real property, our income, funds available to pay indebtedness and funds available for distribution to our shareholders will decrease if a significant number of our tenants cannot pay their rent or if we are not able to maintain our levels of occupancy on favorable terms. If tenants of a property cannot pay their rent or we are not able to maintain our levels of occupancy on favorable terms, there is also a risk that the fair value of the underlying property will be considered less than its carrying value and we may have to take a charge against earnings. In addition, if a tenant does not pay its rent, we might not be able to enforce our rights as landlord without delays and might incur substantial legal costs.

If a tenant becomes bankrupt or insolvent, that could diminish or eliminate the income we expect from that tenant's leases. If a tenant becomes insolvent or bankrupt, we cannot be sure that we could recover the premises from the tenant promptly or from a trustee or debtor-in-possession in a bankruptcy proceeding relating to the tenant. On the other hand, a bankruptcy court might authorize the tenant to terminate its leases with us. If that happens, our claim against the bankrupt tenant for unpaid future rent would be subject to statutory limitations that might be substantially less than the remaining rent owed under the leases. In addition, any claim we have for unpaid past rent would likely not be paid in full and we would also have to take a charge against earnings for any accrued straight-line rent receivable related to the leases.

We are exposed to the credit risk of our customers and counterparties and their failure to meet their financial obligations could adversely affect our business.

Our business is subject to credit risk. There is a risk that a customer or counterparty will fail to meet its obligations when due, particularly given the current state of the economy. Customers and counterparties that owe us money may default on their obligations to us due to bankruptcy, lack of liquidity, operational failure or other reasons. Although we have procedures for reviewing credit exposures to specific customers and counterparties to address present credit concerns, default risk may arise from events or circumstances that are difficult to detect or foresee. Some of our risk management methods depend upon the evaluation of information regarding markets, clients or other matters that are publicly available or otherwise accessible by us. That information may not, in all cases, be accurate, complete, up-to-date or properly evaluated. In addition, concerns about, or a default by, one customer or counterparty could lead to significant liquidity problems, losses or defaults by other customers or counterparties, which in turn could adversely

affect us. We may be materially and adversely affected in the event of a significant default by our customers and counterparties.

We could be adversely affected by a borrower's bankruptcy or default.

If a borrower becomes bankrupt or insolvent or defaults under its loan, that could force us to declare a default and foreclose on any available collateral. As a result, future interest income recognition related to the applicable note receivable could be significantly reduced or eliminated. There is also a risk that the fair value of the collateral, if any, will be less than the carrying value of the note and accrued interest receivable at the time of a foreclosure and we may have to take a charge against earnings. If a property serves as collateral for a note, we may experience costs and delays in recovering the property in foreclosure or finding a substitute operator for the property. If a mortgage we hold is subordinated to senior financing secured by the property, our recovery would be limited to any amount remaining after satisfaction of all amounts due to the holder of the senior financing. In addition, to protect our subordinated investment, we may desire to refinance any senior financing. However, there is no assurance that such refinancing would be available or, if it were to be available, that the terms would be attractive.

We previously made several investments with a developer, including a significant loan commitment on a planned resort development. There can be no assurance that the resort development will be completed or that the deterioration of the developer's financial condition or sources of liquidity will not have a material adverse effect on the resort development or our other investments with the developer.

Concord Resorts, LLC ("Concord Resorts") owes us in excess of \$133.1 million pursuant to a secured first mortgage loan related to a planned resort development in Sullivan County, New York. Our commitment to advance additional funds is no longer applicable due to the developer's continuing inability to meet the required terms. Concord Resorts has ceased making interest payments to us as contractually obligated under the loan agreement and is therefore in default. Because the resort development is delayed indefinitely, there can be no assurance that our investment in Concord Resorts (the net carrying value of which was \$133.1 million at September 30, 2009) may not be subject to an impairment loss, which could result in a material adverse impact on our financial condition and results of operations.

In addition, Concord Resorts is controlled by Louis Cappelli, a real estate developer with whom we have several other investments, including the entertainment retail centers in New Rochelle, New York and White Plains, New York and \$30 million of loans to Mr. Cappelli and his affiliates. During the quarter ended September 30, 2009, we recorded an impairment charge for our interest in the White Plains entertainment retail center of \$35.8 million, and have established a \$28.0 million loan loss reserve on impaired loans to Mr. Cappelli and his affiliates. On December 31, 2009, we filed a petition with the Western District of Missouri seeking payment of amounts due under the various loans to Mr. Cappelli and his affiliates, including Concord Resorts, and a declaratory judgment that we have no obligation to make an additional advance to Concord Resorts under any prior loan commitment. There can be no assurance that the cancellation or indefinite delay of the Concord Resorts development, or the deterioration of Mr. Cappelli's financial condition or sources of liquidity, would not have a material adverse effect on our investments with Mr. Cappelli and our ability to collect amounts due under the loans to Mr. Cappelli and his affiliates.

Our theatre tenants may be adversely affected by the obsolescence of any older multiplex theatres they own or by any overbuilding of megaplex theatres in their markets.

The development of megaplex movie theatres has rendered many older multiplex theatres obsolete. To the extent our tenants own a substantial number of multiplexes, they have been, or may in the future be, required to take significant charges against their earnings resulting from the impairment of these assets. Megaplex theatre operators have also been and could in the future be adversely affected by any overbuilding of megaplex theatres in their markets and the cost of financing, building and leasing megaplex theatres.

Operating risks in the entertainment industry may affect the ability of our tenants to perform under their leases.

The ability of our tenants to operate successfully in the entertainment industry and remain current on their lease obligations depends on a number of factors, including the availability and popularity of motion pictures, the performance of those pictures in tenants' markets, the allocation of popular pictures to tenants and the terms on which the pictures are licensed. Neither we nor our tenants control the operations of motion picture distributors. Megaplex theatres represent a greater capital investment, and generate higher rents, than the previous generation of multiplex theatres. For this reason, the ability of our tenants to operate profitably and perform under their leases could be dependent on their ability to generate higher revenues per screen than multiplex theatres typically produce. The success of "out-of-home" entertainment venues such as megaplex theatres, entertainment retail centers and recreational properties also depends on general economic conditions and the willingness of consumers to spend time and money on out-of-home entertainment.

Real estate is a competitive business.

Our business operates in highly competitive environments. We compete with a large number of real estate property owners and developers, some of which may be willing to accept lower returns on their investments. Principal factors of competition are rent or interest charged, attractiveness of location, the quality of the property and breadth and quality of services provided. If our competitors offer space at rental rates below the rental rates we are currently charging our tenants, we may lose potential tenants, and we may be pressured to reduce our rental rates below those we currently charge in order to retain tenants when our tenants' leases expire. Our success depends upon, among other factors, trends of the national and local economies, financial condition and operating results of current and prospective tenants and customers, availability and cost of capital, construction and renovation costs, taxes, governmental regulations, legislation and population trends.

A single tenant represents a substantial portion of our lease revenues.

Approximately 43% of our megaplex theatre properties are leased to AMC, one of the nation's largest movie exhibition companies. AMCE has guaranteed AMC's performance under substantially all of their leases. We have diversified and expect to continue to diversify our real estate portfolio by entering into lease transactions with a number of other leading operators. Nevertheless, our revenues and our continuing ability to pay shareholder dividends are currently substantially dependent on AMC's performance under its leases and AMCE's performance under its guarantee.

We believe AMC occupies a strong position in the industry and we intend to continue acquiring and leasing back or developing new AMC theatres. However, AMC and AMCE are susceptible to the same risks as our other tenants described herein. If for any reason AMC failed to perform under its lease obligations and AMCE did not perform under its guarantee, we could be required

to reduce or suspend our shareholder dividends and may not have sufficient funds to support operations until substitute tenants are obtained. If that happened, we cannot predict when or whether we could obtain substitute quality tenants on acceptable terms.

A single tenant leases or is the mortgagor of all our investments related to metropolitan ski areas and a single tenant leases all of our charter schools.

Peak is the lessee of our metropolitan ski area in Ohio and is the mortgagor on five notes receivable secured by ten metropolitan ski areas and related development land. Similarly, Imagine is the lessee of all of our charter schools. If Peak failed to perform under its lease and mortgage loan obligations, and/or Imagine failed to perform under its master lease, we may need to reduce our shareholder dividends and may not have sufficient funds to support operations until substitute operators are obtained. If that happened, we cannot predict when or whether we could obtain quality substitute tenants or mortgagors on acceptable terms.

There are risks inherent in having indebtedness and the use of such indebtedness to fund acquisitions.

We currently utilize debt to fund portions of our operations and acquisitions. In a rising interest rate environment, the cost of our variable rate debt and any new variable rate debt will increase. We have used leverage to acquire properties and expect to continue to do so in the future. Although the use of leverage is common in the real estate industry, our use of debt exposes us to some risks. If a significant number of our tenants fail to make their lease payments and we don't have sufficient cash to pay principal and interest on the debt, we could default on our debt obligations. A substantial amount of our debt financing is secured by mortgages on our properties. If we fail to meet our mortgage payments, the lenders could declare a default and foreclose on those properties. In addition, if the tenants of properties in the borrowing bases of our revolving credit facility or term loans default on their leases or mortgage obligations, or if the properties otherwise fail to qualify for inclusion in the borrowing bases, that could trigger pay-down requirements and may limit the amounts we are able to borrow under the credit facility and the term loans in the future.

Most of our debt instruments contain balloon payments which may adversely impact our financial performance and our ability to pay distributions.

Some of our financing arrangements may require us to make a lump-sum or "balloon" payment at maturity. There can be no assurance that we will be able to refinance such debt on favorable terms or at all. To the extent we cannot refinance such debt on favorable terms or at all, we may be forced to dispose of properties on disadvantageous terms or pay higher interest rates, either of which would have an adverse impact on our financial performance and ability to make distributions to our shareholders.

We have grown rapidly through acquisitions and other investments. We may not be able to maintain this rapid growth and our failure to do so could adversely affect our share price.

We have experienced rapid growth in recent years. We may not be able to maintain a similar rate of growth in the future or manage our growth effectively. Our failure to do so may have a material adverse effect on our share price.

We must obtain new financing in order to grow.

As a REIT, we are required to distribute at least 90% of our taxable net income to shareholders in the form of dividends. Other than deciding to make these distributions in our common shares, we are limited in our ability to use internal capital to acquire properties and must continually raise new capital in order to continue to grow and diversify our investment portfolio. Our ability to

raise new capital depends in part on factors beyond our control, including conditions in equity and credit markets, conditions in the industries in which our tenants are engaged and the performance of real estate investment trusts generally. We continually consider and evaluate a variety of potential transactions to raise additional capital, but we cannot assure that attractive alternatives will always be available to us, nor that our share price will increase or remain at a level that will permit us to continue to raise equity capital publicly or privately.

Covenants in our debt instruments could adversely affect our financial condition and our acquisitions and development activities.

The mortgages on our properties contain customary covenants such as those that limit our ability, without the prior consent of the lender, to further mortgage the applicable property or to discontinue insurance coverage. Our revolving credit facility, our term loan and other loans that we may obtain in the future contain certain cross-default provisions as well as customary restrictions, requirements and other limitations on our ability to incur indebtedness, including covenants that limit our ability to incur debt based upon the level of our ratio of total debt to total assets, our ratio of secured recourse debt to total assets, our ratio of EBITDA to interest expense and fixed charges. Our ability to borrow under our credit facilities and our term loan is also subject to compliance with certain other covenants. In addition, failure to comply with our covenants could cause a default under the applicable debt instrument, and we may then be required to repay such debt with capital from other sources. Under those circumstances, other sources of capital may not be available to us, or be available only on unattractive terms. Additionally, our ability to satisfy current or prospective lenders' insurance requirements may be adversely affected if lenders generally insist upon greater insurance coverage against acts of terrorism than is available to us in the marketplace or on commercially reasonable terms.

We rely on debt financing, including borrowings under our revolving credit facility, our term loan and debt secured by individual properties, to finance our acquisition and development activities and for working capital. If we are unable to obtain financing from these or other sources, or to refinance existing indebtedness upon maturity, our financial condition and results of operations would likely be adversely affected.

We may acquire or develop properties or acquire other real estate related companies and this may create risks.

We may acquire or develop properties or acquire other real estate related companies when we believe that an acquisition or development is consistent with our business strategies. We may not, however, succeed in consummating desired acquisitions or in completing developments on time. In addition, we may face competition in pursuing acquisition or development opportunities that could increase our costs. Difficulties in integrating acquisitions may prove costly or time-consuming and could divert management's attention. Acquisitions or developments in new markets or industries where we do not have the same level of market knowledge may expose us to unanticipated risks in those markets and industries to which we are unable to effectively respond and, as a result, our performance in those new markets and industries and overall may be worse than anticipated. In addition, there is no assurance that planned third party financing related to acquisition and development opportunities will be provided on a timely basis or at all, thus increasing the risk that such opportunities are delayed or fail to be completed as originally contemplated. We may also abandon acquisition or development opportunities that we have begun pursuing and consequently fail to recover expenses already incurred and have devoted management time to a matter not consummated. Furthermore, our acquisitions of new properties or companies will expose us to the liabilities of those properties or companies, some of which we

may not be aware at the time of acquisition. In addition, development of our existing properties presents similar risks.

Our real estate investments are concentrated in entertainment, entertainment-related and recreational properties and a significant portion of those investments are in megaplex theatre properties, making us more vulnerable economically than if our investments were more diversified.

We acquire, develop or finance entertainment, entertainment-related and recreational properties. A significant portion of our investments are in megaplex theatre properties. Although we are subject to the general risks inherent in concentrating investments in real estate, the risks resulting from a lack of diversification become even greater as a result of investing primarily in entertainment, entertainment-related and recreational properties. These risks are further heightened by the fact that a significant portion of our investments are in megaplex theatre properties. Although a downturn in the real estate industry could significantly adversely affect the value of our properties, a downturn in the entertainment, entertainment-related and recreational industries could compound this adverse affect. These adverse effects could be more pronounced than if we diversified our investments to a greater degree outside of entertainment, entertainment-related and recreational properties or, more particularly, outside of megaplex theater properties.

If we fail to qualify as a REIT, we would be taxed as a corporation, which would substantially reduce funds available for payment of dividends to our shareholders.

If we fail to qualify as a REIT for federal income tax purposes, we will be taxed as a corporation. We are organized and believe we qualify as a REIT, and intend to operate in a manner that will allow us to continue to qualify as a REIT. However, we cannot assure you that we will remain qualified in the future. This is because qualification as a REIT involves the application of highly technical and complex provisions of the Internal Revenue Code on which there are only limited judicial and administrative interpretations, and depends on facts and circumstances not entirely within our control. In addition, future legislation, new regulations, administrative interpretations or court decisions may significantly change the tax laws, the application of the tax laws to our qualification as a REIT or the federal income tax consequences of that qualification.

If we fail to qualify as a REIT we will face tax consequences that will substantially reduce the funds available for payment of dividends:

- We would not be allowed a deduction for dividends paid to shareholders in computing our taxable income and would be subject to federal income tax at regular corporate rates
- We could be subject to the federal alternative minimum tax and possibly increased state and local taxes
- Unless we are entitled to relief under statutory provisions, we could not elect to be treated as a REIT for four taxable years following the year in which we were disqualified
- We could be subject to tax penalties and interest

In addition, if we fail to qualify as a REIT, we will no longer be required to pay dividends. As a result of these factors, our failure to qualify as a REIT could adversely affect the market price for our shares.

We depend on dividends and distributions from our direct and indirect subsidiaries. The creditors of these subsidiaries are entitled to amounts payable to them by the subsidiaries before the subsidiaries may pay any dividends or distributions to us.

Substantially all of our assets are held through our subsidiaries. We depend on these subsidiaries for substantially all of our cash flow. The creditors of each of our direct and indirect subsidiaries are entitled to payment of that subsidiary's obligations to them, when due and payable, before distributions may be made by that subsidiary to its equity holders. Thus, our ability to make distributions to holders of our common and preferred shares depends on our subsidiaries' ability first to satisfy their obligations to their creditors and then to make distributions to us.

Our development financing arrangements expose us to funding and purchase risks.

Our ability to meet our construction financing obligations which we have undertaken or may enter into in the future depends on our ability to obtain equity or debt financing in the required amounts. There is no assurance we can obtain this financing or that the financing rates available will ensure a spread between our cost of capital and the rent or interest payable to us under the related leases or mortgage notes receivable. As a result, we could fail to meet our construction financing obligations which, in turn, could result in failed projects and related foreclosures and penalties, each of which could have a material adverse impact on our results of operations and business.

We have a limited number of employees and loss of personnel could harm our operations and adversely affect the value of our common shares.

We had 22 full-time employees as of December 31, 2009 and, therefore, the impact we may feel from the loss of an employee may be greater than the impact such a loss would have on a larger organization. We are dependent on the efforts of the following individuals: David M. Brain, our President and Chief Executive Officer; Gregory K. Silvers, our Vice President, Chief Operating Officer, General Counsel and Secretary; Mark A. Peterson, our Vice President and Chief Financial Officer; Morgan G. Earnest, our Vice President and Chief Investment Officer and Michael L. Hirons, our Vice President - Finance. While we believe that we could find replacements for our personnel, the loss of their services could harm our operations and adversely affect the value of our common shares.

Risks That Apply to our Real Estate Business

Real estate income and the value of real estate investments fluctuate due to various factors.

The value of real estate fluctuates depending on conditions in the general economy and the real estate business. These conditions may also limit our revenues and available cash.

The factors that affect the value of our real estate include, among other things:

- international, national, regional and local economic conditions;
- consequences of any armed conflict involving, or terrorist attack against, the United States;
- our ability to secure adequate insurance;
- local conditions such as an oversupply of space or a reduction in demand for real estate in the area;
- competition from other available space;
- whether tenants and users such as customers of our tenants consider a property attractive;
- the financial condition of our tenants, including the extent of tenant bankruptcies or

- defaults;
- whether we are able to pass some or all of any increased operating costs through to tenants;
- how well we manage our properties;
- fluctuations in interest rates;
- changes in real estate taxes and other expenses;
- changes in market rental rates;
- the timing and costs associated with property improvements and rentals;
- changes in taxation or zoning laws;
- government regulation;
- our failure to continue to qualify as a real estate investment trust;
- availability of financing on acceptable terms or at all;
- potential liability under environmental or other laws or regulations; and general competitive factors.

The rents and interest we receive and the occupancy levels at our properties may decline as a result of adverse changes in any of these factors. If our revenues decline, we generally would expect to have less cash available to pay our indebtedness and distribute to our shareholders. In addition, some of our unreimbursed costs of owning real estate may not decline when the related rents decline.

There are risks associated with owning and leasing real estate.

Although our lease terms obligate the tenants to bear substantially all of the costs of operating the properties, investing in real estate involves a number of risks, including:

- The risk that tenants will not perform under their leases, reducing our income from the leases or requiring us to assume the cost of performing obligations (such as taxes, insurance and maintenance) that are the tenant's responsibility under the lease
- The risk that changes in economic conditions or real estate markets may adversely affect the value of our properties
- The risk that local conditions could adversely affect the value of our properties
- We may not always be able to lease properties at favorable rates or certain tenants may require significant capital expenditures by us to conform existing properties to their requirements.
- We may not always be able to sell a property when we desire to do so at a favorable price
- Changes in tax, zoning or other laws could make properties less attractive or less profitable

If a tenant fails to perform on its lease covenants, that would not excuse us from meeting any debt obligation secured by the property and could require us to fund reserves in favor of our lenders, thereby reducing funds available for payment of dividends. We cannot be assured that tenants will elect to renew their leases when the terms expire. If a tenant does not renew its lease or if a tenant defaults on its lease obligations, there is no assurance we could obtain a substitute tenant on acceptable terms. If we cannot obtain another quality tenant, we may be required to modify the property for a different use, which may involve a significant capital expenditure and a delay in re-leasing the property.

Some potential losses are not covered by insurance.

Our leases require the tenants to carry comprehensive liability, casualty, workers' compensation, extended coverage and rental loss insurance on our properties. We believe the required coverage is of the type, and amount, customarily obtained by an owner of similar properties. We believe all of our properties are adequately insured. However, there are some types of losses, such as catastrophic acts of nature, acts of war or riots, for which we or our tenants cannot obtain insurance at an acceptable cost. If there is an uninsured loss or a loss in excess of insurance limits, we could lose both the revenues generated by the affected property and the capital we have invested in the property. We would, however, remain obligated to repay any mortgage indebtedness or other obligations related to the property. Since September 11, 2001, the cost of insurance protection against terrorist acts has risen dramatically. There can be no assurance our tenants will be able to obtain terrorism insurance coverage, or that any coverage they do obtain will adequately protect our properties against loss from terrorist attack.

Joint ventures may limit flexibility with jointly owned investments.

We may continue to acquire or develop properties in joint ventures with third parties when those transactions appear desirable. We would not own the entire interest in any property acquired by a joint venture. Major decisions regarding a joint venture property may require the consent of our partner. If we have a dispute with a joint venture partner, we may feel it necessary or become obligated to acquire the partner's interest in the venture. However, we cannot ensure that the price we would have to pay or the timing of the acquisition would be favorable to us. If we own less than a 50% interest in any joint venture, or if the venture is jointly controlled, the assets and financial results of the joint venture may not be reportable by us on a consolidated basis. To the extent we have commitments to, or on behalf of, or are dependent on, any such "off-balance sheet" arrangements, or if those arrangements or their properties or leases are subject to material contingencies, our liquidity, financial condition and operating results could be adversely affected by those commitments or off-balance sheet arrangements.

Our multi-tenant properties expose us to additional risks.

Our entertainment retail centers in Westminster, Colorado, New Rochelle, New York, White Plains, New York, Burbank, California and Ontario, Canada, and similar properties we may seek to acquire or develop in the future, involve risks not typically encountered in the purchase and lease-back of megaplex theatres which are operated by a single tenant. The ownership or development of multi-tenant retail centers could expose us to the risk that a sufficient number of suitable tenants may not be found to enable the center to operate profitably and provide a return to us. This risk may be compounded by the failure of existing tenants to satisfy their obligations due to various factors, including the current economic crisis. These risks, in turn, could cause a material adverse impact to our results of operations and business.

Retail centers are also subject to tenant turnover and fluctuations in occupancy rates, which could affect our operating results. Multi-tenant retail centers also expose us to the risk of potential "CAM slippage," which may occur when CAM fees paid by tenants are exceeded by the actual cost of taxes, insurance and maintenance at the property.

Failure to comply with the Americans with Disabilities Act and other laws could result in substantial costs.

Our theatres must comply with the Americans with Disabilities Act ("ADA"). The ADA requires that public accommodations reasonably accommodate individuals with disabilities and that new construction or alterations be made to commercial facilities to conform to accessibility guidelines. Failure to comply with the ADA can result in injunctions, fines, damage awards to private parties

and additional capital expenditures to remedy noncompliance. Our leases require the tenants to comply with the ADA.

Our properties are also subject to various other federal, state and local regulatory requirements. We do not know whether existing requirements will change or whether compliance with future requirements will involve significant unanticipated expenditures. Although these expenditures would be the responsibility of our tenants, if tenants fail to perform these obligations, we may be required to do so.

Potential liability for environmental contamination could result in substantial costs.

Under federal, state and local environmental laws, we may be required to investigate and clean up any release of hazardous or toxic substances or petroleum products at our properties, regardless of our knowledge or actual responsibility, simply because of our current or past ownership of the real estate. If unidentified environmental problems arise, we may have to make substantial payments, which could adversely affect our cash flow and our ability to make distributions to our shareholders. This is because:

- As owner we may have to pay for property damage and for investigation and clean-up costs incurred in connection with the contamination
- The law may impose clean-up responsibility and liability regardless of whether the owner or operator knew of or caused the contamination
- Even if more than one person is responsible for the contamination, each person who shares legal liability under environmental laws may be held responsible for all of the clean-up costs
- Governmental entities and third parties may sue the owner or operator of a contaminated site for damages and costs

These costs could be substantial and in extreme cases could exceed the value of the contaminated property. The presence of hazardous substances or petroleum products or the failure to properly remediate contamination may adversely affect our ability to borrow against, sell or lease an affected property. In addition, some environmental laws create liens on contaminated sites in favor of the government for damages and costs it incurs in connection with a contamination. Most of our loan agreements require the Company or a subsidiary to indemnify the lender against environmental liabilities. Our leases require the tenants to operate the properties in compliance with environmental laws and to indemnify us against environmental liability arising from the operation of the properties. We believe all of our properties are in material compliance with environmental laws. However, we could be subject to strict liability under environmental laws because we own the properties. There is also a risk that tenants may not satisfy their environmental compliance and indemnification obligations under the leases. Any of these events could substantially increase our cost of operations, require us to fund environmental indemnities in favor of our lenders, limit the amount we could borrow under our revolving credit facility and term loan, and reduce our ability to service our debt and pay dividends to shareholders.

Real estate investments are relatively non-liquid.

We may desire to sell a property in the future because of changes in market conditions, poor tenant performance or default of any mortgage we hold, or to avail ourselves of other opportunities. We may also be required to sell a property in the future to meet debt obligations or avoid a default. Specialty real estate projects such as megaplex theatres cannot always be sold quickly, and we cannot assure you that we could always obtain a favorable price. In addition, the Internal Revenue Code limits our ability to sell our properties. We may be required to invest in the restoration or modification of a property before we can sell it. The inability to respond

promptly to changes in the performance of our property portfolio could adversely affect our financial condition and ability to service debt and make distributions to our shareholders.

There are risks in owning assets outside the United States.

Our properties in Canada and the property securing our Canadian mortgage financing are subject to the risks normally associated with international operations. The rentals under our Canadian leases, the debt service on our Canadian mortgage financing and the payments to be received on our Canadian mortgage receivable are payable or collectible (as applicable) in Canadian dollars, which could expose us to losses resulting from fluctuations in exchange rates to the extent we have not hedged our position. Canadian real estate and tax laws are complex and subject to change, and we cannot assure you we will always be in compliance with those laws or that compliance will not expose us to additional expense. We may also be subject to fluctuations in Canadian real estate values or markets or the Canadian economy as a whole, which may adversely affect our Canadian investments.

Additionally, we have made small initial investments in projects located in China and may enter other international markets, which may have similar risks as described above as well as unique risks associated with a specific country.

There are risks in owning or financing properties for which the tenant's or mortgagor's operations may be impacted by weather conditions and climate change.

We have acquired and financed metropolitan ski areas as well as vineyards and wineries, and may continue to do so in the future. The operators of these properties, our tenants or mortgagors, are dependent upon the operations of the properties to pay their rents and service their loans. The ski area operator's ability to attract visitors is influenced by weather conditions and climate change in general, each of which may impact the amount of snowfall during the ski season. Adverse weather conditions may discourage visitors from participating in outdoor activities. In addition, unseasonably warm weather may result in inadequate natural snowfall, which increases the cost of snowmaking, and could render snowmaking wholly or partially ineffective in maintaining quality skiing conditions. Excessive natural snowfall may materially increase the costs incurred for grooming trails and may also make it difficult for visitors to obtain access to the ski resorts. Prolonged periods of adverse weather conditions, or the occurrence of such conditions during peak visitation periods, could have a material adverse effect on the operator's financial results and could impair the ability of the operator to make rental payments or service our loans.

The ability to grow quality wine grapes and a sufficient quantity of wine grapes is influenced by weather conditions and climate change. Droughts, freezes and other weather conditions or phenomena, such as "El Nino," may adversely affect the timing, quality or quantity of wine grape harvests, and this can have a material adverse effect on the operating results of our vineyard and winery operators. In these circumstances, the ability of our tenants to make rental payments or service our loans could be impaired.

Wineries and vineyards are subject to a number of risks associated with the agricultural industry.

Winemaking and wine grape growing are subject to a variety of agricultural risks. In addition to weather, various diseases, pests, fungi and viruses can affect the quality and quantity of wine grapes and negatively impact the profitability of our tenants. Furthermore, wine grape growing requires adequate water supplies. The water needs of our properties are generally supplied through wells and reservoirs located on the properties. Although we believe that there are adequate water supplies to meet the needs of all of our properties, a substantial reduction in water

supplies could result in material losses of wine crops and vines. If our tenants suffer a downturn in their business due to any of the factors described above, they may be unable to make their lease or loan payments, which could adversely affect our results of operations and financial condition.

Risks That May Affect the Market Price of our Shares

We cannot assure you we will continue paying cash dividends at current rates.

Our dividend policy is determined by our Board of Trustees. Our ability to continue paying dividends on our common shares, to pay dividends on our preferred shares at their stated rates or to increase our common share dividend rate will depend on a number of factors, including our liquidity, our financial condition and results of future operations, the performance of lease and mortgage terms by our tenants and customers, our ability to acquire, finance and lease additional properties at attractive rates, and provisions in our loan covenants. If we do not maintain or increase our common share dividend rate, that could have an adverse effect on the market price of our common shares and possibly our preferred shares. Furthermore, if the Board of Trustees decides to pay dividends on our common shares partially or substantially all in common shares, that could have an adverse effect on the market price of our common shares and possibly our preferred shares.

Market interest rates may have an effect on the value of our shares.

One of the factors that investors may consider in deciding whether to buy or sell our common shares or preferred shares is our dividend rate as a percentage of our share price, relative to market interest rates. If market interest rates increase, prospective investors may desire a higher dividend on our common shares or seek securities paying higher dividends or interest.

Market prices for our shares may be affected by perceptions about the financial health or share value of our tenants and mortgagors or the performance of REIT stocks generally.

To the extent any of our tenants or customers, or their competition, report losses or slower earnings growth, take charges against earnings or enter bankruptcy proceedings, the market price for our shares could be adversely affected. The market price for our shares could also be affected by any weakness in the performance of REIT stocks generally or weakness in any of the sectors in which our tenants and customers operate.

Limits on changes in control may discourage takeover attempts which may be beneficial to our shareholders.

There are a number of provisions in our Declaration of Trust, Bylaws, Maryland law and agreements we have with others which could make it more difficult for a party to make a tender offer for our shares or complete a takeover of the Company which is not approved by our Board of Trustees. These include:

- A staggered Board of Trustees that can be increased in number without shareholder approval
- A limit on beneficial ownership of our shares, which acts as a defense against a hostile takeover or acquisition of a significant or controlling interest, in addition to preserving our REIT status
- The ability of the Board of Trustees to issue preferred or common shares, to reclassify preferred or common shares, and to increase the amount of our authorized preferred or common shares, without shareholder approval
- Limits on the ability of shareholders to remove trustees without cause
- Requirements for advance notice of shareholder proposals at shareholder meetings

- Provisions of Maryland law restricting business combinations and control share acquisitions not approved by the Board of Trustees
- Provisions of Maryland law protecting corporations (and by extension REITs) against unsolicited takeovers by limiting the duties of the trustees in unsolicited takeover situations
- Provisions in Maryland law providing that the trustees are not subject to any higher duty or greater scrutiny than that applied to any other director under Maryland law in transactions relating to the acquisition or potential acquisition of control
- Provisions of Maryland law creating a statutory presumption that an act of the trustees satisfies the applicable standards of conduct for trustees under Maryland law
- Provisions in loan or joint venture agreements putting the Company in default upon a change in control
- Provisions of employment agreements with our officers calling for share purchase loan forgiveness (under certain conditions), severance compensation and vesting of equity compensation upon a change in control

Any or all of these provisions could delay or prevent a change in control of the Company, even if the change was in our shareholders' interest or offered a greater return to our shareholders.

We may change our policies without obtaining the approval of our shareholders.

Our operating and financial policies, including our policies with respect to acquiring or financing real estate or other companies, growth, operations, indebtedness, capitalization and dividends, are exclusively determined by our Board of Trustees. Accordingly, our shareholders do not control these policies.

Dilution could affect the value of our shares.

Our future growth will depend in part on our ability to raise additional capital. If we raise additional capital through the issuance of equity securities, the interests of holders of our common shares could be diluted. Likewise, our Board of Trustees is authorized to cause us to issue preferred shares in one or more series, the holders of which would be entitled to dividends and voting and other rights as our Board of Trustees determines, and which could be senior to or convertible into our common shares. Accordingly, an issuance by us of preferred shares could be dilutive to or otherwise adversely affect the interests of holders of our common shares. As of December 31, 2009, our Series C preferred shares are convertible, at each of the holder's option, into our common shares at a conversion rate of 0.3572 common shares per \$25.00 liquidation preference, which is equivalent to a conversion price of approximately \$69.99 per common share (subject to adjustment in certain events). Additionally, as of December 31, 2009, our Series E preferred shares are convertible, at each of the holder's option, into our common shares at a conversion rate of 0.4512 common shares per \$25.00 liquidation preference, which is equivalent to a conversion price of approximately \$55.41 per common share (subject to adjustment in certain events). Depending upon the number of Series C and Series E preferred shares being converted at one time, a conversion of Series C and Series E preferred shares could be dilutive to or otherwise adversely affect the interests of holders of our common shares.

Changes in foreign currency exchange rates may have an impact on the value of our shares.

The functional currency for our Canadian operations and mortgage note receivable is the Canadian dollar. As a result, our future earnings could be affected by fluctuations in the exchange rate between U.S. and Canadian dollars, which in turn could affect our share price. We have attempted to mitigate our exposure to Canadian currency exchange risk by having both our

Canadian lease rentals and the debt service on our Canadian mortgage financing payable in the same currency. We have also entered into foreign currency exchange contracts to hedge in part our exposure to exchange rate fluctuations. Foreign currency derivatives are subject to future risk of loss. We do not engage in purchasing foreign exchange contracts for speculative purposes.

Additionally, we may enter other international markets which pose similar currency fluctuation risks as described above.

Tax reform could adversely affect the value of our shares.

There have been a number of proposals in Congress for major revision of the federal income tax laws, including proposals to adopt a flat tax or replace the income tax system with a national sales tax or value-added tax. Any of these proposals, if enacted, could change the federal income tax laws applicable to REITS, subject us to federal tax or reduce or eliminate the current deduction for dividends paid to our shareholders, any of which could negatively affect the market for our shares.

Item 1B. Unresolved Staff Comments

There are no unresolved comments from the staff of the SEC required to be disclosed herein as of the date of this Annual Report on Form 10-K.

Item 2. Properties

As of December 31, 2009, our real estate portfolio consisted of 95 megaplex theatre properties and various restaurant, retail and other properties located in 33 states, the District of Columbia and Ontario, Canada. Except as otherwise noted, all of the real estate investments listed below are owned or ground leased directly by us. The following table lists our properties, their locations, acquisition dates, number of theatre screens, number of seats, gross square footage, and the tenant.

As of December 31, 2009, our portfolio of megaplex theatre properties consisted of 7.8 million square feet and was 100% occupied, and our portfolio of retail, restaurant and other properties consisted of 4.1 million square feet and was 92% occupied. The combined portfolio consisted of 11.9 million square feet and was 97% occupied. For the year ended December 31, 2009, approximately 73% of our rental revenue and 60% of total revenue was derived from theatre tenants. The following table sets forth information regarding EPR's megaplex theatre portfolio as of December 31, 2009 (dollars in thousands). This data does not include the two megaplex theatre properties held by our unconsolidated joint ventures.

(1) Consists of rental revenue and tenant reimbursements.

Office Location

Our executive office is located in Kansas City, Missouri and is leased from a third party landlord. The office occupies approximately 19,513 square feet with annual rentals of \$322 thousand. The lease expired in December 2009 and we continue to lease the space on a month-to-month basis.

Tenants and Leases

Our existing leases on rental property (on a consolidated basis - excluding unconsolidated joint venture properties) provide for aggregate annual rentals of approximately \$200 million (not including periodic rent escalations or percentage rent). The megaplex theatre leases have an

average remaining base term lease life of approximately 12 years and may be extended for predetermined extension terms at the option of the tenant. The theatre leases are typically triple-net leases that require the tenant to pay substantially all expenses associated with the operation of the properties, including taxes, other governmental charges, insurance, utilities, service, maintenance and any ground lease payments.

Property Acquisitions in 2009

The following table lists the significant rental properties we acquired or developed during 2009:

Property	Location	Tenant	Development Cost/ Purchase Price
Harbour View Marketplace	Suffolk, VA	Multi-Tenant	\$13.4 million
Carneros Custom Crush Facility	Sonoma County, California	Carneros Vintners, Inc.	\$12.5 million
Equipment at Buena Vista, Columbia, Gary Farrel and Geyser Peak Wineries	Various	Ascentia Wine Estates	\$8.5 million
15 Theatre Portfolio	Various	Rave Cinemas, LLC	\$121.5 million

Item 3. Legal Proceedings

On December 31, 2009, the Company filed a petition with the Western District Court of Missouri against Louis Cappelli, Concord Resorts, LLC, and certain of their affiliates seeking payment of all amounts due under various loans made to them by the Company that are currently in default. The Company is also seeking a declaratory judgment that no further investments are required to be made by us under any prior commitment.

Except as disclosed above, other than routine litigation and administrative proceedings arising in the ordinary course of business, we are not presently involved in any litigation nor, to our knowledge, is any litigation threatened against us or our properties, which is reasonably likely to have a material adverse effect on our liquidity or results of operations.

Item 4. Submission of Matters to a Vote of Security Holders

No matters were submitted to a vote of security holders during the fourth quarter of the year ended December 31, 2009.

PART II

Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities

The following table sets forth, for the quarterly periods indicated, the high and low sales prices per share for our common shares on the New York Stock Exchange ("NYSE") under the trading symbol "EPR" and the distributions declared.

	<u>High</u>	<u>Low</u>	<u>Distribution</u>
2009:			
Fourth quarter	\$ 36.61	\$ 30.37	\$ 0.6500
Third quarter	35.19	19.40	0.6500
Second quarter	25.15	15.30	0.6500
First quarter	30.62	12.70	0.6500
2008:			
Fourth quarter	\$ 54.62	\$ 18.81	\$ 0.8400
Third quarter	59.02	48.03	0.8400
Second quarter	56.31	48.23	0.8400
First quarter	55.54	42.76	0.8400

The closing price for our common shares on the NYSE on February 25, 2010 was \$38.30 per share.

We declared quarterly distributions to common shareholders aggregating \$2.60 per common share in 2009 and \$3.36 per common share in 2008.

While we intend to continue paying regular quarterly dividends, future dividend declarations will be at the discretion of the Board of Trustees and will depend on our actual cash flow, our financial condition, capital requirements, the annual distribution requirements under the REIT provisions of the Code, debt covenants and other factors the Board of Trustees deems relevant. The actual cash flow available to pay dividends may be affected by a number of factors, including the revenues received from rental properties and mortgage notes, our operating expenses, debt service on our borrowings, the ability of tenants and customers to meet their obligations to us and any unanticipated capital expenditures. Our Series B preferred shares have a fixed dividend rate of 7.75%, our Series C preferred shares have a fixed dividend rate of 5.75%, our Series D preferred shares have a fixed dividend rate of 7.375% and our Series E preferred shares have a fixed dividend rate of 9.00%.

During the year ended December 31, 2009, the Company did not sell any unregistered securities.

On February 25, 2010, there were approximately 617 holders of record of our outstanding common shares.

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion should be read in conjunction with the Consolidated Financial Statements and Notes thereto included in this Annual Report on Form 10-K. The forward-looking statements included in this discussion and elsewhere in this Annual Report on Form 10-K involve risks and uncertainties, including anticipated financial performance, business prospects, industry trends, shareholder returns, performance of leases by tenants, performance on loans to customers and other matters, which reflect management's best judgment based on factors currently known. See "Forward Looking Statements." Actual results and experience could differ materially from the anticipated results and other expectations expressed in our forward-looking statements as a result of a number of factors, including but not limited to those discussed in this Item and in Item 1A, "Risk Factors."

Overview

Our principal business objective is to be the nation's leading destination entertainment, entertainment-related, recreation and specialty real estate company by continuing to develop, acquire or finance high-quality properties. As of December 31, 2009, our total assets exceeded \$2.6 billion, and included investments in 95 megaplex theatre properties (including four joint venture properties) and various restaurant, retail, entertainment, destination recreational and specialty properties located in 33 states, the District of Columbia and Ontario, Canada. As of December 31, 2009, we had invested approximately \$12.7 million in development land and construction in progress and approximately \$522.9 million (including accrued interest and net of the loan loss reserve of \$35.8 million) in mortgage financing for entertainment, recreational and specialty properties, including certain such properties under development.

As of December 31, 2009, our real estate portfolio of megaplex theatre properties consisted of 7.8 million square feet and was 100% occupied, and our remaining real estate portfolio consisted of 4.1 million square feet and was 92% occupied. The combined real estate portfolio consisted of 11.9 million square feet and was 97% occupied. Our theatre properties are leased to twelve different leading theatre operators. At December 31, 2009, approximately 43% of our megaplex theatre properties were leased to AMC.

Substantially all of our single-tenant properties are leased pursuant to long-term, triple-net leases, under which the tenants typically pay all operating expenses of a property, including, but not limited to, all real estate taxes, assessments and other governmental charges, insurance, utilities, repairs and maintenance. A majority of our revenues are derived from rents received or accrued under long-term, triple-net leases. Tenants at our multi-tenant properties are typically required to pay common area maintenance charges to reimburse us for their pro rata portion of these costs.

Our real estate mortgage portfolio consists of nine mortgage notes. Of the outstanding gross balance of \$558.7 million at December 31, 2009, four notes comprise \$423.1 million of the balance and the remainder of \$135.6 million relates to financing provided for ski areas. Two of the four mortgage notes, totaling \$163.3 million at December 31, 2009, are secured by a water-park anchored entertainment village in Kansas City, Kansas (the first phase of which opened in July 2009) as well as two other water-parks in Texas. The other two mortgage notes, together totaling \$259.8 million at December 31, 2009, relate to the Toronto Dundas Square Project, an entertainment retail center in Ontario, Canada that was completed in May 2008, and a planned casino and resort development in Sullivan County, New York.

We incur general and administrative expenses including compensation expense for our executive officers and other employees, professional fees and various expenses incurred in the process of identifying, evaluating, acquiring and financing additional properties and mortgage notes. We are self-administered and managed by our Board of Trustees and executive officers. Our primary non-cash expense is the depreciation of our properties. We depreciate buildings, improvements on our properties and furniture, fixtures and equipment over a 3 to 40 year period for tax purposes and financial reporting purposes.

Our property acquisitions and financing commitments are financed by cash from operations, borrowings under our revolving credit facilities, term loan facilities and long-term mortgage debt, and the sale of equity securities. It has been our strategy to structure leases and financings to ensure a positive spread between our cost of capital and the rentals paid by our tenants. We have primarily acquired or developed new properties that are pre-leased to a single tenant or multi-tenant properties that have a high occupancy rate. We do not typically develop or acquire properties that are not significantly pre-leased. We have also entered into certain joint ventures and we have provided mortgage note financing as described above. We intend to continue entering into some or all of these types of arrangements in the foreseeable future, subject to our ability to do so in light of the current financial and economic environment.

Historically, our primary challenges have been locating suitable properties, negotiating favorable lease or financing terms, and managing our portfolio as we have continued to grow. We believe the knowledge and industry relationships of our management have facilitated opportunities for us to acquire, finance and lease properties. However, due to the downturn in the economy and distress in the capital markets, for most of 2009 we were primarily focused on maintaining adequate liquidity and a strong balance sheet. During this time period we tempered our focus on making new investments and primarily funded remaining commitments related to existing investments. As a result, our capital spending for the year ended December 31, 2009 was much lower than it had been for the past several years. In addition, we completed our amended and restated line of credit in June 2009, six months ahead of its maturity, and we deleveraged our balance sheet primarily through periodic equity issuances under the direct share purchase component of our DSP Plan, each of which were previously disclosed in our Quarterly Reports on Form 10-Q.

As conditions became more favorable in the capital markets toward the latter part of 2009 and our cost of capital improved, we issued common shares in a larger registered public offering and began making new investments, including the acquisition and leasing of fifteen theaters in December 2009 and five public charter schools in January 2010, together totaling approximately \$165 million. We expect to have additional investment opportunities in 2010, and we will continue to assess the state of the capital markets, our relative cost of capital and our liquidity position in making our investment decisions.

Throughout the remainder of 2010, we expect to maintain a debt to total capitalization ratio of between 40% and 50%. Depending on our capital needs, we will seek both debt and equity capital and will consider issuing additional shares under the direct share purchase component of our DSP Plan. While additional equity issuances mitigate the growth of per share results, we believe reduced leverage and an emphasis on liquidity continues to be prudent during these challenging times.

Developments in the credit and equity markets and the economic downturn in 2008 and 2009 have also had a significant impact on the ability of our development partners to fully finance

developments in process or to refinance development projects upon completion. As a result, the development of the water-park anchored entertainment village in Kansas was downsized and will now open in phases (the first phase opened in July 2009). Because of the down-sizing and as a condition to provide additional funding, the collateral for our mortgage note related to this project was increased by adding mortgages on two other water parks in Texas that are owned and operated by affiliates of the entity that owns the Kansas property. Additionally, the planned casino and resort development in Sullivan County, New York has been downsized from an estimated \$1 billion to an estimated \$600 million and is currently delayed due to the developer's issues in obtaining financing. As a result of these delays, the developer ceased making interest payments on our mortgage note receivable and no income was recognized on this note in 2009. Furthermore, there can be no assurance that the developer will ultimately obtain the financing necessary to complete this project. On December 31, 2009, we commenced litigation against Mr. Cappelli and his affiliates seeking payment of amounts due under various loans to them and a declaratory judgment that no further investments are required to be made by us under any prior commitment. With respect to our second mortgage investment in the Toronto Dundas Square Project, due to the inability of the developer to sell or restructure the project upon completion, this property is in receivership. We expect to become the owner of the property in early 2010. See "Recent Developments" for more information regarding these investments.

Certain of our customers, particularly our vineyard and winery tenants and certain non-theatre retail tenants, have also experienced the effects of the economic downturn, which has generally resulted in a reduction in sales and profitability. As a result, we have seen more credit issues with these tenants than in the past, and this trend may continue in 2010. With respect to our vineyard and winery investments, we have reclaimed possession of four properties from two tenants for failure to pay rent. With respect to our entertainment retail centers, we had one lease with Circuit City and one lease with Filene's Basement (both at our entertainment retail center in White Plains, New York) as well as one lease with Bally's and two leases with two corporately owned Bannigan's at other locations. Each of these tenants has either liquidated or filed bankruptcy proceedings. Revenue from these tenants totaled approximately \$790 thousand for the year ended December 31, 2009, and \$1.3 million of outstanding receivables at December 31, 2009 related to these tenants has been fully reserved. Other smaller tenants at our entertainment retail centers have also experienced difficulty during the economic downturn. If consumer spending continues to decline, there could be additional pressure on retailers' financial performance which could in turn affect their performance under our leases. Revenue from entertainment retail centers, excluding megaplex theaters, was approximately \$45.0 million or 17.0 % of our total revenue for the year ended December 31, 2009; however, excluding megaplex movie theatres, no one retail tenant in aggregate represented more than \$2.1 million or 0.8 % of total Company revenues for the year ended December 31, 2009.

As a result of these issues, as of December 31, 2009, \$259.8 million of mortgage notes and \$39.5 million of notes receivable were considered impaired and during the year ended December 31, 2009, provision for loan losses of \$34.8 million related to mortgage notes receivable and \$36.2 million related to the notes receivable were recognized. In addition, during the year ended December 31, 2009, we recorded an impairment charge of \$35.8 million related to our entertainment retail center in White Plains, New York and an impairment charge of \$6.4 million related to our investments in vineyards and wineries. See "Recent Developments" below for additional discussion.

Our business is subject to a number of risks and uncertainties, including those described in "Risk Factors" in Item 1A of this report.

Critical Accounting Policies

The preparation of financial statements in conformity with accounting principles generally accepted in the United States ("GAAP") requires management to make estimates and assumptions in certain circumstances that affect amounts reported in the accompanying consolidated financial statements and related notes. In preparing these financial statements, management has made its best estimates and assumptions that affect the reported assets and liabilities. The most significant assumptions and estimates relate to consolidation, revenue recognition, depreciable lives of the real estate, the valuation of real estate, accounting for real estate acquisitions, estimating reserves for uncollectible receivables and the accounting for mortgage and other notes receivable. Application of these assumptions requires the exercise of judgment as to future uncertainties and, as a result, actual results could differ from these estimates.

Consolidation

We consolidate certain entities if we are deemed to be the primary beneficiary in a variable interest entity ("VIE"), as defined in Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic on Consolidation ("Topic 810"). The equity method of accounting is applied to entities in which we are not the primary beneficiary as defined in Topic 810, or do not have effective control, but can exercise influence over the entity with respect to its operations and major decisions.

Revenue Recognition

Rents that are fixed and determinable are recognized on a straight-line basis over the minimum terms of the leases. Base rent escalation in other leases is dependent upon increases in the Consumer Price Index ("CPI") and accordingly, management does not include any future base rent escalation amounts on these leases in current revenue. Most of our leases provide for percentage rents based upon the level of sales achieved by the tenant. These percentage rents are recognized once the required sales level is achieved. Lease termination fees are recognized when the related leases are canceled and we have no continuing obligation to provide services to such former tenants.

Direct financing lease income is recognized on the effective interest method to produce a level yield on funds not yet recovered. Estimated unguaranteed residual values at the date of lease inception represent management's initial estimates of fair value of the leased assets at the expiration of the lease, not to exceed original cost. Significant assumptions used in estimating residual values include estimated net cash flows over the remaining lease term and expected future real estate values. The estimated unguaranteed residual value is reviewed on an annual basis or more frequently if necessary. We evaluate the collectibility of our direct financing lease receivable to determine whether it is impaired. A direct financing lease receivable is considered to be impaired when, based on current information and events, it is probable that we will be unable to collect all amounts due according to the existing contractual terms. When a direct financing lease receivable is considered to be impaired, the amount of loss is calculated by comparing the recorded investment to the value determined by discounting the expected future cash flows at the direct financing lease receivable's effective interest rate or to the value of the underlying collateral, less costs to sell, if such receivable is collateralized.

Real Estate Useful Lives

We are required to make subjective assessments as to the useful lives of our properties for the purpose of determining the amount of depreciation to reflect on an annual basis with respect to those properties. These assessments have a direct impact on our net income. Depreciation and

amortization are provided on the straight-line method over the useful lives of the assets, as follows:

Buildings	40 years
Tenant improvements	Base term of lease or useful life, whichever is shorter
Furniture, fixtures and equipment	3 to 25 years

Impairment of Real Estate Values

We are required to make subjective assessments as to whether there are impairments in the value of our rental properties. These estimates of impairment may have a direct impact on our consolidated financial statements.

We assess the carrying value of our rental properties whenever events or changes in circumstances indicate that the carrying amount of a property may not be recoverable. Certain factors that may occur and indicate that impairments may exist include, but are not limited to: underperformance relative to projected future operating results, tenant difficulties and significant adverse industry or market economic trends. If an indicator of possible impairment exists, a property is evaluated for impairment by comparing the carrying amount of the property to the estimated undiscounted future cash flows expected to be generated by the property. If the carrying amount of a property exceeds its estimated future cash flows on an undiscounted basis, an impairment charge is recognized in the amount by which the carrying amount of the property exceeds the fair value of the property. Management estimates fair value of our rental properties utilizing independent appraisals and based on projected discounted cash flows using a discount rate determined by management to be commensurate with the risk inherent in the Company. During the three months ended September 30, 2009, we recorded an impairment charge related to our entertainment retail center in White Plains, New York. Additionally, during the three months ended December 31, 2009, we recorded an impairment charge related to four of our vineyard and winery properties. For further detail, see Note 4 to the consolidated financial statements in this Annual Report on Form 10-K.

Real Estate Acquisitions

Upon acquisitions of real estate properties, we record the fair value of acquired tangible assets (consisting of land, building, tenant improvements, and furniture, fixtures and equipment) and identified intangible assets and liabilities (consisting of above and below market leases, in-place leases, tenant relationships and assumed financing that is determined to be above or below market terms) as well as any noncontrolling interest in accordance with FASB ASC Topic 805 on Business Combinations ("Topic 805"). In addition, in accordance with Topic 805, acquisition-related costs in connection with business combinations are expensed as incurred, rather than capitalized.

Allowance for Doubtful Accounts

Management makes quarterly estimates of the collectibility of its accounts receivable related to base rents, tenant escalations (straight-line rents), reimbursements and other revenue or income. Management specifically analyzes trends in accounts receivable, historical bad debts, customer credit worthiness, current economic trends and changes in customer payment terms when evaluating the adequacy of its allowance for doubtful accounts. In addition, when customers are in bankruptcy, management makes estimates of the expected recovery of pre-petition administrative and damage claims. These estimates have a direct impact on our net income.

Mortgage Notes and Other Notes Receivable

Mortgage notes and other notes receivable, including related accrued interest receivable, consist of loans that we originated and the related accrued and unpaid interest income as of the balance sheet date. Mortgage notes and other notes receivable are initially recorded at the amount advanced to the borrower and we defer certain loan origination and commitment fees, net of certain origination costs, and amortize them over the term of the related loan. Interest income on performing loans is accrued as earned. We evaluate the collectibility of both interest and principal for each loan to determine whether it is impaired. A loan is considered to be impaired when, based on current information and events, we determine it is probable that we will be unable to collect all amounts due according to the existing contractual terms. When a loan is considered to be impaired, the amount of loss is calculated by comparing the recorded investment to the value determined by discounting the expected future cash flows at the loan's effective interest rate or to the fair value of the underlying collateral, less costs to sell, if the loan is collateral dependent. For impaired loans, interest income is recognized on a cash basis, unless we determine based on the loan to estimated fair value ratio the loan should be on the cost recovery method, and any cash payments received would then be reflected as a reduction of principal. Interest income recognition is recommenced if and when the impaired loan becomes contractually current and performance is demonstrated to be resumed. We determined certain of our mortgage and other notes receivable were impaired at December 31, 2009 and, based on a review of the underlying collateral, we recorded a provision for loan losses of \$71.0 million for the year ended December 31, 2009. For further detail, see Notes 5 and 9 to the consolidated financial statements in this Annual Report on Form 10-K.

Recent Developments

Amendment and Restatement of Revolving Credit Facility

On June 30, 2009, we amended and restated our revolving credit facility ("the facility"). The size of the facility decreased from \$235 million to \$215 million and includes an accordion feature in which the facility can be increased to up to \$300 million subject to certain conditions, including lender consent. The facility continues to be supported by a borrowing base of assets, and is now secured by a pledge of the equity of each entity that holds a borrowing base asset. The facility bears interest at a floating rate equal to LIBOR (subject to a 2% floor) plus 3.5%. Alternatively, we can elect to have interest accrue at the base rate plus 3.5%. The base rate is defined as the greater of the prime rate, the federal funds rate plus 0.5%, or the then current 30-day LIBOR (subject to a 2% floor). The facility has a term expiring October 26, 2011 with a one year extension available at our option, subject to certain terms and conditions including the payment of an extension fee. As a result of this amendment and restatement, we expensed certain unamortized financing costs, totaling approximately \$117 thousand, in the second quarter of 2009.

The facility also requires us to grant mortgage liens on the underlying borrowing base properties if the ratio of our consolidated debt to the value of our consolidated assets exceeds specified thresholds. As of December 31, 2009, this ratio was below the specified thresholds and we have not granted any mortgage liens on the underlying borrowing base properties. The financial covenant relating to minimum liquidity now requires us to maintain "excess availability" under the facility for the 90-day period preceding the maturity date of a loan related to a planned casino and resort development in Sullivan County, New York, in an amount equal to at least the unpaid balance of such loan. This loan had an unpaid balance of \$56.3 million as of December 31, 2009.

Debt Financing

On February 25, 2009, VinREIT, LLC ("VinREIT"), a subsidiary that holds our vineyard and winery assets, obtained a \$4.0 million term loan under VinREIT's \$160.0 million credit facility. The loan matures on December 1, 2017 and is secured by fixtures and equipment. The loan bears interest at LIBOR plus 2.00%. Subsequent to the closing of this loan, approximately \$63.3 million of the facility remains available for funding prior to September 26, 2010. The net proceeds from the loan were used to pay down outstanding indebtedness under our revolving credit facility.

Issuances of Common Shares

During January 2009, we issued pursuant to a registered public offering 1,551,000 common shares under the direct share purchase component of the DSP Plan. These shares were sold at an average price of \$23.86 per share and total net proceeds after expenses were approximately \$36.8 million.

During February 2009, we issued pursuant to a registered public offering 339,000 common shares under the direct share purchase component of the DSP Plan. These shares were sold at an average price of \$22.12 per share and total net proceeds after expenses were approximately \$7.5 million.

During August 2009, we issued pursuant to a registered public offering 652,000 common shares under the direct share purchase component of the DSP Plan. These shares were sold at an average price of \$30.65 per share and total net proceeds after expenses were approximately \$19.9 million.

During September 2009, we issued pursuant to a registered public offering 911,000 common shares under the direct share purchase component of the DSP Plan. These shares were sold at an average price of \$32.92 per share and total net proceeds after expenses were approximately \$29.9 million.

On November 16, 2009, we issued pursuant to a registered public offering 6,325,000 common shares (including the exercise of the over-allotment option of 825,000 shares) at a purchase price of \$31.50. Total net proceeds to us after underwriting discounts and expenses were approximately \$190.6 million.

Impairment Charges

Our entertainment retail center in White Plains, New York, held in a consolidated joint venture, was acquired with mortgage financing that had a loan to fair value ratio of approximately 70% at the time of the acquisition of our interests in May 2007. The loan is personally guaranteed by the principals of our minority partner, one of which is Mr. Cappelli who either personally, or through his related interests, in default on several other obligations to us (see Notes 5 and 9 to the consolidated financial statements in this Annual Report on Form 10-K). The debt on this center is due in October 2010, and absent any improvement in the performance of the asset, the lender will likely require additional credit support and fees to extend the loan. Any such extension would also require the cooperation of the partners in the joint venture. Without a resolution of our disputes with the principals of our minority partner, there can be no assurance that the minority partner will cooperate with us on this matter. Given that the debt is currently non-recourse to us, we may elect not to further support the joint venture, which may include a decision to surrender the property at the loan's maturity to the senior lender. Accordingly, we

performed an impairment assessment of this asset as of September 30, 2009. It was determined that the carrying value of the asset exceeded the estimated fair value by \$35.8 million, and an impairment charge was recorded at September 30, 2009 for this amount, which was comprised of \$32.4 million related to real estate investment and \$3.4 million related to in-place leases. Our management determined the fair value of the asset taking into account various factors, including an independent appraisal prepared as of September 30, 2009, which indicated a fair value of \$118.0 million. In accordance with the FASB ASC Topic 810 and our policy for allocation of income and loss for this joint venture, a loss of \$15.1 million related to the impairment charge was allocated to the noncontrolling interest related to this venture. The noncontrolling interest related to White Plains was a deficit balance of \$9.0 million at December 31, 2009 which is recorded as a component of equity.

Additionally, during the three months ended December 31, 2009, we determined that four of our vineyard and winery properties were impaired as payments were not being received per the contractual terms. It was determined that the carrying value of the assets exceeded the estimated fair value by \$6.4 million, and an impairment charge was recorded as of December 31, 2009 for this amount. Management determined the fair value of the assets taking into account various factors, including an independent appraisal prepared as of December 31, 2009 which indicated a total fair value of \$35.0 million.

Investments

On December 3, 2009, we completed a purchase of vineyard and winery equipment from our tenant, Ascentia Wine Estates, for a total investment of \$8.5 million and this equipment was leased back to the tenant.

On December 18, 2009, we acquired 15 theatre properties for a total investment of \$121.5 million. The properties are located in Connecticut, Massachusetts, New Jersey, Virginia, Kentucky, Ohio, Michigan, and Iowa, have a total 231 screens and 52,731 seats and are operated by an affiliate of Rave Cinemas, LLC. The theatres are leased under a long-term triple-net master lease.

During the year ended December 31, 2009, we completed the development of a winemaking and storage facility in Sonoma, California for a total development cost of approximately \$12.5 million. The facility consists of approximately 58 thousand square feet and 20 acres of land, is operated by Carneros Vintners, Inc. and is leased under a long-term triple-net lease.

During the year ended December 31, 2009, we completed the initial phase of development of an entertainment retail center adjacent to one of our megaplex theatres in Suffolk, Virginia for a total development cost of \$13.4 million. The Harbour View Marketplace is approximately 80 thousand square feet and the anchor tenant occupies approximately 48 thousand square feet under a long-term ground lease.

Concord Resorts

On August 20, 2008, we entered into an agreement to provide a secured first mortgage loan of \$225.0 million to Concord Resorts, LLC ("Concord Resorts"), an entity controlled by Mr. Cappelli, related to a planned casino and resort development in Sullivan County, New York. Our investment is secured by a first mortgage on the resort complex real estate totaling 1,584 acres. In addition, we have a second mortgage on the remaining 139 acres of the casino related real estate and the loan is personally guaranteed by Mr. Cappelli. We have certain rights to convert our mortgage interest into fee ownership as the project is further developed. The net carrying

value of this mortgage note receivable at December 31, 2009 was \$133.1 million which was funded under our original \$225.0 million secured first mortgage commitment.

Due to the economic downturn, certain other lenders on the development have either reduced their commitments or withdrawn from the project. The planned initial phase of the casino and resort development has been downsized from an estimated \$1 billion to an estimated \$600 million and Mr. Cappelli is attempting to secure the necessary financing. The New York legislature has passed legislation authorizing the benefits of a special reduced tax rate on gaming receipts in Sullivan County, New York if at least \$600 million is invested and 1,000 new jobs are created. As a result of these issues, the development project has been delayed, and there can be no assurance that Mr. Cappelli will obtain the financing necessary to complete the project. Due to these challenges, Concord Resorts has ceased making interest payments to us as contractually obligated under the loan agreement. We have evaluated our mortgage note receivable for impairment and have determined it was impaired during the quarter ended March 31, 2009 due to the inability of the borrower to meet its contractual obligations per the agreement. Our accounting policy is to recognize interest income on impaired loans on a cash basis. Accrual interest income recognition for book purposes was ceased on January 1, 2009 and therefore no interest income has been recorded during the year ended December 31, 2009. Interest income recognized on this mortgage note receivable for the year ended December 31, 2008 was \$6.2 million. Our management determined that no loan loss reserve was necessary for this note considering current factors, including current economic and market conditions, and taking into account an independent appraisal as of April 30, 2009 of the primary collateral, 1,584 acres of land, which indicated a value significantly in excess of the loan balance. On December 31, 2009, we commenced litigation against Mr. Cappelli and his affiliates seeking amounts due under various loans to them and a declaratory judgment that no further investments are required to be made by us under any prior commitment.

Toronto Dundas Square Project

During the year ended December 31, 2009, we invested an additional \$7.6 million Canadian ("CAD") (\$7.2 million U.S.) bringing the total investment to CAD \$133.1 million (\$126.7 million U.S.) in the mortgage note receivable from Metropolis Limited Partnership (the "Partnership") related to the construction of the Toronto Dundas Square Project, a 13 level entertainment retail center in downtown Toronto that was completed in May 2008 for a total cost of approximately CAD \$330 million. Additionally, as of December 31, 2009, we had posted irrevocable stand-by letters of credit related to this project totaling \$1.5 million U.S. which are expected to be cancelled or drawn upon during 2010. The loan is denominated in Canadian dollars and is secured by a second mortgage on the Toronto Dundas Square Project.

A group of banks ("the bank syndicate") has provided first mortgage construction financing to the Partnership totaling approximately CAD \$119.0 million (\$113.2 million U.S.) as of December 31, 2009. In April 2009, we along with the bank syndicate elected to pursue a receivership after it became apparent that a restructuring of the existing equity interests was no longer possible. On April 27, 2009, the court appointed a receiver who is overseeing the sale of the property. On January 8, 2010, we signed a purchase agreement to become the owner of the property and we expect the transaction to close in early 2010. While there can be no assurance that we will be able to successfully refinance the existing first mortgage, we have finalized the terms of a credit facility with a group of banks to provide \$100 million Canadian first mortgage financing that is expected to close in conjunction with the purchase. We expect to consolidate the financial results of the property subsequent to the purchase.

We have evaluated this mortgage note receivable for impairment. Because repayment of the mortgage note receivable did not meet the contractual terms of the agreement, we determined the loan was impaired during the quarter ended March 31, 2009 and ceased accruing interest income as of January 1, 2009 on the loan for book purposes. Accordingly, no interest income was recognized for the year ended December 31, 2009 and no interest income will be recognized in future periods. Interest income recognized on this loan for the years ended December 31, 2008 and 2007 was CAD \$17.9 million (\$16.9 million U.S.) and CAD \$13.5 million (\$12.8 million U.S.). Furthermore, our management reviewed the fair value of the property at September 30, 2009, taking into account a bid from a third party for the second mortgage receivable which implied an overall property value of approximately CAD \$217 million (\$206.5 million U.S.) and an independent appraisal completed in September 2009, and determined a provision for loan loss of CAD \$37.6 million (\$34.8 million U.S.) was necessary. Therefore, the net carrying value of this mortgage note receivable at December 31, 2009 was CAD \$95.5 million (\$90.9 million U.S.).

Transaction costs

During the year ended December 31, 2009, we incurred transaction costs of \$3.3 million due to the write off of costs associated with terminated transactions as well as costs that were expensed as incurred in accordance with FASB ASC Topic 810 related to the acquisition of the Toronto Dundas Square project.

Cappelli Related Notes

We also have two \$10 million notes receivable that were due on February 28, 2009 and March 1, 2009, respectively. The notes bear interest at 10%. Neither note was repaid at maturity. One of the notes is due from our minority joint venture partner in New Roc, an entertainment retail center in New Rochelle, New York, and this note is secured by such partner's interest. The minority joint venture partner is an entity controlled by Mr. Cappelli and Mr. Cappelli has also personally guaranteed the loan. The other note is due from Mr. Cappelli personally and in conjunction with this note, we received an option to purchase 50% of Mr. Cappelli's interest (or Mr. Cappelli's related interests) in three other projects.

We have evaluated these two notes receivable for impairment, and have determined that they were impaired during the quarter ended March 31, 2009 due to the inability of the borrower to meet its contractual obligations per the original agreements. Accordingly, accrual interest income recognition was ceased on January 1, 2009. Interest income of \$834 thousand has been recorded during the year ended December 31, 2009 which represents payments received by us. The latest interest payments related to these two notes receivable were received by us in June of 2009. Interest income recognized on these loans for the years ended December 31, 2008 and 2007 was \$1.8 million and \$1.0 million, respectively. Our management evaluated the fair value of the underlying collateral of the notes and has concluded that a loan loss reserve of \$18.0 million was necessary at December 31, 2009. For further detail, see Note 9 to the consolidated financial statements in this Annual Report on Form 10-K.

Additionally, we have a \$10 million note receivable that is due May 8, 2017 and bears interest at 10%. The note is due from our minority joint venture partner in City Center at White Plains, an entertainment retail center in White Plains, New York, and the note is secured by such partner's interest. The minority joint venture partner is an entity controlled by Mr. Cappelli and another individual, and each personally guarantees the loan.

No interest payments have been received by us on this note receivable since the June interest payment received in June of 2009. We evaluated this note receivable for impairment and

determined that it was impaired during the quarter ended September 30, 2009 due to the inability of the borrower to meet its contractual obligations per the original agreement. Accordingly, accrual interest income recognition was ceased on July 1, 2009. Interest income of \$500 thousand has been recorded during the year ended December 31, 2009 which represents payments received by us prior to July 1, 2009. Interest income recognized on this loan for the years ended December 31, 2008 and 2007 was \$997 thousand and \$261 thousand, respectively. Our management evaluated the fair value of the underlying collateral of the note and has concluded that a loan loss reserve of \$10.0 million was necessary at December 31, 2009. For further detail, see Note 9 to the consolidated financial statements in this Annual Report on Form 10-K.

Other Mortgage Notes and Notes Receivable

On January 26, 2009, we entered into a credit agreement with Rb Wine Associates, LLC ("Rb Wine") to provide a \$2.0 million revolving credit facility that matures on January 1, 2010. This note is secured by certain pledge agreements and other collateral including personal guarantees from the principals of Rb Wine. During the year ended December 31, 2009, we advanced \$1.4 million under this credit facility. Interest accrued on the outstanding principal balance at an annual rate of 15% and was payable monthly at an annual rate of 9.25% with the remaining accrued but unpaid interest and principal due at maturity, which was January 1, 2010. On November 30, 2009, the credit agreement was amended and interest now accrues on the outstanding principal balance at an annual rate of 6% with principal and all accrued interest due on January 1, 2011. Because the interest and principal payments are not being received per the contractual terms of the original agreement, this note was considered impaired during the quarter ended December 31, 2009 and is included in the \$9.5 million of impaired notes receivable discussed further below.

On February 20, 2009, we entered into a \$3.0 million promissory note with Sapphire Wines LLC. The note bears interest at 15% and matured on November 1, 2009. This note is secured by certain pledge agreements and other collateral. Because interest and principal payments have not been received per the contractual terms of the agreement, this note was considered impaired during the quarter ended March 31, 2009 and is included in the \$9.5 million of impaired notes receivable discussed further below.

On May 8, 2009, we received payment in full on our mortgage note receivable and related accrued interest of \$3.7 million from Prairie Creek Properties, LLC. We advanced \$3.5 million during the year ended December 31, 2007 under this agreement for the development of an approximately 9,000 seat amphitheatre in Hoffman Estates, Illinois.

On June 26, 2009, we received payment in full on our note receivable and related accrued interest of \$1.0 million from an affiliate of one of our theatre operators. We advanced \$1.0 million during the year ended December 31, 2007 under this agreement for the development of a megaplex theatre.

During the year ended December 31, 2009, we advanced \$29.0 million under our secured mortgage loan agreements with SVV I, LLC and an affiliate of SVV I, LLC (together "SVVI") for the development of a water-park anchored entertainment village in Kansas City, Kansas, the first phase of which opened in July 2009. On May 6, 2009, we reduced our commitment on this project from \$175.0 million to \$163.5 million and added to our collateral position by placing a mortgage on two other water-parks, located in New Braunfels and South Padre Island, Texas owned and operated by the entities controlled by the principals of SVVI. The mortgage note on the property in Kansas City, Kansas and the mortgage note on the Texas properties have cross-

default and cross-collateral provisions. Pursuant to the mortgage on the Texas properties, only a seasonal line of credit secured by the Texas parks totaling not more than \$5.0 million at any time ranks superior to our collateral position. Furthermore, the interest rates increased from LIBOR plus 3.5% to 7% on July 4, 2009, and the loans were extended from September 30, 2012 to May 1, 2019. Interest income will continue to be recognized on the accrual basis. SVVI is required to fund a debt service reserve for off-season fixed payments (those due from September to May). The reserve is to be funded by equal monthly installments during the months of June, July and August. As a result of the delayed opening of the Kansas water-park in July of 2009 as well as additional start up investment required by SVVI, this reserve has not been fully funded as of December 31, 2009. SVVI is currently pursuing alternative financing sources to fully fund the reserve account. We will also receive a percentage of revenue from all three parks after certain threshold levels are achieved that may increase the return on our invested capital from 7% to as high as 10%. Through December 31, 2009, we have funded approximately \$163.3 million on the mortgage notes.

Additionally, we have three notes receivable totaling \$9.5 million at December 31, 2009 that are impaired due to the inability of the borrowers to meet their contractual obligations per the original agreements. Accordingly, accrual interest income recognition was ceased for two of these notes on January 1, 2009 and on December 1, 2009 for the other note. Interest income of \$510 thousand has been recorded during the year ended December 31, 2009. Interest income recognized on these loans for the years ended December 31, 2008 and 2007 was \$450 thousand and \$187 thousand, respectively. Our management evaluated the fair value of the underlying collateral of the notes and has concluded that a loan loss reserve of \$8.2 million was necessary at December 31, 2009. For further detail, see Note 9 to the consolidated financial statements in this Annual Report on Form 10-K.

Tenant Defaults

Both Bally's and Circuit City have filed bankruptcy proceedings. Bally's has rejected our lease and has vacated its space at our entertainment retail center in New Rochelle, New York. Circuit City terminated its lease and vacated its space at our entertainment retail center in White Plains, New York. Revenue from these tenants totaled approximately \$790 thousand, \$2.5 million and \$2.3 million for the years ended December 31, 2009, 2008 and 2007, respectively. There were outstanding receivables of \$248 thousand related to these tenants at December 31, 2009 that have been fully reserved.

Additionally, at our entertainment retail center in White Plains, New York, we had one lease with Filene's Basement who vacated the center despite a substantial remaining lease term. This tenant was disputing certain non-compete provisions in its lease and we were working on a settlement; however, on May 4, 2009, Filene's Basement filed bankruptcy proceedings and rejected our lease. Revenue from this tenant totaled approximately \$2.6 million and \$2.5 million for the years ended December 31, 2008 and 2007 and no revenue was recognized for this tenant for the year ended December 31, 2009. There were outstanding receivables of \$1.1 million related to this tenant at December 31, 2009 that have been fully reserved.

During the year ended December 31, 2009, two of our vineyard and winery tenants defaulted under the provisions of their leases for failure to pay rent at four properties. Revenue from these tenants totaled approximately \$388 thousand for the year ended December 31, 2009. Total annual rent related to these properties prior to default was \$2.5 million. Outstanding receivables of \$383 thousand (including \$266 thousand of straight-line rent) from one of the tenants was written off during the year ended December 31, 2009 and outstanding receivables of \$626 thousand related

to the other tenant at December 31, 2009 have been fully reserved. We reclaimed possession of the four properties and they are being operated through a wholly-owned taxable REIT subsidiary.

Results of Operations

Year ended December 31, 2009 compared to year ended December 31, 2008

Rental revenue was \$204.6 million for the year ended December 31, 2009 compared to \$202.6 million for the year ended December 31, 2008. The \$2.0 million increase resulted primarily from the acquisitions and developments completed in 2008 and 2009 and base rent increases on existing properties, partially offset by a reduction in rent from defaulting tenants and the impact of a weaker Canadian dollar exchange rate. Percentage rents of \$1.5 million and \$1.7 million were recognized during the year ended December 31, 2009 and 2008, respectively. Straight-line rents of \$2.5 million and \$3.9 million were recognized during the year ended December 31, 2009 and 2008, respectively.

Tenant reimbursements totaled \$18.3 million for the year ended December 31, 2009 compared to \$20.9 million for the year ended December 31, 2008. These tenant reimbursements arise from the operations of our retail centers. The \$2.6 million decrease is primarily due to vacancies related to certain non-theatre retail tenants and the impact of a weaker Canadian dollar exchange rate for the year ended December 31, 2009 compared to the year ended December 31, 2008.

Other income was \$2.9 million for the year ended December 31, 2009 compared to \$2.2 million for the year ended December 31, 2008. The increase of \$0.7 million is primarily due to a gain of \$0.9 million recognized upon settlement of foreign currency forward contracts, partially offset by a \$0.3 million decrease in income from a family bowling center in Westminster, Colorado operated through a wholly-owned taxable REIT subsidiary.

Mortgage and other financing income for the year ended December 31, 2009 was \$45.0 million compared to \$60.4 million for the year ended December 31, 2008. The \$15.4 million decrease relates to less interest income recognized during the year ended December 31, 2009 due to impairment of certain of our mortgage and other notes receivable as further discussed in Note 5 to the consolidated financial statements in this Annual Report on Form 10-K.

Our property operating expense totaled \$28.8 million for the year ended December 31, 2009 compared to \$26.8 million for the year ended December 31, 2008. These property operating expenses arise from the operations of our retail centers. The increase of \$2.0 million resulted primarily from an increase in the provision for bad debts, included in property operating expense, of \$2.6 million to a total of \$4.6 million for the year ended December 31, 2009. Partially offsetting this increase is the impact of a weaker Canadian dollar exchange rate.

Other expense totaled \$2.6 million for the year ended December 31, 2009 compared to \$2.1 million for the year ended December 31, 2008. The \$0.5 million decrease is primarily due to no expense recognized upon settlement of foreign currency forward contracts during the year ended December 31, 2009. This is partially offset by an increase in property operating expenses at certain vineyard and winery properties that are being operated through a wholly-owned taxable REIT subsidiary.

Our general and administrative expense totaled \$15.2 million for the year ended December 31, 2009 compared to \$15.3 million for the year ended December 31, 2008. The decrease of \$0.1

million is due to a decrease in payroll related expenses, partially offset primarily by increases in professional fees and travel expenses.

Costs associated with loan refinancing for the year ended December 31, 2009 were \$0.1 million. These costs related to the amendment and restatement of our revolving credit facility and consisted of the write-off of \$0.1 million of certain unamortized financing costs. No such costs were incurred during the year ended December 31, 2008.

Our net interest expense increased by \$1.7 million to \$72.7 million for the year ended December 31, 2009 from \$71.0 million for the year ended December 31, 2008. This increase resulted from the increase in the average long-term debt outstanding used to finance our real estate acquisitions and fund our new mortgage notes receivable as well as increased costs associated with our amended and restated revolving credit facility as further discussed in Note 10 to the consolidated financial statements in this Annual Report on Form 10-K.

Transaction costs totaled \$3.3 million for the year ended December 31, 2009 compared to \$1.6 million for the year ended December 31, 2008. The increase of \$1.7 million is due to the write off of costs associated with terminated transactions as well as costs that were expensed as incurred in accordance with FASB ASC Topic 810 related to the acquisition of the Toronto Dundas Square project.

Provision for loan losses for the year ended December 31, 2009 was \$71.0 million and related to a mortgage note receivable and other notes receivable as further discussed in Notes 5 and 9 to the consolidated financial statements in this Annual Report on Form 10-K. There was no provision for loan losses for the year ended December 31, 2008.

Impairment charges for the year ended December 31, 2009 were \$42.2 million and related to our entertainment retail center in White Plains, New York and certain of our winery and vineyard properties. For further detail, see Note 4 to the consolidated financial statements in this Annual Report on Form 10-K. There were no impairment charges recorded for the year ended December 31, 2008.

Depreciation and amortization expense totaled \$47.7 million for the year ended December 31, 2009 compared to \$43.8 million for the year ended December 31, 2008. The \$3.9 million increase resulted primarily from asset acquisitions completed in 2008 and 2009.

Equity in income from joint ventures totaled \$0.9 million for the year ended December 31, 2009 compared to \$2.0 million for the year ended December 31, 2008. The \$1.1 million decrease resulted from the investment in the remaining 50% ownership of CS Fund I on April 2, 2008, which is classified as a direct financing lease.

Loss from discontinued operations totaled \$0.03 million for the year ended December 31, 2008 and was due to the sale of a land parcel in Powder Springs, Georgia in June of 2008. There was no income or loss from discontinued operations for the year ended December 31, 2009.

The gain on sale of real estate from discontinued operations of \$0.1 million for the year ended December 31, 2008 was due to the sale of a land parcel in Powder Springs, Georgia in June of 2008. There was no gain on sale of real estate from discontinued operations for the year ended December 31, 2009.

Net loss attributable to noncontrolling interests totaled \$19.9 million for the year ended December 31, 2009 compared to \$2.4 million for the year ended December 31, 2008 and primarily relates to the consolidation of a VIE in which our variable interest is debt. The increase is due to a greater net loss incurred by the VIE due to the impairment charge at our entertainment retail center in White Plains, New York. For further discussion, see Note 4 to the consolidated financial statements in this Annual Report on Form 10-K.

Preferred dividend requirements for the year ended December 31, 2009 were \$30.2 million compared to \$28.3 million for the same period in 2008. The \$1.9 million increase is due to the issuance of 3.5 million Series E convertible preferred shares in April of 2008.

Year ended December 31, 2008 compared to year ended December 31, 2007

Rental revenue was \$202.6 million for the year ended December 31, 2008 compared to \$185.9 million for the year ended December 31, 2007. The \$16.7 million increase resulted primarily from the acquisitions and developments completed in 2007 and 2008 and base rent increases on existing properties. Percentage rents of \$1.7 million and \$2.1 million were recognized during the year ended December 31, 2008 and 2007, respectively. The \$0.4 million decrease in percentage rents resulted primarily from minimum rent escalations for certain properties which in turn increased the break point in revenue after which percentage rent is due. Straight-line rents of \$3.9 million and \$4.5 million were recognized during the year ended December 31, 2008 and 2007, respectively.

Tenant reimbursements totaled \$20.9 million for the year ended December 31, 2008 compared to \$18.5 million for the year ended December 31, 2007. These tenant reimbursements arise from the operations of our retail centers. Of the \$2.4 million increase, \$1.6 million is due to our May 8, 2007 acquisition of a 66.67% interest in the joint ventures that own an entertainment retail center in White Plains, New York. The remaining increase is due to increases in tenant reimbursements, primarily driven by the expansion and leasing of the gross leasable area at our retail centers in Ontario, Canada.

Other income was \$2.2 million for the year ended December 31, 2008 compared to \$2.4 million for the year ended December 31, 2007. The decrease of \$0.2 million is primarily due to a decrease in income from a family bowling center in Westminster, Colorado operated through a wholly-owned taxable REIT subsidiary.

Mortgage and other financing income for the year ended December 31, 2008 was \$60.4 million compared to \$28.8 million for the year ended December 31, 2007. The \$31.6 million increase relates to the increased real estate lending activities during 2008 compared to 2007 and our investment in a direct financing lease as discussed in Note 6 to the consolidated financial statements in this Annual Report on Form 10-K.

Our property operating expense totaled \$26.8 million for the year ended December 31, 2008 compared to \$23.0 million for the year ended December 31, 2007. These property operating expenses arise from the operations of our retail centers. The increase of \$3.8 million is primarily due to an increase of \$2.7 million in property operating expense related to our May 8, 2007 acquisition of a 66.67% interest in the joint ventures that own an entertainment retail center in White Plains, New York as well as increases in property operating expenses at other our retail centers, primarily those in Ontario, Canada. The provision for bad debts, included in property

operating expense, increased by \$0.8 million to \$2.0 million for the year ended December 31, 2008.

Other expense totaled \$2.1 million for the year ended December 31, 2008 compared to \$4.2 million for the year ended December 31, 2007. Of the \$2.1 million decrease, \$1.7 million is due to less expense recognized upon settlement of foreign currency forward contracts during the year ended December 31, 2008 compared to the year ended December 31, 2007. The remaining decrease of \$0.4 is due to a decrease in expense from a family bowling center in Westminster, Colorado operated through a wholly-owned taxable REIT subsidiary.

Our general and administrative expense totaled \$15.3 million for the year ended December 31, 2008 compared to \$12.7 million for the year ended December 31, 2007. The increase of \$2.6 million is due primarily to increases in payroll and related expenses attributable to increases in base and incentive compensation, additional employees and amortization resulting from grants of nonvested shares to management and an increase in professional fees.

Our net interest expense increased by \$10.5 million to \$71.0 million for the year ended December 31, 2008 from \$60.5 million for the year ended December 31, 2007. Approximately \$2.3 million of the increase resulted from the acquisition of a 66.67% interest in the joint ventures that own an entertainment retail center in White Plains, New York that had outstanding mortgage debt of \$119.7 million as of the May 8, 2007 acquisition date. The remainder of the increase resulted from increases in long-term debt used to finance our real estate acquisitions and fund our mortgage notes receivable.

Transaction costs totaled \$1.6 million for the year ended December 31, 2008 compared to \$0.3 million for the year ended December 31, 2007. The increase of \$1.3 million is due to the write off of costs associated with terminated transactions.

Depreciation and amortization expense totaled \$43.8 million for the year ended December 31, 2008 compared to \$37.4 million for the year ended December 31, 2007. The \$6.4 million increase resulted primarily from real estate acquisitions completed in 2007 and 2008.

Equity in income from joint ventures totaled \$2.0 million for the year ended December 31, 2008 compared to \$1.6 million for the year ended December 31, 2007. The \$0.4 million increase resulted from the Company's investment in a 50% ownership interest of CS Fund I on October 30, 2007. We acquired the remaining 50% ownership of CS Fund I on April 2, 2008 as discussed in Note 6 to the consolidated financial statements in this Annual Report on Form 10-K.

Loss from discontinued operations totaled \$0.03 million for the year ended December 31, 2008 compared to income from discontinued operations of \$0.84 million for the year ended December 31, 2007. The \$0.87 million decrease is due primarily to the recognition of \$0.7 million in development fees in 2007 related to a parcel adjacent to our megaplex theatre in Pompano, Florida. The development rights, along with two income-producing tenancies, were sold to a developer group in June of 2007.

The gain on sale of real estate from discontinued operations of \$0.1 million for the year ended December 31, 2008 was due to the sale of a land parcel in Powder Springs, Georgia in June of 2008. The gain on sale of real estate from discontinued operations of \$3.2 million for the year ended December 31, 2007 was due to the sale of a parcel that included two leased properties adjacent to our megaplex theatre in Pompano, Florida.

Net loss attributable to noncontrolling interests totaled \$2.4 million for the year ended December 31, 2008 compared to \$1.4 million for the year ended December 31, 2007 and primarily relates to the consolidation of a VIE in which our variable interest is debt. The increase is due to a greater net loss incurred by the VIE at our entertainment retail center in White Plains, New York. Additionally, there was \$0.3 million and \$0.1 million in minority interest expense for year ended December 31, 2008 and 2007, respectively, due to our VinREIT operations.

Preferred dividend requirements for the year ended December 31, 2008 were \$28.3 million compared to \$21.3 million for the same period in 2007. The \$7.0 million increase is due to the issuance of 3.5 million Series E convertible preferred shares in April of 2008 and the issuance of 4.6 million Series D preferred shares in May of 2007. This was partially offset by the redemption of 2.3 million Series A preferred shares in May of 2007. The Series A preferred share redemption costs of \$2.1 million for the year ended December 31, 2007 was due to the redemption of the Series A preferred shares on May 29, 2007 and primarily consists of a noncash charge for the excess of the redemption value over the carrying value of these shares. There was no such expense incurred during the year ended December 31, 2008.

Liquidity and Capital Resources

Cash and cash equivalents were \$23.1 million at December 31, 2009. In addition, we had restricted cash of \$12.9 million at December 31, 2009. Of the restricted cash at December 31, 2009, \$4.9 million relates to cash held for our borrowers' debt service reserves for mortgage notes receivable and the balance represents deposits required in connection with debt service, payment of real estate taxes and capital improvements.

Mortgage Debt, Credit Facilities and Term Loan

As of December 31, 2009, we had total debt outstanding of \$1.1 billion. As of December 31, 2009, \$1.0 billion of debt outstanding was fixed rate mortgage debt secured by a substantial portion of our rental properties and mortgage notes receivable, with a weighted average interest rate of approximately 5.9%. This \$1.0 billion of fixed rate mortgage debt includes \$203.9 million of LIBOR based debt that has been converted to fixed rate debt with interest rate swaps as further described below.

As described in Note 10 to the consolidated financial statements included in this Annual Report on Form 10-K, our revolving credit facility was amended on June 30, 2009. At December 31, 2009, we had \$35.0 million in debt outstanding under our \$215.0 million revolving credit facility, with interest at a floating rate. The facility has a term expiring October 26, 2011 with a one year extension available at our option, subject to certain terms and conditions including the payment of an extension fee. The amount that we are able to borrow on our revolving credit facility is a function of the values and advance rates, as defined by the credit agreement, assigned to the assets included in the borrowing base less outstanding letters of credit and less other liabilities, excluding our \$117.6 million term loan, that are recourse obligations of the Company. As of December 31, 2009, our total availability under the revolving credit facility was \$178.5 million.

Through December 31, 2009, VinREIT, a subsidiary that holds our vineyard and winery assets, had drawn nine term loans aggregating \$96.7 million in initial principal under our \$160.0 million credit facility. These term loans have maturities ranging from December 1, 2017 to June 5, 2018, are 30% recourse to us and have stated interest rates of LIBOR plus 175 basis points on loans

secured by real property and LIBOR plus 200 basis points on loans secured by fixtures and equipment. We entered into seven interest rate swaps during 2008 that fixed the interest rates on the outstanding loans at a weighted average rate of 5.2%. Term loans can be drawn through September 26, 2010 under the credit facility. The credit facility provides for an aggregate advance rate of 65% based on the lesser of cost or appraised value. At December 31, 2009, the term loans outstanding under the credit facility had an aggregate balance of \$93.6 million and approximately \$63.3 million of the facility remains available. The credit facility also contains an accordion feature, whereby, subject to lender approval, we may obtain additional term loan commitments in an aggregate principal amount not to exceed \$140.0 million.

Our principal investing activities are acquiring, developing and financing entertainment, entertainment-related, recreational and specialty properties. These investing activities have generally been financed with mortgage debt and the proceeds from equity offerings. Our revolving credit facility and our term loans are also used to finance the acquisition or development of properties, and to provide mortgage financing. Continued growth of our rental property and mortgage financing portfolios will depend in part on our continued ability to access funds through additional borrowings and securities offerings. We anticipate that our cash on hand, cash from operations, and funds available under our revolving credit facility will provide adequate liquidity to fund our operations, make interest and principal payments on our debt, and allow distributions to our shareholders and avoid corporate level federal income or excise tax in accordance with REIT Internal Revenue Code requirements.

Certain of our long-term debt agreements contain customary restrictive covenants related to financial and operating performance as well as certain cross-default provisions. At December 31, 2009, we were in compliance with all restrictive covenants.

Liquidity Requirements

Short-term liquidity requirements consist primarily of normal recurring corporate operating expenses, debt service requirements and distributions to shareholders. We meet these requirements primarily through cash provided by operating activities. Net cash provided by operating activities was \$148.8 million, \$146.3 million and \$131.6 million for the years ended December 31, 2009, 2008 and 2007, respectively. Net cash used in investing activities was \$192.0 million, \$492.0 million and \$420.6 million for the years ended December 31, 2009, 2008 and 2007, respectively. Net cash provided by financing activities was \$15.7 million, \$381.2 million and \$294.3 million for the years ended December 31, 2009, 2008 and 2007, respectively. We anticipate that our cash on hand, cash from operations, and funds available under our revolving credit facility will provide adequate liquidity to fund our operations, make interest and principal payments on our debt, and allow distributions to our shareholders and avoid corporate level federal income or excise tax in accordance with REIT Internal Revenue Code requirements.

Long-term liquidity requirements at December 31, 2009 consisted primarily of maturities of long-term debt. Contractual obligations as of December 31, 2009 are as follows (in thousands):

TIOGA DOWNS RACETRACK, LLC
Exhibit VIII.7.a. (cont.)

Contractual Obligations	Year ended December 31,						Total
	2010	2011	2012	2013	2014	Thereafter	
Long Term Debt Obligations	\$ 196,051 ⁽¹⁾	178,247 ⁽²⁾	93,198	119,339	152,503	402,085	1,141,423
Interest on Long Term Debt Obligations	63,472	52,277	44,063	34,264	25,649	42,804	262,529
Total	\$ 259,523	230,524	137,261	153,603	178,152	444,889	1,403,952

⁽¹⁾ In addition to recurring principal payments, this amount includes \$56.25 million in debt maturing in September 2010 related to the planned resort development in Sullivan County, New York and \$112.5 million in debt maturing in October 2010 secured by our entertainment retail center in White Plains, New York. The \$112.5 million related to White Plains is extendable for two to four years based on meeting certain conditions including a minimum net operating income threshold. As further discussed in Note 4 to the consolidated financial statements in this Annual Report on Form 10-K, we may elect to surrender this property at the loan's maturity. In any event, we do not anticipate this loan, which is non-recourse to us, will be a liquidity event to the Company at the October 2010 maturity.

⁽²⁾ In addition to recurring principal payments, this amount includes \$115.5 million of maturing debt secured by one theatre and one ski resort as well as five mortgage notes receivable. This debt is extendable at the company's option until October 26, 2012. This amount also includes \$35.0 million related to the revolving credit facility due October 26, 2011. This facility has a one year extension available at our option subject to certain conditions.

We have also posted \$1.5 million of irrevocable stand-by letters of credit related to the Toronto Dundas Square Project as further described in Note 5 to the consolidated financial statements in this Annual Report on Form 10-K.

Additionally, our unconsolidated joint ventures, Atlantic EPR-I and Atlantic EPR-II, have mortgage notes payable at December 31, 2009 of \$15.0 million and \$13.0 million which mature in May 2010 and September 2013, respectively.

Commitments

We have agreed to finance \$9.6 million in development costs for expansion at three of our existing public charter school properties. Development costs are advanced by us in periodic draws. If we determine that construction is not being completed in accordance with the terms of the development agreement, we can discontinue funding construction draws. We have agreed to lease the additional space to the operator at pre-determined rates.

On October 31, 2007, we entered into a guarantee agreement for economic development revenue bonds with a total principal amount of \$22.0 million related to three theatres in Louisiana, maturing on October 31, 2037. The bonds were issued by Southern Theatres for the purpose of financing the development and construction of three megaplex theatres in Louisiana. We earn an annual fee of 1.75% on the outstanding principal amount of the bonds and the fee is paid by Southern Theatres monthly. We evaluated this guarantee in connection with the provisions of FASB ASC Topic 450 on Guarantees ("Topic 450"). Based on certain criteria, Topic 450 requires a guarantor to record an asset and a liability at inception. Accordingly, we had recorded

\$4.0 million as a deferred asset included in accounts receivable and \$4.0 million included in other liabilities in the accompanying consolidated balance sheet as of December 31, 2008, which represented management's estimate of the fair value of the guarantee at inception which will be realized over the term of the guarantee. During the third quarter of 2009, the outstanding principal amount of the bonds was reduced from \$22 million to \$14.4 million due to a principal repayment. Accordingly, we reduced the asset and liability recorded to reflect the decrease in the outstanding principal balance. We have recorded \$2.6 million as a deferred asset included in accounts receivable and \$2.6 million included in other liabilities in the accompanying consolidated balance sheet as of December 31, 2009.

We have certain commitments related to our mortgage note investments that we may be required to fund in the future. We are generally obligated to fund these commitments at the request of the borrower or upon the occurrence of events outside of our direct control. As of December 31, 2009, we had four mortgage notes receivable with commitments totaling approximately \$20 million. If commitments are funded in the future, interest will be charged at rates consistent with the existing investments.

Liquidity Analysis

In analyzing our liquidity, we generally expect that our cash provided by operating activities will meet our normal recurring operating expenses, recurring debt service requirements and distributions to shareholders.

Considering extensions, our only consolidated debt maturity in 2010 is a \$56.25 million mortgage note payable due in September 2010. The \$112.5 million mortgage note that is due in October 2010 has a two to four year extension option, upon meeting certain conditions and is related to our entertainment retail center in White Plains, New York that is held in a consolidated joint venture. As further described in Note 4 to the consolidated financial statements in this Annual Report on Form 10-K, the Company may elect not to further support the joint venture, which may include a decision to surrender the property at the loan's maturity. In any event, we do not anticipate this loan, which is non-recourse to us, will be a liquidity event to the Company at the October 2010 maturity.

Our cash commitments, as described above, include additional amounts expected to be funded in 2010 of \$9.6 million for the public charter school expansions and additional commitments under various mortgage notes receivable totaling \$20.0 million. Of the \$20.0 million of commitments, approximately \$900 thousand is expected to be funded in 2010. In addition to these commitments, as discussed above we expect to fund the refinancing shortfall related to the Toronto Dundas Square Project which is estimated to be approximately CAD \$20.0 million (\$19.0 million U.S. using exchange rates at December 31, 2009) as well as the costs to close the transaction, estimated to be up to CAD \$10 million.

Our sources of liquidity for 2010 to pay the above commitments and the acquisition of the Toronto Dundas Square Project include the remaining amount available under our revolving credit facility of \$178.5 million at December 31, 2009 and unrestricted cash on hand at December 31, 2009 of \$23.1 million. Accordingly, while there can be no assurance, we expect that our sources of cash will significantly exceed our expected uses of cash over the remainder of 2010.

In looking at liquidity requirements beyond 2010 and considering extensions, we have no debt maturities in 2011. We have approximately \$212.6 million of debt maturities in 2012 including

the revolving credit facility and term loan, and excluding the mortgage note payable related to our entertainment retail center in White Plains discussed above.

We believe that we will be able to repay, extend, refinance or otherwise settle our debt obligations for 2010 and thereafter as the debt comes due, and that we will be able to fund our remaining commitments as necessary. However, there can be no assurance that additional financing or capital will be available, or that terms will be acceptable or advantageous to us.

Our primary use of cash after paying operating expenses, debt service, distributions to shareholders and funding existing commitments is in growing our investment portfolio through the acquisition, development and financing of additional properties. We expect to finance these investments with borrowings under our revolving credit facility, as well as long-term debt and equity financing alternatives. The availability and terms of any such financing will depend upon market and other conditions. If we borrow the maximum amount available under our revolving credit facility, there can be no assurance that we will be able to obtain additional investment financing (See “Risk Factors”).

Off Balance Sheet Arrangements

At December 31, 2009, we had a 21.9% and 22.1% investment interest in two unconsolidated real estate joint ventures, Atlantic-EPR I and Atlantic-EPR II, respectively, which are accounted for under the equity method of accounting. We do not anticipate any material impact on our liquidity as a result of commitments involving those joint ventures. We recognized income of \$565, \$538 and \$491 (in thousands) from our investment in the Atlantic-EPR I joint venture during the years ended December 31, 2009, 2008 and 2007, respectively. We recognized income of \$330, \$324 and \$301 (in thousands) from our investment in the Atlantic-EPR II joint venture during the years ended December 31, 2009, 2008 and 2007, respectively. The joint ventures have two mortgage notes payable each secured by a megaplex theatre. The notes held by Atlantic EPR-I and Atlantic EPR-II total \$15.0 million and \$13.0 million, respectively, at December 31, 2009, and mature in May 2010 and September 2013, respectively. Condensed financial information for Atlantic-EPR I and Atlantic-EPR II joint ventures is included in Note 7 to the consolidated financial statements included in this Quarterly Report on Form 10-K.

The joint venture agreements for Atlantic-EPR I and Atlantic-EPR II allow our partner, Atlantic of Hamburg, Germany (“Atlantic”), to exchange up to a maximum of 10% of its ownership interest per year in each of the joint ventures for common shares of the Company or, at our discretion, the cash value of those shares as defined in each of the joint venture agreements. During 2008, we paid Atlantic-EPR I and Atlantic-EPR II cash of \$133 and \$79 (in thousands), respectively, in exchange for additional ownership in each joint venture of 0.7%. During 2009, we paid Atlantic cash of \$109 and \$9 (in thousands), respectively, in exchange for additional ownership of 0.7% and 0.2% for Atlantic-EPR I and Atlantic-EPR II, respectively. During January of 2010, the Company paid Atlantic cash of \$51 (in thousands) in exchange for additional ownership of 0.2% for Atlantic-EPR I. These exchanges did not impact total partners’ equity in either Atlantic-EPR I or Atlantic-EPR II.

Capital Structure and Coverage Ratios

We believe that our shareholders are best served by a conservative capital structure. Therefore, we seek to maintain a conservative debt level on our balance sheet and solid interest, fixed charge and debt service coverage ratios. We expect to maintain our leverage ratio (i.e. total-long term

debt of the Company as a percentage of equity plus total liabilities) between 40% and 50%. However, the timing and size of our equity offerings may cause us to temporarily operate over this threshold. At December 31, 2009, our leverage ratio was 43%. Our long-term debt as a percentage of our total market capitalization at December 31, 2009 was 37%; however, we do not manage to a ratio based on total market capitalization due to the inherent variability that is driven by changes in the market price of our common shares. We calculate our total market capitalization of \$3.0 billion by aggregating the following at December 31, 2009:

- Common shares outstanding of 42,872,420 multiplied by the last reported sales price of our common shares on the NYSE of \$35.27 per share, or \$1.5 billion;
- Aggregate liquidation value of our Series B preferred shares of \$80 million;
- Aggregate liquidation value of our Series C convertible preferred shares of \$135 million;
- Aggregate liquidation value of our Series D preferred shares of \$115 million;
- Aggregate liquidation value of our Series E convertible preferred shares of \$86 million and
- Total long-term debt of \$1.1 billion

Our interest coverage ratio for the years ended December 31, 2009, 2008 and 2007 was 3.1 times, 3.4 times and 3.2 times, respectively. Interest coverage is calculated as the interest coverage amount (as calculated in the following table) divided by interest expense, gross (as calculated in the following table). We consider the interest coverage ratio to be an appropriate supplemental measure of a company's ability to meet its interest expense obligations and management believes it is useful to investors in this regard. Our calculation of the interest coverage ratio may be different from the calculation used by other companies, and therefore, comparability may be limited. This information should not be considered as an alternative to any U.S. generally accepted accounting principles ("GAAP") liquidity measures. The following table shows the calculation of our interest coverage ratios (unaudited, dollars in thousands):

TIOGA DOWNS RACETRACK, LLC
Exhibit VIII.7.a. (cont.)

	Year Ended December 31,		
	2009	2008	2007
Net income (loss)	\$ (11,906)	127,623	103,294
Interest expense, gross	73,390	72,658	61,376
Interest cost capitalized	(600)	(797)	(494)
Depreciation and amortization	47,720	43,829	37,422
Share-based compensation expense			
to management and trustees	4,307	3,965	3,249
Gain on sale of land	-	-	(129)
Costs associated with loan refinancing	117	-	-
Straight-line rental revenue	(2,483)	(3,851)	(4,497)
Gain on sale of real estate from discontinued operations	-	(119)	(3,240)
Depreciation and amortization of discontinued operations	-	-	58
Transaction costs	3,321	1,628	253
Provision for loan losses	70,954	-	-
Impairment charges	42,158	-	-
Interest coverage amount	\$ 226,978	244,936	197,292
Interest expense, net	\$ 72,715	70,951	60,505
Interest income	75	910	377
Interest cost capitalized	600	797	494
Interest expense, gross	\$ 73,390	72,658	61,376
Interest coverage ratio	<u>3.1</u>	<u>3.4</u>	<u>3.2</u>

The interest coverage amount per the above table is a non-GAAP financial measure and should not be considered an alternative to any GAAP liquidity measures. It is most directly comparable to the GAAP liquidity measure, “Net cash provided by operating activities,” and is not directly comparable to the GAAP liquidity measures, “Net cash used in investing activities” and “Net cash provided by financing activities.” The interest coverage amount can be reconciled to “Net cash provided by operating activities” per the consolidated statements of cash flows included in this Annual Report on Form 10-K as follows (unaudited, dollars in thousands):

TIOGA DOWNS RACETRACK, LLC
Exhibit VIII.7.a. (cont.)

		Year Ended December 31,		
		2009	2008	2007
Net cash provided by operating activities	\$	148,817	146,256	131,590
Equity in income from joint ventures		895	1,962	1,583
Distributions from joint ventures		(986)	(2,262)	(1,239)

Transaction costs		3,321	1,628	253
Interest coverage amount	\$	<u>226,978</u>	<u>244,936</u>	<u>197,292</u>

Our fixed charge coverage ratio was 2.2 times for the year ended December 31, 2009 and 2.4 times for each of the years ended December 31, 2008 and 2007. The fixed charge coverage ratio is calculated in exactly the same manner as the interest coverage ratio, except that preferred share dividends are also added to the denominator. We consider the fixed charge coverage ratio to be an appropriate supplemental measure of a company's ability to make its interest and preferred share dividend payments and management believes it is useful to investors in this regard. Our calculation of the fixed charge coverage ratio may be different from the calculation used by other companies and, therefore, comparability may be limited. This information should not be considered as an alternative to any GAAP liquidity measures. The following table shows the calculation of our fixed charge coverage ratios (unaudited, dollars in thousands):

		Year Ended December 31,		
		2009	2008	2007
Interest coverage amount	\$	226,978	244,936	197,292
Interest expense, gross		73,390	72,658	61,376
Preferred share dividends		30,206	28,266	21,312
Fixed charges	\$	<u>103,596</u>	<u>100,924</u>	<u>82,688</u>
Fixed charge coverage ratio		<u>2.2</u>	<u>2.4</u>	<u>2.4</u>

Our debt service coverage ratio for the years ended December 31, 2009, 2008 and 2007 was 2.3 times, 2.6 times and 2.5 times, respectively. The debt service coverage ratio is calculated in exactly the same manner as the interest coverage ratio, except that recurring principal payments are also added to the denominator. We consider the debt service coverage ratio to be an

appropriate supplemental measure of a company's ability to make its debt service payments and management believes it is useful to investors in this regard. Our calculation of the debt service coverage ratio may be different from the calculation used by other companies and, therefore, comparability may be limited. This information should not be considered as an alternative to any GAAP liquidity measures. The following table shows the calculation of our debt service coverage ratios (unaudited, dollars in thousands):

	Year Ended December 31,		
	2009	2008	2007
Interest coverage amount	\$ 226,978	244,936	197,292
Interest expense, gross	73,390	72,658	61,376
Recurring principal payments	25,174	23,331	18,257
Debt service	\$ 98,564	95,989	79,633
Debt service coverage ratio	2.3	2.6	2.5

Funds From Operations (FFO)

The National Association of Real Estate Investment Trusts ("NAREIT") developed FFO as a relative non-GAAP financial measure of performance of an equity REIT in order to recognize that income-producing real estate historically has not depreciated on the basis determined under GAAP and management provides FFO herein because it believes this information is useful to investors in this regard. FFO is a widely used measure of the operating performance of real estate companies and is provided here as a supplemental measure to GAAP net income available to common shareholders and earnings per share. FFO, as defined under the NAREIT definition and presented by us, is net income available to common shareholders, computed in accordance with GAAP, excluding gains and losses from sales of depreciable operating properties, plus real estate related depreciation and amortization, and after adjustments for unconsolidated partnerships, joint ventures and other affiliates. Adjustments for unconsolidated partnerships, joint ventures and other affiliates are calculated to reflect FFO on the same basis. FFO is a non-GAAP financial measure. FFO does not represent cash flows from operations as defined by GAAP and is not indicative that cash flows are adequate to fund all cash needs and is not to be considered an alternative to net income or any other GAAP measure as a measurement of the results of our operations or our cash flows or liquidity as defined by GAAP. It should also be noted that not all REITs calculate FFO the same way so comparisons with other REITs may not be meaningful.

The following table summarizes our FFO, including per share amounts, for the years ended December 31, 2009, 2008 and 2007 (in thousands, except per share information):

TIOGA DOWNS RACETRACK, LLC
Exhibit VIII.7.a. (cont.)

	Year ended December 31,		
	2009	2008	2007
Net income available to common shareholders of			
Entertainment Properties Trust	\$ (22,199)	\$ 101,710	\$ 81,251
Real estate depreciation and amortization	46,947	43,051	36,758
Allocated share of joint venture depreciation	263	510	387
Gain on sale of real estate from discontinued operations	-	-	(3,240)
Noncontrolling interest	(20,143)	(2,630)	(1,436)
FFO available to common shareholders	<u>4,868</u>	<u>142,641</u>	<u>113,720</u>
FFO available to common shareholders of			
Entertainment Properties Trust	\$ 4,868	\$ 142,641	\$ 113,720
Preferred dividends for Series C	-	7,763	7,763
Diluted FFO available to common shareholders of Entertainment Properties Trust	<u>4,868</u>	<u>150,404</u>	<u>121,483</u>
FFO per common share attributable to Entertainment Properties Trust:			
Basic	\$ 0.13	\$ 4.61	\$ 4.22
Diluted	0.13	4.54	4.16
Shares used for computation (in thousands):			
Basic	36,122	30,910	26,929
Diluted	36,236	33,094	29,202
Weighted average shares outstanding - diluted EPS	36,236	31,177	27,304
Effect of dilutive Series C preferred shares	-	1,917	1,898
Adjusted weighted average shares outstanding - diluted	<u>36,236</u>	<u>33,094</u>	<u>29,202</u>
Other financial information:			
Dividends per common share	\$ 2.60	3.36	3.04

The additional 1.9 million common shares that would result from the conversion of our 5.75% Series C cumulative convertible preferred shares and the additional 1.6 million common shares that would result from the conversion of our 9.0% Series E cumulative convertible preferred shares (issued on April 2, 2008) and the corresponding add-back of the preferred dividends declared on those shares are not included in the calculation of diluted earnings per share for the years ended December 31, 2009, 2008 and 2007 because the effect is anti-dilutive. However, because a conversion of the 5.75% Series C cumulative convertible preferred shares would be dilutive to FFO per share for the years ended December 31, 2008 and 2007, these adjustments have been made in the calculation of diluted FFO per share for these periods.

As discussed in Note 14 to the consolidated financial statements in this Annual Report on Form 10-K, our nonvested share awards are considered participating securities and are included in the calculation of earnings per share under the two-class method as required by the Earnings Per Share Topic of the FASB ASC. Prior-period earnings per share data was computed using the treasury stock method and has been adjusted retrospectively, which lowered basic and diluted FFO per share by \$0.05 and \$0.03 for the year ended December 31, 2008, respectively and lowered basic and diluted FFO per share by \$0.04 and \$0.02 for the year ended December 31, 2007, respectively.

Adjusted Funds From Operations (AFFO)

In addition to FFO, AFFO is presented by adding to FFO non-cash impairment charges and provision for loan losses, transaction costs, non-real estate depreciation and amortization, deferred financing fees amortization, costs associated with loan refinancing and share-based compensation expense to management and trustees; subtracting maintenance capital expenditures (including second generation tenant improvements and leasing commissions), straight-lined rental revenue and the non-cash portion of mortgage and other financing income. AFFO is a widely used measure of the operating performance of real estate companies and is provided here as a supplemental measure to GAAP net income available to common shareholders and earnings per share, and management provides AFFO herein because it believes this information is useful to investors in this regard. AFFO is a non-GAAP financial measure and should not be considered an alternative to any GAAP liquidity measures. AFFO does not represent cash flows from operations as defined by GAAP and is not indicative that cash flows are adequate to fund all cash needs and is not to be considered an alternative to net income or any other GAAP measure as a measurement of the results of our operations or our cash flows or liquidity as defined by GAAP. It should also be noted that not all REITs calculate AFFO the same way so comparisons with other REITs may not be meaningful.

The following table summarizes our AFFO for the years ended December 31, 2009, 2008 and 2007 (in thousands):

	Year ended December 31,		
	2009	2008	2007
Diluted FFO available to common shareholders of Entertainment Properties Trust	\$ 4,868	\$ 150,404	\$ 121,483
Adjustments:			
Non-cash impairment charges and provision for loan losses	113,112	-	-
Transaction costs	3,321	1,628	253
Non-real estate depreciation and amortization	773	778	664
Deferred financing fees amortization	3,663	3,290	2,905
Costs associated with loan refinancing	117	-	-
Share-based compensation expense to management and trustees	4,307	3,965	3,249
Maintenance capital expenditures (1)	(1,513)	(4,312)	(1,453)
Straight-lined rental revenue	(2,483)	(3,851)	(4,497)
Non-cash portion of mortgage and other financing income	(7,197)	(24,230)	(15,090)
AFFO available to common shareholders of Entertainment Properties Trust	<u>118,968</u>	<u>127,672</u>	<u>107,514</u>

(1) Includes maintenance capital expenditures and second generation tenant improvements and leasing commissions.

Impact of Recently Issued Accounting Standards

In June 2009, the FASB issued a pronouncement establishing the “FASB Accounting Standards Codification” (“ASC”), which officially launched July 1, 2009, to become the source of authoritative U.S. generally accepted accounting principles (“GAAP”) recognized by the FASB to be applied by nongovernmental entities. Rules and interpretive releases of the Securities and Exchange Commission (“SEC”) under authority of federal securities laws are also sources of authoritative U.S. GAAP for SEC registrants. The standard is effective for financial statements issued for interim and annual periods ending after September 15, 2009. The Company has adopted this standard in accordance with GAAP.

In June 2009, the FASB issued SFAS No. 167, *Amendments to FASB Interpretation No. 46R* ("SFAS No. 167") to be included in ASC 810 "Consolidation". SFAS No. 167 amends FIN 46R to require an analysis to determine whether a variable interest gives a company a controlling financial interest in a variable interest entity. This statement requires an ongoing reassessment of and eliminates the quantitative approach previously required for determining whether a company is the primary beneficiary. This statement is effective for interim and annual reporting periods beginning after November 15, 2009. Accordingly, the Company adopted SFAS No. 167 during the first quarter of 2010 and the adoption did not have a material impact on its financial position or results of operations.

In January 2010, the FASB issued ASU No. 2010-06, *Fair Value Measurements and Disclosures (Topic 820): Improving Disclosures about Fair Value Measurements* ("ASU No. 2010-6"). This statement requires new disclosures and clarifies existing disclosure requirements about fair value measurement. ASU No. 2010-06 only applies to disclosures related to estimated fair values as disclosed in Note 12 to the consolidated financial statements in this Annual Report on Form 10-K. This statement is effective for interim and annual reporting periods beginning after December 15, 2009 and is not expected to have a significant impact on our footnote disclosures.

Inflation

Investments by EPR are financed with a combination of equity and debt. During inflationary periods, which are generally accompanied by rising interest rates, our ability to grow may be adversely affected because the yield on new investments may increase at a slower rate than new borrowing costs.

All of our megaplex theatre leases provide for base and participating rent features. To the extent inflation causes tenant revenues at our properties to increase over baseline amounts, we would participate in those revenue increases through our right to receive annual percentage rent.

Our leases and mortgage notes receivable also generally provide for escalation in base rents or interest in the event of increases in the Consumer Price Index, with generally a limit of 2% per annum, or fixed periodic increases. Alternatively, during deflationary periods, our leases and mortgage notes receivable with escalations in base rents or interest dependent on increases in the Consumer Price Index may be adversely affected.

Our leases are generally triple-net leases requiring the tenants to pay substantially all expenses associated with the operation of the properties, thereby minimizing our exposure to increases in costs and operating expenses resulting from inflation. A portion of our megaplex theatre, retail and restaurant leases are non-triple-net leases. These leases represent approximately 25% of our total real estate square footage. To the extent any of those leases contain fixed expense reimbursement provisions or limitations, we may be subject to increases in costs resulting from inflation that are not fully passed through to tenants.

Item 7A. Quantitative and Qualitative Disclosures About Market Risk

We are exposed to market risks, primarily relating to potential losses due to changes in interest rates and foreign currency exchange rates. We seek to mitigate the effects of fluctuations in interest rates by matching the term of new investments with new long-term fixed rate borrowings whenever possible. We also have a \$215.0 million secured revolving credit facility with \$35.0 million outstanding as of December 31, 2009, a \$160.0 million term loan facility with \$93.6 million outstanding as of December 31, 2009, a \$10.7 million bond, a \$56.25 million term loan and a \$117.6 million term loan, all of which bear interest at a floating rate. As further described in Note 10 to the consolidated financial statements in this Annual Report on Form 10-K, \$89.9 million term loans under the term loan facility are LIBOR based debt that has been converted to a fixed rate with seven interest rate swaps and the \$117.6 million term loan includes \$114.0 million of LIBOR based debt that has been converted to a fixed rate with two interest rate swaps.

We are subject to risks associated with debt financing, including the risk that existing indebtedness may not be refinanced or that the terms of such refinancing may not be as favorable as the terms of current indebtedness. The majority of our borrowings are subject to mortgages or contractual agreements which limit the amount of indebtedness we may incur. Accordingly, if we are unable to raise additional equity or borrow money due to these limitations, our ability to make additional real estate investments may be limited.

The fair value of our debt as of December 31, 2009 and 2008 is estimated by discounting the future cash flows of each instrument using current market rates including current market spreads.

The following table presents the principal amounts, weighted average interest rates, and other terms required by year of expected maturity to evaluate the expected cash flows and sensitivity to interest rate changes as of December 31 (including the impact of the interest rate swap agreements described below):

Expected Maturities (in millions)								
	<u>2010</u>	<u>2011</u>	<u>2012</u>	<u>2013</u>	<u>2014</u>	<u>Thereafter</u>	<u>Total</u>	<u>Estimated Fair Value</u>
December 31, 2009:								
Fixed rate debt	\$ 138.2	140.4	92.8	118.9	152.0	390.0	1,032.3	1,020.6
Average interest rate	5.7%	5.9%	6.5%	5.8%	6.3%	5.8%	5.9%	5.9%
Variable rate debt	\$ 57.8	37.8	0.4	0.5	0.5	12.1	109.1	109.1
Average interest rate (as of December 31, 2009)	5.9%	5.2%	2.2%	2.2%	2.2%	0.5%	5.0%	5.0%
	<u>2009</u>	<u>2010</u>	<u>2011</u>	<u>2012</u>	<u>2013</u>	<u>Thereafter</u>	<u>Total</u>	<u>Estimated Fair Value</u>
December 31, 2008:								
Fixed rate debt	\$ 23.4	137.6	139.8	92.1	127.2	521.6	1,041.7	1,044.0
Average interest rate	6.0%	5.7%	5.9%	6.5%	5.7%	5.9%	5.9%	5.8%
Variable rate debt	\$ 1.2	206.5	2.4	-	-	10.6	220.7	210.8
Average interest rate (as of December 31, 2008)	4.7%	4.0%	4.7%	-	-	1.9%	3.9%	5.6%

On November 26, 2007, we entered into two interest rate swap agreements to fix the interest rate on \$114.0 million of the outstanding term loan. These agreements each have outstanding notional amounts of \$57.0 million, a termination date of October 26, 2012 and a fixed rate of 5.81%.

On March 13, 2008, we entered into two interest rate swap agreements to fix the interest rates on the two initial outstanding term loans described in Note 10 to the consolidated financial

statements in this Annual Report on Form 10-K with an aggregate notional amount of \$9.5 million. At December 31, 2009, these agreements have outstanding notional amounts of \$4.5 million and \$4.7 million, termination dates of December 1, 2017 and March 5, 2018 and fixed rates of 5.76% and 5.78%, respectively.

In September 2008, we entered into five interest rate swap agreements to fix the interest rates on the remaining outstanding term loans described in Note 10 to the consolidated financial statements in this Annual Report on Form 10-K with an aggregate notional amount of \$83.1 million. At December 31, 2009, four of these agreements have aggregate outstanding notional amounts of \$73.4 million, a termination date of October 7, 2013 and fixed rates of 5.11%. The remaining agreement has an outstanding notional amount of \$7.4 million at December 31, 2009, a termination date of December 1, 2017 and a fixed rate of 5.63%.

We financed the acquisition of our four Canadian properties with non-recourse fixed rate mortgage loans from a Canadian lender in the original aggregate principal amount of approximately U.S. \$97 million. The loans were made and are payable by us in Canadian dollars (CAD), and the rents received from tenants of the properties are payable in CAD. We have also provided a secured mortgage construction loan with a net carrying value of CAD \$95.5 million as further discussed in Note 5 to the consolidated financial statements in this Annual Report on Form 10-K.

We have partially mitigated the impact of foreign currency exchange risk on our Canadian properties by matching Canadian dollar debt financing with Canadian dollar rents. To further mitigate our foreign currency risk in future periods on the four Canadian properties, during the second quarter of 2007, we entered into a cross currency swap with a notional value of \$76.0 million CAD and \$71.5 million U.S. The swap calls for monthly exchanges from January 2008 through February 2014 with us paying CAD based on an annual rate of 17.16% of the notional amount and receiving U.S. dollars based on an annual rate of 17.4% of the notional amount. There is no initial or final exchange of the notional amounts. The net effect of this swap is to lock in an exchange rate of \$1.05 CAD per U.S. dollar on approximately \$13 million of annual CAD denominated cash flows. These foreign currency derivatives should hedge a significant portion of our expected CAD denominated FFO of these four Canadian properties through February 2014 as their impact on our reported FFO when settled should move in the opposite direction of the exchange rates utilized to translate revenues and expenses of these properties.

In order to also hedge our net investment on the four Canadian properties, we entered into a forward contract with a notional amount of \$100 million CAD and a February 2014 settlement date which coincides with the maturity of our underlying mortgage on these four properties. The exchange rate of this forward contract is approximately \$1.04 CAD per U.S. dollar. This forward contract should hedge a significant portion of our CAD denominated net investment in these four centers through February 2014 as the impact on accumulated other comprehensive income from marking the derivative to market should move in the opposite direction of the translation adjustment on the net assets of our four Canadian properties.

We have not yet hedged any of our net investment in the CAD denominated mortgage receivable related to the Toronto Dundas Square Project. We expect to become the owner of this property in early 2010.

See Note 11 to the consolidated financial statements in this Annual Report on Form 10-K for additional information on our derivative financial instruments and hedging activities.

Report of Independent Registered Public Accounting Firm

The Board of Trustees and Shareholders
Entertainment Properties Trust:

We have audited the accompanying consolidated balance sheets of Entertainment Properties Trust (the Company) as of December 31, 2009 and 2008, and the related consolidated statements of income, changes in equity, comprehensive income, and cash flows for each of the years in the three-year period ended December 31, 2009. In connection with our audits of the consolidated financial statements, we have also audited the accompanying financial statement schedules listed in the Index at Item 15(2). These consolidated financial statements and financial statement schedules are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements and financial statement schedules based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Entertainment Properties Trust as of December 31, 2009 and 2008, and the results of their operations and their cash flows for each of the years in the three-year period ended December 31, 2009, in conformity with U.S. generally accepted accounting principles. Also in our opinion, the related financial statement schedules, when considered in relation to the basic consolidated financial statements taken as a whole, present fairly, in all material respects, the information set forth therein.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the Company's internal control over financial reporting as of December 31, 2009, based on criteria established in *Internal Control—Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO), and our report dated February 26, 2010 expressed an unqualified opinion on the effectiveness of the Company's internal control over financial reporting.

ENTERTAINMENT PROPERTIES TRUST
Notes to Consolidated Financial Statements
December 31, 2009, 2008 and 2007

1. Organization

Description of Business

Entertainment Properties Trust (the Company) is a Maryland real estate investment trust (REIT) organized on August 29, 1997. The Company develops, owns, leases and finances megaplex theatres, entertainment retail centers (centers generally anchored by an entertainment component such as a megaplex theatre and containing other entertainment-related properties), and destination recreational and specialty properties. The Company's properties are located in the United States and Canada.

2. Summary of Significant Accounting Policies

Principles of Consolidation

The consolidated financial statements include the accounts of Entertainment Properties Trust and its subsidiaries, all of which are wholly-owned except for those subsidiaries discussed below.

The Company consolidates certain entities if it is deemed to be the primary beneficiary in a variable interest entity (VIE), as defined in Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic on Consolidation. The equity method of accounting is applied to entities in which the Company is not the primary beneficiary as defined in the Consolidation Topic of the FASB ASC, or does not have effective control, but can exercise influence over the entity with respect to its operations and major decisions.

The Company reports its noncontrolling interests as required by the Consolidation Topic of the FASB ASC. Noncontrolling interest is the portion of equity (net assets) in a subsidiary not attributable, directly or indirectly, to a parent. The ownership interests in the subsidiary that are held by owners other than the parent are noncontrolling interests. Such noncontrolling interests are reported on the consolidated balance sheets within equity, separately from the Company's equity. On the consolidated statements of income, revenues, expenses and net income or loss from less-than-wholly-owned subsidiaries are reported at the consolidated amounts, including both the amounts attributable to the Company and noncontrolling interests. Consolidated statements of changes in shareholder's equity are included for both quarterly and annual financial statements, including beginning balances, activity for the period and ending balances for equity, noncontrolling interests and total equity. The Company does not have any redeemable noncontrolling interests under the scope of FASB ASC Topic 480 on Distinguishing Liabilities from Equity.

As further explained in Note 8, the Company owns 96% of the membership interests of VinREIT, LLC (VinREIT). Net income attributable to noncontrolling interest related to VinREIT was \$231 thousand, \$277 thousand and \$66 thousand for the years ended December 31, 2009, 2008 and 2007, respectively, representing GWP's portion of the annual cash flow. Total noncontrolling interest in VinREIT included in the accompanying consolidated balance sheets was \$133 thousand and \$117 thousand at December 31, 2009 and 2008, respectively.

ENTERTAINMENT PROPERTIES TRUST
Notes to Consolidated Financial Statements
December 31, 2009, 2008 and 2007

As further explained in Note 8, New Roc Associates, LP (New Roc) is owned 71.4% by the Company. There was no net income attributable to noncontrolling interest related to New Roc for the years ended December 31, 2009, 2008 and 2007. Total noncontrolling interest in New Roc included in the accompanying consolidated balance sheets was \$3.9 million for both December 31, 2009 and 2008.

As further explained in Note 8, LC White Plains Retail LLC, LC White Plains Recreation LLC and Cappelli Group LLC (together the White Plains entities), as well as Suffolk Retail LLC (Suffolk), are VIEs in which the Company has been deemed to be the primary beneficiary. Accordingly, the financial statements of these VIEs have been consolidated into the Company's financial statements. Net loss attributable to noncontrolling interest related to the White Plains entities was \$20.1 million, 2.6 million and \$1.4 million, respectively, for the years ended December 31, 2009, 2008 and 2007. There was no net income or loss attributable to noncontrolling interest related to Suffolk for the years ended December 31, 2009, 2008 or 2007. Total noncontrolling interest in the White Plains entities was (\$9.0 million) and \$11.2 million as of December 31, 2009 and 2008, respectively. Total noncontrolling interest in Suffolk was \$3.0 thousand as of December 31, 2009 and 2008.

Use of Estimates

Management of the Company has made a number of estimates and assumptions relating to the reporting of assets and liabilities and the disclosure of contingent assets and liabilities to prepare these consolidated financial statements in conformity with accounting principles generally accepted in the United States of America. Actual results could differ from those estimates.

Rental Properties

Rental properties are carried at cost less accumulated depreciation. Costs incurred for the acquisition and development of the properties are capitalized. Depreciation is computed using the straight-line method over the estimated useful lives of the assets, which generally are estimated to be 40 years for buildings and 3 to 25 years for furniture, fixtures and equipment. Tenant improvements, including allowances, are depreciated over the shorter of the base term of the lease or the estimated useful life. Expenditures for ordinary maintenance and repairs are charged to operations in the period incurred. Significant renovations and improvements which improve or extend the useful life of the asset are capitalized and depreciated over their estimated useful life.

Management reviews a property for impairment whenever events or changes in circumstances indicate that the carrying value of a property may not be recoverable. The review of recoverability is based on an estimate of undiscounted future cash flows expected to result from its use and eventual disposition. If impairment exists due to the inability to recover the carrying value of the property, an impairment loss is recorded to the extent that the carrying value of the property exceeds its estimated fair value.

Accounting for Acquisitions

Upon acquisitions of real estate properties, the Company records the fair value of acquired tangible assets (consisting of land, building, tenant improvements, and furniture, fixtures and equipment) and identified intangible assets and liabilities (consisting of above and below market

ENTERTAINMENT PROPERTIES TRUST
Notes to Consolidated Financial Statements
December 31, 2009, 2008 and 2007

leases, in-place leases, tenant relationships and assumed financing that is determined to be above or below market terms) as well as any noncontrolling interest in accordance with FASB ASC Topic 805 on Business Combinations ("Topic 805"). In addition, in accordance with Topic 805, acquisition-related costs in connection with business combinations are expensed as incurred, rather than capitalized. Costs related to such transactions, as well as costs associated with terminated transactions, are included in the accompanying Consolidated Statements of Income as transaction costs. Transaction costs totaled \$3.3 million, \$1.6 million and \$253 thousand for the years ended December 31, 2009, 2008 and 2007, respectively.

Most of the Company's rental property acquisitions do not involve in-place leases. In such cases, the fair value of the tangible assets is determined based on recent independent appraisals and management judgment. Because the Company typically executes these leases simultaneously with the purchase of the real estate, no value is ascribed to in-place leases in these transactions.

For rental property acquisitions involving in-place leases, the fair value of the tangible assets is determined by valuing the property as if it were vacant based on management's determination of the relative fair values of the assets. Management determines the "as if vacant" fair value of a property using recent independent appraisals or methods similar to those used by independent appraisers. The aggregate value of intangible assets or liabilities is measured based on the difference between the stated price plus capitalized costs and the property as if vacant.

In determining the fair value of acquired in-place leases, the Company considers many factors. On a lease-by-lease basis, management considers the present value of the difference between the contractual amounts to be paid pursuant to the leases and management's estimate of fair market lease rates. For above market leases, management considers such differences over the remaining non-cancelable lease terms and for below market leases, management considers such differences over the remaining initial lease terms plus any fixed rate renewal periods. The capitalized above-market lease values are amortized as a reduction of rental income over the remaining non-cancelable terms of the respective leases. The capitalized below market lease values are amortized as an increase to rental income over the remaining initial lease terms plus any fixed rate renewal periods. Management considers several factors in determining the discount rate used in the present value calculations, including the credit risks associated with the respective tenants. If debt is assumed in the acquisition, the determination of whether it is above or below market is based upon a comparison of similar financing terms for similar rental properties at the time of the acquisition.

The fair value of acquired in-place leases also includes management's estimate, on a lease-by-lease basis, of the present value of the following amounts: (i) the value associated with avoiding the cost of originating the acquired in-place leases (i.e. the market cost to execute the leases, including leasing commissions, legal and other related costs); (ii) the value associated with lost revenue related to tenant reimbursable operating costs estimated to be incurred during the assumed re-leasing period, (i.e. real estate taxes, insurance and other operating expenses); (iii) the value associated with lost rental revenue from existing leases during the assumed re-leasing period; and (iv) the value associated with avoided tenant improvement costs or other inducements

ENTERTAINMENT PROPERTIES TRUST
Notes to Consolidated Financial Statements
December 31, 2009, 2008 and 2007

to secure a tenant lease. These values are amortized over the remaining initial lease term of the respective leases.

The Company also determines the value, if any, associated with customer relationships considering factors such as the nature and extent of the Company's existing business relationship with the tenants, growth prospects for developing new business with the tenants and expectation of lease renewals. The value of customer relationship intangibles is amortized over the remaining initial lease terms plus any renewal periods.

Management of the Company reviews the carrying value of intangible assets for impairment on an annual basis. Intangible assets consist of the following at December 31 (in thousands):

	<u>2009</u>	<u>2008</u>
In-place leases, net of accumulated amortization of \$6.9 million and \$7.1 million, respectively	\$ 6,034	11,707
Goodwill	693	693
Total intangible assets, net	<u>\$ 6,727</u>	<u>12,400</u>

In-place leases, net at December 31, 2009 of approximately \$6.0 million, relate to four entertainment retail centers in Ontario, Canada that were purchased on March 1, 2004 and one entertainment retail center in Burbank, California that was purchased on March 31, 2005. The in-place leases related to one entertainment retail center in White Plains, New York that was purchased on May 8, 2007 were subsequently written-off due to an impairment charge recognized for the quarter ended September 30, 2009 as further discussed in Note 4. Goodwill at December 31, 2009 and 2008 relates solely to the acquisition of New Roc that was acquired on October 27, 2003. Amortization expense related to in-place leases is computed using the straight-line method and was \$3.2 million, \$2.7 million and \$1.8 million for the years ended December 31, 2009, 2008 and 2007, respectively. The weighted average life for these in-place leases at December 31, 2009 is 5.4 years.

Future amortization of in-place leases at December 31, 2009 is as follows (in thousands):

	<u>Amount</u>
Year:	
2010	\$ 1,182
2011	1,182
2012	1,182
2013	1,180
2014	623
Thereafter	<u>685</u>
Total	<u>\$ 6,034</u>

Deferred Financing Costs

Deferred financing costs are amortized over the terms of the related long-term debt obligations or mortgage note receivable as applicable.

ENTERTAINMENT PROPERTIES TRUST
Notes to Consolidated Financial Statements
December 31, 2009, 2008 and 2007

Capitalized Development Costs

The Company capitalizes certain costs that relate to property under development including interest and a portion of internal legal personnel costs.

Operating Segment

The Company aggregates the financial information of all its investments into one reportable segment because the investments all have similar economic characteristics and because the Company does not internally report and is not internally organized by investment or transaction type.

Revenue Recognition

Rents that are fixed and determinable are recognized on a straight-line basis over the minimum terms of the leases. Base rent escalation on leases that are dependent upon increases in the Consumer Price Index (CPI) is recognized when known. Straight-line rent receivable is included in accounts receivable and was \$26.1 million and \$23.1 million at December 31, 2009 and 2008, respectively. In addition, most of the Company's tenants are subject to additional rents if gross revenues of the properties exceed certain thresholds defined in the lease agreements (percentage rents). Percentage rents are recognized at the time when specific triggering events occur as provided by the lease agreements. Percentage rents of \$1.5 million, \$1.7 million and \$2.1 million were recognized for the years ended December 31, 2009, 2008 and 2007, respectively. Lease termination fees are recognized when the related leases are canceled and the Company has no obligation to provide services to such former tenants. No termination fees were recognized during the years ended December 31, 2009, 2008 and 2007.

Direct financing lease income is recognized on the effective interest method to produce a level yield on funds not yet recovered. Estimated unguaranteed residual values at the date of lease inception represent management's initial estimates of fair value of the leased assets at the expiration of the lease, not to exceed original cost. Significant assumptions used in estimating residual values include estimated net cash flows over the remaining lease term and expected future real estate values. The estimated unguaranteed residual value is reviewed on an annual basis to determine if there are other than temporary impairments. The Company evaluates on an annual basis during the second quarter (or more frequently if necessary) the collectibility of its direct financing lease receivable and unguaranteed residual value to determine whether they are impaired. A direct financing lease receivable is considered to be impaired when, based on current information and events, it is probable that the Company will be unable to collect all amounts due according to the existing contractual terms. When a direct financing lease receivable is considered to be impaired, the amount of loss is calculated by comparing the recorded investment to the value determined by discounting the expected future cash flows at the direct financing lease receivable's effective interest rate or to the fair value of the underlying collateral, less costs to sell, if such receivable is collateralized.

ENTERTAINMENT PROPERTIES TRUST
Notes to Consolidated Financial Statements
December 31, 2009, 2008 and 2007

Allowance for Doubtful Accounts

Accounts receivable is reduced by an allowance for amounts that may become uncollectible in the future. The Company's accounts receivable balance is comprised primarily of rents and operating cost recoveries due from tenants as well as accrued rental rate increases to be received over the life of the existing leases. The Company regularly evaluates the adequacy of its allowance for doubtful accounts. The evaluation primarily consists of reviewing past due account balances and considering such factors as the credit quality of the Company's tenants, historical trends of the tenant and/or other debtor, current economic conditions and changes in customer payment terms. Additionally, with respect to tenants in bankruptcy, the Company estimates the expected recovery through bankruptcy claims and increases the allowance for amounts deemed uncollectible. If the Company's assumptions regarding the collectibility of accounts receivable prove incorrect, the Company could experience write-offs of the accounts receivable or accrued straight-line rents receivable in excess of its allowance for doubtful accounts. The allowance for doubtful accounts was \$4.9 million and \$2.3 million at December 31, 2009 and 2008.

Mortgage Notes and Other Notes Receivable

Mortgage notes and other notes receivable, including related accrued interest receivable, consist of loans originated by the Company and the related accrued and unpaid interest income as of the balance sheet date. Mortgage notes and other notes receivable are initially recorded at the amount advanced to the borrower and the Company defers certain loan origination and commitment fees, net of certain origination costs, and amortizes them over the term of the related loan. Interest income on performing loans is accrued as earned. The Company evaluates the collectibility of both interest and principal of each of its loans to determine whether it is impaired. A loan is considered to be impaired when, based on current information and events, the Company determines that it is probable that it will be unable to collect all amounts due according to the existing contractual terms. When a loan is considered to be impaired, the amount of loss is calculated by comparing the recorded investment to the value determined by discounting the expected future cash flows at the loan's effective interest rate or to the fair value of the underlying collateral, less costs to sell, if the loan is collateral dependent. For impaired loans, interest income is recognized on a cash basis, unless the Company determines based on the loan to estimated fair value ratio the loan should be on the cost recovery method, and any cash payments received would then be reflected as a reduction of principal. Interest income recognition is recommenced if and when the impaired loan becomes contractually current and performance is demonstrated to be resumed.

Income Taxes

The Company operates in a manner intended to enable it to qualify as a REIT under the Internal Revenue Code (the Code). A REIT which distributes at least 90% of its taxable income to its shareholders each year and which meets certain other conditions is not taxed on that portion of its taxable income which is distributed to its shareholders. The Company intends to continue to qualify as a REIT and distribute substantially all of its taxable income to its shareholders.

In 2004, the Company acquired certain real estate operations that are subject to income tax in Canada. Also in 2004, the Company formed certain taxable REIT subsidiaries, as permitted under the Code, through which it conducts certain business activities. The taxable REIT

ENTERTAINMENT PROPERTIES TRUST
Notes to Consolidated Financial Statements
December 31, 2009, 2008 and 2007

subsidiaries are subject to federal and state income taxes on their net taxable income. Temporary differences between income for financial reporting purposes and taxable income for the Canadian operations and the taxable REIT subsidiaries relate primarily to depreciation, amortization of deferred financing costs and straight line rents. As of December 31, 2009 and 2008, respectively, the Canadian operations and the taxable REIT subsidiaries had deferred tax assets totaling approximately \$12.1 million and \$8.7 million and deferred tax liabilities totaling approximately \$4.3 million and \$3.4 million. As there is no assurance that the Canadian operations and the taxable REIT subsidiaries will generate taxable income in the future beyond the reversal of temporary taxable differences, the deferred tax assets have been offset by a valuation allowance such that there is no net deferred tax asset at December 31, 2009 and 2008. Furthermore, the Company qualified as a REIT and distributed the necessary amount of taxable income such that no federal income taxes were due for the years ended December 31, 2009, 2008 and 2007. Accordingly, no provision for income taxes was recorded for any of those years. If the Company fails to qualify as a REIT in any taxable year, it will be subject to federal income taxes at regular corporate rates (including any applicable alternative minimum tax) and may not be able to qualify as a REIT for four subsequent taxable years. Even if the Company qualifies for taxation as a REIT, the Company is subject to certain state and local taxes on its income and property, and federal income and excise taxes on its undistributed taxable income.

In June 2006, the Financial Accounting Standards Board (FASB) issued guidance that clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements and it prescribes a recognition threshold and measurement attribute criteria for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return.

The Company adopted these provisions of FASB ASC Topic 740, "Income Taxes" on January 1, 2007. The Company does not have any material unrecognized tax positions, and therefore, thus adoption did not have a material impact on the Company's financial position or results of operations.

The Company's policy is to recognize estimated interest and penalties as general and administrative expense. The Company believes that it has appropriate support for the income tax positions taken on its tax returns and that its accruals for tax liabilities are adequate for all open years (after 2006 for federal and state and after 2004 for Canada) based on an assessment of many factors including past experience and interpretations of tax laws applied to the facts of each matter.

Concentrations of Risk

American Multi-Cinema, Inc. (AMC) is the lessee of a substantial portion (43%) of the megaplex theatre rental properties held by the Company (including joint venture properties) at December 31, 2009 as a result of a series of sale leaseback transactions pertaining to a number of AMC megaplex theatres. A substantial portion of the Company's rental revenues (approximately \$97.3 million or 48%, \$97.4 million or 48%, and \$95.6 million or 51% for the years ended December 31, 2009, 2008 and 2007, respectively) result from the rental payments by AMC under the leases, or its parent, AMC Entertainment, Inc. (AMCE), as the guarantor of AMC's obligations under the

ENTERTAINMENT PROPERTIES TRUST
Notes to Consolidated Financial Statements
December 31, 2009, 2008 and 2007

leases. AMCE had total assets of \$3.7 billion and \$3.8 billion, total liabilities of \$2.7 billion and \$2.7 billion and total stockholders' equity of \$1.0 billion and \$1.1 billion at April 2, 2009 and April 3, 2008, respectively. AMCE had a net loss of \$81.2 million for the fifty-two weeks ended April 2, 2009 and net earnings of \$43.4 million for the fifty-three weeks ended April 3, 2008. In addition, AMCE had net earnings of \$16.9 million for the thirty-nine weeks ended December 31, 2009. AMCE has publicly held debt and the foregoing financial information was reported in its consolidated financial information which is publicly available.

For the years ended December 31, 2009, 2008 and 2007, respectively, approximately \$35.9 million, or 13.3%, \$37.6 million or 13.1%, and \$35.8 million, or 15.2%, of total revenue was derived from the Company's four entertainment retail centers in Ontario, Canada. For the years ended December 31, 2008 and 2007, respectively, \$54.4 million, or 19% and \$48.5 million, or 20.6%, of our total revenue was derived from the Company's four entertainment retail centers in Ontario, Canada combined with the mortgage financing interest related to the Company's mortgage note receivable held in Canada and initially funded on June 1, 2005. For the year ended December 31, 2009, no mortgage financing interest income was recognized related to the Company's mortgage note receivable held in Canada as further described in Note 5. The Company's wholly owned subsidiaries that hold the Canadian entertainment retail centers, third party debt and mortgage note receivable (net of loan loss reserve) represent approximately \$228.6 million or 16% and \$219.5 million or 17% of the Company's net assets as of December 31, 2009 and 2008, respectively.

Cash Equivalents

Cash equivalents include bank demand deposits and shares of highly liquid institutional money market mutual funds for which cost approximates market value.

Restricted Cash

Restricted cash represents cash held for a borrower's debt service reserve for mortgage notes receivable and also deposits required in connection with debt service, payment of real estate taxes and capital improvements.

Share-Based Compensation

Share-based compensation to employees of the Company is determined pursuant to the Annual Incentive Program and the Long-Term Incentive Plan. Share-based compensation to non-employee trustees of the Company is determined pursuant to the director compensation program. Prior to May 9, 2007, all common shares and options to purchase common shares (share options) were issued under the 1997 Share Incentive Plan. The 2007 Equity Incentive Plan was approved by shareholders at the May 9, 2007 annual meeting and this plan replaced the 1997 Share Incentive Plan. Accordingly, all common shares and options to purchase common shares granted on or after May 9, 2007 are issued under the 2007 Equity Incentive Plan.

The Company accounts for share based compensation under the FASB ASC Topic on Stock Compensation. Share based compensation expense consists of share option expense, amortization of nonvested share grants, and shares and share units issued to non-employee Trustees for payment of their annual retainers. Share based compensation is included in general

ENTERTAINMENT PROPERTIES TRUST
Notes to Consolidated Financial Statements
December 31, 2009, 2008 and 2007

and administrative expense in the accompanying consolidated statements of income, and totaled \$4.3 million, \$4.0 million and \$3.2 million for the years ended December 31, 2009, 2008 and 2007, respectively.

Share Options

Share options are granted to employees pursuant to the Long-Term Incentive Plan and to non-employee Trustees for their service to the Company. The fair value of share options granted is estimated at the date of grant using the Black-Scholes option pricing model. Share options granted to employees vest over a period of four to five years and share option expense for these options is recognized on a straight-line basis over the vesting period. Share options granted to non-employee Trustees vest immediately but may not be exercised for a period of one year from the grant date. Share option expense for non-employee Trustees is recognized on a straight-line basis over the year of service by the non-employee Trustees.

The expense related to share options included in the determination of net income for the years ended December 31, 2009, 2008 and 2007 was \$679 thousand, \$446 thousand and \$422 thousand, respectively. The following assumptions were used in applying the Black-Scholes option pricing model at the grant dates: risk-free interest rate of 2.6% to 2.8% and 3.2% to 3.5% and 4.8% in 2009, 2008 and 2007, respectively, dividend yield of 6.5% to 6.6%, 6.7% and 5.2% to 5.4% in 2009, 2008 and 2007, respectively, volatility factors in the expected market price of the Company's common shares of 31.4% to 37.5%, 23.2% and 19.5% to 19.8% in 2009, 2008 and 2007, respectively, no expected forfeitures and an expected life of eight years. The Company uses historical data to estimate the expected life of the option and the risk-free interest rate is based on the U.S. Treasury yield curve in effect at the time of grant. Additionally, expected volatility is computed based on the average historical volatility of the Company's publicly traded shares.

Nonvested Shares Issued to Employees

The Company grants nonvested shares to employees pursuant to both the Annual Incentive Program and the Long-Term Incentive Plan. The Company amortizes the expense related to the nonvested shares awarded to employees under the Long-Term Incentive Plan and the premium awarded under the nonvested share alternative of the Annual Incentive Program on a straight-line basis over the future vesting period (three to five years). Total expense recognized related to all nonvested shares was \$3.3 million, \$3.2 million and \$2.5 million for the years ended December 31, 2009, 2008 and 2007, respectively.

Shares Issued to Non-Employee Trustees

Prior to 2009, the Company issued shares to non-employee Trustees for payment of their annual retainers. These shares vested immediately but could not be sold for a period of one year from the grant date. This expense was amortized by the Company on a straight-line basis over the year of service by the non-employee Trustees. Total expense recognized related to shares issued to non-employee Trustees was \$111 thousand, \$340 thousand and \$290 thousand for the years ended December 31, 2009, 2008 and 2007, respectively.

Restricted Share Units Issued to Non-Employee Trustees

In 2009, the Company issued restricted share units to non-employee Trustees for payment of their

ENTERTAINMENT PROPERTIES TRUST
Notes to Consolidated Financial Statements
December 31, 2009, 2008 and 2007

annual retainers. The fair value of the share units granted was based on the share price at the date of grant. The share units vest upon the earlier of the day preceding the next annual meeting of shareholders or a change of control. The settlement date for the shares is selected by the non-employee trustee, and ranges from three years from the grant date to upon termination of service. This expense was amortized by the Company on a straight-line basis over the year of service by the non-employee Trustees. Total expense recognized related to shares issued to non-employee Trustees was \$260 thousand for the year ended December 31, 2009. No expense was recognized related to these shares for the years ended December 31, 2008 and 2007.

Foreign Currency Translation

The Company accounts for the operations of its Canadian properties and mortgage note in Canadian dollars. The assets and liabilities related to the Company's Canadian properties and mortgage note are translated into U.S. dollars at current exchange rates; revenues and expenses are translated at average exchange rates. Resulting translation adjustments are recorded as a separate component of comprehensive income.

Derivative Instruments

The Company has acquired certain derivative instruments to reduce exposure to fluctuations in foreign currency exchange rates and variable interest rates. The Company has established policies and procedures for risk assessment and the approval, reporting and monitoring of derivative financial instrument activities. These derivatives consist of foreign currency forward contracts, cross currency swaps and interest rate swaps.

As required by the Derivatives and Hedging Topic of the FASB ASC, the Company records all derivatives on the balance sheet at fair value. The accounting for changes in the fair value of derivatives depends on the intended use of the derivative, whether the Company has elected to designate a derivative in a hedging relationship and apply hedge accounting and whether the hedging relationship has satisfied the criteria necessary to apply hedge accounting. Derivatives designated and qualifying as a hedge of the exposure to changes in the fair value of an asset, liability, or firm commitment attributable to a particular risk, such as interest rate risk, are considered fair value hedges. Derivatives designated and qualifying as a hedge of the exposure to variability in expected future cash flows, or other types of forecasted transactions, are considered cash flow hedges. Derivatives may also be designated as hedges of the foreign currency exposure of a net investment in a foreign operation. Hedge accounting generally provides for the matching of the timing of gain or loss recognition on the hedging instrument with the recognition of the changes in the fair value of the hedged asset or liability that are attributable to the hedged risk in a fair value hedge or the earnings effect of the hedged forecasted transactions in a cash flow hedge. The Company may enter into derivative contracts that are intended to economically hedge certain of its risk, even though hedge accounting does not apply or the Company elects not to apply hedge accounting under the Derivatives and Hedging Topic of the FASB ASC.

Reclassifications

Certain reclassifications have been made to the prior period amounts to conform to the current period presentation.

ENTERTAINMENT PROPERTIES TRUST
Notes to Consolidated Financial Statements

Subsequent Events

The Company evaluated subsequent events through the time of filing these financial statements with the SEC on February 26, 2010.

3. Rental Properties

The following table summarizes the carrying amounts of rental properties as of December 31, 2009 and 2008 (in thousands):

	<u>2009</u>	<u>2008</u>
Buildings and improvements	\$ 1,558,465	1,452,500
Furniture, fixtures & equipment	68,227	62,090
Land	<u>486,575</u>	<u>434,514</u>
	2,113,267	1,949,104
Accumulated depreciation	<u>(258,638)</u>	<u>(214,078)</u>
Total	<u>\$ 1,854,629</u>	<u>1,735,026</u>

Depreciation expense on rental properties was \$43.2 million, \$40.2 million and \$34.8 million for the years ended December 31, 2009, 2008 and 2007, respectively.

On December 3, 2009, the Company completed a purchase of vineyard and winery equipment from its tenant, Ascentia Wine Estates, for a total investment of \$8.5 million and this equipment was leased back to the tenant.

On December 18, 2009, the Company acquired 15 theatre properties for a total investment of \$121.5 million. The properties are located in Connecticut, Massachusetts, New Jersey, Virginia, Kentucky, Ohio, Michigan, and Iowa, have a total 231 screens and 52,731 seats and are operated by an affiliate of Rave Cinemas, LLC. The theatres are leased under a long-term triple-net master lease.

During the year ended December 31, 2009, the Company completed the development of a winemaking and storage facility in Sonoma, California for a total development cost of approximately \$12.5 million. The facility consists of approximately 58 thousand square feet and 20 acres of land, is operated by Carneros Vintners, Inc. and is leased under a long-term triple-net lease.

During the year ended December 31, 2009, the Company completed the initial phase of development of an entertainment retail center adjacent to one of our megaplex theatres in Suffolk, Virginia for a total development cost of \$13.4 million. The Harbour View Marketplace is approximately 80 thousand square feet and the anchor tenant occupies approximately 48 thousand square feet under a long-term ground lease. At December 31, 2009, there is approximately \$5.6 million in property under development at this center.

ENTERTAINMENT PROPERTIES TRUST
Notes to Consolidated Financial Statements
December 31, 2009, 2008 and 2007

4. Impairment Charges

The Company's entertainment retail center in White Plains, New York, held in a consolidated joint venture, was acquired with mortgage financing that had a loan to fair value ratio of more than 70% at the time of the Company's acquisition of its interests in May 2007. The loan is personally guaranteed by the principals of our minority partner, one of which is the same individual that is either personally, or through his related interests, in default on several other obligations to the Company (see Notes 5 and 8 below). The debt on this center is due in October 2010, and absent any improvement in the performance of the asset, the lender will likely require additional credit support and fees to extend the loan. Any such extension would also require the cooperation of the partners in the joint venture. Without a resolution of our disputes with the principals of our minority partner, there can be no assurance that the Company and the minority partner will cooperate. Given that the debt is currently non-recourse to the Company, the Company may elect not to further support the joint venture, which may include a decision to surrender the property at the loan's maturity. Accordingly, the Company performed an impairment assessment of this asset as of September 30, 2009. It was determined that the carrying value of the asset exceeded the estimated fair value by \$35.8 million, and an impairment charge was recorded at September 30, 2009 for this amount, which was comprised of \$32.4 million related to real estate investment and \$3.4 million related to in-place leases. Management determined the fair value of the asset taking into account various factors, including an independent appraisal prepared as of September 30, 2009 which indicated a fair value of \$118.0 million. In accordance with the FASB ASC Topic on Consolidation and the Company's policy for allocation of income and loss for this joint venture, a loss of \$15.1 million related to the impairment charge was allocated to the noncontrolling interest related to this venture. The noncontrolling interest related to White Plains was a deficit balance of \$9.0 million at December 31, 2009 which is recorded as a component of equity.

Additionally, during the three months ended December 31, 2009, the Company determined that four of its vineyard and winery properties were impaired as payments were not being received per the contractual terms. It was determined that the carrying value of the assets exceeded the estimated fair value by \$6.4 million, and an impairment charge was recorded as of December 31, 2009 for this amount. Management determined the fair value of the assets taking into account various factors, including an independent appraisal prepared as of December 31, 2009 which indicated a total fair value of \$35.0 million.

5. Investment in Mortgage Notes

Investment in mortgage notes, including related accrued interest receivable, at December 31, 2009 and 2008 consists of the following (in thousands):

	<u>2009</u>	<u>2008</u>
(1) Mortgage note and related accrued interest receivable, LIBOR plus 3.5%	\$ —	3,651
(2) Mortgage note and related accrued interest receivable, 10.00%, due April 2, 2010	32,848	29,735
(3) Mortgage note and related accrued interest receivable, 15.0%	126,658	103,289
(4) Mortgage note and related accrued interest receivable, 11.00%, due September 10, 2010	133,119	134,150
(5) Mortgage notes and related accrued interest receivable, 7.00%, due May 1, 2019	163,298	134,948
(6) Mortgage note, 9.53%, due March 10, 2027	8,000	8,000
(7) Mortgage notes, 10.15%, due April 3, 2027	62,500	62,500

Total mortgage notes and related accrued interest receivable	\$ 558,656	508,506
Less: loan loss reserves	<u>(35,776)</u>	<u>—</u>
Total mortgage notes and related accrued interest receivable, net	<u>\$ 522,880</u>	<u>508,506</u>

(1) On December 28, 2007, a wholly-owned subsidiary of the Company entered into a secured first mortgage loan agreement for \$27.0 million with Prairie Creek Properties, LLC for the development of an approximately 9,000 seat amphitheatre in Hoffman Estates, Illinois. The Company advanced \$3.5 million during the year ended December 31, 2007 under this agreement. On May 8, 2009, the Company received payment in full on its mortgage note receivable and related accrued interest of \$3.7 million from Prairie Creek Properties, LLC.

(2) On April 4, 2007, a wholly-owned subsidiary of the Company entered into a secured first mortgage loan agreement for \$25.0 million with Peak Resorts, Inc. (Peak) for the further development of Mount Snow. The loan is secured by approximately 696 acres of development land. The carrying value of this mortgage note receivable at December 31, 2009 was \$32.8 million, including related accrued interest receivable of \$7.8 million. All principal and accrued interest from inception of the loan is due at maturity. Per the terms of the note agreement, Peak has the option to roll the principal and related accrued interest receivable at the April 2, 2010 maturity date into the \$62.5 million note referenced in (7) below.

ENTERTAINMENT PROPERTIES TRUST
Notes to Consolidated Financial Statements
December 31, 2009, 2008 and 2007

(3) The Company's second mortgage note and related accrued interest receivable is denominated in Canadian dollars (CAD) and during the year ended December 31, 2009, a wholly-owned subsidiary of the Company invested an additional CAD \$7.6 million (\$7.2 million U.S.) bringing the total investment to CAD \$133.1 million (\$126.7 million U.S.) in the mortgage note receivable from Metropolis Limited Partnership (the Partnership) related to the construction of the Toronto Dundas Square Project, a 13 level entertainment retail center in downtown Toronto that was completed in May 2008 for a total cost of approximately CAD \$330 million. Additionally, as of December 31, 2009, the Company had posted irrevocable stand-by letters of credit related to this project totaling \$1.5 million U.S which are expected to be cancelled or drawn upon during 2010. The loan is denominated in Canadian dollars and is secured by a second mortgage on the Toronto Dundas Square Project.

A group of banks (the bank syndicate) has provided first mortgage construction financing to the Partnership totaling approximately CAD \$119.0 million (\$113.2 million U.S.) as of December 31, 2009. In April 2009, the bank syndicate and the Company elected to pursue a receivership after it became apparent that a restructuring of the existing equity interests was no longer possible. On April 27, 2009, the court appointed a receiver who is overseeing the sale of the property. On January 8, 2010 the Company signed a purchase agreement to acquire this center in early 2010; however, the purchase of this center is subject to various conditions. As a result, the Company can offer no assurance that this transaction will be completed. The Company has finalized the terms of a credit facility with a group of banks to provide \$100 million Canadian first mortgage financing that is expected to close in conjunction with the purchase. The Company expects to consolidate the financial results of the property subsequent to the purchase.

The Company has evaluated this mortgage note receivable for impairment. Because repayment of the mortgage note receivable did not meet the contractual terms of the agreement, the Company determined the loan was impaired during the quarter ended March 31, 2009 and ceased accruing interest income as of January 1, 2009 on the loan for book purposes. Accordingly, no interest income was recognized for the year ended December 31, 2009 and no interest income will be recognized in future periods. Interest income recognized on this loan for the years ended December 31, 2008 and 2007 was CAD \$17.9 million (\$16.9 million U.S.) and CAD \$13.5 million (\$12.8 million U.S.), respectively. Furthermore, management of the Company reviewed the fair value of the property at September 30, 2009, taking into account a bid from a third party for the second mortgage receivable which implied an overall property value of approximately CAD \$217 million (\$206.5 million U.S.) and an independent appraisal completed in September 2009, and determined a provision for loan loss of CAD \$37.6 million (\$34.8 million U.S.) was necessary. Therefore, the net carrying value of this mortgage note receivable at December 31, 2009 was CAD \$95.5 million (\$90.9 million U.S.).

The Company received origination fees of CAD \$250 thousand (\$237 thousand U.S.) for the year ended December 31, 2007, in connection with this second mortgage note receivable and the fees were amortized through May 31, 2008.

(4) On August 20, 2008, a wholly-owned subsidiary of the Company entered into an agreement to provide a secured first mortgage loan of \$225.0 million to Concord Resorts, LLC (Concord

ENTERTAINMENT PROPERTIES TRUST
Notes to Consolidated Financial Statements
December 31, 2009, 2008 and 2007

Resorts), an entity controlled by Louis Cappelli (Mr. Cappelli), related to a planned casino and resort development in Sullivan County, New York. The Company's investment is secured by a first mortgage on the resort complex real estate totaling 1,584 acres. In addition, the Company has a second mortgage on the remaining 139 acres of the casino related real estate and the loan is personally guaranteed by Mr. Cappelli. The Company has certain rights to convert its mortgage interest into fee ownership as the project is further developed. The net carrying value of this mortgage note receivable at December 31, 2009 was \$133.1 million which was funded under the original \$225.0 million secured first mortgage commitment.

Due to the economic downturn, certain other lenders on the development have either reduced their commitments or withdrawn from the project. The planned initial phase of the casino and resort development has been downsized from an estimated \$1 billion to an estimated \$600 million and Mr. Cappelli is attempting to secure the necessary financing. In June of 2009, the New York legislature passed legislation authorizing the benefits of a special reduced tax rate on gaming receipts in Sullivan County, New York if at least \$600 million is invested and 1,000 new jobs are created. As a result of these issues, the development project has been delayed, and there can be no assurance that Mr. Cappelli will obtain the financing necessary to complete the project. Due to these challenges, Concord Resorts has ceased making interest payments to the Company as contractually obligated under the loan agreement. The Company has evaluated its mortgage note receivable for impairment and has determined it was impaired during the quarter ended March 31, 2009 due to the inability of the borrower to meet its contractual obligations per the agreement. The Company's accounting policy is to recognize interest income on impaired loans on a cash basis. Accrual interest income recognition for book purposes was ceased on January 1, 2009 and therefore no interest income has been recorded during the year ended December 31, 2009. Interest income recognized on this mortgage note receivable for the year ended December 31, 2008 was \$6.2 million. Management of the Company determined that no loan loss reserve was necessary for this note considering current factors, including current economic and market conditions, and taking into account an independent appraisal as of April 30, 2009 of the primary collateral, 1,584 acres of land, which indicated a value significantly in excess of the loan balance. On December 31, 2009, the Company commenced litigation against Mr. Cappelli and his affiliates seeking payment of amounts due under various loans to them and a declaratory judgment that no further investments are required to be made by us under any prior commitment.

(5) On March 13, 2007, a wholly-owned subsidiary of the Company entered into a secured mortgage loan agreement with SVV I, LLC and an affiliate of SVV I, LLC (together SVVI) for the development of a water-park anchored entertainment village in Kansas City, Kansas, the first phase of which opened in July 2009. The Company advanced \$29.0 million and \$39.3 million during the years ended December 31, 2009 and 2008, respectively, under this agreement. On May 6, 2009, the Company reduced its commitment on this project from \$175.0 million to \$163.5 million and added to its collateral position by placing a mortgage on two other water-parks, located in New Braunfels and South Padre Island, Texas, owned and operated by the entities controlled by the principals of SVVI. The mortgage note on the property in Kansas City, Kansas and the mortgage note on the Texas properties have cross-default and cross-collateral provisions. Pursuant to the mortgage on the Texas properties, only a seasonal line of credit secured by the Texas parks totaling not more than \$5.0 million at any time ranks superior to the Company's

ENTERTAINMENT PROPERTIES TRUST
Notes to Consolidated Financial Statements
December 31, 2009, 2008 and 2007

collateral position. Furthermore, the interest rates increased from LIBOR plus 3.5% points to 7% on July 4, 2009, and the loans were extended from September 30, 2012 to May 1, 2019. Interest income will continue to be recognized on the accrual basis. SVVI is required to fund a debt service reserve for off-season fixed payments (those due from September to May). The reserve is to be funded by equal monthly installments during the months of June, July and August. As a result of the delayed opening of the Kansas water-park in July of 2009 as well as additional start up investment required by SVVI, this reserve has not been fully funded as of December 31, 2009. SVVI is currently pursuing alternative financing sources to fully fund the reserve account. The Company also will receive a percentage of revenue from all three parks after certain threshold levels are achieved that may increase the return on the Company's invested capital from 7% to as high as 10%. The carrying value of this mortgage note receivable at December 31, 2009 was \$163.3 million with no accrued interest receivable. SVV I, LLC is a VIE, but it was determined that the Company was not the primary beneficiary of this VIE. The Company's maximum exposure to loss associated with SVVI, LLC is limited to the Company's outstanding mortgage note and related accrued interest receivable.

(6) On March 10, 2006, a wholly-owned subsidiary of the Company provided a secured mortgage loan of \$8.0 million to SNH Development, Inc. The secured property is the Crotched Mountain Ski Resort located in Bennington, New Hampshire. The property serves the Boston and Southern New Hampshire markets and has approximately 308 acres. This loan is guaranteed by Peak, which operates the property. Peak is currently required to fund debt service reserves on April 30th of each year for the following 12 months of debt service payments. Monthly interest payments are transferred to the Company from these debt service reserves. Annually, this interest rate increases based on a formula dependent in part on increases in the CPI.

(7) On April 4, 2007, a wholly-owned subsidiary of the Company entered into two secured first mortgage loan agreements totaling \$73.5 million with Peak of which \$62.5 million has been advanced as of December 31, 2009. The loans are secured by two ski resorts located in Vermont and New Hampshire. Mount Snow is approximately 2,378 acres and is located in both West Dover and Wilmington, Vermont. Mount Attitash is approximately 1,250 acres and is located in Bartlett, New Hampshire. Peak is currently required to fund debt service reserves on April 30th of each year for the following 12 months of debt service payments. Monthly interest payments are transferred to the Company from these debt service reserves. Annually, this interest rate increases based on a formula dependent in part on increases in the CPI.

(8) On October 30, 2007, a wholly-owned subsidiary of the Company entered into a secured first mortgage loan agreement for \$31.0 million with Peak, which was subsequently amended to \$41.0 million. As of December 31, 2009, \$32.2 million had been advanced under this agreement. The loan is secured by seven ski resorts located in Missouri, Indiana, Ohio and Pennsylvania with a total of approximately 1,431 acres. Peak is currently required to fund debt service reserves on April 30th of each year for the following 12 months of debt service payments. Monthly interest payments are transferred to the Company from these debt service reserves. Annually, this interest rate increases based on a formula dependent in part on increases in the CPI.

ENTERTAINMENT PROPERTIES TRUST
Notes to Consolidated Financial Statements
December 31, 2009, 2008 and 2007

The following summarizes the activity within the allowance for loan losses related to mortgage notes receivable for the year ended December 31, 2009 (in thousands):

	<u>2009</u>
Allowance for loan losses at January 1	\$ —
Provision for loan losses	34,757
Charge-offs	—

Impact of foreign currency translation on ending balance	1,019
Allowance for loan losses at December 31	<u>\$ 35,776</u>

There was no allowance for loan losses at December 31, 2008 or any activity in this account for the year ended December 31, 2008.

6. Investment in a Direct Financing Lease

The Company's investment in a direct financing lease relates to the Company's master lease of 22 public charter school properties. Investment in a direct financing lease, net represents estimated unguaranteed residual values of leased assets and net unpaid rentals, less related deferred income. The following table summarizes the carrying amounts of investment in a direct financing lease, net as of December 31, 2009 and 2008 (in thousands):

	<u>2009</u>	<u>2008</u>
Total minimum lease payments receivable	\$ 539,475	\$ 555,869
Estimated unguaranteed residual value of leased assets	162,093	162,093
Less deferred income ⁽¹⁾	(531,718)	(551,873)
Investment in a direct financing lease, net	<u>\$ 169,850</u>	<u>\$ 166,089</u>

⁽¹⁾ Deferred income is net of \$1.7 million of initial direct costs.

Additionally, the Company has determined that no allowance for losses was necessary at December 31, 2009 and 2008.

The Company's direct financing lease has expiration dates ranging from approximately 22 to 24 years. Future minimum rentals receivable on this direct financing lease at December 31, 2009 are as follows (in thousands):

7. Unconsolidated Real Estate Joint Ventures

At December 31, 2009, the Company had a 21.9% and 22.1% investment interest in two unconsolidated real estate joint ventures, Atlantic-EPR I and Atlantic-EPR II, respectively. The Company accounts for its investment in these joint ventures under the equity method of accounting.

The Company recognized income of \$565, \$538 and \$491 (in thousands) from its investment in the Atlantic-EPR I joint venture during 2009, 2008 and 2007, respectively. The Company also received distributions from Atlantic-EPR I of \$622, \$602 and \$556 (in thousands) during 2009, 2008 and 2007, respectively. Condensed financial information for Atlantic-EPR I is as follows as of and for the years ended December 31, 2009, 2008 and 2007 (in thousands):

	<u>2009</u>	<u>2008</u>	<u>2007</u>
Rental properties, net	\$ 27,313	27,957	28,501
Cash	141	141	141
Long-term debt (due May 2010)	15,001	15,416	15,795
Partners' equity	12,356	12,582	12,844
Rental revenue	4,432	4,410	4,323
Net income	2,443	2,402	2,280

The Company recognized income of \$330, \$324 and \$301 (in thousands) from its investment in the Atlantic-EPR II joint venture during 2009, 2008 and 2007, respectively. The Company also received distributions from Atlantic-EPR II of \$364, \$364 and \$345 (in thousands) during 2009, 2008 and 2007, respectively. Condensed financial information for Atlantic-EPR II is as follows as of and for the years ended December 31, 2009, 2008 and 2007 (in thousands):

ENTERTAINMENT PROPERTIES TRUST
Notes to Consolidated Financial Statements

Rental revenue		2,876	2,867	2,778
Net income		1,331	1,331	1,304

The joint venture agreements for Atlantic-EPR I and Atlantic-EPR II allow the Company's partner, Atlantic of Hamburg, Germany ("Atlantic"), to exchange up to a maximum of 10% of its ownership interest per year in each of the joint ventures for common shares of the Company or, at our discretion, the cash value of those shares as defined in each of the joint venture agreements. During 2008, the Company paid Atlantic-EPR I and Atlantic-EPR II cash of \$133 and \$79 (in thousands), respectively, in exchange for additional ownership in each joint venture of 0.7%. During 2009, the Company paid Atlantic cash of \$109 and \$9 (in thousands), respectively, in exchange for additional ownership of 0.7% and 0.2% for Atlantic-EPR I and Atlantic-EPR II, respectively. During January of 2010, the Company paid Atlantic cash of \$51 (in thousands) in exchange for additional ownership of 0.2% for Atlantic-EPR I. These exchanges did not impact total partners' equity in either Atlantic-EPR I or Atlantic-EPR II.

On April 2, 2008, the Company acquired, through a wholly-owned subsidiary, the remaining 50% ownership interest in CS Fund I and CS Fund I became a wholly-owned subsidiary. Prior to the date of this acquisition, CS Fund I was accounted for as an unconsolidated real estate joint venture. From January 1, 2008 to April 1, 2008, the Company recognized income of \$1.1 million and received distributions of \$1.3 million related to this investment. For the year ended December 31, 2007, the Company recognized income of \$791 (in thousands) and received distributions of \$338 (in thousands) related to this investment.

In addition, as of December 31, 2009, the Company had invested \$1.6 million in unconsolidated joint ventures for projects located in China.

8. Consolidated Real Estate Joint Ventures

The Company owns 96% of the membership interests of VinREIT, LLC (VinREIT) and accordingly, the financial statements of VinREIT have been consolidated into the Company's financial statements. VinREIT owns ten wineries and eight vineyards located in California and Washington. The Company's partner in VinREIT is Global Wine Partners (U.S.), LLC (GWP). GWP provides certain consulting services to VinREIT in connection with the acquisition, development, administration and marketing of vineyard properties and wineries.

As detailed in the operating agreement, GWP is entitled to receive a 1% origination fee on winery and vineyard investments and 4% of the annual cash flow of VinREIT after a charge for debt service. GWP may receive additional amounts upon certain events and after certain hurdle rates of return are achieved by us. Net income attributable to noncontrolling interest related to

ENTERTAINMENT PROPERTIES TRUST
Notes to Consolidated Financial Statements
December 31, 2009, 2008 and 2007

VinREIT was \$231 thousand, \$277 thousand and \$66 thousand for the years ended December 31, 2009, 2008 and 2007, respectively, representing GWP's portion of the annual cash flow. The Company's consolidated statements of income include net income related to VinREIT of \$4.3 million, \$6.2 million and \$1.9 million for the years ended December 31, 2009, 2008 and 2007, respectively. The Company received operating distributions from VinREIT of \$6.2 million, \$8.6 million and \$1.0 million during 2009, 2008 and 2007, respectively.

The Company acquired a 71.4% ownership interest in New Roc Associates, LP (New Roc) on October 27, 2003 in exchange for cash of \$25 million. New Roc owns an entertainment retail center encompassing 446 thousand square feet located in New Rochelle, New York. The results of New Roc's operations have been included in the consolidated financial statements since the date of acquisition.

As detailed in the limited partnership agreement, income or loss is allocated as follows: first, to the Company to allow its capital account to equal its cumulative preferred return of 10.142% of its original limited partnership investment, or \$2.5 million per year; second, to the Company's partner in New Roc, LRC Industries L.T.D. (LRC), to allow its capital account to equal its cumulative preferred return of 8% of its original limited partnership investment, or \$800 thousand per year; third, as necessary to cause the capital account balance of the Company to equal the sum of its cumulative preference amount plus its invested capital; fourth, as necessary to cause the capital account balance of LRC to equal the sum of its cumulative preference amount plus its invested capital; fifth, after giving effect to the above, among the partners as necessary to cause the portion of each partner's capital account balance exceeding such partner's total preference amount to be in proportion to the partners' then respective ownership interests; and sixth, any balance among the partners in proportion to their then respective ownership interests. The Company's consolidated statements of income include net income related to New Roc of \$938 (in thousands), \$1.8 and \$1.5 (in millions) for the years ended December 31, 2009, 2008 and 2007, respectively. As described in Note 9, the Company also had a \$10 million note receivable from LRC at December 31, 2009, 2008 and 2007.

As detailed in the limited partnership agreement, cash flow is distributed as follows: first, to the Company to allow for a preferred return of 10.142% of its original limited partnership investment, or \$2.5 million per year, less a prorata share of capital expenditures; second, to LRC to allow for a preferred return of 8% of its original limited partnership investment, or \$800 thousand per year, less a prorata share of capital expenditures; third, in proportion to the partners' ownership interests for any undistributed capital expenditures; and fourth, until all current year distributions and the amount of debt service payments equals \$8.9 million (the Trigger Level), cash flow shall be distributed 85% to the Company and 15% to LRC. After the Trigger Level has been reached for the applicable fiscal year, cash flow shall be distributed 60% to the Company and 40% to LRC. The Company received distributions from New Roc of \$2.4 million and \$2.5 million during 2008 and 2007, respectively. During 2009, New Roc, which is currently managed by affiliates of Mr. Cappelli, made no distributions to the Company although New Roc had cash available for distribution at December 31, 2009.

ENTERTAINMENT PROPERTIES TRUST
Notes to Consolidated Financial Statements
December 31, 2009, 2008 and 2007

At any time after March 8, 2007, LRC has the right to exchange its interest in New Roc for common shares of the Company or the cash value of those shares, at the Company's option, as long as the net operating income (NOI) of New Roc during the preceding 12 months exceeds \$8.9 million, and certain other conditions are met. The number of common shares of the Company issuable to LRC would equal 75% of LRC's capital in New Roc (up to 100% if New Roc's NOI is between \$8.9 million and \$10.0 million), divided by the greater of the Company's book value per share or the average closing price of the Company's common shares. New Roc's NOI was approximately \$7.1 million for the year ended December 31, 2009 and LRC's capital in New Roc was approximately \$3.6 million.

On May 8, 2007, the Company acquired Class A shares in both LC White Plains Retail LLC and LC White Plains Recreation LLC in exchange for \$10.5 million. These two entities (together "the White Plains LLCs") own City Center at White Plains, a 390 thousand square foot entertainment retail center in White Plains, New York that is anchored by a 15 screen megaplex theatre operated by National Amusements. The Class A shares have an initial capital account balance of \$10.5 million, a 66.67% voting interest and a 10% preferred return, as further described below.

Cappelli Group, LLC holds the Class B shares in the White Plains LLCs. The Class B shares have an initial capital account balance of \$25 million and a 9% preferred return as further described below. City Center Group LLC holds the Class C and Class D shares in the White Plains LLCs. The Class C and Class D shares each have an initial capital account balance of \$5 million, the Class C shares have a 33.33% voting interest and preferred returns for each of these classes are further described below.

As detailed in the operating agreements of the White Plains LLCs, cash flow is distributed as follows: first to the Company to allow for a preferred return of 10% on the original capital account of its Class A shares, or \$1.05 million, second to Cappelli Group to allow for a preferred return of 9% on the original capital account of its Class B shares, or \$2.25 million, third to City Center Group LLC to allow for a preferred return of 10% on the original capital account of its Class C shares, or \$0.5 million, fourth to City Center Group LLC to allow for a preferred return of 10% on the original capital account of its Class D shares, or \$0.5 million. The operating agreements provide several other priorities of cash flow related to return on and return of subsequent capital contributions that rank below the above four preferred returns. The final priority calls for the remaining cash flow to be distributed 66.67% to the Company's Class A shares and 33.33% to City Center Group LLC's Class C shares. If the cash flow of the White Plains LLCs is not sufficient to pay any of the preferred returns described above, the preferred returns remain undistributed, but are due upon a liquidation or refinancing event. Upon liquidation or refinancing, after all undistributed preferred returns and return of capital accounts are paid, any remaining cash is distributed 66.67% to the Company and 33.33% to City Center Group LLC.

Additionally, the Company loaned \$20 million to Cappelli Group, LLC which is secured by the Cappelli Group, LLC's Class B shares of the White Plains LLCs. The note has a stated maturity of May 8, 2027 and bears interest at the rate of 10%. Cappelli Group, LLC is only required to

ENTERTAINMENT PROPERTIES TRUST
Notes to Consolidated Financial Statements
December 31, 2009, 2008 and 2007

make cash interest payments on the \$20 million note payable to the extent that they have received cash distributions on their Class B shares of the White Plains LLCs. The White Plains LLC's are required to pay Cappelli Group, LLC's Class B distributions directly to the Company to the extent there is accrued interest receivable on the \$20 million note.

The Cappelli Group, LLC as well as the White Plains LLCs are VIEs and the Company has been determined to be the primary beneficiary of each of these VIEs. As further discussed below, the financial statements of these VIEs have been consolidated into the Company's December 31, 2008 and 2007 financial statements. The \$20 million note between the Company and Cappelli Group, LLC and the related interest income and expense have been eliminated. Cappelli Group's income statement for the years ended December 31, 2009, 2008 and 2007 is presented below (in thousands):

		<u>2009</u>	<u>2008</u>	<u>2007</u>
Equity in losses of White Plains LLCs	\$	18,143	652	113
Interest expense		2,000	1,978	1,322
Net loss	\$	<u>20,143</u>	<u>2,630</u>	<u>1,435</u>

Pursuant to the Consolidation Topic of the FASB ASC, the Company consolidated Cappelli Group LLC's net loss of \$20.1 million, \$2.6 million and \$1.4 million and recognized a corresponding amount of net income attributable to noncontrolling interest for the years ended December 31, 2009, 2008 and 2007, respectively, since the Company's only variable interest in Cappelli Group LLC is debt. The Cappelli Group LLC's equity, after the net loss allocations, is reflected as noncontrolling interest in the Company's consolidated balance sheets and was a debit balance of \$19.2 million at December 31, 2009 and a credit balance of \$934 thousand at December 31, 2008.

The Company also consolidated the net loss of the White Plains LLCs of \$42.9 million (including an impairment charge of \$35.8 million as further described in Note 5), \$1.5 million and \$164 thousand for the years ended December 31, 2009, 2008 and 2007, respectively, of which \$24.8 million and \$18.1 million for the year ended December 31, 2009, \$892 thousand and \$652 thousand for the year ended December 31, 2008 and \$51 thousand and \$113 thousand for the year ended December 31, 2007, was allocated to the Company and to Cappelli Group, LLC, respectively, based on relative cash distributions received from the White Plains LLCs. The \$18.1 million, \$652 thousand and \$113 thousand for the years ended December 31, 2009, 2008 and 2007, respectively, of net losses allocated to Cappelli Group LLC has been eliminated in consolidation against Cappelli Group LLC's corresponding equity in losses of the White Plains LLCs.

As described in Note 9, during the year ended December 31, 2007, the Company also provided a \$10.0 million loan to City Center Group LLC.

As of December 31, 2009, the Company held a 50% ownership interest in Suffolk. During the year ended December 31, 2009, Suffolk completed the initial phase of development of an entertainment retail center adjacent to one of the Company's megaplex theatres in Suffolk,

ENTERTAINMENT PROPERTIES TRUST
Notes to Consolidated Financial Statements
December 31, 2009, 2008 and 2007

Virginia for a total development cost of \$13.4 million. Additionally, as of December 31, 2009, the Company has loaned \$21.4 million to Suffolk including related accrued interest receivable of \$3.3 million. The note bears interest at a rate of 10%. Suffolk is a VIE and it was determined that the Company is the primary beneficiary of this VIE. Accordingly, the Company consolidates the financial statements of Suffolk and eliminates the note, related accrued interest receivable and payable, as well as related interest income and expense. At December 31, 2009, there is approximately \$5.6 million in property under development at this center.

As detailed in the operating agreement of Suffolk, cash flow is first disbursed to the Company to reduce the balance owed on the accrued interest receivable and principal on the loan. Once the interest and principal on the loan are paid in full, available cash is allocated to the partners in accordance with their ownership percentages.

9. Notes Receivable

Investment in notes, including related accrued interest receivable, net, at December 31, 2009 and 2008 consists of the following (in thousands):

ENTERTAINMENT PROPERTIES TRUST
Notes to Consolidated Financial Statements
December 31, 2009, 2008 and 2007

(1) On February 29, 2008, the Company loaned \$10 million to Mr. Cappelli. Through his related interests, Mr. Cappelli is the developer and minority interest partner of the Company's New Roc and White Plains entertainment retail centers located in the New York metropolitan area. The note bears interest at 10% and matured on February 28, 2009. As part of this transaction, the Company also received an option to purchase 50% of Mr. Cappelli's interests (or Mr. Cappelli's related interests) in three other projects in the New York metropolitan area.

The Company has evaluated this note receivable for impairment, and has determined that it was impaired during the quarter ended March 31, 2009 due to the inability of the borrower to meet its contractual obligations per the original agreement. Accordingly, accrual interest income recognition was ceased on January 1, 2009. Interest income of \$417 thousand has been recorded during the year ended December 31, 2009 which represents payments received by the Company. The latest payment related to this note receivable was received by the Company in June of 2009. Interest income from this loan was \$839 thousand for the year ended December 31, 2008. Management of the Company has evaluated the fair value of the underlying collateral of the note and determined that the value of the option was nominal as in the current capital constrained environment, and given the status of the Company's relationship with Mr. Cappelli, the Company would not exercise this option. Additionally, due to the uncertainty of Mr. Cappelli's ability to complete developments in progress, the Company did not attribute value to his personal recourse. Through this analysis, the Company has concluded that a loan loss reserve of \$10.0 million was necessary at December 31, 2009.

(2) The Company loaned \$5 million to its New Roc minority joint venture partner in 2003 in connection with the acquisition of its interest in New Roc and is personally guaranteed by Mr. Cappelli. This note bears interest at 10%, requires monthly interest payments and matured on March 1, 2009. The note is secured by the minority partner's interest in the partnership. In April 2007, the Company loaned an additional \$5 million to the minority partner under this same note agreement.

The Company has evaluated this note receivable for impairment, and has determined that it was impaired during the quarter ended March 31, 2009 due to the inability of the borrower to meet its contractual obligations per the original agreement. Accordingly, accrual interest income recognition was ceased on January 1, 2009. Interest income of \$417 thousand has been recorded during the year ended December 31, 2009 which represents payments received by the Company. The latest payment related to this note receivable was received by the Company in June of 2009. Interest income from this loan was \$1.0 million and \$996 thousand for the years ended December 31, 2008 and 2007, respectively. Management of the Company has evaluated the fair value of the underlying collateral of the note using an analysis of the distribution waterfall of the partnership, estimated current capitalization rates and the estimated net operating income of the partnership. Additionally, due to the uncertainty of Mr. Cappelli's ability to complete developments in progress, the Company did not attribute value to his personal guarantee. Through this analysis, the Company has concluded that a loan loss reserve of \$8.0 million was necessary at December 31, 2009.

ENTERTAINMENT PROPERTIES TRUST
Notes to Consolidated Financial Statements
December 31, 2009, 2008 and 2007

(3) On June 26, 2009, the Company received payment in full on its note receivable and related accrued interest of \$1.0 million from an affiliate of one of its theatre operators. The Company advanced \$1.0 million during the year ended December 31, 2007 under this agreement for the development of a megaplex theatre.

(4) On February 20, 2009, a wholly-owned subsidiary of the Company entered into a \$3.0 million promissory note with Sapphire Wines LLC. The note bears interest at 15% and it matured on November 1, 2009. This note is secured by certain pledge agreements and other collateral, including a personal guarantee of the principal of Sapphire Wines LLC.

The Company has evaluated this note receivable for impairment, and has determined that it was impaired during the quarter ended March 31, 2009 due to the inability of the borrower to meet its contractual obligations per the original agreement. Accordingly, accrual interest income was ceased. Interest income of \$106 thousand has been recorded during the year ended December 31, 2009 which represents payments received by the Company. Management of the Company has evaluated the fair value of the underlying collateral of the note and determined that due to current conditions in the wine industry, the Company believes it is unlikely that the principal of Sapphire Wines LLC could satisfy his obligation as guarantor of the note and that there is minimal value to the pledge agreement and other collateral. Therefore, the Company has concluded that a loan loss reserve of \$3.0 million was necessary at December 31, 2009.

(5) On January 26, 2009, a wholly-owned subsidiary of the Company entered into a credit agreement with Rb Wine Associates, LLC (Rb Wine) to provide a \$2.0 million revolving credit facility. This note is secured by certain pledge agreements and other collateral including personal guarantees from the principals of Rb Wine. During the year ended December 31, 2009, the Company advanced \$1.4 million under this credit facility. Interest accrued on the outstanding principal balance at an annual rate of 15% and was payable monthly at an annual rate of 9.25% with the remaining accrued but unpaid interest and principal due at maturity which was January 1, 2010. On November 30, 2009, the credit agreement was amended and interest now accrues on the outstanding principal balance at an annual rate of 6% with principal and all accrued interest due on January 1, 2011.

The Company has evaluated this note receivable for impairment, and has determined that it was impaired during the quarter ended December 31, 2009 due to the inability of the borrower to meet its contractual obligations per the original agreement. Accordingly, accrual interest income recognition was ceased on December 1, 2009. Interest income from this loan was \$147 thousand for the year ended December 31, 2009. Management of the Company has evaluated the fair value of the underlying collateral of the note due to the amendment of the credit agreement and has concluded that a loan loss reserve of \$123 thousand was necessary at December 31, 2009 based on an analysis of the present value of the expected future cash flows of the note.

(6) The Company has a note receivable from Mosaica Education, Inc. of \$3.8 million at December 31, 2009. This note was amended in 2009 to extend the maturity date from August 1, 2010 to August 31, 2012 and to make monthly payments interest only. This note continues to bears interest at 9.23%. The note is secured by certain pledge agreements and other collateral.

ENTERTAINMENT PROPERTIES TRUST
Notes to Consolidated Financial Statements
December 31, 2009, 2008 and 2007

The Company also has the right to call the note and 120 days after such notice to the borrower, the note becomes due and payable, including all related accrued interest. Interest income from this loan was approximately \$350 thousand for each of the years ended December 31, 2009, 2008 and 2007.

(7) The Company has a note receivable from a tenant, Sapphire Wines, LLC, of \$5.1 million at December 31, 2009. This note bears interest at 12.0%, requires monthly interest payments and matures on April 1, 2013. This note is secured by certain pledge agreements and other collateral, including a personal guarantee of the principal of Sapphire Wines LLC.

The Company has evaluated this note receivable for impairment, and has determined that it was impaired during the quarter ended March 31, 2009 due to the inability of the borrower to meet its contractual obligations per the original agreement. Accordingly, accrual interest income recognition was ceased on January 1, 2009. Interest income of \$257 thousand has been recorded during the year ended December 31, 2009 which represents payments received by the Company. Interest income from this loan was \$450 thousand and \$187 thousand for the years ended December 31, 2008 and 2007, respectively. Management of the Company has evaluated the fair value of the underlying collateral of the note and determined that due to current conditions in the wine industry, the Company believes it is unlikely that the principal of Sapphire Wines LLC could satisfy his obligation as guarantor of the note and that there is minimal value to the pledge agreement and other collateral. Therefore, the Company has concluded that a loan loss reserve of \$5.1 million was necessary at December 31, 2009.

(8) During the year ended December 31, 2007, the Company loaned \$10 million to City Center Group, LLC, a minority joint venture partner of the White Plains LLC's. This note bears interest at 10%, requires monthly interest payments, and matures on May 8, 2017. The note is secured by rights to the economic interest of the Class C and Class D interests in the White Plains LLCs, and is personally guaranteed by two of the shareholders of City Center Group LLC.

The Company evaluated this note receivable for impairment and determined that it was impaired during the quarter ended September 30, 2009 due to the inability of the borrower to meet its contractual obligations per the original agreement. Accordingly, accrual interest income recognition was ceased on July 1, 2009. Interest income of \$500 thousand has been recorded during the year ended December 31, 2009 which represents payments received by the Company prior to July 1, 2009. Interest income from this loan was \$997 thousand and \$261 thousand for the years ended December 31, 2008 and 2007. Management of the Company has evaluated the fair value of the underlying collateral of the note taking into account an independent appraisal as of September 30, 2009 of the property held by the White Plains LLC's, which resulted in an impairment charge on this property as further discussed in Note 4. Additionally, due to the uncertainty of Mr. Cappelli's ability to complete developments in progress, the Company did not attribute value to the guarantees of the shareholders of City Center Group LLC (one of which is Mr. Cappelli). Through this analysis, the Company has concluded that a loan loss reserve of \$10.0 million was necessary at December 31, 2009.

ENTERTAINMENT PROPERTIES TRUST
Notes to Consolidated Financial Statements
December 31, 2009, 2008 and 2007

(1) The Company's mortgage note payable is due September 10, 2010. The mortgage is secured by the mortgage note receivable due on the same date entered into with Concord Resorts, LLC in conjunction with the planned resort development as discussed in Note 5, which had a carrying value of approximately \$133.1 million. The mortgage loan bears interest at LIBOR plus 350 basis points, and in the event LIBOR is less than 2.5%, LIBOR shall be deemed to be 2.5% for purposes of calculating the applicable interest rate for the period. The loan is recourse to the Company and requires monthly interest only payments, with all outstanding principal due at maturity.

(2) The Company's mortgage note payable is due October 7, 2010 and can be extended for an additional two to four years at the Company's option upon meeting certain conditions including a minimum net operating income threshold. The note payable is secured by one theatre and retail mix property, which had a net book value of approximately \$117.2 million, net of an impairment charge of \$35.8 million at December 31, 2009. The note had an initial balance of \$115.0 million and required monthly principal payments of \$42 thousand plus interest through October 2009, and \$83 thousand plus interest from November 2009 through the maturity date, with a final principal payment due at maturity of \$112.5 million. For further discussion related to this note payable, see Note 4.

(3) The Company's \$215 million revolving credit facility is due October 26, 2011. On June 30, 2009, the Company amended and restated its revolving credit facility (the facility). The size of the facility decreased from \$235 million to \$215 million and includes an accordion feature in which the facility can be increased to up to \$300 million subject to certain conditions, including lender consent. The facility continues to be supported by a borrowing base of assets, and is now secured by a pledge of the equity of each entity that holds a borrowing base asset. The facility is secured by 21 theatre properties and seven retail mix properties, which had a net book value of approximately \$338.5 million at December 31, 2009. The facility bears interest at a floating rate equal to LIBOR (subject to a 2% floor) plus 3.5%. Alternatively, the Company can elect to have interest accrue at the base rate plus 3.5%. The base rate is defined as the greater of the prime rate, the federal funds rate plus 0.5%, or the then current 30-day LIBOR (subject to a 2% floor). The facility has a one year extension available at the Company's option, subject to certain terms and conditions including the payment of an extension fee. As a result of this amendment and restatement, the Company expensed certain unamortized financing costs, totaling approximately \$117 thousand, in the second quarter of 2009. The note requires monthly payments of interest with the outstanding principal due at maturity. The amount that the Company is able to borrow on their revolving credit facility is a function of the values and advance rates, as defined by the credit agreement, assigned to the assets included in the borrowing base less outstanding letters of credit and less certain other liabilities that are recourse obligations of the Company. As of December 31, 2009, the Company's total availability under the revolving credit facility was \$178.5 million.

The facility also requires the Company to grant mortgage liens on the underlying borrowing base properties if the ratio of its consolidated debt to the value of its consolidated assets exceeds specified thresholds. As of December 31, 2009, this ratio was below the specified thresholds and the Company has not granted any mortgage liens on the underlying borrowing base properties.

ENTERTAINMENT PROPERTIES TRUST
Notes to Consolidated Financial Statements
December 31, 2009, 2008 and 2007

The financial covenant relating to minimum liquidity now requires the Company to maintain “excess availability” under the facility for the 90-day period preceding the maturity date of a loan related to development of a planned casino and resort in Sullivan County, New York, in an amount equal to at least the unpaid balance of such loan. This loan had an unpaid balance of \$56.3 million as of December 31, 2009.

(4) The Company’s term loan is due October 26, 2011 with a one year extension available at the Company’s option. The term loan has a stated interest rate of LIBOR plus 175 basis points and is secured by one theatre and one ski resort, which had a total net book value of approximately \$33.3 million at December 31, 2009. In addition, the loan is secured by five mortgage notes receivable, which had a carrying value of approximately \$266.0 million including accrued interest receivable at December 31, 2009. The loan had an initial balance of \$120.0 million and bears interest at LIBOR plus 175 basis points (2.00% at December 31, 2009). Due to interest rate swaps entered into on November 26, 2007, \$114.0 million of the principal amount bears interest at an effective rate of 5.81%. Interest is payable monthly and the loan is recourse to the Company. Principal payments of \$300 thousand are required quarterly with a final principal payment at maturity of \$115.5 million.

(5) The Company’s mortgage notes payable due October 1, 2012 are secured by two theatre properties, which had a net book value of approximately \$36.8 million at December 31, 2009. The notes had an initial balance of \$48.4 million and the monthly payments are based on a 20 year amortization schedule. The notes require monthly principal and interest payments of approximately \$365 thousand with a final principal payment at maturity of approximately \$42.0 million.

(6) The Company’s mortgage note payable due November 1, 2012 is secured by one theatre property, which had a net book value of approximately \$26.2 million at December 31, 2009. The note had an initial balance of \$27.0 million and the monthly payments are based on a 20 year amortization schedule. The note requires monthly principal and interest payments of approximately \$203 thousand with a final principal payment at maturity of approximately \$23.4 million.

(7) The Company’s mortgage notes payable due February 10, 2013 are secured by thirteen theatre properties and one theatre and retail mix property, which had a net book value of approximately \$211.5 million at December 31, 2009. The notes had an initial balance of \$155.5 million of which approximately \$98.6 million has monthly payments that are interest only and \$56.9 million has monthly payments based on a 10 year amortization schedule. The notes require monthly principal and interest payments of approximately \$1.1 million with a final principal payment at maturity of approximately \$99.2 million. The weighted average interest rate on these notes is 5.63%.

(8) The Company’s mortgage note payable due March 1, 2014 is secured by four theatre and retail mix properties in Ontario, Canada, which had a net book value of approximately \$216.2 million at December 31, 2009. The mortgage note payable is denominated in Canadian dollars (CAD). The note had an initial balance of CAD \$128.6 million and the monthly payments are

ENTERTAINMENT PROPERTIES TRUST
Notes to Consolidated Financial Statements
December 31, 2009, 2008 and 2007

based on a 20 year amortization schedule. The note requires monthly principal and interest payments of approximately CAD \$977 thousand with a final principal payment at maturity of approximately CAD \$85.6 million. At December 31, 2009 and 2008, the outstanding balance in Canadian dollars was CAD \$107.2 million and CAD \$111.5 million, respectively.

(9) The Company's mortgage note payable due April 1, 2014 is secured by one theatre and retail mix property, which had a net book value of approximately \$85.9 million at December 31, 2009. The note had an initial balance of \$66.0 million and the monthly payments are based on a 30 year amortization schedule. The note requires monthly principal and interest payments of approximately \$378 thousand with a final principal payment at maturity of approximately \$55.3 million.

(10) The Company's mortgage note payable due June 5, 2015 is secured by one theatre and retail mix property, which had a net book value of approximately \$50.7 million at December 31, 2009. The note had an initial balance of \$36.0 million and the monthly payments are based on a 30 year amortization schedule. The note requires monthly principal and interest payments of approximately \$206 thousand with a final principal payment at maturity of approximately \$30.1 million.

(11) The Company's mortgage notes payable due November 6, 2015 are secured by six theatre properties, which had a net book value of approximately \$83.3 million at December 31, 2009. The notes had an initial balance of \$79.0 million and the monthly payments are based on a 25 year amortization schedule. The notes require monthly principal and interest payments of approximately \$498 thousand with a final principal payment at maturity of approximately \$60.7 million.

(12) The Company's mortgage notes payable due March 6, 2016 are secured by two theatre properties, which had a net book value of approximately \$35.8 million at December 31, 2009. The notes had an initial balance of \$44.0 million and the monthly payments are based on a 25 year amortization schedule. The notes require monthly principal and interest payments of approximately \$279 thousand with a final principal payment at maturity of approximately \$33.9 million.

(13) The Company's mortgage notes payable due June 30, 2016 are secured by two theatre properties, which had a net book value of approximately \$34.7 million at December 31, 2009. The notes had an initial balance of \$31.0 million and the monthly payments are based on a 25 year amortization schedule. The notes require monthly principal and interest payments of approximately \$207 thousand with a final principal payment at maturity of approximately \$24.4 million.

(14) The Company's mortgage notes payable due October 1, 2016 are secured by four theatre properties, which had a net book value of approximately \$29.4 million at December 31, 2009. The notes had an initial balance of \$27.8 million and the monthly payments are based on a 25 year amortization schedule. The notes require monthly principal and interest payments of

ENTERTAINMENT PROPERTIES TRUST
Notes to Consolidated Financial Statements
December 31, 2009, 2008 and 2007

approximately \$180 thousand with a final principal payment at maturity of approximately \$21.6 million.

(15) The Company's mortgage notes payable due October 6, 2016 are secured by three theatre properties, which had a net book value of approximately \$22.1 million at December 31, 2009. The notes had an initial balance of \$20.9 million and the monthly payments are based on a 25 year amortization schedule. The notes require monthly principal and interest payments of approximately \$135 thousand with a final principal payment at maturity of approximately \$16.2 million.

(16) The Company's mortgage note payable due March 1, 2017 is secured by one theatre property, which had a net book value of approximately \$11.3 million at December 31, 2009. The note had an initial balance of \$11.6 million and the monthly payments are based on a 25 year amortization schedule. The note requires monthly principal and interest payments of approximately \$75 thousand with a final principal payment at maturity of approximately \$9.0 million.

(17) The Company's mortgage note payable due April 6, 2017 is secured by one theatre property, which had a net book value of approximately \$10.3 million at December 31, 2009. The note had an initial balance of \$11.9 million and the monthly payments are based on a 30 year amortization schedule. The note requires monthly principal and interest payments of approximately \$77 thousand with a final principal payment at maturity of approximately \$9.2 million.

(18) The Company's mortgage notes payable due May 1, 2017 are secured by five theatre properties, which had a net book value of approximately \$46.3 million at December 31, 2009. The notes had an initial balance of \$55.0 million and the monthly payments are based on a 25 year amortization schedule. The notes require monthly principal and interest payments of approximately \$348 thousand with a final principal payment at maturity of approximately \$42.4 million. The weighted average interest rate on these notes is 5.81%.

(19) The Company's mortgage notes payable due August 1, 2017 are secured by two theatre properties, which had a net book value of approximately \$25.1 million at December 31, 2009. The notes had an initial balance of \$28.0 million and the monthly payments are based on a 25 year amortization schedule. The notes require monthly principal and interest payments of approximately \$178 thousand with a final principal payment at maturity of approximately \$21.7 million.

(20) The Company's term loans drawn under a credit facility of \$160.0 million are due December 1, 2017 to June 5, 2018 and are 30% recourse to the Company. The terms loans are secured by the real property and equipment at four wineries and six vineyards with a net book value of approximately \$150.0 million at December 31, 2009. The term loans have stated interest rates of LIBOR plus 175 basis points on loans secured by real property and LIBOR plus 200 basis points on loans secured by fixtures and equipment. Term loans can be drawn through September 26, 2010 under the credit facility. The credit facility provides for an aggregate advance rate of 65% based on the lesser of cost or appraised value. The credit facility contains an accordion feature,

ENTERTAINMENT PROPERTIES TRUST
Notes to Consolidated Financial Statements
December 31, 2009, 2008 and 2007

whereby, subject to lender approval, the Company may obtain additional revolving credit and term loan commitments in an aggregate principal amount not to exceed \$140.0 million.

The initial disbursement under the credit facility consisted of two term loans secured by real property with initial balances of \$4.6 million and \$4.8 million that mature on December 1, 2017 and March 5, 2018, respectively. Due to two interest rate swaps entered into on March 14, 2008, the \$4.6 million and \$4.8 million balances bear interest at effective rates of 5.76% and 5.78%, respectively. Principal and interest are payable monthly with a final principal payment at maturity of \$3.7 million for each of these loans. On March 24, 2008 and August 20, 2008, the Company obtained \$3.2 million and \$5.1 million, respectively, of term loans secured by fixtures and equipment under the facility. These term loans mature on December 1, 2017. Due to an interest rate swap entered into on September 15, 2008, the balances bear interest at an effective rate of 5.63%. Principal and interest are payable monthly and these loans will be fully amortized at maturity. On September 26, 2008, the Company obtained four term loans secured by real property with an aggregate principal amount of \$74.9 million under the facility that mature on June 5, 2018. Due to four interest rate swaps entered into simultaneously, these loans bear interest at an effective rate of 5.11%. Principal and interest are payable monthly with a final aggregate principal payment at maturity of \$59.1 million. Additionally, on February 25, 2009, the Company obtained one term loan with a principal amount of \$4.0 million. The loan matures on December 1, 2017, is secured by fixtures and equipment and bears interest at LIBOR plus 2.00%. Principal and interest is due monthly and this loan will be fully amortized at maturity. Subsequent to the closing of these loans, approximately \$63.3 million of the facility remains available.

(21) The Company's mortgage note payable due February 1, 2018 is secured by one theatre property which had a net book value of approximately \$21.5 million at December 31, 2009. The mortgage loan had an initial balance of \$17.5 million and the monthly payments are based on a 20 year amortization schedule. The mortgage loan bears interest at 6.19% and requires monthly principal and interest payments of approximately \$127 thousand with a final principal payment at maturity of approximately \$11.6 million.

(22) The Company's mortgage note payable due July 15, 2018 is secured by one theatre property, which had a net book value of approximately \$19.7 million at December 31, 2009. The note had an initial balance of \$18.9 million and the monthly payments are based on a 20 year amortization schedule. The notes require monthly principal and interest payments of approximately \$151 thousand with a final principal payment at maturity of approximately \$843 thousand.

(23) The Company's bond payable due October 1, 2037 is secured by one theatre, which had a net book value of approximately \$10.6 million at December 31, 2009, and bears interest at a variable rate which resets on a weekly basis and was 0.28% at December 31, 2009. The bond requires monthly interest payments with a final principal payment at maturity of approximately \$10.6 million.

ENTERTAINMENT PROPERTIES TRUST
Notes to Consolidated Financial Statements
December 31, 2009, 2008 and 2007

(24) The Company's mortgage note payable is secured by one theatre and retail mix property, which had a net book value of approximately \$85.9 million at December 31, 2009, and bears interest at 5.50%. The note requires monthly payments of interest only and provides for the conversion from construction loan to a ten year permanent loan upon completion of construction. However, as of December 31, 2009, this conversion had not yet been completed.

(25) The Company's mortgage note payable is secured by one theatre and retail mix property, which had a net book value of approximately \$117.2 million at December 31, 2009, and bears interest at 5.00%. The note requires monthly payments of interest only and provides for the conversion from construction loan to a ten year permanent loan upon completion of construction. However, as of December 31, 2009, this conversion had not yet been completed.

Certain of the Company's long-term debt agreements contain customary restrictive covenants related to financial and operating performance as well as certain cross-default provisions. At December 31, 2009, the Company was in compliance with all restrictive covenants.

Principal payments due on long-term debt obligations subsequent to December 31, 2009 (without consideration of any extensions) are as follows (in thousands):

Year:	<u>Amount</u>
2010	\$ 196,051
2011	178,247
2012	93,198
2013	119,339
2014	152,503
Thereafter	<u>402,085</u>
Total	<u>\$ 1,141,423</u>

The Company capitalizes a portion of interest costs as a component of property under development. The following is a summary of interest expense, net for the years ended December 31, 2009, 2008 and 2007 (in thousands):

	<u>2009</u>	<u>2008</u>	<u>2007</u>
Interest on credit facility and mortgage loans	\$ 68,968	68,681	58,018
Amortization of deferred financing costs	3,663	3,290	2,905
Credit facility and letter of credit fees	759	687	453
Interest cost capitalized	(600)	(797)	(494)
Interest income	<u>(75)</u>	<u>(910)</u>	<u>(377)</u>
Interest expense, net	<u>\$ 72,715</u>	<u>70,951</u>	<u>60,505</u>

11. Derivative Instruments

Risk Management Objective of Using Derivatives

The Company is exposed to the effect of changes in foreign currency exchange rates and interest rates on its LIBOR based borrowings. The Company limits this risk by following established risk

ENTERTAINMENT PROPERTIES TRUST
Notes to Consolidated Financial Statements
December 31, 2009, 2008 and 2007

management policies and procedures including the use of derivatives. The Company's objective in using derivatives is to add stability to reported earnings and to manage its exposure to foreign exchange and interest rate movements or other identified risks. To accomplish this objective, the Company primarily uses interest rate swaps, cross currency swaps and foreign currency forwards.

Cash Flow Hedges of Interest Rate Risk

The Company's objectives in using interest rate derivatives are to add stability to interest expense and to manage its exposure to interest rate movements on its LIBOR based borrowings. To accomplish this objective, the Company currently uses interest rate swaps as its interest rate risk management strategy. Interest rate swaps designated as cash flow hedges involve the receipt of variable-rate amounts from a counterparty in exchange for the Company making fixed-rate payments over the life of the agreements without exchange of the underlying notional amount.

On November 26, 2007, the Company entered into two interest rate swap agreements to fix the interest rate on \$114.0 million of an outstanding term loan. These agreements each have outstanding notional amounts of \$57.0 million, a termination date of October 26, 2012 and a fixed rate of 5.81%.

In March 2008, the Company entered into two interest rate swap agreements to fix the interest rates on the two initial outstanding term loans described in Note 10 with an aggregate notional amount of \$9.5 million. At December 31, 2009, these agreements have outstanding notional amounts of \$4.5 million and \$4.7 million, termination dates of December 1, 2017 and March 5, 2018 and fixed rates of 5.76% and 5.78%, respectively.

In September 2008, the Company entered into five interest rate swap agreements to fix the interest rates on the remaining outstanding term loans described in Note 10 with an aggregate initial notional amount of \$83.1 million. At December 31, 2009, four of these agreements have aggregate outstanding notional amounts of \$73.4 million, a termination date of October 7, 2013 and fixed rates of 5.11%. The remaining agreement has an outstanding notional amount of \$7.4 million at December 31, 2009, a termination date of December 1, 2017 and a fixed rate of 5.63%.

At December 31, 2009, the Company had nine interest rate swaps outstanding that were designated as cash flow hedges of interest rate risk and had a combined outstanding notional amount of \$203.9 million.

The effective portion of changes in the fair value of interest rate derivatives designated and that qualify as cash flow hedges is recorded in accumulated other comprehensive income and is subsequently reclassified into earnings in the period that the hedged forecasted transaction affects earnings. During the years ended December 31, 2009, 2008 and 2007, such derivatives were used to hedge the variable cash flows associated with existing variable-rate debt. The ineffective portion of the change in fair value of the derivatives is recognized directly in earnings. No hedge ineffectiveness on cash flow hedges was recognized during the years ended December 31, 2009, 2008 and 2007.

ENTERTAINMENT PROPERTIES TRUST
Notes to Consolidated Financial Statements
December 31, 2009, 2008 and 2007

Amounts reported in accumulated other comprehensive income related to derivatives will be reclassified to interest expense as interest payments are made on the Company's variable-rate debt. As of December 31, 2009, the Company estimates that during the twelve months ending December 31, 2010, \$6.6 million will be reclassified from accumulated other comprehensive income to interest expense.

Cash Flow Hedges of Foreign Exchange Risk

The Company is exposed to foreign currency exchange risk against its functional currency, the US dollar, on its four Canadian properties and its mortgage note receivable denominated in Canadian dollars. The Company uses a cross currency swap to mitigate its exposure to fluctuations in the CAD to U.S. dollar exchange rate on its four Canadian properties. This foreign currency derivative should hedge a significant portion of the Company's expected CAD denominated cash flow of the four Canadian properties through February 2014 as their impact on the Company's cash flow when settled should move in the opposite direction of the exchange rates utilized to translate revenues and expenses of these properties.

At December 31, 2009, the Company's cross-currency swap had a fixed notional value of \$76.0 million CAD and \$71.5 million U.S. The net effect of this swap is to lock in an exchange rate of \$1.05 CAD per U.S. dollar on approximately \$13 million of annual CAD denominated cash flows.

The effective portion of changes in the fair value of foreign currency derivatives designated and that qualify as cash flow hedges of foreign exchange risk is recorded in accumulated other comprehensive income and subsequently reclassified into earnings in the period that the hedged forecasted transaction affects earnings. The ineffective portion of the change in fair value of the derivative, as well as amounts excluded from the assessment of hedge effectiveness, is recognized directly in earnings. No hedge ineffectiveness on foreign currency derivatives has been recognized for the years ended December 31, 2009, 2008 and 2007.

Net Investment Hedges

As discussed above, the Company is exposed to fluctuations in foreign exchange rates on its four Canadian properties and its mortgage note receivable denominated in Canadian dollars. As such, the Company also uses currency forward agreements to hedge its exposure to changes in foreign exchange rates on these investments. Currency forward agreements involve fixing the CAD to U.S. dollar exchange rate for delivery of a specified amount of foreign currency on a specified date. The currency forward agreements are typically cash settled in US dollars for their fair value at or close to their settlement date. In order to hedge the net investment in the Company's four Canadian properties, the Company entered into a forward contract with a fixed notional value of \$100 million CAD and \$96.1 million U.S. with a February 2014 settlement which coincides with the maturity of the Company's underlying mortgage on these four properties. The exchange rate of this forward contract is approximately \$1.04 CAD per U.S. dollar. This forward contract should hedge a significant portion of the Company's CAD denominated net investment in these four centers through February 2014 as the impact on accumulated other comprehensive income from marking the derivative to market should move in the opposite direction of the translation adjustment on the net assets of its four Canadian properties.

ENTERTAINMENT PROPERTIES TRUST
Notes to Consolidated Financial Statements
December 31, 2009, 2008 and 2007

For foreign currency derivatives designated as net investment hedges, the effective portion of changes in the fair value of the derivatives are reported in accumulated other comprehensive income as part of the cumulative translation adjustment. The ineffective portion of the change in fair value of the derivatives is recognized directly in earnings. No hedge ineffectiveness on net investment hedges has been recognized for the years ended December 31, 2009, 2008 and 2007. Amounts are reclassified out of accumulated other comprehensive income into earnings when the hedged net investment is either sold or substantially liquidated.

See Note 12 for disclosures relating to the fair value of the Company's derivative instruments. Below is a summary of the effect of derivative instruments on the consolidated statement of income for the year ended December 31, 2009:

Effect of Derivative Instruments on the Consolidated Statement of Income
for the year ended December 31, 2009
(Dollars in thousands)

Description	Amount of Gain or (Loss) Recognized in AOCI on Derivative (Effective Portion)	Amount of Income or (Expense) Reclassified from AOCI into Earnings (Effective Portion)	Amount of Gain or (Loss) Recognized in Earnings on Derivative (Ineffective Portion)
Interest Rate Swaps	\$ 5,269	\$ (7,121) *	\$ -
Cross Currency Swaps	(7,440)	918 **	-
Currency Forward Agreements	(7,024)	-	-
Total	\$ (9,195)	\$ (6,203)	\$ -

*Included in "Interest expense" in accompanying consolidated statements of income.

**Included in "Other income" in the accompanying consolidated statements of income.

Credit-risk-related Contingent Features

The Company has agreements with each of its interest rate derivative counterparties that contain a provision where if the Company defaults on any of its indebtedness, including default where repayment of the indebtedness has not been accelerated by the lender, then the Company could also be declared in default on its interest rate derivative obligations.

As of December 31, 2009, the fair value of derivatives in a liability position related to these agreements was \$10.3 million. If the Company breached any of the contractual provisions of the derivative contracts, it would be required to settle its obligations under the agreements at their termination value of \$10.8 million.

ENTERTAINMENT PROPERTIES TRUST
Notes to Consolidated Financial Statements
December 31, 2009, 2008 and 2007

12. Fair Value Disclosures

The FASB ASC Topic on Fair Value Measurements (Topic 820) defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. It applies to reported balances that are required or permitted to be measured at fair value and does not require any new fair value measurements of reported balances. Topic 820 emphasizes that fair value is a market-based measurement, not an entity-specific measurement. Therefore, a fair value measurement should be determined based on the assumptions that market participants would use in pricing the asset or liability. As a basis for considering market participant assumptions in fair value measurements, Topic 820 establishes a fair value hierarchy that distinguishes between market participant assumptions based on market data obtained from sources independent of the reporting entity (observable inputs that are classified within Levels 1 and 2 of the hierarchy) and the reporting entity's own assumptions about market participant assumptions (unobservable inputs classified within Level 3 of the hierarchy).

Level 1 inputs utilize quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company has the ability to access. Level 2 inputs are inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs may include quoted prices for similar assets and liabilities in active markets, as well as inputs that are observable for the asset or liability (other than quoted prices), such as interest rates, foreign exchange rates, and yield curves that are observable at commonly quoted intervals. Level 3 inputs are unobservable inputs for the asset or liability, which are typically based on an entity's own assumptions, as there is little, if any, related market activity. In instances where the determination of the fair value measurement is based on inputs from different levels of the fair value hierarchy, the level in the fair value hierarchy within which the entire fair value measurement falls is based on the lowest level input that is significant to the fair value measurement in its entirety. The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the asset or liability.

Derivative Financial Instruments

The Company uses interest rate swaps, foreign currency forwards and cross currency swaps to manage its interest rate and foreign currency risk. The valuation of these instruments is determined using widely accepted valuation techniques including discounted cash flow analysis on the expected cash flows of each derivative. This analysis reflects the contractual terms of the derivatives, including the period to maturity, and uses observable market-based inputs, including interest rate curves, foreign exchange rates, and implied volatilities. The fair values of interest rate swaps are determined using the market standard methodology of netting the discounted future fixed cash receipts and the discounted expected variable cash payments. The variable cash payments are based on an expectation of future interest rates (forward curves) derived from observable market interest rate curves. To comply with the provisions of Topic 820, the Company incorporates credit valuation adjustments to appropriately reflect both its own nonperformance risk and the respective counterparty's nonperformance risk in the fair value measurements. In adjusting the fair value of its derivative contracts for the effect of

ENTERTAINMENT PROPERTIES TRUST
Notes to Consolidated Financial Statements
December 31, 2009, 2008 and 2007

nonperformance risk, the Company has considered the impact of netting and any applicable credit enhancements, such as collateral postings, thresholds, mutual puts, and guarantees.

Although the Company has determined that the majority of the inputs used to value its derivatives fall within Level 2 of the fair value hierarchy, the credit valuation adjustments associated with its derivatives also utilize Level 3 inputs, such as estimates of current credit spreads, to evaluate the likelihood of default by itself and its counterparties. As of December 31, 2009, the Company has assessed the significance of the impact of the credit valuation adjustments on the overall valuation of its derivative positions and has determined that the credit valuation adjustments are significant to the overall valuation of its currency forward agreements, cross currency swaps and two of its interest rate swaps and therefore, has classified these derivatives as Level 3 within the fair value reporting hierarchy.

The table below presents the Company's assets and liabilities measured at fair value on a recurring basis as of December 31, 2009, aggregated by the level in the fair value hierarchy within which those measurements fall and by derivative type.

Assets and Liabilities Measured at Fair Value on a Recurring Basis at December 31, 2009
(Dollars in thousands)

Rental properties, net	\$	-	\$	152,213	\$	152,213
Mortgage notes and related accrued interest receivable, net	\$	-	\$	90,882	\$	90,882
Notes and related accrued interest receivable, net	\$	-	\$	3,293	\$	3,293

During the three months ended September 30, 2009, the Company recognized a nonrecurring non-cash impairment charge of \$35.8 million relating to adjustment to a property carrying value. Management of the Company estimated the fair value of the property taking into account an independent appraisal completed in October 2009 as further described in Note 4. Based on this input, the Company determined that its valuation of this investment was classified within Level 3 of the fair value hierarchy.

During the three months ended September 30, 2009, the Company measured one mortgage note receivable at fair value as a result of the establishment of the allowance for loan losses as further

ENTERTAINMENT PROPERTIES TRUST
Notes to Consolidated Financial Statements
December 31, 2009, 2008 and 2007

discussed in Note 5. Management estimated the fair value of the underlying collateral for this note and the Company determined that its valuation of this investment was classified within Level 3 of the fair value hierarchy. Additionally, the Company measured six notes receivable at fair value as a result of the establishment of the allowance for loan losses as further discussed in Note 9. Management estimated the fair value of the underlying collateral for these notes and the Company determined that its valuation of these investments was classified within Level 3 of the fair value hierarchy.

Fair Value of Financial Instruments

Management compares the carrying value and the estimated fair value of the Company's financial instruments. The following methods and assumptions were used by the Company to estimate the fair value of each class of financial instruments at December 31, 2009 and 2008:

Mortgage notes receivable and related accrued interest receivable:

The fair value of the Company's mortgage notes and related accrued interest receivable as of December 31, 2009 and 2008 is estimated by discounting the future cash flows of each instrument using current market rates. At December 31, 2009, the Company had a carrying value of \$522.9 million in fixed rate mortgage notes receivable outstanding, including related accrued interest and net of loan loss reserve, with a weighted average interest rate of approximately 9.14%. The fixed rate mortgage notes bear interest at rates of 7.00% to 15.00%. Discounting the future cash flows for fixed rate mortgage notes receivable using an estimated weighted average market rate of 9.77%, management estimates the fixed rate mortgage notes receivable's fair value to be approximately \$519.4 million at December 31, 2009.

At December 31, 2008, the Company had a carrying value of \$369.9 million in fixed rate mortgage notes receivable outstanding, including related accrued interest, with a weighted average interest rate of approximately 12.77%. The fixed rate mortgage notes bear interest at rates of 9.00% to 15.00%. Discounting the future cash flows for fixed rate mortgage notes receivable using an estimated weighted average market rate of 15.14%, management estimates the fixed rate mortgage notes receivable's fair value to be approximately \$345.2 million at December 31, 2008.

At December 31, 2008, the Company had a carrying value of \$138.6 million in variable rate mortgage notes receivable outstanding, including related accrued interest, with a weighted average interest rate of approximately 5.40%. The variable mortgage notes bear interest rates of LIBOR plus 350 basis points. Discounting the future cash flows for variable rate mortgage notes receivable using an estimated weighted average market rate of 7.65%, management estimates the variable rate mortgage notes receivable's fair value to be approximately \$128.7 million at December 31, 2008.

Investment in a direct financing lease, net:

The fair value of the Company's investment in a direct financing lease as of December 31, 2009 is estimated by discounting the future cash flows of the instrument using current market rates. At December 31, 2009, the Company had an investment in a direct financing lease with a carrying value of \$169.9 million and a weighted average effective interest rate of 12.01%. The

ENTERTAINMENT PROPERTIES TRUST
Notes to Consolidated Financial Statements
December 31, 2009, 2008 and 2007

investment in direct financing lease bears interest at effective interest rates of 11.90% to 12.40%. The carrying value of the investment in a direct financing lease approximates the fair market value at December 31, 2009.

At December 31, 2008, the Company had an investment in a direct financing lease with a carrying value of \$166.1 million and a weighted average effective interest rate of 12.0%. The investment in direct financing lease bears interest at effective interest rates of 11.9% to 12.4%. Discounting the future cash flows for the investment in a direct financing lease using an estimated market rate of 14.26%, management estimates the investment in a direct financing lease's fair value to be approximately \$140.8 million at December 31, 2008.

Cash and cash equivalents, restricted cash:

Due to the highly liquid nature of our short term investments, the carrying values of our cash and cash equivalents and restricted cash approximate the fair market values.

Accounts receivable, net:

The carrying values of accounts receivable approximate the fair market value at December 31, 2009 and 2008.

Notes and related accrued interest receivable, net:

The fair value of the Company's notes and related accrued interest receivable as of December 31, 2009 is estimated by discounting the future cash flows of each instrument using current market rates. At December 31, 2009, the Company had a carrying value of \$7.2 million in fixed rate notes receivable outstanding, including related accrued interest and net of loan loss reserve, with a weighted average interest rate of approximately 8.80%. The fixed rate notes bear interest at rates of 6.33% to 15.00%. Discounting the future cash flows for fixed rate notes receivable using an estimated market rate of 9.34%, management estimates the fixed rate notes receivable's fair value to be approximately \$7.1 million at December 31, 2009.

At December 31, 2008, the Company had a carrying value of \$38.9 million in fixed rate notes receivable outstanding with a weighted average interest rate of approximately 9.78%. The fixed rate notes bear interest at rates of 6.00% to 10.00%. Discounting the future cash flows for fixed rate notes receivable using an estimated market rate of 12.03%, management estimates the fixed rate notes receivable's fair value to be approximately \$37.1 million at December 31, 2008.

At December 31, 2008, the Company had a carrying value of \$1.0 million in a variable rate mortgage note receivable outstanding with an interest rate of 5.40%. The variable note bears interest at a rate of LIBOR plus 350 basis points. Discounting the future cash flows for the variable rate note receivable using an estimated market rate of 7.65%, management estimates the variable rate mortgage note receivable's fair value to be approximately \$1.0 million at December 31, 2008.

Derivative instruments:

Derivative instruments are carried at their fair market value.

ENTERTAINMENT PROPERTIES TRUST
Notes to Consolidated Financial Statements
December 31, 2009, 2008 and 2007

Debt instruments:

The fair value of the Company's debt as of December 31, 2009 is estimated by discounting the future cash flows of each instrument using current market rates. At December 31, 2009, the Company had a carrying value of \$313.0 million in variable rate debt outstanding with an average weighted interest rate of approximately 5.37%. Discounting the future cash flows for variable rate debt using an estimated market rate of 5.55%, management estimates the variable rate debt's fair value to be approximately \$304.3 million at December 31, 2009. As described in Note 10, \$203.9 million of variable rate debt outstanding at December 31, 2009 has been converted to a fixed rate by interest rate swap agreements.

At December 31, 2008, the Company had a carrying value of \$426.8 million in variable rate debt outstanding with an average weighted interest rate of approximately 4.68%. Discounting the future cash flows for variable rate debt using an estimated market rate of 5.65%, management estimates the variable rate debt's fair value to be approximately \$412.4 million at December 31, 2008. As described in Note 10, \$206.1 million of variable rate debt outstanding at December 31, 2008 has been converted to a fixed rate by interest rate swap agreements.

At December 31, 2009, the Company had a carrying value of \$828.4 million in fixed rate long-term debt outstanding with an average weighted interest rate of approximately 6.01%. Discounting the future cash flows for fixed rate debt using an estimated market rate of 5.89%, management estimates the fixed rate debt's fair value to be approximately \$825.4 million at December 31, 2009.

At December 31, 2008, the Company had a carrying value of \$835.6 million in fixed rate long-term debt outstanding with an average weighted interest rate of approximately 5.99%. Discounting the future cash flows for fixed rate debt using an estimated market rate of 5.84%, management estimates the fixed rate debt's fair value to be approximately \$842.4 million at December 31, 2008.

Accounts payable and accrued liabilities:

The carrying value of accounts payable and accrued liabilities approximates fair value due to the short term maturities of these amounts.

Common and preferred dividends payable:

The carrying values of common and preferred dividends payable approximate fair value due to the short term maturities of these amounts.

13. Common and Preferred Shares

Common Shares

The Board of Trustees declared cash dividends totaling \$2.60 per common share for the year ended December 31, 2009 and \$3.36 per common share for the year ended December 31, 2008.

Of the total dividends calculated for tax purposes, the amounts characterized as ordinary income, return of capital and long-term capital gain for 2009 and 2008 are as follows:

During January 2009, the Company issued pursuant to a registered public offering 1,551,000 common shares under the direct share purchase component of the Company's Dividend Reinvestment and Direct Share Purchase Plan. These shares were sold at an average price of \$23.86 per share and total net proceeds after expenses were approximately \$36.8 million. Additionally, during February 2009, the Company issued pursuant to a registered public offering 339,000 common shares under this plan. These shares were sold at an average price of \$22.12 per share and total net proceeds after expenses were approximately \$7.5 million.

During August 2009, the Company issued pursuant to a registered public offering 652,000 common shares under the direct share purchase component of the Company's Dividend Reinvestment and Direct Share Purchase Plan. These shares were sold at an average price of \$30.65 per share and total net proceeds after expenses were approximately \$19.9 million. Additionally, during September 2009, the Company issued pursuant to a registered public offering 911,000 common shares under this plan. These shares were sold at an average price of \$32.92 per share and total net proceeds after expenses were approximately \$29.9 million.

On November 16, 2009, the Company issued pursuant to a registered public offering 6,325,000 common shares (including the exercise of the over-allotment option of 825,000 shares) at a

ENTERTAINMENT PROPERTIES TRUST
Notes to Consolidated Financial Statements
December 31, 2009, 2008 and 2007

purchase price of \$31.50. Total net proceeds to the Company after underwriting discounts and expenses were approximately \$190.6 million.

The proceeds from the above public offerings were used to pay down the Company's revolving credit facility and remaining net proceeds were invested in interest-bearing accounts and short-term interest-bearing securities which are consistent with the qualification as a REIT under the Internal Revenue Code.

Series A Preferred Shares

On May 29, 2002, the Company issued 2.3 million 9.50% Series A cumulative redeemable preferred shares ("Series A preferred shares") in a registered public offering. On May 29, 2007, the Company completed the redemption of all 2.3 million outstanding 9.50% Series A preferred shares. The shares were redeemed at a redemption price of \$25.39 per share. This price is the sum of the \$25.00 per share liquidation preference and a quarterly dividend per share of \$0.59375 prorated through the redemption date. In conjunction with the redemption, the Company recognized both a non-cash charge representing the original issuance costs that were paid in 2002 and also other redemption related expenses. The aggregate reduction to net income available to common shareholders was approximately \$2.1 million (\$0.08 per fully diluted common share) for year ended December 31, 2007.

Series B Preferred Shares

On January 19, 2005, the Company issued 3.2 million 7.75% Series B cumulative redeemable preferred shares ("Series B preferred shares") in a registered public offering for net proceeds of \$77.5 million, before expenses. The Company pays cumulative dividends on the Series B preferred shares from (and including) the date of original issuance in the amount of \$1.9375 per share each year, which is equivalent to 7.75% of the \$25 liquidation preference per share. Dividends on the Series B preferred shares are payable quarterly in arrears, and began on April 15, 2005. The Company may not redeem the Series B preferred shares before January 19, 2010, except in limited circumstances to preserve the Company's REIT status. On or after January 19, 2010, the Company may, at its option, redeem the Series B preferred shares in whole at any time or in part from time to time, by paying \$25 per share, plus any accrued and unpaid dividends up to and including the date of redemption. The Series B preferred shares generally have no stated maturity, will not be subject to any sinking fund or mandatory redemption, and are not convertible into any of the Company's other securities. Owners of the Series B preferred shares generally have no voting rights, except under certain dividend defaults. The Board of Trustees declared cash dividends totaling \$1.9375 per Series B preferred share for each of the years ended December 31, 2009 and 2008.

Of the total dividends calculated for tax purposes, the amounts characterized as ordinary income, return of capital and long-term capital gain for 2009 and 2008 are as follows:

Series C Convertible Preferred Shares

On December 22, 2006, the Company issued 5.4 million 5.75% Series C cumulative convertible preferred shares ("Series C preferred shares") in a registered public offering for net proceeds of approximately \$130.8 million, after expenses. The Company will pay cumulative dividends on the Series C preferred shares from the date of original issuance in the amount of \$1.4375 per share each year, which is equivalent to 5.75% of the \$25 liquidation preference per share. Dividends on the Series C preferred shares are payable quarterly in arrears, and began on January 15, 2007 with a pro-rated quarterly payment of \$0.0359 per share. The Company does not have the right to redeem the Series C preferred shares except in limited circumstances to preserve the Company's REIT status. The Series C preferred shares have no stated maturity and will not be subject to any sinking fund or mandatory redemption. As of December 31, 2009, the Series C preferred shares are convertible, at the holder's option, into the Company's common shares at a conversion rate of 0.3572 common shares per Series C preferred share, which is equivalent to a conversion price of \$69.99 per common share. This conversion ratio may increase over time upon certain specified triggering events including if the Company's common dividend per share exceeds a quarterly threshold of \$0.6875.

Upon the occurrence of certain fundamental changes, the Company will under certain circumstances increase the conversion rate by a number of additional common shares or, in lieu

ENTERTAINMENT PROPERTIES TRUST
Notes to Consolidated Financial Statements
December 31, 2009, 2008 and 2007

thereof, may in certain circumstances elect to adjust the conversion rate upon the Series C preferred shares becoming convertible into shares of the public acquiring or surviving company.

On or after January 15, 2012, the Company may, at its option, cause the Series C preferred shares to be automatically converted into that number of common shares that are issuable at the then prevailing conversion rate. The Company may exercise its conversion right only if, at certain times, the closing price of the Company's common shares equals or exceeds 135% of the then prevailing conversion price of the Series C preferred shares.

Owners of the Series C preferred shares generally have no voting rights, except under certain dividend defaults. Upon conversion, the Company may choose to deliver the conversion value to the owners in cash, common shares, or a combination of cash and common shares.

The Board of Trustees declared cash dividends totaling \$1.4375 per Series C preferred share for each of the years ended December 31, 2009 and 2008, respectively.

Of the total dividends calculated for tax purposes, the amounts characterized as ordinary income, return of capital and long-term capital gain for 2009 and 2008 are as follows:

Series D Preferred Shares

On May 25, 2007, the Company issued 4.6 million 7.375% Series D cumulative redeemable preferred shares ("Series D preferred shares") in a registered public offering for net proceeds of approximately \$111.1 million, after expenses. The Company pays cumulative dividends on the Series D preferred shares from the date of original issuance in the amount of \$1.844 per share each year, which is equivalent to 7.375% of the \$25 liquidation preference per share. Dividends on the Series D preferred shares are payable quarterly in arrears, and were first payable on July 16, 2007 with a pro-rated quarterly payment of \$0.1844 per share. The Company may not redeem the Series D preferred shares before May 25, 2012, except in limited circumstances to preserve the Company's REIT status. On or after May 25, 2012, the Company may, at its option, redeem the Series D preferred shares in whole at any time or in part from time to time, by paying \$25 per share, plus any accrued and unpaid dividends up to and including the date of redemption. The Series D preferred shares generally have no stated maturity, will not be subject to any sinking fund or mandatory redemption, and are not convertible into any of the Company's other securities. Owners of the Series D preferred shares generally have no voting rights, except under certain dividend defaults. The net proceeds from this offering were used to redeem the Company's 9.50% Series A preferred shares and to pay down the Company's revolving credit facility.

The Board of Trustees declared cash dividends totaling \$1.8438 per Series D preferred share for each of the years ended December 31, 2009 and 2008.

Of the total dividends calculated for tax purposes, the amounts characterized as ordinary income, return of capital and long-term capital gain for 2009 and 2008 are as follows:

Series E Convertible Preferred Shares

On April 2, 2008, the Company issued 3.5 million 9.00% Series E cumulative convertible preferred shares ("Series E preferred shares") in a registered public offering for net proceeds of approximately \$83.4 million, after expenses. The Company will pay cumulative dividends on the Series E preferred shares from the date of original issuance in the amount of \$2.25 per share each year, which is equivalent to 9.00% of the \$25 liquidation preference per share. Dividends on the Series E preferred shares are payable quarterly in arrears, and began on July 15, 2008 with a pro-rated quarterly payment of \$0.65 per share. The Company does not have the right to redeem the Series E preferred shares except in limited circumstances to preserve the Company's REIT status. The Series E preferred shares have no stated maturity and will not be subject to any sinking fund or mandatory redemption. As of December 31, 2009, the Series E preferred shares are convertible, at the holder's option, into the Company's common shares at a conversion rate of 0.4512 common shares per Series E preferred share, which is equivalent to a conversion price of \$55.41 per common share. This conversion ratio may increase over time upon certain specified triggering events including if the Company's common dividend per share exceeds a quarterly threshold of \$0.84.

Upon the occurrence of certain fundamental changes, the Company will under certain circumstances increase the conversion rate by a number of additional common shares or, in lieu thereof, may in certain circumstances elect to adjust the conversion rate upon the Series E preferred shares becoming convertible into shares of the public acquiring or surviving company.

On or after April 20, 2013, the Company may, at its option, cause the Series E preferred shares to be automatically converted into that number of common shares that are issuable at the then prevailing conversion rate. The Company may exercise its conversion right only if, at certain times, the closing price of the Company's common shares equals or exceeds 150% of the then prevailing conversion price of the Series E preferred shares.

Owners of the Series E preferred shares generally have no voting rights, except under certain dividend defaults. Upon conversion, the Company may choose to deliver the conversion value to the owners in cash, common shares, or a combination of cash and common shares.

ENTERTAINMENT PROPERTIES TRUST
Notes to Consolidated Financial Statements
December 31, 2009, 2008 and 2007

The Board of Trustees declared cash dividends totaling \$2.25 and \$1.775 per Series E preferred share for the years ended December 31, 2009 and 2008, respectively.

Of the total dividends calculated for tax purposes, the amounts characterized as ordinary income, return of capital and long-term capital gain for 2009 and 2008 are as follows:

Cash dividends paid per Series E preferred share for the year ended December 31, 2009:

Share options	-	375	(0.04)
Diluted earnings attributable to Entertainment Properties Trust	\$ 81,251	27,304	\$ 2.98

The dilutive effect of potential common shares from the exercise of share options is included in diluted earnings per share except in those periods with a loss from continuing operations. For the year ended December 31, 2009, there were 113 thousand potential common shares from the exercise of share options that were excluded from the calculation of diluted earnings per share as the effect was anti-dilutive.

The additional 1.9 million common shares that would result from the conversion of the Company's 5.75% Series C cumulative convertible preferred shares and the additional 1.6 million common shares that would result from the conversion of the Company's 9.0% Series E cumulative convertible preferred shares (issued on April 2, 2008) and the corresponding add-back of the preferred dividends declared on those shares are not included in the calculation of diluted earnings per share for the years ended December 31, 2009, 2008 and 2007 because the effect is anti-dilutive.

The Company's nonvested share awards are considered participating securities and are included in the calculation of earnings per share under the two-class method as required by the Earnings Per Share Topic of the FASB ASC. Prior-period earnings per share data was computed using the treasury stock method and has been adjusted retrospectively, which lowered basic and diluted

ENTERTAINMENT PROPERTIES TRUST
Notes to Consolidated Financial Statements
December 31, 2009, 2008 and 2007

earnings per share by \$0.03 and \$0.02, respectively, for the year ended December 31, 2008, and by \$0.02 and \$0.01, respectively, for the year ended December 31, 2007.

During the second quarter of 2009, the Company issued 20,508 restricted share units to its non-employee trustees. The restricted share units are entitled to receive dividend payments from the date of grant and are therefore considered participating securities under the two-class method. As such, the weighted average shares used in the computation of basic earnings per share include the nonvested restricted share units.

15. Equity Incentive Plan

All grants of common shares and options to purchase common shares were issued under the 1997 Share Incentive Plan prior to May 9, 2007, and under the 2007 Equity Incentive Plan on and after May 9, 2007. Under the 2007 Equity Incentive Plan, an aggregate of 1,950,000 common shares, options to purchase common shares and restricted share units, subject to adjustment in the event of certain capital events, may be granted. At December 31, 2009, there were 1,059,818 shares available for grant under the 2007 Equity Incentive Plan.

Share Options

Share options granted under both the 1997 Share Incentive Plan and the 2007 Equity Incentive Plan have exercise prices equal to the fair market value of a common share at the date of grant. The options may be granted for any reasonable term, not to exceed 10 years, and for employees typically become exercisable at a rate of 20% per year over a five-year period, however, this was reduced to a rate of 25% per year over a four year period for options granted in the first quarter of 2009. For non-employee Trustees, share options are vested upon issuance, however, the share options may not be exercised for a one year period subsequent to the grant date. The Company generally issues new common shares upon option exercise. A summary of the Company's share option activity and related information is as follows:

	<u>Number of shares</u>	<u>Option price per share</u>	<u>Weighted avg. exercise price</u>
Outstanding at			
December 31, 2006	981,673	\$ 14.00 - \$ 43.75	\$ 28.33

ENTERTAINMENT PROPERTIES TRUST
Notes to Consolidated Financial Statements
December 31, 2009, 2008 and 2007

The weighted average fair value of options granted was \$2.68, \$4.31 and \$7.91 during 2009, 2008 and 2007, respectively. The intrinsic value of stock options exercised was \$1.9 million during each of the years ended December 31, 2009 and 2008 and \$6.1 million during the year ended December 31, 2007.

At December 31, 2009, stock-option expense to be recognized in future periods was \$1.5 million as follows (in thousands):

Year:	<u>Amount</u>
2010	\$ 621
2011	487
2012	338
2013	17
2014	<u>—</u>

Nonvested Shares

A summary of the Company's nonvested share activity and related information is as follows:

	<u>Number of shares</u>	<u>Weighted avg. grant date fair value</u>	<u>Weighted avg. life remaining</u>
Outstanding at December 31, 2008	282,328	\$ 52.22	
Granted	218,797	18.12	
Vested	(96,309)	50.61	
Forfeited	<u>(5,411)</u>	33.17	
Outstanding at December 31, 2009	<u>399,405</u>	34.19	1.06

The holders of nonvested shares have voting rights and receive dividends from the date of grant. These shares vest ratably over a period of three to five years. The fair value of the nonvested shares that vested was \$2.8 million, \$3.6 million and \$3.5 million for the years ended December 31, 2009, 2008 and 2007, respectively. At December 31, 2009, unamortized share-based compensation expense related to nonvested shares was \$6.1 million and will be recognized in future periods as follows (in thousands):

Year:	<u>Amount</u>
2010	\$ 2,795
2011	2,282
2012	1,000
2013	<u>—</u>
Total	<u>\$ 6,077</u>

Restricted Share Units

A summary of the Company's restricted share unit activity and related information is as follows:

	<u>Number of Shares</u>	<u>Weighted Average Grant Date Fair Value</u>	<u>Weighted Average Life Remaining</u>
Outstanding at December 31, 2008	—	\$ —	
Granted	20,508	19.02	
Vested	<u>—</u>	—	
Outstanding at December 31, 2009	<u>20,508</u>	19.02	0.36

The holders of restricted share units have voting rights and receive dividends from the date of grant. The share units vest upon the earlier of the day preceding the next annual meeting of

ENTERTAINMENT PROPERTIES TRUST
Notes to Consolidated Financial Statements
December 31, 2009, 2008 and 2007

shareholders or a change of control. The settlement date for the shares is selected by the non-employee trustee, and ranges from three years from the grant date to upon termination of service. At December 31, 2009, unamortized share-based compensation expense related to restricted share units was \$130 thousand. There was no unamortized share-based compensation expense related to restricted share units at December 31, 2008 and 2007.

16. Related Party Transactions

In 2000, the Company loaned an aggregate of \$3.5 million to Company executives. The loans were made in order for the executives to purchase common shares of the Company at the market value of the shares on the date of the loan, as well as to repay borrowings on certain amounts previously loaned. The loans are recourse to the executives' assets and bear interest at 6.24%, are due on January 1, 2011 and interest is payable at maturity. During July of 2008, a former executive paid to the Company the \$1.6 million of principal on his loan which reduces the aggregate carrying value of these loans to \$1.9 million (before accrued interest) at December 31, 2008. Interest income from these loans totaled \$315 thousand, \$351 thousand and \$369 thousand for the years ended December 31, 2009, 2008 and 2007, respectively. These loans were issued with terms that include a Loan Forgiveness Program, under which the compensation committee of the Board of Trustees may forgive a portion of the above referenced indebtedness after application of proceeds from the sale of shares, following a change in control of the Company. The compensation committee may also forgive the debt incurred upon termination of employment by reason of death, disability, normal retirement or without cause. These loans can be repaid with cash or with shares of the Company. At December 31, 2009 and 2008, accrued interest receivable on these loans, included in other assets in the accompanying consolidated balance sheets, was \$3.4 million and \$3.1 million, respectively. Subsequent to year-end, the Company's Chief Executive Officer paid \$1.2 million on his loan by delivering 35,000 common shares to the Company.

The Company loaned \$5 million to its New Roc minority joint venture partner in 2003 in connection with the acquisition of its interest in New Roc. During 2007, the Company loaned an additional \$5 million to the same partner. See Note 9 for additional information on this note.

The Company loaned \$10 million to a minority joint venture partner of the White Plains entities in 2007 in connection with the acquisition of its interest in these entities. See Note 9 for additional information on this note.

The Company loaned \$10 million to Mr. Cappelli in 2008. Through his related interests, Mr. Cappelli is the developer and minority interest partner of the Company's New Roc and White Plains entertainment retail centers. See Note 9 for additional information on this note.

In 2008, Donald Brain, the brother of the Company's Chief Executive Officer, acquired a 33.33% interest in the Company's partner in VinREIT, Global Wine Partners (U.S.), LLC (GWP). The Company's Board of Trustees was informed of Donald Brain's acquisition of such interest, and affirmed VinREIT's business relationship with GWP. There was no modification to the operating

ENTERTAINMENT PROPERTIES TRUST
Notes to Consolidated Financial Statements
December 31, 2009, 2008 and 2007

agreement of VinREIT, and future amendments or modifications to the operating agreement or relationship with GWP will require the Board of Trustee's approval.

17. Operating Leases

Most of the Company's rental properties are leased under operating leases with expiration dates ranging from 1 to 24 years. Future minimum rentals on non-cancelable tenant operating leases at December 31, 2009 are as follows (in thousands):

Year:	<u>Amount</u>
2010	\$ 209,711
2011	196,300
2012	185,521
2013	176,661
2014	159,091
Thereafter	<u>1,139,748</u>
Total	<u>\$ 2,067,032</u>

The Company leases its executive office from an unrelated landlord and such lease expired in December 2009. Rental expense for this lease totaled approximately \$363 thousand, \$319 thousand and \$212 thousand for the years ended December 31, 2009, 2008 and 2007, respectively, and is included as a component of general and administrative expense in the accompanying consolidated statements of income. The Company continues to lease its office space on a month-to-month basis.

18. Quarterly Financial Information (unaudited)

Summarized quarterly financial data for the years ended December 31, 2009 and 2008 are as follows (in thousands, except per share data):

	<u>March 31</u>	<u>June 30</u>	<u>September 30</u>	<u>December 31</u>
2009:				
Total revenue	\$ 66,704	66,717	68,122	69,268
Net income (loss)	24,095	25,995	(75,362)	13,366
Net income (loss) available to common shareholders of Entertainment Properties Trust	17,777	20,152	(66,843)	6,715
Basic net income (loss) per common share	0.52	0.58	(1.89)	0.17
Diluted net income (loss) per common share	0.52	0.58	(1.89)	0.17

ENTERTAINMENT PROPERTIES TRUST
Notes to Consolidated Financial Statements
December 31, 2009, 2008 and 2007

	<u>March 31</u>	<u>June 30</u>	<u>September 30</u>	<u>December 31</u>
2008:				
Total revenue	\$ 65,859	68,755	74,967	76,559
Net income	26,615	30,933	35,570	34,505
Net income available to common shareholders of Entertainment Properties Trust	21,511	23,859	28,506	27,834
Basic net income per per common share	0.76	0.78	0.89	0.85
Diluted net income per common share	0.76	0.77	0.88	0.84

All periods have been adjusted to reflect the impact of the operating properties sold during 2008 and 2007, which are reflected as discontinued operations on the accompanying consolidated statements of income for the years ended December 31, 2008 and 2007.

Certain reclassifications have been made to the prior period amounts to conform to the current period presentation. As discussed in Note 14, prior period earnings per share amounts have been adjusted retrospectively due to the adoption two-class method as required by the Earnings Per Share Topic of the FASB ASC.

19. Discontinued Operations

Included in discontinued operations for the years ended December 31, 2008 and 2007 is a land parcel sold in June of 2008 for \$1.1 million. The land parcel was previously leased under a ground lease. Additionally, included in discontinued operations for the year ended December 31, 2007 is a parcel including two leased properties sold in June of 2007 for \$7.7 million, aggregating 107 thousand square feet.

The operating results relating to assets sold are as follows (in thousands):

	<u>Year ended December 31,</u>	
	<u>2008</u>	<u>2007</u>
Rental revenue	\$ -	\$ 262
Tenant reimbursements	-	76
Other income	-	700

Property operating expense	26	141
Depreciation and amortization	-	58
Income before gain on sale of real estate	(26)	839
Gain on sale of real estate	119	3,240
Net income	<u>\$ 93</u>	<u>\$ 4,079</u>

ENTERTAINMENT PROPERTIES TRUST
Notes to Consolidated Financial Statements
December 31, 2009, 2008 and 2007

20. Other Commitments and Contingencies

The Company has agreed to finance \$9.6 million in development costs for expansion at three of its existing public charter school properties. Development costs are advanced by the Company in periodic draws. If the Company determines that construction is not being completed in accordance with the terms of the development agreement, the Company can discontinue funding construction draws. The Company has agreed to lease the expansion facility to the operator at pre-determined rates.

The Company has provided a guarantee of the payment of certain economic development revenue bonds related to three theatres in Louisiana for which the Company earns a fee at an annual rate of 1.75% over the 30 year term of the bond. The Company evaluated this guarantee in connection with the provisions of the FASB ASC Topic 450 on Guarantees (Topic 450). Based on certain criteria, Topic 450 requires a guarantor to record an asset and a liability at inception. Accordingly, the Company had recorded \$4.0 million as a deferred asset included in accounts receivable and \$4.0 million included in other liabilities in the accompanying consolidated balance sheet as of December 31, 2008, which represented management's estimate of the fair value of the guarantee at inception which will be realized over the term of the guarantee. During the third quarter of 2009, the outstanding principal amount of the bonds was reduced from \$22 million to \$14.4 million due to a principal repayment. Accordingly, the Company reduced the asset and liability recorded to reflect the decrease in the outstanding principal balance. The Company has recorded \$2.6 million as a deferred asset included in accounts receivable and \$2.6 million included in other liabilities in the accompanying consolidated balance sheet as of December 31, 2009. No amounts have been accrued as a loss contingency related to this guarantee because payment by the Company is not probable.

The Company has certain commitments related to its mortgage note investments that it may be required to fund in the future. The Company is generally obligated to fund these commitments at the request of the borrower or upon the occurrence of events outside of its direct control. As of December 31, 2009, the Company had four mortgage notes receivable with commitments totaling approximately \$20 million. If commitments are funded in the future, interest will be charged at rates consistent with the existing investments.

As discussed in Note 5, the Company could become the owner of the Toronto Dundas Square Project as a result of the receivership process. On January 8, 2010, the Company signed a purchase agreement to acquire this center in early 2010; however, the purchase of this center is subject to various conditions. As a result, the Company can offer no assurance that this transaction will be completed. The Company has finalized the terms of a credit facility with a group of banks to provide \$100 million Canadian first mortgage financing that is expected to close in conjunction with the purchase. The Company expects to consolidate the financial results of the property subsequent to the purchase.

ENTERTAINMENT PROPERTIES TRUST
Notes to Consolidated Financial Statements
December 31, 2009, 2008 and 2007

21. Subsequent Events

On January 22, 2010, the Company acquired five public charter school properties from Imagine Schools, Inc. and funded one expansion for an existing public charter school property for a purchase price of \$44.1 million. The properties are leased under a long-term triple-net master lease that is classified as a direct financing lease. The five properties are located in Florida, Indiana and Ohio. As a part of this transaction, the Company has agreed to finance \$4.4 million in development costs for an expansion at two of its existing public charter school properties.

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure

None

Item 9A. Controls and Procedures

As of the end of the period covered by this report, we carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures, as such term is defined in Rules 13a-15(e) and 15d-15(e) of the Exchange Act. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that as of the end of the period covered by this report our disclosure controls and procedures were effective to ensure that information required to be disclosed by us in reports we file or submit under the Exchange Act is (1) recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms, and (2) accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure.

Our disclosure controls were designed to provide reasonable assurance that the controls and procedures would meet their objectives. Our management, including the Chief Executive Officer and Chief Financial Officer, does not expect that our disclosure controls will prevent all errors and fraud. A control system, no matter how well designed and operated, can provide only reasonable assurance of achieving the designed control objectives and management is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty, and that breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusions of two or more people, or by management override of the control. Because of the inherent limitations in a cost-effective, maturing control system, misstatements due to error or fraud may occur and not be detected.

There have not been any changes in the Company's internal control over financial reporting (as defined in Rule 13a-15(f) and 15d-15(f) under the Exchange Act) during the fourth quarter of the fiscal year to which this report relates that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Management's Report on Internal Control Over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Rules 13a-15(f) and 15d-15(f) of the Exchange Act. Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we conducted an evaluation of the effectiveness of our internal control over financial reporting based on the framework in *Internal Control – Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on our evaluation under the framework in *Internal Control - Integrated Framework*, our management concluded that our internal control over financial reporting was effective as of December 31, 2009. KPMG, LLP, the independent registered public accounting

firm that audited the consolidated financial statements included in this Annual Report on Form 10-K, has issued an attestation report on our internal control over financial reporting.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements, errors or fraud. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of or compliance with the policies or procedures may deteriorate.

Report of Independent Registered Public Accounting Firm

The Board of Trustees and Shareholders
Entertainment Properties Trust:

We have audited Entertainment Properties Trust's (the Company) internal control over financial reporting as of December 31, 2009, based on criteria established in *Internal Control – Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audit also included performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2009, based on criteria established in *Internal Control –*

Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of the Company as of December 31, 2009 and 2008, and the related consolidated statements of income, equity and comprehensive income, and cash flows for each of the years in the three-year period ended December 31, 2009, and our report dated February 26, 2010 expressed an unqualified opinion on those consolidated financial statements.

KPMG LLP

Kansas City, Missouri

Item 9B. Other Information

None.

PART III

Item 10. Directors, Executive Officers and Corporate Governance

The Company's definitive Proxy Statement for its Annual Meeting of Shareholders to be held on May 12, 2010 (the "Proxy Statement"), contains under the captions "Election of Trustees", "Company Governance", "Executive Officers", and "Section 16(a) Beneficial Ownership Reporting Compliance" the information required by Item 10 of this Annual Report on Form 10-K, which information is incorporated herein by this reference.

We have adopted a Code of Business Conduct and Ethics that applies to our Chief Executive Officer, Chief Financial Officer, and all other officers, employees and trustees. The Code of Business Conduct and Ethics may be viewed on our website at www.cprkc.com.

Item 11. Executive Compensation

The Proxy Statement contains under the captions "Election of Trustees", "Executive Compensation", and "Compensation Committee Report", the information required by Item 11 of this Annual Report on Form 10-K, which information is incorporated herein by this reference.

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters

The Proxy Statement contains under the captions "Share Ownership" and "Equity Compensation Plan Information" the information required by Item 12 of this Annual Report on Form 10-K, which information is incorporated herein by this reference.

Item 13. Certain Relationships and Related Transactions, and Director Independence

The Proxy Statement contains under the caption “Transactions Between the Company and Trustees, Officers or their Affiliates” the information required by Item 13 of this Annual Report on Form 10-K, which information is incorporated herein by this reference.

Item 14. Principal Accounting Fees and Services

The Proxy Statement contains under the caption “Ratification of Appointment of Independent Registered Public Accounting Firm” the information required by Item 14 of this Annual Report on Form 10-K, which information is incorporated herein by this reference.

PART IV

Item 15. Exhibits and Financial Statement Schedules

(1) *Financial Statements:*

Report of Independent Registered Public Accounting Firm
Consolidated Balance Sheets as of December 31, 2009 and 2008
Consolidated Statements of Income for the years ended December 31, 2009, 2008 and 2007
Consolidated Statements of Changes in Equity for the years ended December 31, 2009, 2008 and 2007
Consolidated Statements of Comprehensive Income for the years ended December 31, 2009, 2008 and 2007
Consolidated Statements of Cash Flows for the years ended December 31, 2009, 2008, and 2007.
Notes to Consolidated Financial Statements

(2) *Financial Statement Schedules:*

Schedule II – Valuation and Qualifying Accounts
Schedule III – Real Estate and Accumulated Depreciation

(3) *Exhibits*

The exhibits listed in the Exhibit Index immediately preceding the exhibits are filed as part of this Annual Report on Form 10-K or incorporated by reference as indicated below.
