

VIII. ECONOMIC ACTIVITY AND BUSINESS DEVELOPMENT

C. LAND, CONSTRUCTION AND DESIGN OF PHYSICAL PLANT

8. MEETING AND CONVENTION FACILITIES

Submit as Exhibit VIII. C.8.a. a description of any proposed meeting and convention spaces, including attached back of house and catering facilities, by square footage and approximate participant capacity of each space.

First Class Conference and Meeting facilities are presented as a flexible, interactive relationship between the large Live! Entertainment Venue and adjacent flexible Board and Meeting Rooms. The Event Center transforms into an exhibition space by retracting the seating on the flat floor at the first level. Nearly 25,000 square feet of flat floor would be created for exhibition or corporate uses, with a capacity of approximately 1,660 guests. Adjacent to this convention space is a Pre-function area of approximately 12,000 square feet.

At the Casino level, there are two, 2,200 square foot Meeting Rooms that are divisible into 4 smaller rooms. Supported by a 3,750 square foot Pre-function space, the combined capacity of these Meeting Rooms is approximately 295 guests. All spaces will incorporate state of the art lighting, AV systems, and sophisticated technology capability.

All of these spaces are supported back of house facilities shared with the Live! Entertainment Venue, as well as directly connected to the general Casino-Hotel BOH services, which includes a full service banquet kitchen.
