Employee Benefits

Traditions Resort and Casino is committed to a comprehensive employee benefit program that helps our employees stay healthy, feel secure and maintain a work/life balance. All full-time Team Members are automatically enrolled in a company-paid life insurance benefit and short term and long term disability coverage. In addition, full-time Team Members are eligible for additional benefits, including medical, dental, vision, flexible spending, supplemental life insurance, 401k retirement plan and paid time off (vacation, sick leave and personal time).

Traditions Resort & Casino will make every effort to hire local as possible. Exhibit VIII.7.a. shows the anticipated number of employees, job classification, pay rates, benefits and positions filled by residents of the State, Region and Host Municipality.

The basis for the projections provided in the models are derived from current employment statistics in Broome County and the experience of the three properties current owned and operated by SGC.

Seneca Gaming Facility	Total positions	NYS %	Region %	Municipality %
Allegany, NY	1002	87%	75%	75% (A)
Buffalo, NY	468	99%	94%	44%
Niagara Falls, NY	2056	98%	97%	48%

(A) Note-given the Allegany, NY Gaming Facility is situated in a rural geographic area; the municipality % reflected above includes Cattaraugus and Salamanca NY.

Traditions Resort & Casino will hire approximately 90% of their employees from New York State. Based on Gaming & Leisure Advisors LLC experience with their casinos in western New York along with the local unemployment rate, this is a reasonable projection. It is also anticipated that almost 35% of the employees will come from the host municipality at the commencement of operations. The number of employees living in the local municipality is anticipated to rise to approximately 75% after a couple years of operation. The influx of workers to the area will help rejuvenate the local housing market along with increase spending at local businesses.

Traditions Resort & Casino is very fortunate to be surrounded by a community of over 200,000 people. This allows for hiring from within the local community and putting the local unemployment pool to work. These new jobs will be a big driver in local economic development outside of the casino property.
