§ 4002.1. Occupational licenses.

(a) No person shall participate in the affairs of any association or corporation licensed or franchised by the commission or franchise oversight board to conduct thoroughbred race meetings at which pari-mutuel betting is permitted as director, agent, or employee of such track, unless such person shall have received an occupational license from the commission.

(b) No person shall participate in or at any thoroughbred race meet as a managing owner, racing owner, trainer, assistant trainer, jockey, apprentice jockey, jockey agent,

veterinarian, farrier, stable employee, track supplier, equipment supplier, salesman, or agent or be the holder or operator of any concession, or perform any service, including but not limited to the conduct of negotiations on behalf of any person or persons who engage in any racing activities or perform any services in connection with the conduct of any thoroughbred race meet, or engage in any occupation or employment at any thoroughbred race meet unless such person shall have received an occupational license from the commission, with the following exceptions:

(1) public officers and public employees engaged in the performance of their official duties; and

(2) persons exempted by the commission from the occupational license requirement.

(c) Every such license shall provide that the license shall comply with this Subchapter and that violation thereof may be punished by suspension or revocation of such license. Such licenses shall be issued only to natural persons.

(d) It shall be the responsibility of each track to prevent any person not holding an occupational license from doing or performing any act or acts at its track.

(e) An application for an occupational license shall be made upon a form supplied by the commission and shall be executed in the manner prescribed by the commission. The commission may issue instructions as to the preparation and execution of applications for occupational licenses, which instructions may be a part of or separate from the application form. Failure to comply with any such instructions shall be grounds for denial, suspension or revocation of an occupational license. When so instructed by the commission, the applicant shall file with the application fingerprints and photographs in requisite number. The fingerprints so obtained shall be transmitted by the commission to the New York State Identification and Intelligence System, the Federal Bureau of Investigation Identification Division, and any other government agency of any state or country selected by the commission, for the purpose of establishing identity and previous criminal record, if any, of the applicant.

(f) Should a licensee lose a license or should a license in some manner be destroyed, such licensee may apply for a duplicate license by filing an affidavit on a form supplied by the commission and the payment of a fee of \$5.

(g) Each applicant for an occupational license shall pay an annual license fee at the time of the filing of the application. The license fees are: original owner—\$100; owner renewal, jockey—\$50; trainer, assistant trainer, veterinarian—\$30; jockey agent, farrier, track management—\$20; mutuel—\$10; stable employees (grooms, etc.) cleaning and food service workers, exercise rider, authorized agent—\$5; all others—\$10. Such fees shall be multiplied by two for two-year terms and by three for three-year terms.

(h) It shall be the responsibility of the trainer to determine that every person employed by the trainer at a track and every assistant trainer, groom, clerk, assistant or other

person working regularly in the trainer's stable at a track is licensed by the commission. It shall be the responsibility of the trainer to refuse to represent any participant at a licensed track under circumstances in which the trainer, by the exercise or reasonable discretion, has reason to believe that said participant has not been licensed by the commission and to report said circumstances to the track steward.

(i) No unlicensed person shall enter or be present in the stable area, paddock, racing strip, infield, or mutuel area of a track without permission from the commission and each track shall use all practicable measures to enforce the above restrictions.

(j) Upon the commission's request, an applicant for an occupational license or a licensee shall furnish to the commission records or information pertaining to such person's service in the Armed Forces, treatment for any physical or mental condition, including confinement in any institution, past or present financial condition, past or present employment and any other information or records that may be deemed necessary by the commission. Failure to furnish such records and information if available, and if not available to cooperate with and assist the commission in obtaining such records and information, shall be grounds for denial, suspension, or revocation or fine by the commission.

(k) Before the commission issues or reinstates an occupational license, it may require as a condition for issuing or reinstating such license, that the person involved produce proof:

(1) that if such person is to be employed, that such person's proposed employer intends to so employ such person upon issuance or reinstatement of the license; or

(2) that if such person is to be otherwise engaged in thoroughbred racing that such person is able, financially or otherwise, to so participate upon licensing.

§ 4002.2. Unlicensed activity forbidden

No person requiring a license from the commission shall carry on any activity whatsoever upon the premises of a licensed racing association unless and until the person has been so duly licensed, except that any such person with the consent of the steward of the commission may so act pending action on such person's application duly filed.

§ 4002.3. Stable employee defined.

The term *stable employee* shall be deemed to include an authorized agent, subagent, stable manager and any other employee of a licensed owner associated with such owner's racing activities, except as otherwise in sections 4002.1 through 4002.3 of this Part.

§ 4002.4. [Repealed]

§ 4002.5. Application for license—form.

The application for the license shall be in writing in such form as the commission may prescribe and contain such information as the commission may require. Such application shall be duly sworn to before a notary public or commissioner of deeds who shall affix his or her seal. Such application shall be accompanied by the amount of the license fee therefore in such form as may be acceptable to the commission.

§ 4002.6. Application for license—procedure.

(a) Applications for such licenses shall be received by the commission on and after January 2 in each year at the principal office of the commission in Schenectady, New York, or by personal delivery at the commission's branch office at the race course at which a meeting is being conducted at the time.

(b) All applications shall be referred to the Bureau of Licensing of the commission, and no license shall be issued until after approval thereof by the commission.

(c) No license shall be delivered to the applicant unless substantial evidence is first presented to the commission that the applicant will participate in racing in New York during the season.

§ 4002.7. Term of license.

Each such license, unless revoked for cause, shall be for the period of no more than one, two or three years, expiring on the applicant's birth date. An applicant who applies for a license that if issued would take effect less than six months prior to the applicant's birth date may, by payment of a 50 percent higher fee, receive a license that shall not expire until the applicant's second succeeding birth date. A renewal license for owner, trainer, assistant trainer, jockey, jockey agent, racing official, mutuel employee, maintenance employee of the NYRA, veterinarian, farrier, track management or track security employee shall be for three years unless an individual establishes good cause for a shorter term or the commission, in the commission's discretion, determines a shorter term.

§ 4002.8. Qualifications for license.

(a) If the commission finds that the financial responsibility, experience, character and general fitness of the applicant are such that the participation of such person will be consistent with the public interest, convenience or necessity and with the best interests of racing generally in conformity with the purposes of the law, the commission shall grant a license. In this connection, the commission may establish criteria to be met concerning specific license occupations as a condition for licensing. If the commission finds that the applicant fails to meet any of said conditions, the commission shall not grant such license and the commission shall notify the applicant of the denial.

(b) In order to maintain a current license, trainers and assistant trainers must complete at least four hours per calendar year of continuing education courses approved by the commission. Trainers and assistant trainers who are not domiciled in New York and have 12 or fewer starts during the previous 12 months may request a waiver of this requirement from the State steward.

§ 4002.9. Grounds for refusal, suspension, revocation.

(a) The commission may refuse to issue or renew a license, or may suspend or revoke a license if it shall find that the applicant or any person who is a partner, agent, employee or associate of the applicant has been convicted of a crime in any jurisdiction, or is or has been associating or consorting with any person who has or persons who have been convicted of a crime or crimes in any jurisdiction or jurisdictions, or is consorting or associating with or has consorted or associated with bookmakers, touts or persons of similar pursuits, or has himself engaged in similar pursuits, or is financially irresponsible, or has been guilty of or attempted any fraud or misrepresentation in connection with racing, breeding or otherwise, or has violated or attempted to violate any law with respect to racing in any jurisdiction or any rule, regulation or order of the commission, or shall have violated any rule of racing that shall have been approved or adopted by the commission, or has been guilty of or engaged in similar, related or like practices. Furthermore, the commission may refuse to issue or renew a license, or may suspend or revoke a license if, in the opinion of the commission, the refusal to issue or renew a license or the suspension or revocation of a license is necessary to protect the public health, safety or welfare.

(b) The stockholders, members or beneficiaries of any lessor corporation, syndicate, partnership, estate, trust or other legal entity that leases horses or designates a managing owner, for racing purposes in the State of New York, as well as such entity, shall make and file with the commission as and when requested by the commission, a report or reports under oath containing such information as the commission may specify. Upon refusal or failure to file any such report or reports, the commission may disqualify any horses in which such entity has a property interest from racing or may refuse a license to any lessee or designee of such corporation, syndicate, partnership or other entity or may revoke any such license that it may have granted.

(c) In addition to the commission's powers to suspend or revoke a license or as an alternative to the exercise of any such powers, the commission may impose such civil penalty as may be prescribed by law.

§ 4002.10. Procedure for revocation.

No license shall be revoked unless such revocation is at a meeting of the commission on notice to the licensee, who shall be entitled to a hearing in respect of such revocation. In the conduct of such hearing the commission shall not be bound by technical rules of evidence but all evidence offered before the commission shall be reduced to writing, and such evidence together with the exhibits, if any, and the findings

of the commission shall be permanently preserved and shall constitute the record of the commission in such case. The action of the commission in refusing, suspending or in revoking a license shall be reviewable in the Supreme Court in the manner provided by and subject to the provisions of article 78 of the Civil Practice Law and Rules.

§ 4002.11. Refund of fees.

Within one year from the date of payment and upon the audit of the State Comptroller, the Department of State may refund any fee paid pursuant to this Part for which no license is issued, or refund that portion of the payment that is in excess of the amount prescribed by this Part.

§ 4002.12. Jockeys—minimum age.

No jockey license shall be granted to anyone less than 16 years of age.

§ 4002.13. Ownership affidavit required.

An owner to be eligible for a license may be required to submit an affidavit as to his or her ownership or lease of all horses in his or her possession in such form as the commission may require.

§ 4002.14. Certain disqualifications.

(a) No person shall be eligible for an owner's or trainer's license if, during the term of such license, he or she would practice as farrier or veterinarian with horses racing under the jurisdiction of the commission; provided, however, that a duly licensed owner may personally shoe a horse owned by him or her upon applying for and receiving a certificate of fitness therefore from the commission.

(b) Disqualification of a licensee from having a license applies equally to the licensee's spouse, unless the spouse of the disqualified person shows to the satisfaction of the commission that ownership and racing of his or her horses are independent of or not under the control or influence of the disqualified spouse.

§ 4002.15. Amateur jockey to be licensed.

An amateur wishing to ride in races on even terms with jockeys must obtain a jockey license from the commission.

§ 4002.16. Emergency permit.

In an emergency, the steward of the commission may permit owners, trainers, assistant trainers and jockeys to start, train or ride pending action on their applications.

§ 4002.17. Riding without license.

Persons never having ridden in a race may be allowed to ride twice before applying for a license, if approved by the steward of the commission; but licenses shall not be granted to persons who have never ridden in a race.

§ 4002.18. Ineligibles not to be employed.

All persons holding or applying for occupational licenses are forbidden to employ, in any capacity in or in connection with their licensed occupations, any person determined or adjudged by the commission to be ineligible for an occupational license.

§ 4002.19. Financial responsibility.

Any participant who shall accumulate unpaid obligations, default in obligations, issue drafts or checks that are dishonored or payment refused, or otherwise display financial irresponsibility reflecting on his or her experience, character or general fitness, shall be subject to refusal, suspension or revocation of license.

§ 4002.20. Badge identification system.

All licenses and participants shall comply with the requirements of section 4003.50(b) of this Title and shall be subject to the provisions of section 4003.50(h) of this Title for failure to so comply.

§ 4002.21. License requirements for assistant trainer.

(b) The commission may waive such testing requirements if the applicant has been licensed as an assistant trainer in another jurisdiction for at least one year and otherwise satisfies the commission as to experience and competence.

§ 4002.22. License qualifications for trainer.

In addition to the qualifications set forth in section 4002.8 of this Part, an initial trainer's license may only be issued to an applicant who:

In addition to the qualifications set forth in section 4002.8 of this Part, an initial private trainer's license may be issued to an applicant that will allow the applicant to act as trainer only for horses in which the applicant holds an ownership or lease interest exceeding 50 percent if the applicant:

(a) has been licensed as an owner in this or another jurisdiction for at least one year;

(b) can show three years of concentrated experience in the care and training of thoroughbred race horses; and

(c) passes the written and practical tests given for assistant trainer.

§ 4002.24. License requirements for jockey's agent.

(1) All amounts withheld by the track on and after such 30-day written notice to the commission, as well as all monies paid over to the track by off-track betting corporations from additional withholding mandated upon such corporations pursuant to section 527 of such law, shall be deposited in a segregated interest-bearing account designated "Retention for Capital Construction" account. A track may withdraw monies from such account for the purposes of investment in segregated certificates of deposit or government securities, provided that the entire proceeds of such investments, including interest or dividends, are redeposited in such account within two years of such withdrawal.

(2) Within 30 days of the enactment of this rule (or if a track shall hereafter make such election, then with its notice of election to the commission), and annually

thereafter, with its license application, each such electing track shall furnish the board with a complete description of all capital improvements that it plans to make, together with the estimated cost thereof, the estimated inception and completion date, and how such capital improvement will be acquired or accomplished. (4) No monies may be withdrawn from such account except for investments permitted pursuant to subdivision (c) of this section, or in payment for capital improvements for which a permit has been issued by the commission.

(5) Within 30 days of the end of the calendar year, such track shall submit a report to the commission, showing the balance of the account at the beginning of the year, the total added and the total withdrawn during the year, and the balance at the end of the year listing each bank account and investment. The report shall also describe the progress of planned capital construction, together with an itemized list of the withdrawals from the “Retention for Capital Construction” account, the payees of such withdrawals, and copies of all billings and vouchers supporting such withdrawals.

improvements as defined in section 237 of such law (and section 4003.11 of this Part), repairs to the physical plant, structures and equipment used in racing or wagering operations and costs connected with up to five special events approved by the commission as defined in section 236.

(b) In this connection, each racing association, other than a nonprofit racing association shall by January 31 of the current year file with the commission schedules of expenditures made during the preceding calendar year segregated by expenditures for capital improvements, eligible repairs and special events. Copies of bills, invoices and other supporting documentation providing details of such expenditures shall be retained by the track for audit by the commission.

(c) To qualify as eligible repairs, expenditures must be for work or materials necessary to put inoperative assets back into good operating condition; in addition, the replacement of parts, the fixing of plant, overhaul of equipment, and similar work that ordinarily would not qualify as capital expenditures because the life of the asset is not thereby extended shall nevertheless qualify as eligible repairs. Maintenance expenditures, incurred for the purpose of keeping assets in operating condition are excluded.

(d) In determining whether the necessary amounts have been expended, the commission shall consider the preceding calendar year or the average of the two preceding calendar years, whichever is higher. It shall be presumed that only expenditures submitted in the form required in subdivision (b) of this section are expenditures qualified for consideration by the commission.

(e) If the commission determines that such racing association or corporation has failed to make the total of expenditures as established by statute, the commission shall notify the affected association or corporation of the commission's determination by February 20 of the current year and schedule a date within 15 days to hear the association or corporation in regard to the commission's determination.

(b) At race meetings where the totalisator machine is operated, if any additional method of calculation is used or undertaken, full records thereof shall be furnished to the commission and the State Tax Commission.

§ 4009.19. The field.

The composition of the field shall be selected by the racing secretary prior to program time.

§ 4009.20. Refund—horse excused.

(a) At a track without totalisator capability to record wagers selecting a coupled entry (or field) and wagers selecting any individual constituent horse therein (merging such wagers for odds display and payoff purposes):

(1) If a horse is excused from racing for any reason whatsoever after the betting for such race has begun, the money bet on that horse shall be refunded. When the horse is part of an entry or the field, all betting upon such entry or field shall cease and all money wagered upon such entry or field shall be refunded. Notwithstanding the termination of such betting, the horse or horses in such coupled entry or field that have not been scratched shall start in the race as nonbetting interests for the purse and the finish of such horses in the race shall be disregarded for pari-mutuel purposes. The circumstances shall be announced over the public address system at the time such action is taken and thereafter as may be necessary to inform the public adequately.

(2) At a track equipped with a totalisator system with the capability to cancel and refund tickets prior to the running of a race, the time that “betting has begun” on a horse in an entry or the field shall be the time that win odds are first displayed on the track’s infield tote board on the race in which such horse is to compete (or when the probable payoff prices are posted on the first race of a multiple race pool of which such horse’s race forms a part) and if a horse is scratched after such time the provisions of subdivision (a) of this section shall govern. If a horse is scratched before such time and if tickets have been sold upon an affected entry or field prior to such time the tickets shall not be refunded unless the holders thereof present them for cancellation prior to the start of the race (or the first race of a multiple pool). Tickets not presented for cancellation by such time shall be considered as wagers upon the remaining horses in such entry or field.

(b) At a track with totalisator capability to record wagers selecting a coupled entry (or field) and wagers selecting any individual constituent horse therein (merging such wagers for odds display and payoff purposes):

(1) If a constituent horse in an entry or field is scratched or declared a nonstarter, all wagers upon such constituent horse will be refunded, but wagers selecting such entry or field and wagers on the remaining constituent horses in the entry or field shall continue and be merged for odds display and payoff purposes.

(2) If all constituent horses in an entry or field are scratched and declared non-starters, then all wagers on such entry or field and all wagers on such constituent horses will be refunded.

§ 4009.21. Refund—non-starter.

Every horse shall be considered a starter when the stall gates open on the signal of the starter, unless the stewards declare a horse or horses non-starters because, in their opinion, the horses' chances were compromised leaving the starting gate. If so, all bets on the non-starters will be refunded unless the horse wins. For placing and program purposes, the non-starters will be considered to have run for purse only. If it be determined by the stewards that a horse is declared a non-starter, the money bet on the horse shall be refunded; if such horse is part of an entry or field, such circumstances shall be treated as a scratch for wagering as provided in section 4009.20 of this Part, notwithstanding the placing of any remaining part of the entry or field.

§ 4009.22. Pools dependent on entries.

In all races except sweepstakes with five or more separate entries that start, a racing association shall provide win, place and show pools. In all races with four separate entries that start, a racing association shall provide win and place pools and at such racing association's option may conduct a show pool. In races of three separate entries, a racing association shall provide a win pool and, at such racing association's option may conduct a place pool. For two separate entries that start, a racing association shall provide only a win pool. Pari-mutuel tickets shall be sold accordingly; provided, however, that in sweepstakes with fewer than four separate entries that start, a racing association may, at such racing association's option, provide that there shall be no betting, and in such cases an additional race with betting shall be added to the program, if feasible.

§ 4009.23. Refund only on presentation.

No refunds of money paid for pari-mutuel tickets to be made as directed by this Subchapter shall be made except upon the presentation and surrender of the tickets.

§ 4009.24. Announcing payoff error.

If an error is made in posting payoff figures on the public board, prior to the cashing of any pari-mutuel tickets affected by such error, it shall be corrected promptly and a statement explaining the facts made over the public address system.

§ 4009.25. Adjustment of underpayments caused by error.

(a) In the event of an error in calculations of payoff prices that result in underpayments to the public, the aggregate of such underpayments shall be paid into the corresponding pool of the next race or races in such amounts as may be determined by the steward of the commission and a designated representative of the association conducting the meeting.

(b) If any such error should occur in computing any wagering pools, the underpayment shall be added to the corresponding pool of the following day.

(c) Immediately upon the discovery of such an error, the manager of the mutuel department shall furnish a detailed statement of the matter to the commission and the State Department of Taxation and Finance.

§ 4009.26. Shortages.

A track may deduct from the wages of a pari-mutuel employee monies owed as a result of such employee's going short on any particular racing day. The term *short* as used in this section shall mean any loss to the racing association arising from amounts missing from funds in the possession, custody or control or under the supervision of any pari-mutuel employee or employees in the course of the performance of his, her or their duties in the mutuel department of the racing association.

PART 4010

Pool Calculations

- Section
- 4010.1 Pools—Calculation and distribution
- 4010.2–4010.5 [Reserved]
- 4010.6 Parlay betting

§ 4010.1. Pools—calculation and distribution.

The pari-mutuel pools shall be calculated and distributed as follows:

(a) Win, place, show or daily double wagers form separate wagering pools with payoffs calculated independently of each other.

(b) From each pool there shall be deducted the statutory percentage and the breaks, the remainder being the net pool for distribution.

(c) *Win pool.*

(1) The net pool divided by the amount wagered on the horse finishing first determines the payoff per dollar, including profit and wager.

(2) When two horses finish first in a dead heat, the money in the win pool is divided the same as in a place pool calculation.

(d) *Place pool.*

(1) The amounts wagered on horses finishing first and second are deducted from the net pool to determine the profit. This profit is divided in half, and the halves, in turn, divided by the two amounts mentioned above. This determines the profit per dollar, to which is added the wager.

(2) When two horses finish second in a dead heat, one half of the profit is allocated to the tickets representing wagers on the horse finishing first, and the remaining half is allocated equally to the wagers on horses finishing in the dead heat for second.

(3) When two horses in the field or coupled as an entry run first and second, the place pool shall be distributed the same as in a win pool.

(e) *Show pool.*

(1) The amounts wagered on the horses finishing first, second and third are deducted from the net pool to determine the profit. This profit is divided into three equal parts, and each part, in turn, divided by the three amounts mentioned above. This determines the profit per dollar, to which is added the wager.

(2) When two horses finish third in a dead heat, one-third of the profit is allocated to the tickets representing wagers on the horse finishing first, one-third to the wagers on the horse finishing second and the remaining third equally to the wagers on the horses finishing in the dead heat for third.

(3) When two horses in the field or coupled as an entry finish first or second, first and third or second and third, two thirds of the profit is allocated to the tickets representing wagers on the field of entry, and the remaining one-third to the wagers on the other next best placed horse.

(4) When three horses in the field or coupled as an entry run first, second and third, the place and show pools shall be distributed the same as a win pool.

(f) When only two horses finish, the show pool, if any, shall be distributed the same as in a place pool.

(g) When only one horse finishes, the place and show pools, if any, shall be distributed the same as in a win pool.

(h) In any race in which no horse finishes, all money wagered on the race shall be refunded upon presentation and surrender of pari-mutuel tickets sold thereon.

(i) Payment where no wagering on a horse in the win, place or show pools:

(1) In the event that there is no money wagered to win on a horse that has finished first, the pool will be refunded.

(2) In the event that there is no money wagered to place on a horse that has finished first or second, the net pool will be distributed to wagers on the horse upon which money was wagered to place and which did so finish; if none, the pool will be refunded.

(3) In the event that there is no money wagered to show on a horse that has finished first, second or third, the net pool will be distributed to wagers on the horses upon which money was wagered to show and that did so finish, as in a place pool; if only one, to wagers upon such horse as in a win pool; if none, the pool will be refunded. Should these circumstances be foreseeable when a pool is closed, an immediate announcement shall be made to hold all tickets because all combinations are not covered.

§ 4010.2–4010.5. [Reserved]

§ 4010.6. Parlay betting.

(a) When consistent with the public interest and the best interests of racing generally, with permission of the commission, the track operator may offer parlay betting as a service to the betting public.

(b) The parlay is not a pari-mutuel pool, but is a series of bets combining betting entries in win, place, show or proposition pools in each of two or more separate races in chronological order. The initial amount bet constitutes the bet on the first betting entry in the first parlay race (leg); if successful, the payoff from winning the first leg (to the lowest penny) is then bet on the betting entry designated in the second leg; if again successful, and if the parlay continues, the payoff from winning the second leg is then bet (to the lowest penny) in the third leg; etc.

(c) A parlay bet may combine any of the races on the program and must combine at least two and not over eight races. Bets are limited to win, place, show or proposition pool types for which a corresponding pool is conducted on the race selected. The races in a parlay must be chronological but need not be consecutive nor combine the same type pool. The parlay shall be designated on one pari-mutuel ticket which may also evidence other parlay bets combining the same races. A parlay bet ticket must contain all win, place or show bets without any proposition bets or all proposition bets without any win, place or show bets.

(d) A parlay bet may not combine bets in the same race or earlier races (so-called reverse bets) nor on races on other programs.

(e) While payoffs inserted as bets in subsequent races are broken to the lowest penny (unlike regular payoffs), payoffs to the parlay bettor shall be broken to the lowest dime. Resulting parlay breakage shall be reported separately and added to regular breakage at the end of the program for the purpose of taxation and distribution.

(f) Parlay payoffs will be so inserted as bets in subsequent pools by the track operator that the amount of such bets, including their effect on the betting odds, will be displayed as soon as possible after the initial change of the morning line display. (Bet totals in such pools shall be displayed in truncated fashion, to the lowest dollar.)

(g) If any taxing authority requires the withholding of any portion of a winning parlay payoff prior to the completion of all bets in the parlay, such parlay shall thereupon terminate at such point and be payable to the ticket holder without further completion, selections in future races being voided. Such consequence shall be publicly announced and prominently displayed by the track operator who shall inform the public by explanation and examples of the operation of this subdivision before the start of the racing program.

(h) Parlay wagers may be cancelled by the ticket holder, in accordance with track policy on cancellations, only prior to the start of the first parlay race in which a parlay selection starts. Thereafter, the parlay must either be completed or be terminated by operation of these rules in order to be entitled to a payoff. The holder of the parlay ticket shall not have the option to cash in such bet prior to completion after a designated parlay entry actually starts in a race.

(i) If a race, pool or betting entry in a parlay is scratched (which includes an entry being declared a nonstarter for betting purposes, or a race or pool being declared "off") the parlay shall be constituted by the remaining legs; if there are no remaining legs, the parlay terminates.

(j) A bet on a coupled entry or field is considered a bet on the remaining part of such coupled entry or field in the event any part of such entry or field starts for pari-mutuel purposes in accordance with section 4009.20 of this Title. Parlay tickets incorporating an entry or field in which a scratch occurs are refundable only in accordance with subdivision (h) of this section.

(k) Copies of this section shall be made available to the public by the track operator.

THE DAILY DOUBLE

§ 4011.1. [Reserved]

§ 4011.2. Not a parlay.

The daily double is not a parlay and has no connection with or relation to the pool shown on the totalisator board.

§ 4011.3. Prerequisites.

In order to win a daily double, it is necessary for the purchaser of a daily double ticket to select the winners of each of the two races specified for the daily double. If either of his or her selections fails to win, his or her contract is voided, except as hereinafter provided.

§ 4011.4. [Repealed]

§ 4011.5. Entries; fields.

Entries and fields may be included in the first and second races of the daily double. In the event that part of an entry or field is scratched before the running of the first race of the daily double, the provisions of section 4009.20 of this Title shall govern.

§ 4011.6. Posting the payoff.

The payoff shall be posted after the result of the first race is declared “Official” and before the second race is run, except in the event of a dead heat in the first race, when the posting of the payoff may be deferred until the second race has been run.

§ 4011.7. Calculation, distribution of pools.

The daily double pool shall be calculated and distributed as follows: the net pool divided by the amount wagered on the winning combination determines the pay-off per dollar bet.

§ 4011.8. Failure to select a winner and race cancellations.

(a) If no daily double ticket is sold designating the winner of the first race, or the first race is cancelled or declared “no race,” the daily double shall be declared off and the gross pool refunded.

(b) If no daily double ticket is sold combining the winners of the first and second races, or the second race is cancelled or declared “no race,” the net pool shall be distributed to holders of tickets designating the winner of the first race, as in a win pool and the daily double shall terminate.

§ 4011.9. Dead heats.

(a) In the event of a dead heat either in the first race or second race of the daily double, two winning combinations result. The amounts wagered on both winning combinations are deducted from the net pool to determine the profit. This profit is divided in half, and the halves, in turn, divided by the two amounts mentioned above. This determines the profit per dollar, to which is added the amount of the wager.

(b) In the event of a dead heat in both races of the daily double, four winning combinations result. The amounts wagered on these four winning combinations are deducted from the net pool to determine the profit. This profit is divided into four equal parts, and each part, in turn, divided by the four amounts mentioned above. This determines the profit per dollar, to which is added the amount of the wager.

§ 4011.10. Effect—horse scratched, excused.

(a) Should any horse in the first or the second race of the daily double not coupled with a starter be scratched or excused by the stewards, before the running of the first race, all money wagered on combinations, including such horse shall be deducted from the daily double pool and shall be refunded upon presentation and surrender of pari-mutuel tickets sold thereon. Horses coupled with a starter as a betting entry or field shall be governed by the provisions of section 4009.20 of this Title.

(b) Should any horse in the second race of the daily double be scratched or excused by the stewards after the running of the first race of the daily double, a consolation pool will result. In such case, all tickets combining the scratched or excused horse with the actual winner of the first race shall become consolation tickets and shall be paid a price per dollar bet determined as follows: the net daily double pool shall be divided by the total purchase price of all daily double tickets designating the winner of the first race of the daily double and the result obtained shall constitute the consolation price per dollar bet. The amount set aside for these consolation payoffs will be deducted from the net daily double pool.

THE QUINELLA

§ 4011.15. Quinella.

(a) The quinella is a form of pari-mutuel wagering. Each bettor selects two horses to place first and second in the designated quinella race, the order of placing of the said two horses being immaterial. The quinella is not a parlay and this pool shall be held entirely separate from all other pools and is in no way a part of the daily double, exacta, triple, superfecta, straight, place or show pools.

(b) [Repealed]

(c) Races in which quinella pools are to be conducted shall be approved by the commission and shall be clearly designated in the racing program. Coupled entries and fields shall be allowed in quinella races.

(d) The design of quinella tickets shall be clearly and immediately distinguishable from other pari-mutuel tickets.

(e) *Scratch.* If a horse is scratched or declared a nonstarter no further tickets may be issued designating such horse and all tickets previously issued designating such horse shall be refunded and the money deducted from the gross pool. When such horse is part of a coupled entry or field, the provisions of section 4009.20 of this Subchapter shall govern.

(f) *Winning combination.* The numbers of the first two horses as made official shall be the winning combination regardless of their respective order of finish, except that where more than one of such horses is part of a coupled entry or field with another of such horses, only the one best finisher of such horses shall be counted in the winning combination for payoff, and the horse or horses not in such coupled entry or field finishing the same, or, if applicable, next finishing, shall be the other part of the winning quinella combination. For example, if two horses in a coupled entry (or field):

(1) finish first and second, or in a dead heat for first, the winning combination will be the number of such entry or field and the number of the third finishing horse not part of such entry or field;

(2) finish first and in a dead heat for second, the winning combination will be the number of such entry or field and the number of the other horse dead-heated for second who is not part of such coupled entry or field;

(3) finish in a three-horse dead heat for win with another horse not part of such entry or field, the winning combination will be the number of such entry and the number of the horse not part of such entry.

(g) *Failure to select a winning combination.* If no ticket is sold on a winning combination in a quinella pool, the net pool shall be apportioned among those holding tickets designating the horse placing first with any other horse and those holding tickets designating the horse placing second with any other horse, in the same manner in which a place pool is calculated.

(h) *Dead heat.* In case of a dead heat between two horses for the first place, that combination shall be the winner of the quinella pool. In cases of a dead heat for first place involving more than two horses, the net pool shall be calculated and distributed to holders of tickets combining any two dead-heated horses as in a win pool dead heat.

(i) In case of a dead heat between two horses for second place, the pool shall be figured as a "place pool," the holders of tickets combining the winning horse and one of the two horses placing second participating in the payoff.

(j) In case of a dead heat for second place and no tickets are sold on one of the two winning combinations, the entire net pool shall be calculated as a win pool and distributed to those holding tickets on the other winning combination.

(k) If no tickets combine the winning horse with either of the place horses in the dead heat, the pool shall be apportioned among those holding tickets designating the first place horse and any other horse, and those holding tickets designating a second place horse with any other horse, as in a place pool in which a dead heat for place occurs.

(l) If no ticket is sold that would require distribution of a quinella pool to a winner as defined by this section, the track shall make a complete and full refund of the quinella pool.

(m) In the event fewer than four betting interests start, the quinella shall be declared off and the gross pool refunded.

(n) This section shall be prominently displayed throughout the betting area of each track conducting the quinella, and printed copies of this section shall be distributed by the track to patrons upon request.

§ 4011.16. Commission approval.

Races in which quinella betting shall be conducted shall be approved by the commission.

THE EXACTA

§ 4011.20. **Exacta.**

(a) The object of the exacta is to select in order the first and second place finisher in the designated exacta race. The exacta pool shall be held entirely separate from all other pools and is in no way a part of the daily double, or win, place or show pools.

(b) Races in which exacta betting shall be conducted shall be approved by the commission.

(c) If a horse is scratched or excused from racing no further tickets shall be sold designating such horse and all tickets previously sold designating such horse shall be refunded and the money deducted from the gross pool. Coupled entries or fields shall be governed by section 4009.20 of this Title.

(d) *Dead heat.*

(1) In the event of a dead heat for win, the net pool shall be distributed to each combination of winners separately as in a win pool dead heat, e.g., in a dead heat of two horses there are two winning combinations, in a dead heat of three horses there are six winning combinations.

(2) In the event of a dead heat for second, the net pool shall be divided as in a win pool dead heat among holders of tickets combining the winner with each second place horse.

(e) *Winning combination.* The numbers of the first two horses as made official shall be the winning combination except that where more than one of such horses is part of a coupled entry or field with another of such horses only the best finisher of such horses shall be counted in the winning combination for payoff, and the horse or horses not in such coupled entry or field finishing the same, or, if applicable, next finishing, shall be the other part of the winning exacta combination. For example, if two horses in a coupled entry (or field):

(1) finish first and second, or in a dead heat for first, the winning combination will be the number of such entry or field and the number of the third finishing horse not part of such entry or field;

(2) finish first and in a dead heat for second, the winning combination will be the number of such entry or field and the number of the horse dead heated for second who is not part of such coupled entry or field; or

(3) finish in a three-horse dead heat for win with another horse not part of such entry or field, the winning combination will be the number of such entry and the number of the horse not part of such entry.

(f) In the event fewer than four betting interests start, the exacta shall be declared off and the gross pool refunded.

(g) *Failure to select a winning combination.* If no exacta ticket is sold combining the winner and second place horse in order, the net pool shall be distributed to holders of exacta tickets designating the winner to win. In the event one horse only finishes and is declared winner, the net pool shall be distributed to holders of exacta tickets designating the winner to win. Should these circumstances be foreseeable when a pool is closed, an immediate announcement shall be made to hold all tickets because all combinations are not covered.

THE TRIFECTA

§ 4011.21. Trifecta.

(a) The object of the trifecta is to select in order, the first-, second- and third-place horses in a designated trifecta race. The trifecta pool shall be held entirely separate from all other pools and has no relation to any other pool.

(b) Races in which trifecta betting shall be conducted shall be approved by the commission and be clearly designated in the program.

(c) If a horse is scratched or excused from racing or betting no further tickets shall be sold designating such horse and all tickets previously sold designating such horse shall be refunded and the money deducted from the pool.

(d) (1) If no ticket is sold designating, in order, the first three horses or only two horses finish, the net pool shall be distributed equally among holders of tickets designating the first two horses in order.

(2) If no ticket is sold designating, in order, the first two horses or only one horse finishes, the net pool shall be distributed equally among holders of tickets designating the horse to win.

(3) If no ticket is sold designating the winner to win, the trifecta shall be declared off and the gross pool refunded. An announcement of such possibility shall be made as soon as the pool closes.

(e) *Dead heat.* In the event of a dead heat, all tickets designating the correct order of finish, crediting each horse in a dead heat as finishing in any of the dead-heat positions, shall be winning tickets. Distribution shall be in accordance with established pari-mutuel practice relative to dead heats, *i.e.*, separate price calculations for different combinations.

(f) Coupled entries and fields are permitted in trifecta races. In such races no wagers may be accepted or issued (including “wheel” or “box” type bets) that couple the same coupled entry or the same field in the same combination.

(g) The numbers of the first three horses as made official shall constitute the winning combination except that where two or more such horses are part of the same coupled entry or field only the best finishing position attained by such coupled entry or field horses shall be considered for pay-off purposes and the next best finishing horses not part of such coupled entry or field shall be selected to determine the winning trifecta combination.

(h) No trifecta wagering shall be conducted on any race having fewer than five betting entries. If fewer than five betting entries start, the trifecta shall be declared off and the gross pool refunded. The commission's steward may, in the exercise of discretion to protect the wagering public, require that there be at least six betting entries for the conduct of trifecta wagering.

THE SUPERFACTA

§ 4011.22. Superfecta.

(a) The object of the superfecta is to select in order, the first-, second-, third- and fourth-place horses in a designated superfecta race. The superfecta pool shall be held entirely separate from all other pools and has no relation to any other pool.

(b) Races in which superfecta betting shall be conducted shall be approved by the commission and be clearly designated in the program.

(c) If a horse is scratched or excused from racing or betting no further tickets shall be sold designating such horse and all tickets previously sold designating such horse shall be refunded and the money deducted from the pool.

(d) (1) If no ticket is sold designating, in order, the first four horses or only three horses finish, the net pool shall be distributed equally among holders of tickets designating the first three horses in order.

(2) If no ticket is sold designating, in order, the first three horses or only two horses finish, the net pool shall be distributed equally among holders of tickets designating the first two horses in order.

(3) If no ticket is sold designating, in order, the first two horses or only one horse finishes, the net pool shall be distributed equally among holders of tickets designating the horse to win.

(4) If no ticket is sold designating the winner to win, the superfecta shall be declared off and the gross pool refunded. An announcement of such possibility shall be made as soon as the pool closes.

(f) *Dead heat.* In the event of a dead heat, all tickets designating the correct order of finish, crediting each horse in a dead heat as finishing in any of the dead-heat positions, shall be winning tickets. Distribution shall be in accordance with established pari-mutuel practice relative to dead heats, *i.e.*, separate price calculations for different combinations.

(g) Coupled entries and fields are permitted in superfecta races. In such races no wagers may be accepted or issued (including “wheel” or “box” type bets) that couple the same coupled entry or the same field in the same combination.

(h) The numbers of the first four horses as made official shall constitute the winning combination, except that where two or more such horses are part of the same coupled entry or field only the best finishing position attained by such coupled entry or field horses shall be considered for pay-off purposes and the next best finishing horses not part of such coupled entry or field shall be selected to determine the winning superfecta combination.

(i) No superfecta wagering shall be conducted on any race having fewer than five betting entries. If fewer than five betting entries start, the superfecta shall be declared off and the gross pool refunded. The commission's steward may, in the exercise of discretion to protect the wagering public, require that there be at least six betting entries for the conduct of superfecta wagering.

§ 4011.23. WIN-3.

(a) When consistent with the public interest and the best interests of racing generally, the commission may approve a request from a track operator to offer “WIN-3” betting as a service to the betting public. Other names for such bets may be approved by the commission.

(b) The “WIN-3” is a unique pari-mutuel pool, separate from all other pari-mutuel pools. The object of the WIN-3 is to select the winners only of three consecutive races (legs) designated by the track operator and advertised clearly in the betting program.

(c) *Winning payoff price.* From the gross pool is deducted the take-out and consolation payoff amounts, if any, and the resulting balance, divided by the amount wagered on the winning combination, less breaks, shall determine the payoff per dollar on winning bets.

(d) *Dead heat winners.* If there are two or more winning combinations because of a dead heat in one or more legs there shall be a separate payoff price per dollar calculated for each winning combination as follows: from the gross pool is deducted the

take-out, consolation payoff amounts, if any, and amounts wagered on all winning combinations; the balance shall be divided by the number of different winning combinations upon which bets were sold, each resulting allocated part being assigned to each respective winning combination; an allocated part plus the amounts bet on each winning combination when divided by the amount bet on such winning combination (less breaks) shall be the resulting payoff per dollar per respective winning combination.

(e) *Failure to select a winning combination.*

(1) Patrons shall be advised by public address to hold all WIN-3 tickets and the circumstances leading to such announcement: after the first leg if no bet selects a winner of the first leg; after the second leg if no bet combines the winners of the first two legs; and after the third leg if no bet combines all three winners.

(2) Should there be no bets on any winning combination, then all bets combining two winners shall be considered winning bets and paid a price per dollar bet calculated as with dead heat winning combinations. Consolation tickets combining such two winners shall be entitled to a winning payoff in addition to a consolation payoff.

(3) Should there be no bets combining winners of two legs, then all bets selecting a winner shall be considered winning bets and paid a price per dollar bet calculated as with winning dead heat combinations. Consolation tickets shall be entitled to a winning payoff in addition to a consolation payoff.

(4) Should there be no bets on any winner, the WIN-3 shall be declared off and the entire pool refunded.

(f) *Race cancellations.*

(1) If any leg is cancelled or declared non-betting before the start of the first leg, the pool shall be refunded.

(2) If either the second or third leg (or both) are cancelled or declared non-betting after the start of the first leg, payoffs will be determined on the basis of contested legs.

(g) *Scratches and consolations.*

(1) Refunds. In the event a betting entry is scratched (which hereinafter includes being declared a non-starter or a non-betting starter) from any leg of the WIN-3 prior to the start of the first leg, all bets containing such scratched betting entry shall be refunded to determine the gross pool and removed from further consideration in the pool. Coupled entries and fields are only considered "scratched" for purposes of this section in accordance with the provisions of section 4009.20 of this Title.

(2) Consolations.

(i) In the event a betting entry is scratched in the second leg after the start of the first leg a consolation payoff shall be computed for those bets combining the winners of the first and third legs with such scratched horse as follows: from the gross pool shall be deducted the statutory take-out and then the amount represented by bets on combinations involving entries scratched from the third leg (reduced by the rate of statutory take-out thereon). The resulting remainder shall be divided by the amounts bet on the combination of such first and third leg winners with all betting entries in the second leg (less breaks) to determine the consolation price per dollar payable to those bets combining winners of the first and third legs with an entry scratched in the second leg. The break shall not be deducted from the pool.

(ii) In the event a betting entry is scratched in the third leg after the start of the first leg, a consolation payoff shall be computed for those bets combining the winners of the first and second legs with such scratched horse as follows: from the gross pool shall be deducted the statutory take-out and then the amount represented by bets on combinations involving entries scratched from the second leg (reduced by the rate of statutory take-out thereon). The resulting remainder shall be divided by the amount bet on the combination of such first and second leg winners with all betting entries in the third leg (less breaks) to determine the consolation price per dollar payable to those bets combining winners of the first and second legs with an entry scratched in the third leg. The breaks shall not be deducted from the pool.

(iii) In the event betting entries are scratched in both the second and third legs after the start of the first leg, a consolation payoff shall be computed for those bets combining the winner of the first leg with entries scratched in both the second and third legs as follows: From the gross pool shall be deducted the take-out and the remainder shall be divided by the amount bet on the winner of the first leg combined with all other entries (less breaks) to determine the consolation price per dollar payable to those tickets combining the winner of the first leg with entries scratched from both the second and third legs. The breaks shall not be deducted from the pool.

(iv) Dead heat computations for consolation payoffs shall be consistent with the principles in subdivision (d) as applied to remainders for payoff as determined in this subdivision.

(h) This rule shall be prominently displayed throughout the betting area of the track and printed copies shall be made available by the track to patrons upon request.

§ 4011.24. Pick-four pools.

(a) A winning pick-four wager requires selection of the first-place finisher in each of four designated, consecutive contests, unless otherwise provided in this section. The association or corporation must obtain written approval from the commission concerning the scheduling of pick-four contests and the designation of the method used. Any changes to the approved pick-four format require prior approval from the commission.

(b) The pick-four wager is not a parlay and has no connection or relation to the other betting pools for the respective races. The pick-four pool shall be held entirely separate from all other pools and is no part of a daily double, exacta, quinella, trifecta, superfecta or other wagering pool.

(c) Resale of pick-four tickets from one individual to another is prohibited, shall be grounds for ejection and may be deemed illegal gambling.

(d) Races in which pick-four pools shall be conducted shall be clearly designated in the program and racing cards issued by the association or corporation.

(e) The design of the pick-four tickets shall be clearly and immediately distinguishable from other pari-mutuel tickets.

(f) *Scratched horses and nonstarters.* Should a programmed starter be scratched or declared a nonstarter in any pick-four race before the start of the first pick-four race, any affected bettor may select another betting interest, if the wager can be canceled and a replacement wager issued before the start of the first pick-four race, or may obtain a cancellation of the wager prior to the start of the first pick-four race. If neither option is exercised, then wagers upon such scratched or declared nonstarter shall be deemed wagers upon the designated horse for such race. The *designated horse* means the betting entry or field upon which the most wagering money has been registered at the track in the win pool at the close of win-pool betting for such race. In the event of a money tie, the tied betting entry or field with the lowest program number shall be designated. At any time after wagering begins on the pick-four pool, should an entire betting entry or field be scratched or declared a nonstarter in any pick-four race, no further tickets selecting such betting entry or field shall be issued, and wagers upon such betting entry or field, for purposes of the pick-four pool, shall be deemed wagers upon the designated horse. Wagers in the pick-four pool upon an entry or field of horses from which a starter or starters may have been scratched will, in the case of such entry or field, be deemed wagers upon the horse or horses remaining in such entry or field. In case no starter remains representing any betting entry or field, wagers upon such entry or field shall be deemed wagers upon the designated horse in the race affected by the scratch. Should the balance of a betting entry or field race as a non-betting starter for purposes of other pari-mutuel pools, as provided in sections 4009.20 and 4009.21 of this Article, wagers upon such entry or field shall be deemed wagers upon the designated horse for such race.

(g) *Wagering tickets and winners.* If neither subdivision (h) nor subdivision (i) of this section applies, then the pick-four pool shall be apportioned in the following order:

(1) If no pick-four ticket is sold combining the winners of the four pick-four races, all pick-four tickets designating three winners shall be considered winning tickets and the net pool distributed equally to holders of such tickets.

(2) If no pick-four ticket is sold combining the winners of three such races, all pick-four tickets designating two winners shall be considered winning tickets and the net pool distributed equally to holders of such tickets.

(3) If no pick-four ticket is sold combining the winners of two such races, all pick-four tickets designating one winner shall be considered winning tickets and the net pool distributed equally to holders of such tickets.

(4) If no pick-four ticket is sold designating any winner to win in the designated pick-four races, the pick-four shall be declared off and the gross pool refunded.

(h) *Race cancellations.*

(1) If one or two of the pick-four races are cancelled or declared no race or non-betting, then those who selected the winners in the greatest number of other pick-four races shall share the net pool.

(2) If more than two of the pick-four races are cancelled or declared no race or non-betting, then the entire pool shall be cancelled and all pick-four wagers shall be refunded.

(3) If any of the designated races of the pick-four sequence is cancelled or declared no race or non-betting before the first pick-four race is made official, then the pick-four pool shall be declared off and the gross pool refunded.

(i) *Surface transfers.* When the condition of a turf course warrants a change of racing surface to a non-turf course in any of the pick-four races, and such change has not been known to the public before the close of wagering for the pick-four pool, such changed race shall be deemed an all win race for pick-four wagering purposes. An *all win race* means the winning horse of that race is assigned to each pick-four ticket holder as such ticket holder's selection for that race. If there is a surface transfer in one or more of the pick-four races, then those who selected the winners in the greatest number of races without a surface transfer shall share the net pool. If there are no wagers selecting the winner of at least one of the races without a surface transfer, then the entire pool for such program shall be refunded. If any of the designated races is cancelled or declared "no race," then the pick-four pool will be determined by the winners of the remaining race or races.

(j) *Dead heats.* In the event of a dead heat for win in a pick-four race, all pick-four tickets designating any such horse to win shall be eligible for participation in the remaining pick-four races, and the net pool shall be equally distributed to the winners, that is, the net pool will be divided by the total amount represented by all winning tickets and the resulting price, per dollar, and after breakage, shall be the payoff price, which shall be uniform for any winning combination.

(k)–(o) [Reserved]

(p) In the event of occurrences not encompassed within the explicit provisions of this section, distribution shall be formulated on the basis of established pari-mutuel practice and in accordance with the distribution philosophy set forth in this section; provided, nevertheless, that if full distribution of the pool is made on the basis of outstanding tickets, then the method of formulation announced by the track, and the basis upon which payments have been made shall be deemed conclusively correct and not subject to review.

(q) *Posting of winning combinations.* Every pick-four wagering combination entitled to a payoff shall be posted publicly by the track operator together with the payoff price.

(r) *Non-transferability.* Pick-four tickets shall be nontransferable, and violations of this subdivision may lead to confiscation and cancellation of such tickets in addition to other disciplinary action.

(s)–(w) [Reserved]

(x) Copies of this section shall be made available free of charge by the track to the public in the public betting area of the track.

§ 4011.25. Pick-five pools.

(a) A winning pick-five wager requires selection of the first-place finisher in each of five designated, consecutive contests, unless otherwise provided in this section. The association or corporation must obtain written approval from the commission concerning the scheduling of pick-five contests, the designation of the method used and the amount of any cap to be set on the carryover. Any changes to the approved pick-five format require prior approval from the commission.

(b) The pick-five wager is not a parlay and has no connection or relation to the other betting pools for the respective races. The pick-five pool shall be held entirely separate from all other pools and is no part of a daily double, exacta, quinella, trifecta, superfecta or other wagering pool.

(c) Resale of pick-five tickets from one individual to another is prohibited, shall be grounds for ejection, and may be deemed illegal gambling.

(d) Races in which pick-five pools shall be conducted shall be clearly designated in the program and racing cards issued by the association or corporation.

(e) The design of the pick-five tickets shall be clearly and immediately distinguishable from other pari-mutuel tickets.

(f) *Scratched horses and nonstarters.* Should a programmed starter be scratched or declared a nonstarter in any pick-five race before the start of the first pick-five race, any affected bettor may select another betting interest, if the wager can be canceled and a replacement wager issued before the start of the first pick-five race, or may obtain a cancellation of the wager prior to the start of the first race of the pick-five sequence. If neither option is exercised, then wagers upon such scratched or declared nonstarter shall be deemed wagers upon the designated horse for such race. The *designated horse* means the betting entry or field upon which the most wagering money has been registered at the track in the win pool at the close of win-pool betting for such race. (In the event of a money tie, the tied betting entry or field with the lowest program number shall be designated.) At any time after wagering begins on the pick-five pool, should an entire betting entry or field be scratched or declared a nonstarter in any pick-five race, no further tickets selecting such betting entry or field shall be issued, and wagers upon such betting entry or field, for purposes of the pick-five pool, shall be deemed wagers upon the designated horse. Wagers in the pick-five pool upon an entry or field of horses from which a starter or starters may have been scratched will, in the case of such entry or field, be deemed wagers upon the horse or horses remaining in such entry or field. In case no starter remains representing any betting entry or field, wagers upon such entry or field shall be deemed wagers upon the designated horse in the race affected by the scratch. Should the balance of a betting entry or field race as a non-betting starter for purposes of other pari-mutuel pools, as provided in sections 4009.20 and 4009.21 of this Article, wagers upon such entry or field shall be deemed wagers upon the designated horse for such race.

(g) *Wagering tickets and winners.* If neither subdivision (h) nor subdivision (i) of this section applies, then the pick-five pool shall be apportioned as follows: the net pick-five pool and carryover, if any, shall be distributed as a single price pool to those who selected the first-place finisher in each of the pick-five contests, based on the official order of finish, unless otherwise provided in this section. If there are no such wagers, the net pick-five pool shall be added to the carryover.

(h) *Race cancellations.* Except for pick-five pools in which a designated distribution is to be made, the following shall apply:

(1) If one or two of the pick-five races are cancelled or declared no race or non-betting, then those who selected the winners of other pick-five races shall share the net pool. Any carryover from previous programs will be carried over to the next pick-five wager pool.

(2) If more than two of the pick-five races are cancelled or declared no race or non-betting, then the entire pool shall be cancelled and all pick-five wagers shall be refunded.

(3) If any of the designated races of the pick-five sequence is cancelled or declared no race or non-betting before the first pick-five race is made official, then the pick-five pool shall be declared off and the gross pool refunded.

(i) *Surface transfer.* When the condition of a turf course warrants a change of racing surface to a non-turf course in any of the pick-five races, and such change has not been known to the public before the close of wagering for the pick-five pool, then such changed race shall be deemed an all win race for pick-five wagering purposes. An *all win race* means the winning horse of that race is assigned to each pick-five bettor as such bettor's selection for that race. Except for pick-five pools in which a final distribution is to be made, a pick-five pool with surface transfer(s) shall be handled as follows:

(1) If there was a surface change to a non-turf course in only one of the pick-five races, then the bettors who selected the winners of the four pick-five races for which there were no surface changes shall share that day's net pool for such wager as well as any carryover.

(2) If there was a surface change to a non-turf course in more than one of the pick-five races, then the bettors who selected the winners of all the other pick-five races shall share that day's net pool for such wager but shall not share any carryover (any such previous carryover to be carried over to the next performance's pick-five wager pool).

(3) If there are one or more surface change races in the pick-five sequence, and there are no bettors who selected the winner(s) of all the other pick-five races, then the net pool for such program shall be carried over to the next performance's pick-five wager pool.

(4) If there are one or more surface change races in the pick-five sequence and there are no bettors who selected the winner of any of the other pick-five races, then the entire pool for such program shall be refunded.

(j) *Dead heats.* If there is a dead heat for first in any of the pick-five contests involving:

(1) contestants representing the same betting interest, then the pick-five pool shall be distributed as if no dead heat occurred; or

(2) contestants representing two or more betting interests, then the pick-five pool shall be distributed as a single price pool with each winning wager receiving an equal share of the profit.

(k) *Carryovers.*

(1) The pick-five carryover may be capped at a designated level approved by the commission so that if, at the close of any performance, the amount in the pick-five carryover equals or exceeds the designated cap, then the pick-five carryover will be frozen until such carryover is won or distributed under the other provisions of this rule. After the pick-five carryover is frozen, 100 percent of the net pool that ordinarily would be added to the pick-five carryover shall be distributed to those whose selection finished first in the greatest number of pick-five contests for that performance.

(2) A written request for permission to distribute the pick-five carryover on a specific performance may be submitted to the commission. The request must contain justification for the distribution, an explanation of the benefit to be derived and the intended date and performance for the distribution.

(3) If for any reason the pick-five carryover must be held over to a subsequent meet, the carryover shall be deposited in an interest-bearing account approved by the commission. The pick-five carryover plus accrued interest shall then be added to the net pick-five pool of the following meet on a date and performance so designated by the commission.

(4) With the written approval of the commission, the association may contribute to the pick-five carryover a sum of money up to the amount of any designated cap.

(l) *Other designated distributions.* The pick-five carryover may be designated for distribution on a specified date and performance, other than as a final distribution, as set forth in subdivision (m) of this section, only under the following circumstances:

(i) upon written approval from the commission as provided in subdivision (i) of this section; or

(ii) upon written approval from the commission when there is a change in the carryover cap, a change from one type of pick-(n) wagering to another, or when the pick-five pool is discontinued.

If the pick-five carryover is designated for distribution on a specified date and performance in which there are no wagers selecting the winner in each of the pick-five races, then the net pool, with any carryover, shall be distributed as a single-price pool to those whose selection finished first in the greatest number of pick-five contests.

(m) *Final distribution.* The track shall select, with the approval of the commission, a date and program during the final week of the annual assigned racing dates of the track operator, and also during the year during the final week of a meeting at a track after which such track operator will operate at another track, when there shall be a final distribution of all accumulated carry-overs together with the net pool of the pick-five pool

conducted during such program to the holders of wagers selecting the winners of the most pick-five races contested during such program. If all pick-five races on the program designated for final distribution are cancelled and no further programs are conducted at the meeting, then no other pick-five pools shall be conducted during such week and the commission shall require that a pick-five pool be conducted on the first program of the next race meeting conducted at such track by such track operator to provide for final distribution for such prior meeting. The commission may also order a final distribution for an earlier time in the commission's discretion.

(n) The association or corporation may suspend previously approved pick-five wagering with the prior approval of the commission. Any carryover shall be held until the suspended pick-five wagering is reinstated. An association or corporation may request approval of a pick-five wager or separate wagering pool for specific performances.

(o) Other than the display of the will-pays after the penultimate pick-five race, providing information to any person in regard to covered combinations, amounts wagered on specific combinations, numbers of tickets sold or number of live tickets remaining is strictly prohibited. This subdivision shall not prohibit necessary communication between totalisator and pari-mutuel department employees for processing of pool data.

(p) In the event of occurrences not encompassed within the explicit provisions of this section, distribution shall be formulated on the basis of established pari-mutuel practice and in accordance with the distribution philosophy set forth in this section; provided, nevertheless, that if full distribution of the pool is made on the basis of outstanding tickets, then the method of formulation announced by the track and the basis upon which payments have been made shall be deemed conclusively correct and not subject to review.

(q) *Posting of winning combinations.* Every pick-five wagering combination entitled to a payoff shall be posted publicly by the track operator together with the payoff price.

(r) *Non-transferability.* Pick-five tickets shall be nontransferable, and violations of this subdivision may lead to confiscation and cancellation of such tickets in addition to other disciplinary action.

(s) *Betting information.* Unless otherwise ordered by the commission, information concerning combinations wagered upon or not wagered upon in a pick-five pool shall not be disclosed by the tote operator, or otherwise, until the final pick-five race remains as the only race to be contested for completion of the pick-five wager. The operation of the totalisator equipment and reports generated thereby, as well as the communication of any information concerning such pool, shall be subject to the strict supervision of the commission.

(t)–(w) [Reserved]

(x) Copies of this section shall be made available free of charge by the track to the public in the public betting area of the track.

§ 4011.26. Pick-six pools.

(a) A winning pick-six wager requires selection of the first-place finisher in each of six designated, consecutive contests, unless otherwise provided in this section. The association or corporation must obtain written approval from the commission concerning the scheduling of pick-six contests, the designation of the method used and the amount of any cap to be set on the carryover. Any changes to the approved pick-six format require prior approval from the commission.

(b) The pick-six wager is not a parlay and has no connection or relation to the other betting pools for the respective races. The pick-six pool shall be held entirely separate from all other pools and is no part of a daily double, exacta, quinella, trifecta, superfecta or other wagering pool.

(c) Resale of pick-six tickets from one individual to another is prohibited, shall be grounds for ejection, and may be deemed illegal gambling.

(d) Races in which pick-six pools shall be conducted shall be clearly designated in the program and racing cards issued by the association or corporation.

(e) The design of the pick-six tickets shall be clearly and immediately distinguishable from other pari-mutuel tickets.

(f) *Scratched horses and nonstarters.* Should a programmed starter be scratched or declared a nonstarter in any pick-six race before the start of the first pick-six race, affected bettors may select another betting interest, if a wager can be canceled and a replacement wager issued before the start of the first pick-six race, or may obtain a cancellation of the wager issued before the start of the first race of the pick-six sequence. If neither option is exercised, then wagers upon such scratched or declared nonstarter shall be deemed wagers upon the designated horse for such race. The *designated horse* means the betting entry or field upon which the most wagering money has been registered at the track in the win pool at the close of win-pool betting for such race. (In the event of a money tie, the tied betting entry or field with the lowest program number shall be designated.) At any time after wagering begins on the pick-six pool, should an entire betting entry or field be scratched or declared a nonstarter in any pick-six race, no further tickets selecting such betting entry or field shall be issued, and wagers upon such betting entry or field, for purposes of the pick-six pool, shall be deemed wagers upon the designated horse. Wagers in the pick-six pool upon an entry or field of horses from which a starter or starters may have been scratched will, in the case of such entry or field, be deemed wagers upon the horse or horses remaining in such entry or field, except at tracks with totalisator capability to record wagers selecting a coupled entry (or field) and wagers selecting any individual constituent horses therein (merging such wagers for odds display and payoff purposes), in which case, the wagers

upon scratched constituent horses will be deemed wagers upon the designated horse in such race. In case no starter remains representing any betting entry or field, wagers upon such entry or field shall be deemed wagers upon the designated horse in the race affected by the scratch. Should the balance of a betting entry or field race as a nonbetting starter for purposes of other pari-mutuel pools, as provided in sections 4009.20 and 4009.21 of this Article, wagers upon such entry or field shall be deemed wagers upon the designated horse for such race. Should a programmed starter be scratched or declared a nonstarter prior to the start of the first leg, the betting operator shall be authorized to refund any tickets designating betting entries affected thereby prior to such first leg.

(g) *Wagering tickets and winners.* If neither subdivision (h) nor subdivision (i) of this section applies:

(1) The pick-six pool shall be apportioned as follows: 75 percent of the resulting pick-six net pool for the day shall be distributed, less breaks, to the holders of wagers selecting the winners of all six designated races in the pool, or to the holders of the wagers selecting the winners of the designated races with no more than three all-win races, and no other races are cancelled in the pick-six sequence or races, and 25 percent of such net pool shall be distributed to the holders of the wagers selecting the most winners.

(2) Should there be no wager selecting winners of all six designated races, or to the holders of wagers selecting the winners of the designated races with no more than three "all win" events, then 25 percent of the net pool shall be distributed, less breaks, to the holders of wagers selecting the winners of the most pick-six races, and the 75 percent of the net pool reserved for holders of wagers selecting six winners, or to the holders of wagers selecting the winners of the designated races with no more than three all-win races, then 25 percent of the net pool shall be distributed, less breaks, to the holders of wagers selecting the winners of the most pick-six races, and the 75 percent of the net pool reserved for holders of wagers selecting six winners, or to the holders of wagers selecting the winners of the designated races with no more than three all win races shall be carried over and added to and distributed with the 75-percent net pool share of the next pick-six pool in which a wager correctly selects the winners of all six designated pick-six races, or five winners and no more than one all-win race.

(3) Added payments to winners. In addition to the 75-percent-net-pool share and any carry-overs distributable when a wager correctly selects winners of all six designated races, or five winners and no more than one all-win race of a pick-six pool, there shall be distributed by the track operator from its own funds, upon such occurrence, any amounts it has advertised that it will add to the total distribution, or any amounts necessary to yield an advertised guaranteed total distribution.

(h) *Race cancellations.* Except for pick-six pools in which an intermediate or final distribution is to be made, should one or more pick-six races be cancelled or declared

no race or non-betting, no carry-overs from prior pick-six pools, advertised guaranteed amounts nor advertised added amounts will be distributed to winners in such day's pick-six pool; and

(1) if more than three such races are contested, 75 percent of that program's net pool shall be distributed, less breaks, to holders of wagers upon the winners of all the contested pick-six races and 25 percent of such program's net pool shall be distributed to the holders of wagers selecting the next most winners; should no wager select the winners of all the contested pick-six races, 25 percent of the net pool shall be distributed, less breaks, to the holders of wagers selecting the most winners of the contested pick-six races, and 75 percent of such program's net pool shall be carried over as elsewhere provided in this section;

(2) if three or fewer such races are contested, then entire pool for such program shall be refunded; and

(3) if any of the designated races are canceled or declared no race or non-betting before the first pick-six race is made official, then the pick-six pool shall be declared off and the gross pool refunded.

(i) *Surface transfers.* When the condition of a turf course warrants a change of racing surface to a non-turf course in any of the pick-six races, and such change has not been known to the public before the close of wagering for the pick-six pool, then such changed race shall be deemed an all win race for pick-six wagering purposes. An *all win race* means the winning horse of that race is assigned to each pick-six bettor as such bettor's selection for that race. Except for pick-six pools in which an intermediate or final distribution is to be made, a pick-six sequence with surface transfer(s) shall be handled as follows:

(1) If there is one surface transfer race in the pick-six sequence of designated races combined with the winners of the five other designated races, 75 percent of such program's net pool, less breaks, and any carryovers, advertised guaranteed amounts or advertised added amounts, shall be distributed to the holders of such wagers, and 25 percent of such program's net pool shall be distributed, less breaks, to the holders of wagers selecting the next most winners; should no wager include the winners of all five non-surface transfer races in the pick-six sequence, 25 percent of such net pool shall be distributed, less breaks, to the holders of wagers selecting the most winners of the non-surface transfer races in the pick-six sequence, and 75 percent of such program's net pool shall be carried over as elsewhere provided in this section for subsequent distribution.

(2) If there are two or three surface transfer races in the pick-six sequence, no carryovers from prior pick-six pools, advertised guaranteed amount or advertised added amounts will be distributed to winners in such day's pick-six pool, and 75 percent of such program's net pool shall be distributed, less breaks, to holders of wagers selecting the winners of all non-surface transfer races in the pick-six

sequence, and 25 percent of such program's net pool shall be distributed, less breaks, to holders of wagers selecting the next most winners; should no wager include the winners of all the non-surface-transfer races in the pick-six sequence, 25 percent of such net pool shall be distributed, less breaks, to the holders of wagers selecting the most winners of the non-surface-transfer races in the pick-six sequence, and 75 percent of such program's net pool shall be carried over as elsewhere provided in this section for subsequent distribution.

(3) If there are more than three surface transfer races in the pick-six sequence, no carry-overs from prior pick-six pools, advertised guaranteed amounts or advertised added amounts will be distributed to winners in such day's pick-six pool, and 25-percent of that program's net pool shall be distributed, less breaks, to holders of wagers selecting the winners of the most non-surface-transfer races in the pick-six sequence, and 75 percent of such program's net pool shall be carried over as elsewhere provided in this section for subsequent distribution.

(4) If there are one or more surface transfer races in the pick-six sequence, and there are no wagers selecting the winner(s) of at least one of the non-surface transfer races, the entire pool for such program shall be refunded; in the event there is a final distribution or intermediate distribution scheduled, and no further programs are conducted at the meeting, the commission shall require that a pick-six pool be conducted on the first program of the next race meeting conducted at such track by such track operator to provide for final distribution for such prior meeting. The commission may also order a final distribution for an earlier time in the commission's discretion.

(j) *Dead heats.* Each horse in a dead heat for win shall be considered the winner, and no allocations among wagers shall be made as a result thereof, unlike the practice in a pari-mutuel win pool. The payoff price per dollar shall be the same for each class of winning wager.

(k) *Carryovers.* Carryovers from prior pick-six pools, advertised guaranteed amounts or advertised added amounts will be distributed to winners in such day's pick-six pools, provided that there is no more than one all win race and no other races are cancelled in the pick-six sequence.

(l) *Intermediate distributions.* Prior to the last two weeks of a race meeting at a track, a date and program approved by the commission may be announced by the track operator at which (provided no one thereafter correctly selects the winners of all six designated races, or five winners and no more than one all-win race of a pick-six pool through such program) accumulated carry-overs in an amount announced by the track operator will be added to the 25 percent of the net pool distributable to wagers selecting the winners of the most races of the pick-six pool conducted on such program if no one correctly selects all six winners, or five winners and no more than one all-win. The balance of undistributed carry-overs above such announced amount, plus any carry-over from such program, shall in turn carry over for distribution with subsequent pick-six

pools conducted by such track operator at such track. An intermediate distribution may also be directed at any time, upon three days' notice by the commission, of such portion or all of the accumulated carry-over money as may be directed by the commission.

(m) *Final distribution.* The track shall select, with the approval of the commission, a date and program during the final week of the annual assigned racing dates of the track operator, and also during the year during the final week of a meeting at a track after which such track operator will operate at another track, when there shall be a final distribution of all accumulated carry-overs together with 75 percent of the net pool of the pick six-pool conducted during such program to the holders of wagers selecting the winners of the most pick-six races contested during such program and 25 percent of such net pool shall be distributed to the holders of the remaining wagers selecting the next most winners, except that, if only one, two or three such races are conducted, then all accumulated carry-overs and the entire net pool shall be distributed to the holders of wagers selecting the most winners of such races. Thereafter, no pick-six pools will be conducted during such week. In the event that all pick-six races on the program designated for final distribution are cancelled, or the pick-six pool is refunded, and no further programs are conducted at the meeting, the commission shall require that a pick-six pool be conducted on the first program of the next race meeting conducted at such track by such track operator to provide for final distribution for such prior meeting. The commission may also order a final distribution for an earlier time in the commission's discretion.

(n) The association or corporation may suspend previously approved pick-six wagering with the prior approval of the commission. Any carryover shall be held until the-suspended pick-six wagering is reinstated. An association or corporation may request approval of a pick-six wager or separate wagering pool for specific performances.

(o) Other than the display of the will-pays after the penultimate pick-six race, providing information to any person in regard to covered combinations, amounts wagered on specific combinations, numbers of tickets sold or number of live tickets remaining is strictly prohibited. This subdivision shall not prohibit necessary communication between totalisator and pari-mutuel department employees for processing of pool data.

(p) In the event of occurrences not encompassed within the explicit provisions of this section, distribution shall be formulated on the basis of established pari-mutuel practice and in accordance with the distribution philosophy set forth in this section; provided, nevertheless, that if full distribution of the pool is made on the basis of outstanding tickets, then the method of formulation announced by the track and the basis upon which payments have been made shall be deemed conclusively correct and not subject to review.

(q) *Posting of winning combinations.* Every pick-six wagering combination entitled to a payoff shall be posted publicly by the track operator together with the payoff price.

- (r) *Non-transferability.* Pick-six tickets shall be nontransferable, and violations of this subdivision may lead to confiscation and cancellation of such tickets in addition to other disciplinary action.
- (s) *Betting information.* Unless otherwise ordered by the commission, information concerning combinations wagered upon or not wagered upon in a pick-six pool shall not be disclosed by the tote operator, or otherwise, until the final pick-six race remains as the only race to be contested for completion of the pick-six wager. The operation of the totalisator equipment and reports generated thereby, as well as the communication of any information concerning such pool, shall be subject to the strict supervision of the commission.
- (t) *No reduction in guaranteed distributions.* Advertised added monies or minimum distributions shall not apply to intermediate or final distributions, unless a wager correctly selects winners of all six designated races, or five winners and no more than one all-win of the pick-six pool. A guaranteed minimum distribution or guaranteed added money amount, once advertised, may not be reduced and shall continue to be guaranteed by the track operator for every pick-six pool for the balance of the meeting.
- (u) *Interfacing of off-track wagers.* Interfacing of off-track wagers shall be accomplished according to procedures approved by the commission. In the event there is a failure to interface all such wagers with on-track wagers in accordance with such procedures, the procedure for distribution of the pool and computation of payoff prices shall be approved by the commission.
- (v) *Trust funds.* Carry-over monies shall be held in a separate account in trust by track operators for the benefit of participants in pick-six pools until distributed.
- (w) *Seed money or insurance allocation.* Except where the established takeout is higher than the prevailing takeout established for non-carryover days, a percentage designated by the track operator and approved by the commission, not exceeding two percent of the total daily pick-six pool wagering, shall be held apart by the track operator from the takeout of each pick-six pool to reimburse such track operator for the cost of any insurance it may secure to guarantee minimum distributions to winners of such pools, or to reimburse a track operator for funds such track operator expends for added money or guaranteed minimum distributions to winners of such pools. Any accumulation of such allocations not necessary to reimburse a track for expenditures actually incurred for such purposes shall be added to the amounts distributable in the pool designated for final distribution for the meeting.
- (x) Copies of this section shall be made available free of charge by the track to the public in the public betting area of the track.

§ 4011.27. Grand Slam.

(a) *Commission approval.* The racing association or corporation must obtain written approval from the commission for the initial scheduling or specific performances of Grand Slam races or any other name used to characterize this bet type, and identify the pari-mutuel pool and any required distribution percentages. Changes to the approved Grand Slam format, or suspension of previously approved Grand Slam wagering, require prior approval from the commission.

(b) *Grand Slam Pools.*

(1) The Grand Slam requires selection of the official first-, second- or third-place finisher in each of the first three races in a series of four designated Grand Slam races. A completed winning Grand Slam wager requires the selection of the official first place finisher in the fourth and final event in this same series of races. The Grand Slam wager is classified as an exotic bet and is subject to the prevailing exotic takeout rate set forth in sections 236 and 238 of the Racing Pari-Mutuel Wagering and Breeding Law.

(2) The Grand Slam pool shall be apportioned under the following method:

Grand Slam Wager with No Carryover:

(i) The net Grand Slam pool shall be distributed from a single betting pool to participants who selected the first, second or third-place finisher in the first three races of a series of four Grand Slam races completing a winning wager with the selection of the first place finisher in the fourth and final Grand Slam event in this same series, based upon the official order of finish.

(ii) If there are no winning wagers taking into account all four segments of the Grand Slam wager, the pool shall be distributed as a single price pool to those who selected the first place finisher in the fourth and final Grand Slam event in this series of races along with the greatest number of first, second or third-place finishes each of which had an accompanying show pari-mutuel payout, in accordance with section 4009.22, in each of the first three races in the series of four designated Grand Slam races. All results are based upon the official order of finish for each race.

(3) If there is a dead heat for first in any of the Grand Slam segments involving:

(i) official program numbered horses representing the same betting interest, the Grand Slam pool shall be distributed as if no dead heat occurred;

(ii) official program numbered horses representing two or more betting interests, the Grand Slam pool shall be distributed from a single betting pool with a winning

wager including each betting interest participating in the dead heat provided each entrant has a pari-mutuel show payout within its race.

(4) If there is a dead heat for second and/or third in any of the first three races in a series of four designated Grand Slam contests involving:

(i) horses representing the same betting interest, the Grand Slam pool shall be distributed as if no dead heat occurred;

(ii) horses representing two or more betting interests, the Grand Slam pool shall be distributed from a single betting pool with a winning wager including the betting interest that finished first or any betting interest involved in the dead heat for second or third providing the horse has a show pari-mutuel payout.

(5) Should a betting interest in any of the Grand Slam contests be scratched:

(i) the actual favorite, as evidenced by total amounts wagered in the Win pool at the host association for the contest at the close of wagering on that contest, shall be substituted for the scratched betting interest for all purposes, including pool calculations. In the event that the Win pool total for two or more favorites is identical, the substitute selection shall be the betting interest with the greatest amount of money in the place pool. The totalisator shall produce reports showing each of the wagering combinations with substituted betting interests which became winners as a result of the substitution, in addition to the normal winning combination;

(ii) should a scratch or scratches occur in any of the first three races in a series of four designated Grand Slam contests and subsequently show wagering is cancelled due to an insufficient number of remaining betting interests, this race for winning Grand Slam wagering purposes would include the win and place horse only.

(6) The Grand Slam pool shall be canceled and all Grand Slam wagers for the individual performance shall be refunded if at least two contests included as part of a Grand Slam wager are canceled or declared "no contest."

(7) If at least one race included as part of a Grand Slam wager is canceled or declared "no contest," but not more than the number specified in subsection 6 of this rule, the net pool shall be distributed from a single betting pool to those bettors whose selections finished first, second or third in the greatest number of Grand Slam contests in the first three races in a series of four designated Grand Slam contests. In determining a pari-mutuel distribution under this section, a finish of first in the final and fourth designated Grand Slam contest race for the performance in question shall have the same weight as a finish of first, second or third in the greatest number of Grand Slam contests in the first three races in a series of four designated Grand Slam contests.

(8) When the condition of the turf course warrants a change of racing surface in any of the legs of the Grand Slam races, and such change has not been made known to the betting public prior to the close of wagering for the Grand Slam pool, the stewards shall declare the changed leg(s) a “no contest” for Grand Slam wagering purposes and the pool shall be distributed in accord with paragraph (7) of this rule.

(9) Providing information to any person regarding covered combinations, amounts wagered on specific combinations, number of tickets sold, or number of live tickets remaining prior to the third segment of the wager being made official is strictly prohibited. This shall not prohibit necessary communication between totalisator and pari-mutuel department employees for processing of pool data.

§ 4011.28. Additional authorized wagers.

In addition to the types of wagers authorized by this Part, an association or corporation may, with the prior permission of the commission, offer any type of pari-mutuel wagering as defined by chapter 9, Pari-Mutuel Wagering, Uniform Rules of Racing, as adopted and published in December 1996 by the Association of Racing Commissioners International, Inc., 1510 Newtown Pike, Suite 210, Lexington, KY 40511. Such Uniform Rules of Racing are available for public inspection at the New York State Gaming Commission located at One Broadway Center, Suite 600, Schenectady, NY 12305 and at the Department of State, 99 Washington Street, Albany, NY.

PART 4012

Possession of Drugs and Drug Testing

Section

- 4012.1 Possession of hypodermic equipment and controlled substances
- 4012.2 Drug detection facilities
- 4012.3 Drug detection programs
- 4012.4 Records of veterinarian
- 4012.5 Out-of-competition testing
- 4012.6–4012.12 [Repealed]

§ 4012.1. Possession of hypodermic equipment and controlled substances.

(a) No person other than a commission veterinarian, track veterinarian or a practicing veterinarian licensed by the commission shall have or possess in or upon the premises of a licensed or franchised race track, including premises that the person occupies or has a right to occupy, or shall have or possess in his or her personal property or effects upon such premises the following:

- (1) any equipment that may be used for hypodermic injection or other infusion into a horse or any vial, bottle or cartridge designed and usable for such purposes; or

(2) any controlled substance, listed in schedule I through IV of United States Code, title 21 (Food and Drugs), section 812, or any drug that has not been approved for use in the horse by the Federal Food and Drug Administration. Not included in this prohibition are liniments, antiseptics, ointments, leg paints, washes and other products commonly used in the daily care of horses.

(b) Subdivision (a) of this section shall not apply to any person who may have in his or her possession a controlled substance or hypodermic syringe for which he or she has obtained prior written permission from the stewards to possess and use for his or her own personal health pursuant to prescription of a physician.

(c) All bottles and other containers kept in or about any tack room or elsewhere on the premises of a racing association shall bear a label stating plainly the contents thereof, including the name of each active ingredient; provided, however, that this section shall not apply if each container bears either a veterinarian's label or a regular prescription label with a pharmacist's name and address, prescription number and the name of the prescribing veterinarian.

(d) Each track is required to use all reasonable efforts to prevent and detect violations of this section. Each track, the commission and the stewards or their designees shall have the right to enter into or upon the buildings, stables, rooms, motor vehicles or other places within the grounds of such track to examine the same and to inspect and examine the personal property and effects of any person within such places; and every person who has been granted a license by the commission, by accepting such license, does consent to such search, including a personal search, and to the seizure of any drugs or hypodermic syringes, hypodermic needles or other devices; and if the commission shall find that any person has refused to permit any such search or seizure, it may impose such punishment as may be appropriate.

(e) A report shall be made to the Bureau of Narcotics of the Department of the Treasury of the United States of all cases in which it is reported to the commission that narcotics or other controlled substances have been detected in a specimen from any horse; and if any veterinarian or physician has been involved therein, a similar report shall be made to the New York State Education Department.

§ 4012.2. Drug detection facilities.

(a) Each track operator shall provide such facilities, appurtenances and equipment for drug detection programs, or other related activities as the commission may specify.

(b) No person shall enter or be present at any time in any enclosure set aside by direction of the commission for the taking and examination of samples from horses except the staff immediately in charge of such work, the commission, the commission's chair and members, the commission's staff, the State steward, the custodians of the horse, or such other persons as may be authorized by this Part.

§ 4012.3. Drug detection programs.

Programs for the detection of the presence of drugs in horses programmed to race shall be conducted at each track unless otherwise ordered by the commission.

(a) *Pre-race testing.*

(1) Blood or other samples shall be taken from every horse programmed to race, prior to the race in which it is programmed, at a time and in a location specified by the commission or the commission's representative.

(2) The trainer or the trainer's representative shall accompany the horse at the prescribed time and to the prescribed location, and shall manage the horse as directed. Willful failure to be present at, or a refusal to allow, the taking of any such sample, or any act or threat to impede or prevent or otherwise interfere therewith shall constitute a violation of this Part and shall subject the person or persons guilty thereof to punishment as may be appropriate.

(3) Blood samples will be taken by the State veterinarian or, under the state veterinarian's supervision, by a graduate veterinarian.

(4) A horse shall not race if it has not been tested in accordance with the provisions of this section.

(5) Whenever a laboratory test indicates the presence of a drug, restricted substance, or a foreign substance the identity of which cannot be established in a sample taken from a horse, the stewards shall scratch the horse and take such further action as they deem necessary.

(6) Unless specifically permitted in writing by the state steward, a horse, once the pre-race test sample is taken, shall not be transported from the grounds except to be transported to the racecourse where it is scheduled to race if such racecourse is not part of the grounds where the test sample is taken.

(b) *Post-race testing.*

(1) The winner and at least one other horse designated by the stewards shall be sent to the testing facility immediately after each race.

(2) Blood, urine, and such other samples as may be required shall be attempted to be taken from the designated horse at a time and in an enclosure specified by the commission or the commission's representative, until such horse is released by the State veterinarian.

(3) The trainer or the trainer's representative shall accompany the horse at the prescribed time and to the prescribed location, and shall manage the horse as directed. Willful failure to be present at, or a refusal to cooperate in the taking of any

such sample, or any act or threat to impede or prevent or otherwise interfere therewith shall subject the guilty person or persons to such punishment as may be appropriate.

(4) Blood samples will be taken by the State veterinarian or, under State veterinarian's supervision, by a graduate veterinarian. Urine samples shall be gathered by a commission inspector.

(5) Where deemed necessary to obtaining a urine sample by the State veterinarian, a horse may be permitted to return to the horse's stable prior to release if accompanied by a commission inspector.

(c) (1) The stewards may require at any time that any horse be sent to the testing enclosure for the taking of such specimens of blood, urine or other materials as shall be directed, as well as for an examination for "sponging" and such other examination as shall be directed.

(2) The State veterinarian may also, when so directed by the stewards, require the taking of any or all of the foregoing specimens from any horse stabled at a track during a meeting.

(d) The stewards, State veterinarian or their designees may take, for analysis, samples of any medicine or other materials that may be found in stables or elsewhere on race tracks or in the possession of any person connected with racing.

(e) *Requalification of a horse.* A horse that has tested positive for the presence of a drug, whether pre-race or post-race, shall qualify in a workout satisfactory to the stewards, and thereafter test negative for drugs before that horse starts and runs in any subsequent race.

§ 4012.4. Records of veterinarian.

(a) Every licensed practicing veterinarian shall keep a written record of his or her practice concerning horses participating at pari-mutuel thoroughbred race meets in this State, whether performed at a licensed or franchised track or elsewhere, which shall disclose:

(1) the name of the horse treated;

(2) the nature of the horse's ailment;

(3) the type of treatment prescribed and performed for the horse; and

(4) the date and time of such treatment.

(b) Every such veterinarian shall produce such written records when requested by an official of the commission. In addition, the veterinarian shall instruct the trainer of the

necessity to submit the report required by subdivision (b) of section 4043.4 of this Subchapter relating to corticosteroid joint injections.

(c) Before a licensed veterinarian administers or prescribes any drug or restricted substance for a horse, such veterinarian shall ascertain by reasonable inquiry whether the horse has been entered to race at any track, and if the horse has been entered such veterinarian shall not administer or prescribe any drug or restricted substance within the time or manner restricted by these rules. If the horse has not been entered to race, but the administration is of a drug that is not permitted to be administered within 72 hours of a racing program, or longer, the veterinarian shall so inform the trainer of that fact and of the time applicable. If, however, an emergency exists involving the life or health of the horse, the veterinarian may proceed to treat or prescribe for the horse but shall report the matter as promptly as practicable to the State veterinarian or stewards at the pertinent track.

(d) The attending veterinarian shall complete and submit daily a form prescribed by the commission that contains the name of each horse entered to race on that day and treated by the attending veterinarian with furosemide. The form shall also contain the following information:

- (1) name of the track;
- (2) name of the trainer;
- (3) description of the horse;
- (4) tattoo number; and
- (5) the dose, route and time of administration.

The form must be signed by the attending veterinarian and filed at a location designated by the commission.

§ 4012.5. Out-of-competition testing.

(a) *Sampling horses.*

(1) The commission may at a reasonable time on any date take a blood, urine, or other biologic sample, from a horse that is on a nomination list or under the care or control of a trainer or owner who is licensed by the commission, for the purpose of testing for the impermissible presence or administration of substances prohibited by section 4043.12 of this Article. The commission shall perform no other forensic tests on a sample.

(2) Samples shall be taken under the supervision and direction of a person who is employed or designated by the commission and is qualified to safeguard the health

and safety of the horse. Blood samples may be taken only by a licensed veterinarian.

(3) Horses to be tested may be selected at random, for cause, or as determined by a commission executive official or steward.

(4) A selected horse that is not made available for sampling is ineligible to race for 180 days, unless the commission determines that circumstances unavoidably prevented the owner and trainer from making the horse available for sampling.

(5) If a selected horse is not involved in activities related to racing in New York, then the trainer or owner may represent this to the commission and the commission will not sample the horse. If the trainer makes this representation, then the commission will notify the managing owner who may make the horse available for sampling in order to preserve such horse's eligibility.

(b) Cooperation with taking samples.

(1) The owner, trainer, and/or their designees shall cooperate with the person who takes samples by immediately assisting in the location and identification of the horse, making such horse available at a stall or other safe location to collect the samples, and witnessing the taking of such horse's samples. The person who takes samples shall provide identification and disclose the purpose of the sampling. The person who collects samples on track may require that it be done at the test barn.

(i) Before arriving to sample an off-track horse the commission shall notify the owner or trainer, who may instead make the horse available within 24 hours at a licensed racetrack designated by the commission.

(ii) The commission may arrange for the sampling of a horse that is in another jurisdiction by such horse's racing commission or other designated person, provided that they follow the relevant provisions of this rule and the test results shall also be provided to the other jurisdiction for its regulatory use. The commission shall provide the owner or trainer with this as a reasonable alternative location to make the horse available within 24 hours.

(iii) An owner or trainer does not consent to a search of the premises by making a horse available for sampling at an off-track location.

(2) A licensed racetrack at which a horse may be located shall cooperate fully with a person who is authorized to take samples.

(3) No person shall knowingly interfere with or obstruct a sampling.

(c) A buyer who was not aware of the ineligibility of a horse under this rule may void the purchase, provided that such voiding of the purchase is done within 10 days after receiving notice of the horse's ineligibility.

PRODUCE RACES

- 4025.40 Entry for produce race
- 4025.41 When entry is void
- 4025.42 Allowance

§ 4025.1. Stewards' ruling accepted.

Every person subscribing to a sweepstake or entering a horse in a race to be run under this Article accepts the decision of the stewards or the decision of the commission, as the case may be, on any question relating to a race or to racing.

§ 4025.2. Entries may be cancelled, revoked.

The nominations or entries of any person, or the transfer of any nomination or entry, may be cancelled or revoked without notice by the racing association or in the discretion of the commission or of the stewards.

§ 4025.3. Horse must be entered.

A horse is not qualified to run in any race unless such horse is duly entered for that race.

§ 4025.4. Disqualification—ownership.

No horse is qualified to be entered or run that is wholly or partly the property of or leased to or from, or in any way under the care of superintendence of, a person who is required to be licensed but is unlicensed, disqualified or ineligible, as provided in this Subchapter.

§ 4025.5. Disqualification—improper practice.

Any horse that has been the subject of improper practice may be disqualified for such time and for such races as the stewards shall determine.

§ 4025.6. Procedure for making entries.

Entries and declarations shall be made in writing signed by the owner of the horse or of the engagement or by the authorized agent or some person deputed by him or her; and in order to secure privacy, all entries to overnight races must be made at a specially designated booth.

§ 4025.7. Entries made by telegraph.

Entries and declarations by telegraph are binding if promptly confirmed in writing.

§ 4025.8. Entrance money not returned.

Entrance money is not returned on the death of a horse nor on the horse's failure to start, whatever the cause of the failure may be.

§ 4025.9. Entries to be posted.

Entries to all races, excepting those which are opened and decided during the meeting, shall be posted on the bulletin boards at the track where meeting is being held.

§ 4025.10. Limitations on entries.

(a) A horse whose managing owner is a partnership cannot be entered or run in the name, whether real or stable, of an individual partner unless that individual's interest or property in the racing qualities of that horse is equal to at least 25 percent.

(b) All horses in common ownership as defined in subdivision (e) of section 4026.2 of this article (*i.e.*, having any common managing owner) or subdivision (c) of section 4026.3 of this article (*i.e.*, in which there is a 25 percent commonality among nonmanaging owners) must be coupled and run as an entry.

(c) Not more than two horses trained by the same person shall be drawn into any overnight race, or on the also-eligible list, to the exclusion of another horse.

(d) A maximum of two horses trained by the same trainer may race uncoupled in any race provided the entries do not have common ownership as set forth in subdivision (b) of this section.

(e) The commission steward may require any horses entered in a race to be coupled for betting purposes prior to the commencement of wagering on-track and off-track, if such steward finds it necessary in the public interest.

(f) All horses trained or ridden by a spouse, parent, issue or member of a jockey's household shall be coupled in the betting with any horse ridden by such jockey.

(g) Notwithstanding the provisions of subdivisions (b) and (d) of this section, no entry shall be coupled by reason of common ownership or training in any stakes race in which the gross purse is \$50,000 or more, provided however that the provisions of subdivision (e) of this section shall continue to be applicable in any such races. In any race subject to the provisions of this subdivision, the racing secretary shall have the authority to establish a mutuel field and coupled entries in any race with more than 14 starters. When this subdivision permits two or more horses to race without being coupled and run as one entry, the racetrack operator shall take such actions as are necessary to inform the public adequately with regard to the common ownership and/or trainer that would otherwise require such horses to be coupled as a single betting interest pursuant to this section.

§ 4025.11. Restrictions on ownership by trainer.

No licensed trainer shall have any interest, either by ownership of the horse or by lease of such horse's racing qualities, in a horse of which he or she is not the trainer and that may be racing at the same race track where the trainer is licensed and currently racing.

§ 4025.12. Name in which horse is run.

The name in which any horse is run must be the real or the stable name of the individual owner or the name of the partnership owner (being its stable name or the name of the individual in whose name the horse is run) of the entire interest in the horse.

§ 4025.13. Closing time—overnight races.

The list of entries for overnight races shall be closed at the advertised time and no entry shall be admitted after that time, except that, in case of an emergency, the racing secretary may, with the consent of a steward, grant an extension of time.

§ 4025.14. Delayed entries.

The list of entries for all other races shall be closed at the advertised time and no entry shall be admitted after that time unless the nominator can prove to the stewards that the entry was mailed before the advertised time of closing; and starters must be named through the entry box by the usual time of closing on the day preceding the race unless otherwise designated by the stewards.

§ 4025.15. Information required for entry.

(a) Except as provided in section 4025.16 of this Part, entries shall be in the name of one person, or a stable name, and shall state the name, or the stable name, of the managing owner (or when a partnership is the managing owner, of the managing partner), the name or description of the horse, if unnamed, and, if the race be for horses of different ages, the age of the horse entered.

(b) All entries and declarations of horses eligible for administration of furosemide pursuant to section 4043.2(b) of this Title are required to denote the use of furosemide on the entry form.

§ 4025.16. Name of entry.

Entries may be made in the name of a corporation or a partnership, but no horse may race in such a name and in order to remain eligible, such entries must be transferred to an individual or a stable name on or before January 1 of the horse's two-year-old year.

§ 4025.17. Information for initial entry.

(a) In entering a horse for the first time, such horse shall be identified by stating the name of the horse (if it has any), the horse's color and sex and the name or description of the horse's sire and dam as recorded in the stud book. If the dam was covered by more than one stallion, the names or description of all must be stated.

(b) Except as provided in subdivision (d) of this section, this description must be repeated in every entry until a description of the horse with the horse's name has been published in the racing calendar or in the program or the list of entries of an association, or in such other publication as the commission may designate.

(c) In every entry after such publication, the horse's name and age will be sufficient.

(d) If a horse be entered with a name for the first time, in several races for the same meeting, closing at the same place on the same day, the description need not be added in more than one of the entries.

§ 4025.18. Change of name.

Upon any change of name of a horse that has run in any country, such horse's old name as well as such horse's new name must be given in every entry until the horse has run three times under such horse's new name over the course of an association.

§ 4025.19. Closing time—entries, declarations.

Except in overnight races, if the hour for closing of entries or for declarations is not stated, such hour shall be understood to be midnight of the day specified.

§ 4025.20. Where entries made.

In the absence of notice to the contrary, entries due on the eve of and during a meeting, are due at the office of the clerk of the course where the race is to be run.

§ 4025.21. Transfer of subscription.

A person who subscribes to a sweepstakes may, before the time fixed for naming, transfer his or her subscription.

§ 4025.22. Subscription defined.

An entry of a horse in a sweepstakes is a subscription to the sweepstakes. An entry or subscription may, before the time of closing, be altered or withdrawn.

§ 4025.23. Death of owner of subscription.

Subscriptions and all entries or rights of entry under them shall not become void on the death of the person in whose name they were made or taken. All rights, privileges and obligations shall attach to the continuing owners including the legal representatives of the decedent.

§ 4025.24. Striking out of engagement.

No horse shall be considered as struck out of any of such horse's engagements until the owner or the owner's authorized agent shall have given notice, in writing or by printable electronic means, promptly confirmed in writing, to the clerk of the course where the horse is engaged.

§ 4025.25. Striking out is irrevocable.

The striking of a horse out of an engagement is irrevocable.

§ 4025.26. Omission by vendor to strike out.

Omission by the vendor to strike a horse out of an engagement, not sold or transferred with the horse, does not entitle such horse's owner to start the horse or to the stakes if such horse wins.

§ 4025.27. [Reserved]

§ 4025.28. Proof of transfer with engagements.

Whenever the ownership of a horse is transferred in any manner, all racing engagements of the said horse shall automatically accompany the transfer.

§ 4025.29. Sale to unqualified person.

A sale to a person ruled off or to an unqualified or disqualified person will not entitle such person to be recognized as an owner.

§ 4025.30. Restrictions on acceptance of nominations.

No nominations shall be accepted for a sweepstakes or other race from any person whose license has been revoked and who has not been subsequently licensed by the commission; nor during the period of suspension from any person whose license has been suspended; nor from any person who is otherwise disqualified.

§ 4025.31. Nerved horses—restrictions.

- (a) Any horse that has been nerved (neurectomy, cryosurgery, stunning) at or above the fetlock (*i.e.*, Median nerve, Ulnar nerve, Volar nerve or the Plantar nerve) shall not be permitted to race at tracks under the jurisdiction of the commission.
- (b) Any horse that has been nerved below the fetlock (Volar [posterior] digital nerve only) may be permitted to start, provided that such nerving has been reported to the track veterinarian who shall cause such fact to be entered on the foal certificate and prominently displayed in the entry room prior to any subsequent start.

§ 4025.32. [Reserved]

§ 4025.33. Programming of jockeys.

- (a) Each horse to be drawn into the main body of a race or as an also eligible shall have its jockey named by the time established by the racing secretary for drawing of post positions and prior to the publication of the overnights. No jockey may be named to ride more than one horse in a race except that a jockey may be named to ride a horse drawn into the main body of a race and a horse drawn as an also eligible in such race, or a jockey may be named to two or more parts of a coupled entry where only one starter from such entry will start.
- (b) All jockeys shall be named by scratch time and no jockey shall be named or changed thereafter except by the stewards for good cause.
- (c) It shall be the responsibility of the trainer to insure compliance with this rule. In this regard, upon request, the racing secretary's office when taking entries shall notify the trainer of the availability of specific jockeys. Should a jockey remain unnamed at the time prescribed herein such naming shall be made by the stewards or their designee. No jockey, once named, shall be changed except for good cause by the stewards.
- (d) It shall be the responsibility of both jockey and trainer to fulfill their engagements.
- (e) An apprentice allowance may only be claimed before entries have closed and only if the apprentice has been engaged.

PRODUCE RACES

§ 4025.40. Entry for produce race.

In making an entry for a produce race, the produce is entered by specifying the dam and the sire or sires.

§ 4025.41. When entry is void.

If the produce of a mare is dropped before January 1, or if there is no produce, or if the produce is dead when dropped, or if twins are dropped, the entry of such mare is void.

OWNERSHIP RULES

§ 4026.1. Definitions.

(a) *Managing owner* means a person who through ownership, lease or designation manages all racing activities for a race horse and is personally responsible for all liabilities arising therefrom.

(b) *Nonmanaging owner* means a person holding any property interest in a race horse and who is not a managing owner.

(c) *Property interest* means any direct or indirect legal or beneficial interest in the racing, breeding or other qualities of a race horse (including a right to share in such horse's earnings or fees) whether present or future, established by deed, lease, sale with contingencies, contract of sale, syndication agreement, right of possession, or otherwise. Both lessors and lessees hold a property interest in a horse. Included in such term shall be any interest, direct or indirect, in stock, shares, parts or otherwise of any legal entity holding a property interest in a race horse (including administering or holding office in such entity).

§ 4026.2. Managing ownership.

(a) *Managing owner.* No horse may race unless the entire management and control of its racing activities, and financial responsibility therefor, are held by a registered managing owner registered with The Jockey Club. A managing owner may be either an individual or a racing partnership, registered for such purpose with The Jockey Club. A racing partnership may consist of only general partners, not to exceed four, each of whom shall own not less than a 25-percent partnership interest, and one of whom shall be designated as the managing partner under whose name or stable name the partnership's horses race, who is entitled to be credited with winnings on behalf of the partnership and who is responsible for complying with the filing, registration and licensing requirements of these rules. The managing owner of a horse shall be established either by registered ownership, registered written lease (or written notice thereof), or registered written designation as such, by the owner. The managing owner shall be responsible for all racing affairs of the horse, including the proper registration of the horse and its ownership, and all changes thereto.

(b) *Name of managing owner.* The name of the programmed owner of a horse in a race shall be either the name of the managing owner, if an individual, or, if a racing partnership, the name of the managing partner followed by the words as *lessee* or *by designation*, if either term applies. Should an individual register a stable name, such individual's real name may not be listed as managing owner. Nothing in these rules shall relieve any person of any statutory obligations related to business filings and recordings with public officials, or rights or limitations incident thereto.

(c) *Managing owner by lease or designation.* A managing owner established by ownership shall register such ownership with The Jockey Club. A managing owner established by lease or designation shall register such lease or designation, executed by both the lessor or designating owner and the managing owner, with The Jockey Club. The notice of lease or designation shall set forth the name of the horse, the name of the lessor or designating owner, the name of the managing owner (who is responsible for complying with the licensing, registration and filing requirements of these rules), the term of the lease or designation, and a statement that the managing owner has full power of management and control of the racing activities of the horse, including the right to subject such horse to claim in claiming races, and assumes all liabilities incident thereto. If the managing owner is a partnership, the notice of lease or

designation shall set forth the name of the managing partner. All registrations shall include the social security number of each individual registered.

(d) *Licensing of managing owners.* All individuals in the managing ownership of a horse must be licensed before such horse is entered or starts, unless for good cause the commission or State steward waives such requirement for a race. In no event, however, may a horse start if the license of any individual in such horse's present or former managing ownership has been denied, suspended or revoked until such time as the commission is satisfied that any withdrawal of such individual or transfer of such individual's entire interest is in good faith.

(e) *Coupled entries.* Should the same individual be present in the managing ownership of two or more horses in a race, all such horses shall be coupled as an entry.

(f) *Credentials.* Only managing owners of horses to race at the meeting shall be entitled to track credentials as owners, including paddock and backstretch privileges.

§ 4026.3. Nonmanaging ownership.

(a) *Owners-registration and disclosure.*

(1) The managing owner of a horse shall not enter or start such horse, nor shall such horse race, unless each individual holding any property interest in such horse at such time has been disclosed to The Jockey Club and registered therewith by the managing owner.

(2) In addition, should any property interest in a horse be held by a general or limited partnership, syndicate, association, corporation, trust, estate, or other form of representative or joint ownership or legal entity, such entity shall be registered with The Jockey Club; and there shall also be disclosed the identity of all officers, directors, managing agents, representatives, trustees or other individuals holding the power to manage such entities, in addition to all individuals holding any legal or beneficial interest in such entity. Any changes in such information shall be clearly indicated and submitted to The Jockey Club within 10 days after the end of each calendar quarter after registration or, if no changes have occurred, a statement to that effect shall instead be filed.

(3) For good cause shown, the commission may waive for a particular case, or for a category of cases, the obligation to file the identity of numerous owners of an insignificant interest and allow such interests to be filed as an identified class. At any time, however, upon demand of the commission, individual identity shall be disclosed.

(b) *Nonmanaging owners—licensing.* No horse shall be entered or started by such horse's managing owner that is owned by 35 or less owners, unless all of the owners are licensed, or, if owned by more than 35 owners, unless each individual having a

three percent or greater property interest is licensed as an owner by the commission. In addition, each such owner that is not an individual must be registered and licensed with the commission, and all such entity's officers, directors, trustees or other managing individuals must be licensed by the commission unless otherwise directed by the commission. The commission may also require any other individual involved in ownership to be licensed at any time it may deem desirable. The commission or the State steward, for good cause, may waive any of such requirements for a race. In no event, however, may a horse start, if the license of any such individual has been denied, suspended or revoked, until the commission is satisfied that any withdrawal of such individual or transfer of such individual's interest is in good faith.

(c) *Coupled entries.* Should the same individual or legal entity required to be disclosed and registered as a nonmanaging owner for a horse be present in the ownership (including the managing ownership) of another horse or horses in a race, to the extent that there is a 25 percent commonality in ownership between any two of such horses, all such horses shall be coupled as an entry. In addition, the stewards may require the coupling of horses having a lesser degree of common ownership where the stewards deem it desirable in the public interest.

§ 4026.4. Data to be declared.

All statements of partnerships, of sales with contingencies, of leases of designation of managing owner, or of arrangements, shall declare the name of the managing owner; or when a partnership is the managing owner, the name of the managing partner who shall be the only person to whom winnings are payable (which must be the name of the nominator), in whose name the horse will run and with whom rests the power of entry.

§ 4026.5. Filing procedures.

If any agreement of partnership, sale with contingencies, lease, designation of managing owner or other arrangement required to be filed with The Jockey Club would have the effect of deceiving or improperly misleading the public as to the identity of the persons holding an interest in a horse, or would otherwise be contrary to the best interest of racing, The Jockey Club shall notify the commission, which shall consider the matter and take such action with respect thereto as it deems appropriate.

§ 4026.6. Emergency authority.

In cases of emergency, authority to sign declarations of partnerships may be given to The Jockey Club by printable electronic means so long as such notice is given before the race. Such notice shall be promptly confirmed in writing within 48 hours.

§ 4026.7. Assignments restricted.

After a horse is drawn into a race, there shall be no transfer nor assignment of any ownership interest in such horse until after such race or until such horse is scratched

from such race, if sooner. No member of a partnership that owns a horse, leases the racing qualities of a horse, or is designated a managing owner for a horse shall assign his or her share or any part of or interest in it without the written consent of the other partners being filed with The Jockey Club. No assignment of an interest in a partnership which, by ownership or lease, controls the racing qualities of a horse, shall be accepted if the effect of the assignment would be to create a partnership that would not qualify for filing under the terms of section 4026.2 of this Part.

§ 4026.8. [Renumbered]

§ 4026.9. [Renumbered]

STABLE NAMES

§ 4026.15. Use of stable name.

No individual shall race a horse under a stable name unless such stable name is currently registered by such individual with The Jockey Club. When, in the opinion of The Jockey Club, the use of a name required to be registered with it would deceive or improperly mislead the public, or would otherwise be contrary to the best interests of racing, it shall so notify the commission, which shall take such action as it deems appropriate.

§ 4026.16. Stable name—restriction on individual.

An individual cannot have registered more than one stable name at the same time and, so long as such individual has a stable name registered, he or she shall not use or permit the use of his or her real name to identify his or her ownership interest in the racing qualities of any horse.

§ 4026.17. Stable name—restriction on partnership.

A partnership that, by ownership, designation or lease, controls the racing qualities of a horse shall race such horse under the name, real or stable, of a member of the partnership whose proportionate interest in the horse meets the requirements of subdivision (a) of section 4025.10 of this Article and who has been designated as the managing partner. All horses, the racing qualities of which are controlled by a given partnership, shall be raced under the same name.

§ 4026.18. Changing stable name.

A stable name may be changed at any time by registering a new stable name.

§ 4026.19. Limitations on use of stable names.

An individual cannot register as a stable name one that has been already registered, is the name of a race horse, or is the real name of an owner of race horses other than such individual himself or herself.

§ 4026.20. Abandoning stable name.

Any individual who has registered a stable name may at any time abandon it by giving written notice at the office of The Jockey Club and also to the racing secretary's office; and notice of such abandonment shall be published in the racing calendar, after which all entries that have been made in such stable name shall be altered as may be appropriate.

§ 4026.21. Trainer not eligible for stable name.

No licensed trainer of race horses shall register a stable name; but a partnership of which such a trainer is a member may use the stable name of another member, provided that the use of such other member's stable name is authorized by this Article.

§ 4026.22. Incorrect descriptions in entry.

Provided the identity of the horse is satisfactorily established, incorrect or imperfect description in the entry of a horse or failure to register a partnership may be corrected at any time before the horse is announced as a starter and his number exhibited for the race concerned, or in a handicap before the weights are announced; but this section shall not be construed so as to allow any horse to start in any race for which he is not otherwise completely qualified under this Article.

- 4032.3 Apprentice contracts
- 4032.4 Extension of weight allowance
- 4032.5–4032.9 [Repealed]

§ 4032.2. Apprentice jockeys; certificates; agreements.

Upon being licensed, any person who has never previously been licensed as a jockey in any country, may:

- (a) either be issued a certificate that may be in effect no longer than five years; or

Under exceptional circumstances, total days lost collectively will be given consideration. The commission currently licensing the apprentice jockey shall have the authority to grant an extension to an eligible applicant, but only after the apprentice has produced documentation verifying time lost as defined by this regulation. PART 4035

Rules of the Race

Section

- 4035.1 [Repealed]
- 4035.2 Foul riding penalized
- 4035.3 Results of intentional foul
- 4035.4 Instructions to jockey
- 4035.5 Stewards may declare race void, order refund
- 4035.6 Horse must return to course
- 4035.7 [Reserved]
- 4035.8 Stewards may dispense with walkover
- 4035.9 Use of riding crops

§ 4035.1. [Repealed]

§ 4035.2. Foul riding penalized.

(a) When clear, a horse may be taken to any part of the course provided that crossing or weaving in front of contenders may constitute interference or intimidation for which the offender may be disciplined.

(b) A horse crossing another may be disqualified, if in the judgment of the stewards, it interferes with, impedes or intimidates another horse, or the foul altered the finish of the race, regardless of whether the foul was accidental, willful, or the result of careless riding. The stewards may also take into consideration mitigating factors, such as whether the impeded horse was partly at fault or the crossing was wholly caused by the fault of some other horse or jockey.

(c) If a horse or jockey jostles another horse, the aggressor may be disqualified, unless the impeded horse or jockey was partly in fault or the jostle was wholly caused by the fault of some other horse or jockey.

(d) A jockey shall not ride carelessly or willfully such that the jockey's mount, equipment, or any item or object under his or her control interferes with, impedes, intimidates, or injures another horse or jockey in the race, including that a jockey shall not carelessly or willfully strike another horse or jockey or such other jockey's equipment with his or her whip. The stewards may disqualify the horse ridden by the jockey who committed the foul if the foul was willful or careless or may have altered the finish of the race. The stewards may also take into consideration mitigating factors such as whether the impeded horse was partly at fault or if the foul was caused by the fault of some other horse or jockey.

(e) (1) If two or more horses are coupled in the betting as an entry, and one or more of them shall be disqualified for violation of the rules of racing, the balance of the entry shall also be disqualified if in the judgment of the stewards such violation prevented any other horse or horses from finishing ahead of the other part of the entry. If said violation is without such effect upon the finish of the race, penalty therefor may be applied against the offender and the balance of the entry may go unpunished.

(2) If any horses trained by the same trainer race uncoupled in any race, and one or more of them shall be disqualified for violation of the rules of racing, any other horses entered by that same trainer shall also be disqualified if in the judgment of the stewards such violation prevented any other horse or horses from finishing ahead of the other part of the entry. If said violation is without such effect upon the finish of the race, penalty therefore may be applied against the offender only.

(f) Complaints under this section may be received only from the owner, trainer or jockey of the horse alleged to be aggrieved and must be made to the clerk of the scales or to the stewards before or immediately after the jockey of the horse alleged to be aggrieved has passed the scales. But nothing in this section shall prevent the stewards taking cognizance of foul riding.

(g) Any jockey against whom a foul is claimed shall be given the opportunity to appear before the stewards before any decision is made by them.

(h) A jockey whose horse has been disqualified or who unnecessarily causes his or her horse to shorten its stride with a view to complaint, or an owner, trainer or jockey who complains frivolously that his or her horse was crossed or jostled, may be punished.

(i) The extent of disqualification shall be determined by the stewards as in this article provided.

§ 4035.3. Results of intentional foul.

If the stewards at any time are satisfied that the riding of any race was intentionally foul or that any jockey was instructed or induced so to ride, all persons guilty of complicity shall be suspended and the case shall be reported to the commission for such additional action as it may consider necessary.

§ 4035.4. Instructions to jockeys.

All horses are expected to give their best efforts in races in which they run, and any instructions or advice to jockeys to ride or handle their mounts otherwise than for the purpose of winning are forbidden and will subject all persons giving or following such instructions or advice to disciplinary action by the stewards and the commission.

§ 4035.5. Stewards may declare race void, order refund.

The stewards shall have the authority to declare a race void and to order all wagers made thereon refunded if they shall determine that any occurrence before or during the running of such race calls for such action by them.

§ 4035.6. Horse must return to course.

If a horse leaves the course, the horse must turn back and run the course from the point at which the horse left it.

§ 4035.7. [Reserved]

§ 4035.8. Stewards may dispense with walkover.

In a sweepstakes, if only one horse remains to start, the stewards may dispense with a walkover.

§ 4035.9. Use of riding crops.

(a) All riding crops are subject to inspection and approval by the stewards and the clerk of scales.

(1) Riding crops shall have a shaft and a flap and will be allowed in flat racing including training only as follows:

- (i) Maximum weight of eight ounces;
- (ii) Maximum length including flap of 30 inches;
- (iii) Minimum diameter of the shaft of three-eighths inch; and

(iv) Shaft contact area must be smooth, with no protrusions or raised surface, and covered by shock absorbing material that gives a compression factor of at least one-millimeter throughout its circumference.

(2) The flap is the only allowable attachment to the shaft and must meet these specifications:

- (i) Length beyond the end of the shaft a maximum of one inch;
- (ii) Width a minimum of 0.8 inch and a maximum of 1.6 inches;
- (iii) No reinforcements or additions beyond the end of the shaft;
- (iv) No binding within seven inches of the end of the shaft; and
- (v) Shock absorbing characteristics similar to those of the contact area of the shaft.

(b) In all races where a jockey will not ride with a whip, an announcement shall be made over the public address system of such fact.

(c) Although the use of a whip is not required, any jockey who uses a whip during a race is prohibited from whipping a horse:

- (1) on the head, flanks or on any other part of its body other than the shoulders or hind quarters;
- (2) during the post parade or after the race except when necessary to control the horse;
- (3) excessively or brutally causing welts or breaks in the skin;
- (4) when the horse is clearly out of the race or has obtained its maximum placing; or
- (5) persistently even though the horse is showing no response under the whip.

(d) Correct uses of the whip are:

- (1) showing horses the whip before hitting them;
- (2) using the whip in rhythm with the horse's stride; and
- (3) using the whip as an aid to maintain a horse running straight.

PART 4036
Weighing In

Section

- 4036.1 Time, manner of weighing in
- 4036.2 No one to touch horse, equipment before weighing in
- 4036.3 Jockey penalized for misconduct
- 4036.4 Jockey penalized for excess weight

§ 4036.1. Time, manner of weighing in.

Every jockey must immediately after pulling up ride his or her horse to the place of weighing, dismount only after obtaining permission from the official in charge and present himself or herself to be weighed by the clerk of the scales; provided that if a jockey is prevented from riding to the place of weighing by reason of accident or illness by which he or she or his or her horse is disabled, such jockey may walk or be carried to the scales.

§ 4036.2. No one to touch horse, equipment before weighing in.

Except by special permission of the official in charge, every jockey must upon pulling up unsaddle his or her own horse, and no attendant shall touch the horse, except by such horse's bridle. Upon the returning of a jockey to the winner's circle to dismount after a race has been run, no one may touch the equipment of the jockey until he or she has been weighed in, except upon the approval of the official in charge.

§ 4036.3. Jockey penalized for misconduct.

If a jockey

- (a) does not present himself or herself to weigh in,
- (b) is more than one pound short of his or her weight
- (c) is guilty of any fraudulent practice with respect to weight or weighing,
- (d) except as provided in section 4036.1 of this Part, dismounts before reaching the scales or dismounts without permission, or
- (e) touches (except accidentally) before weighing in any person or thing other than his or her own equipment,

then such jockey's horse may be disqualified and such jockey may be punished as provided by sections 4022.12 through 4022.15 of this Article.

§ 4036.4. Jockey penalized for excess weight.

If a horse carries more than two pounds over such horse’s proper or declared weight, such horse’s jockey shall be punished unless the stewards are satisfied that such excess of weight has been caused by rain or mud.

- 4037.2 Dead heat for first place
- 4037.3 Objection made to winner
- 4037.4 Stewards to settle disputes
- 4037.5 Dead heat for a match

§ 4037.1. Dead heat not run off.

When a race results in a dead heat, the dead heat shall not be run off. In the event of a dead heat, owners shall divide the purse except where division would conflict with the conditions of the race.

§ 4037.2. Dead heat for first place.

When two horses run a dead heat for first place, all prizes to which first and second horses would have been entitled shall be divided equally between them. This rule applies in dividing prizes whatever the number of horses running a dead heat and whatever places for which the dead heat is run. Each horse shall be deemed a winner and liable to penalty for the amount the horse shall receive.

§ 4037.3. Objection made to winner.

When a dead heat is run for second place and an objection is made to the winner of the race and sustained, the horses that ran the dead heat shall be deemed to have run a dead heat for first place.

§ 4037.4. Stewards to settle disputes.

If the dividing owners cannot agree as to which of them is to have a cup or other prize that cannot be divided, the question shall be determined by lot by the stewards.

§ 4037.5. Dead heat for a match.

On a dead heat for a match, the match is off.

Such certificate shall be issued by the stewards only after the stewards have been advised by the commission that after an initial background check, and from the face of the application, the applicant appears to be qualified to be licensed and only after the applicant has designated a licensed trainer who will assume care and responsibility for the horse to be claimed.

§ 4038.4. Sale, transfer restricted.

If a horse is claimed it shall not be sold or transferred to anyone wholly or in part, except in a claiming race, for a period of 30 days from the date of the claim. A claimed horse shall not, unless reclaimed, remain in the same stable or under the control or management of its former owner or trainer for a like period. A claimed horse shall not race outside New York State for a period of 30 days from the date of the claim or the end of the meeting at which it was claimed, whichever period of time is longer, except that a horse may run in a sweepstakes elsewhere for which the horse was nominated by its former owner or trainer, or if permission is granted by the stewards.

§ 4038.5. Requirements for claim; determination by stewards.

(a) All claims shall be in writing, sealed in an envelope and deposited in a locked box provided for this purpose by the racing secretary or the racing secretary's designee, at least 10 minutes before post time. Claim slip forms must be completely filled out and must, in the judgment of the stewards, be sufficiently accurate to identify the claim, otherwise the claim will be void. No money shall accompany the claim. Each person desiring to make a claim, unless the person has such amount to the person's credit with the association, must first deposit with the association the whole amount of the claim, in a manner approved by the racing secretary or designee for which a receipt will be given. Unless funds of the claimant available in the claimant's account with the association are sufficient, in the judgment of the stewards, to pay the cost of any post-race testing requested on the claim form by the claimant, the commission shall not conduct such testing. If such funds are sufficient, an amount sufficient to pay for the post-race testing requested on the claim form shall be frozen in such claimant's account to secure anticipated costs of testing. All claims shall be passed upon by the stewards. The

person determined at the closing time for claiming to have the right of claim shall become the owner of the horse when the start is effected, whether the horse is sound or unsound or injured before or during the race or after the race, except that:

- (1) the claim is voidable at the discretion of the new owner pursuant to the conditions stated in section 4038.19 of this Part unless the age or sex of such horse has been misrepresented, and subject to the provisions of subdivision (b) of this section; and
- (2) a claim shall be void for any horse that dies during a race or is euthanized on the track following a race; and
- (3) a claim is voidable at the discretion of the new owner, for a period of one hour after the race is made official, for any horse that is vanned off the track after the race.

In the event more than one person should enter a claim for the same horse, the disposition of the horse shall be decided by lot by the stewards. Any horse so claimed shall then be taken to the test barn for delivery to the claimant after any test sample is taken.

(b) In the event a horse is claimed, and the claimant has indicated on the claiming blank an election to have a test for equine infectious anemia performed and has paid the prescribed fee for such test, a blood sample shall be taken by the State veterinarian, and the sample identified as being from a claimed horse shall be forwarded within 24 hours to an approved laboratory to be tested for equine infectious anemia. Pending the receipt of a negative test for equine infectious anemia the monies paid for the claimed horse shall be held by the track. In the event of a positive test for equine infectious anemia the ownership of the claimed horse shall revert to the owner from whom the horse was claimed and the claiming monies shall be returned to the person or persons who claimed the horse. The cost of the test is to be borne by the claimant.

(c) The previous trainer of a claimed horse shall, within 48 hours after the race is made official, provide to the new owner an accurate record of all corticosteroid joint injections that were administered to the horse within 30 days before the race.

§ 4038.6. Opening of sealed claim.

No official or other person shall open the sealed claim box and envelope or give any information on claims filed except to check on the claimant's license and eligibility of the claim. Otherwise, the claim box and envelope shall remain unopened until after the results of the race are made official.

§ 4038.7. Limitations on claims.

(a) No person shall claim more than one horse in a race.

(b) No authorized agent, although representing more than one owner, shall submit more than one claim in any one race.

(c) When a stable consists of horses owned by more than one person, trained by the same trainer, not more than one claim may be entered on behalf of such stable in any one race.

§ 4038.8. Person for whom horse runs.

Each horse shall run for the account of the person in whose name it starts.

§ 4038.9. Claim irrevocable when filed.

When a claim has been filed with the racing secretary, it is irrevocable and is at the risk of the claimant.

§ 4038.10. In case of dead heat.

In case of a dead heat, each of the dividing horses is the winner for the purpose of this Part.

§ 4038.11. Collusive claiming punished.

(a) Should the stewards be of the opinion that any person is claiming a horse collusively for the benefit of another interest or in order to evade the provision of any sections of this Article, they may require such person to make an affidavit that he or she is not so doing, and if upon proof it is ascertained that such person made a false affidavit, such person shall be referred to the commission for further action.

(b) Should the stewards within 24 hours after the running of a race determine that the lease or the entry of a horse was not made in good faith but was made for the purpose of obtaining the privilege of entering a claim, then in each case the stewards may disallow or cancel any such claim and order the return of a horse that may have been delivered and refer the case to the commission for further action.

§ 4038.12. Effect of walking over.

A horse's liability to be claimed is not affected by its walking over.

§ 4038.13. Delivery on written order.

No horse shall be delivered except on a written order from the racing secretary or the racing secretary's designee.

§ 4038.14. Refusal to deliver.

Any person refusing to deliver a claimed horse shall be suspended and such person's case referred to the commission. The horse is disqualified until the horse is delivered to the purchaser.

§ 4038.15. Intimidation, collusion.

Any person who shall attempt to prevent another person from claiming any horse in a claiming race, or any owners running in claiming races who may make any agreement for the claiming of each other's horses, may be punished by the stewards or the stewards may refer the matter to the commission for further action.

§ 4038.16. Stewards' certificate to claim.

An owner whose stable has been eliminated by claiming or by fire or other hazards shall have the right to claim during the remainder of the meeting at which such stable was eliminated, or for the next 30 racing days of that racing association, whichever period is longer. If the 30-day period should extend into the next succeeding meeting of that racing association, the owner must obtain a certificate from the stewards of the meeting at which such owner lost his or her last horse. The owner must present this certificate when filing a claim at the next meeting.

§ 4038.17. Horses claimed—testing.

If the claimant of a horse has requested post-race testing, at the expense of the claimant, on the claim form, then the stewards shall designate such horse for post-race testing pursuant to subdivision (b) of section 4012.3 of this Article. The original trainer shall remain responsible for the claimed horse until any on-track post-race sample collection has been completed.

§ 4038.18. Pregnant mare—disclosure prior to entry in a claiming race.

It shall be the responsibility of the trainer to disclose the pregnancy of any mare to the racing secretary with the entry of that mare in any claiming race. The racing secretary shall cause such fact to be prominently displayed in the entry room prior to any subsequent start.

§ 4038.19. Certain voidable claims.

(a) *Race-day positive.* Should the analysis of a race-day blood or urine sample taken from a claimed horse result in a positive test, or if the race-day test results of a previous race have not been cleared by the date of the claim and result in a positive test, the claimant's trainer shall be promptly notified by the stewards and the claimant shall have the option to void said claim within five days of such notice by such trainer. An election to void a claim shall be submitted in writing to the stewards by the claimant or the claimant's trainer. In the event the claim is voided, the horse shall be returned to the

owner of the horse who subjected the horse to claiming in the race from which the positive test resulted.

(b) *Erythropoietin and darbepoetin.* Should the analysis of a post-race blood or urine sample taken from a claimed horse result in a finding by the laboratory that the antibody of erythropoietin or darbepoetin was present in the sample taken from that horse, the claimant's trainer shall be promptly notified in writing by the stewards and the claimant shall have the option to void said claim within five days of receipt of such notice by his or her trainer. An election to void a claim shall be submitted in writing to the stewards by the claimant or the claimant's trainer.

(c) *Reserpine and fluphenazine.* Notwithstanding any inconsistent provision of Part 4043, should the analysis of a post-race blood or urine sample taken from a claimed horse result in a finding by the laboratory that the drug reserpine or the drug fluphenazine was present in the sample taken from that horse, the claimant's trainer shall be promptly notified in writing by the stewards and the claimant shall have the option to void said claim within five days of receipt of such notice by the claimant trainer. An election to void a claim shall be submitted in writing to the stewards by the claimant or the claimant's trainer.

(d) *Upper neurectomy or unreported lower neurectomy.* Where an upper neurectomy as defined in subdivision (a) of section 4025.31 of this Article, or a lower neurectomy that has not been reported, as required in subdivision (b) of section 4025.31 of this Article, has been performed on a horse prior to the race in which it is claimed, the claimant shall have the option to void said claim upon written notice to the stewards from the claimant or the claimant's trainer given within 10 days following the date of the claim.

(e) *Undeclared pregnant mare.* Where a pregnant mare has been claimed which pregnancy has not been disclosed as required in section 4038.17 of this Part, the claimant shall have the option to void the claim upon written notice to the stewards from the claimant or the claimant's trainer within 10 days following the date of the claim.

(f) *Misrepresentation of age or sex.* Where a horse has been claimed and the age or sex of the animal has been misrepresented in the racing program, the claimant shall have the option to void the claim upon written notice to the stewards from the claimant or the claimant's trainer within 10 days following the date of the claim.

(g) *Excess TCO₂ levels.* In the event that a claimed horse tests in violation of section 4043.8, of this Article and it is not determined that such TCO₂ level is physiologically natural for that particular horse, the claimant or the claimant's trainer shall have the option to void the claim upon written notice to the stewards within five days of receiving notice of the violation.

(c) *Horses suspended.* All horses in the charge of a trainer whose license has been revoked or has been suspended, whether temporarily for investigation or otherwise, shall be automatically suspended from racing during the period of the trainer's exclusion or suspension. Permission may be given by the stewards for the transfer of such horses to another trainer during such period, and upon such approval such horses shall again be eligible to race.

(d) *Track record voided.* In the event that a horse establishes a track or other record in a race and it shall be determined by competent authority that the chemical analysis of any specimen taken from such horse shows the presence of a drug that is of such a character as could affect the racing condition of the horse in such race, then such record shall be null and void.

§ 4042.5. Use of drugs.

(a) No person while on the grounds of a licensed or franchised track, who is licensed as trainer, assistant trainer, jockey, apprentice jockey, exercise rider, assistant starter, outrider, groom, valet, pony-horse rider, or anyone who is riding a horse in a race, a warm-up for a race or riding on a horse anywhere on the grounds, or anyone who aids or participates in the preparation of a race or a horse for a race, or is licensed by the commission, shall have present within the body of such person any controlled substance listed in schedules I through V of section 3306 of the Public Health Law, unless advance permission to ride a horse or participate in any manner in a race, while using such substance, pursuant to prescription by a licensed physician, has been granted in writing by the commission.

(b) Every such person, which includes all licensees, shall, upon the request of a steward or paddock judge, deliver a specimen of urine or subject himself to the taking of a blood sample by a licensed physician, as directed by such official. Failure by such person to provide such sample as so directed shall be a violation of these rules and subject such person to fine and license suspension. In addition, in no event shall any person ride or participate in any manner in the administration of or in any race, and/or the preparation of a horse for a race, on the day such sample is requested until such specimen has been taken as directed.

(c) In the event that analysis of a urine or blood sample, by the testing facility designated by the commission, discloses the presence of a prohibited controlled

substance, such fact shall be reported to the commission, which shall schedule an immediate interview with such person, pending which such person shall not be permitted to ride or participate in any manner in any race. As a result of such interview, the commission may restore full riding and/or license privileges to such person after such person has delivered a current sample for analysis, continue such temporary suspension of riding and/or license privileges pending receipt of the result of analysis of any sample directed to be taken at such interview, or take such other action as the commission may deem appropriate, including fine, revocation, suspension or the conditioning of continued licensing upon the satisfactory enrollment in and completion of a drug treatment program or drug educational program designated by the commission.

(d) A jockey who is alcoholically impaired or who refuses to be tested shall not compete and may be fined or suspended. An official who is alcoholically impaired or refuses to be tested shall not be assigned his or her duties and a report thereof shall be made immediately to the commission. Any other licensee who is alcoholically impaired or refuses to be tested shall not be permitted to continue to perform in a licensed capacity on that day. In the event of a violation of this section, the commission may take such other action as is deemed appropriate, including fine, revocation, suspension or the

conditioning of continued licensing upon the satisfactory enrollment in and completion of a State-certified treatment program.

- (a) *Administer* means to cause the introduction of a substance into the body of a horse.
- (b) *Drug* means any substance or metabolite of such substance that does not exist naturally in the untreated horse and that can have a pharmacological effect on a horse.
- (c) *Laboratory* means the official racing chemical detection laboratory designated by the commission.
- (d) *Out-of-competition positive test* means a finding by the laboratory that any of the prohibited substances described in section 4043.12 of this Part was present in the sample.

(b) *Eligibility for the administration of furosemide.*

(1) The administration of furosemide is permissible to a horse that has qualified for such use by any of the following means:

(i) the horse has bled visibly during a race or a workout, as determined by the association veterinarian; or

(ii) the horse has bled during a race or workout, as determined by an attending veterinarian based upon such veterinarian's clinical assessment of the horse, which may or may not include an endoscopic examination after the race or workout; or

(iii) the horse has been qualified by the State veterinarian or a veterinarian employed by the racetrack for the administration of furosemide in another racing jurisdiction; or

(iv) the horse has raced on furosemide in such horse's last race in a jurisdiction with rules substantially similar to New York State.

(2) If it is determined that a horse has qualified pursuant to paragraph (1) of this subdivision, and the owner or trainer elects to make the horse eligible for the

administration of furosemide, the horse shall be placed on a list, to be maintained by the association veterinarian, of horses that have bled and shall not be permitted to race for the following periods of time:

- (i) 1st time—10 days after such episode of bleeding;
- (ii) 2nd time—30 days after such episode of bleeding;
- (iii) 3rd time—90 days after such episode of bleeding; and
- (iv) 4th time—one year after such episode of bleeding. Such list shall be made available to the public for inspection.

(3) Eligibility to race on furosemide. For a horse to be eligible to race on furosemide, the trainer of that horse must file satisfactory documentation of eligibility pursuant to this rule with the association veterinarian on or before time of entry.

(4) Removal from the furosemide list. A horse that has been eligible for the administration of furosemide may be removed from the list, upon authorization from the stewards.

(5) Reinstatement to furosemide list. After removal from the furosemide list, a horse may be reinstated for the administration of furosemide if the horse again meets the requirements set forth in paragraph (1) of this subdivision and such horse shall not be permitted to race for the applicable time period set forth in subparagraphs (i) through (iv) of paragraph (2) of this subdivision.

(6) Administration of furosemide. For the purposes of this subdivision, furosemide shall be administered only in the following manner:

A single intravenous (IV) injection of no less than 150 milligrams 3cc and no more than 500 milligrams (10cc) on the grounds of a licensed or franchised racing association or corporation during the time period from four to four and one-half hours before the scheduled post time of the race in which the horse is to compete.

(7) Ineligibility to start. Any horse that is eligible for the administration of furosemide must be present on the grounds of the racing association or corporation no less than four hours prior to scheduled post time of the race in which the horse is scheduled to compete. A horse that is not present at least four hours prior to post time or that has not received the administration of furosemide pursuant to this subdivision shall be ineligible to start.

(c) The following substances may be administered by any means until 24 hours before the scheduled post time of the race in which the horse is to compete:

(k) A horse may not race after an administration of methylprednisolone acetate (*e.g.*, Depo Medrol) unless such horse

(1) subsequently tests below the threshold set forth in section 4043.3 of this Part for such drug in a test conducted by or for the commission at the sole expense of the trainer of the horse; and

(2) is released to race by the stewards.

§ 4043.3. Equine drug thresholds; per se.

(a) A horse shall have raced in violation of this section if any of the following substances is found, by the laboratory conducting tests for the commission, to be present in a race-day urine or blood sample taken from such horse at a concentration in excess of a threshold listed below. The test result of such laboratory shall include an assessment of the measurement uncertainty and imprecision of the quantitative threshold for the substance.

(b) A laboratory finding that a horse has not exceeded a threshold set forth in this section shall not constitute a defense to a violation of any other section of this Subchapter.

(c) *Special provisions.*

(1) Cobalt. A person who is found responsible for a violation of this section for the substance cobalt, when the detected concentration of cobalt exceeds 300 ng/ml in plasma, shall incur the same penalty described in paragraph (2) of subdivision (b) of section 4043.12 of this Part.

(2) Corticosteroid joint injection. It shall not be a violation of this section for the drug betamethasone, isoflupredone or triamcinolone acetonide when:

(i) the laboratory positive resulted from an administration that was recorded in the contemporaneous veterinary records of the horse, reported to the commission in compliance with subdivision (b) of section 4043.4 of this Part before the horse raced, and administered to the horse in compliance with subdivision (i) of section 4043.2 of this Part at least seven days before the race; and

(ii) the commission had not previously issued a warning to the trainer that the commission laboratory reported finding such substance, in a urine or blood sample collected from any horse trained by such trainer, at a concentration in excess of the threshold set forth in subdivision (a) of this section.

§ 4043.4. Trainer's responsibility.

(a) A trainer shall be responsible at all times for the condition of all horses trained by him or her. No trainer shall start or permit a horse in his or her custody, care or control to be started if the trainer knows, or might have known or have cause to believe, that the horse has received any drug or other restricted substance that could result in a positive test. The trainer shall be held responsible for any positive test unless the trainer can show by substantial evidence that neither the trainer nor any employee nor agent was responsible for the administration of the drug or other restricted substance. Every trainer must guard each horse trained by him or her in such manner and for such period of time prior to racing the horse so as to prevent any person, whether or not employed by or connected with the owner or trainer, from administering any drug or other restricted substance to such horse contrary to this Part.

(b) Trainers shall maintain accurate records of all corticosteroid joint injections to horses trained by them. The record(s) of every corticosteroid joint injection shall be submitted, in a form and manner approved by the commission, by the trainer to the commission within 48 hours of the treatment. The trainer may delegate this responsibility to the treating veterinarian, who shall make the reports when so designated. The reports shall be accessible to the examining veterinarian for the purpose of assisting with pre-race veterinary examinations.

§ 4043.5. Disqualification.

A horse, in respect to which there has been any violation of the prohibitions contained in this Part or Part 4012 of this Subchapter, or from which a sample has resulted in a positive test, may be disqualified from the race and from any share of the purse in the race and such share shall be redistributed among the remaining horses in the race entitled to same. Nothing contained herein shall in any way affect the pari-mutuel distribution which shall be deemed final and unappealable upon the declaring of the race “official” by the judges at the conclusion of the race.

§ 4043.6. Erythropoietin and Darbepoetin.

(a) A finding by the laboratory that the antibody of erythropoietin or darbepoetin was present in the sample taken from a horse shall establish that the horse is unfit to race in any subsequent race, subject to the provisions of paragraph (b).

(b) Any horse that has been the subject of a finding by the laboratory that the antibody of erythropoietin or darbepoetin was present in the sample taken from that horse shall not be entered or allowed to race in any subsequent race until the horse has tested negative for the antibodies of erythropoietin or darbepoetin in a test conducted by the laboratory.

(c) Notwithstanding any inconsistent provision of this Part, a horse shall not be subject to disqualification from the race and from any share of the purse in the race, and the trainer of the horse shall not be subject to application of trainer’s responsibility based upon the finding by the laboratory that the antibody of erythropoietin or darbepoetin was present in the sample taken from that horse.

§ 4043.7. Reserpine and Fluphenazine.

(a) Notwithstanding any inconsistent provision of this Part, a finding by the laboratory that the drug reserpine or the drug fluphenazine was present in the sample taken from a horse shall result in the disqualification of the horse from the race and from any share of the purse in the race.

(b) The trainer of a horse that has been the subject of a finding by the laboratory that the drug reserpine or the drug fluphenazine was present in the sample taken from that horse shall not be subject to application of trainer’s responsibility based solely upon the

finding by the laboratory that the drug reserpine or the drug fluphenazine was present in the sample.

§ 4043.8. TCO₂ blood gas testing program.

(a) The commission may obtain pre-race blood samples from horses for subsequent testing for total carbon dioxide level (TCO₂). The commission may also obtain post-race blood samples from horses for subsequent testing for TCO₂, after a minimum one-hour standing at rest period for the horse after such horse's race. It shall be a violation of this section where the horse's TCO₂ level equals or exceeds 37 millimoles per liter or, for horses administered furosemide pursuant to paragraph (6) of subdivision (b) of section 4043.2 of this Part during the four hours before the blood sample was taken, 39 millimoles per liter.

(b) It shall be an affirmative defense that the horse's physiologically natural TCO₂ level was not exceeded. To demonstrate natural TCO₂, such horse's owner or trainer must make a written request to the stewards, within three calendar days of receiving notice of the horse's TCO₂ test result, that the horse be held in guarded quarantine for this purpose. The racetrack operator shall make available a three-day guarded quarantine for a time determined by the State steward, at the sole expense of the requesting party, where blood samples shall be periodically taken for subsequent testing by the commission. If the owner or trainer properly arranges with the commission in advance, then samples shall also be taken and sent for independent testing at another laboratory at the sole expense of the requesting party. During quarantine the horse shall not race, but it may be exercised and trained at prescribed times that do not interfere with monitoring, sampling, and testing the horse. After the quarantine, the State steward shall determine whether the horse's TCO₂ level was physiologically natural for it. The State steward may also require, at least 45 days later, that the horse re-establish such horse's natural TCO₂ level with another guarded quarantine to be made available at the sole expense of the racetrack operator.

(c) Any guarded quarantine provided by the racetrack operator shall ensure that, at a minimum:

(1) Such horse shall be under direct surveillance by at least one guard at all times;

(2) Access to the horse shall be restricted to licensed persons who are directly affiliated with such horse, track stewards, or employees of the New York State Gaming Commission, all of whom shall provide their respective track identification badge or commission-issued photo identification card prior to entry;

(3) A written or electronic log of all persons who have had access to the horse shall be maintained by the guard, indicating the name and license number or track identification badge number of the person, the date and time of the visit (including time in and out of the restricted area), the nature and purpose of the visit, a

description of any and all equipment, paraphernalia, tack, medications, or feed brought to the horse, and all activity observed by the guard during the visit; and

(4) The racetrack operator shall maintain such written or electronic logs of guarded quarantine activity for a minimum period of 90 days after the conclusion of the applicable guarded quarantine period.

(d) The penalty for violations of this section shall be not less than

(1) for a first violation, a 60-day license suspension and \$1,000 fine;

(2) for a second violation, a 75-day license suspension and \$2,500 fine; and

(3) for additional violations, a one-year suspension and \$5,000 fine together with a referral to the commission for further action including a possible license revocation.

Where independent evidence shows that the horse was treated within 24 hours of such horse's race by means not permitted by section 4043.2 of this Part, however, every license suspension shall be for at least two years. Every suspension shall include denial of the privileges of the grounds.

(e) For a violation of this section, a horse shall be disqualified, any purse monies shall be forfeited and redistributed pursuant to section 4043.5 of this Part, and the horse shall be subject to pre-race detention and shall be ineligible to race until it tests in compliance with this rule and tests negative for drugs.

§ 4043.9. Pre-race detention.

(a) A horse that tests in violation of section 4043.8 of this Part shall be subject to pre-race detention, without regard to whether the horse is transferred to a new owner or trainer, for a period of six months and then until it tests in compliance with section 4043.8 of this Part and tests negative for drugs. If during the detention period a horse again tests in violation of section 4043.8 of this Part, then the detention period shall be extended as the stewards shall deem appropriate. The racetrack operator sponsoring the race shall make such pre-race detention available, at the sole expense of the trainer, for at least six hours before the start of the race program and as required by the stewards. Where a claimed horse is found to be in violation of section 4043.8 of this Part, the costs of a pre-race detention shall be the responsibility of the party requesting detention. A buyer who was not aware of its pre-race detention requirement for testing positive may void the purchase of a horse, provided it is done within 10 days after receiving notice of the horse's pre-race detention requirement.

(b) Each owner who is using a trainer at the time the trainer commits a repeat violation of section 4043.8 of this Part shall be required for four months to subject in pre-race detention all horses that were under the care or control of this trainer and any replacements of them. The pre-race detention requirement shall not continue to apply to

a horse that is sold during the detention period to a third party in a good-faith, arms-length transaction. The pre-race detention requirement shall not apply unless the trainer's earlier violation happened within the past 12 months and the State steward made a ruling on the earlier TCO₂ violation at least 10 days before the trainer's repeat violation. The racetrack operator sponsoring the race shall make such pre-race detention available, at the sole expense of the trainer, for at least six hours before the start of the race program and as required by the stewards.

(c) If during a detention period a trainer violates section 4043.8 of this Part, then the detention period shall be extended for such time as the stewards deem appropriate.

§ 4043.10. TCO₂ testing: punishment for failure to cooperate.

It shall be a violation of subdivision (f) of section 4042.1 of this Article for any person subject to the jurisdiction of the commission to fail to cooperate with blood gas testing.

§ 4043.11. Use and disposal of hypodermic syringes and needles.

To ensure drug testing accuracy, all hypodermic syringes and needles may be used only once by a track or practicing veterinarian. The collection, security and disposal of the used syringes and needles are the responsibility of a track or practicing veterinarian.

§ 4043.12. Prohibited substances.

(a) *Prohibited Substances.*

(1) The presence in or administration to a horse of the following doping agents or drugs, in the absence of extraordinary mitigating circumstances that excuse the owner and trainer from their failure to fulfill their duties and responsibilities, is prohibited at any time.

(i) Blood doping agents: a protein or peptide based agent or drug that is capable of abnormally enhancing the oxygenation of body tissues, including but not limited to erythropoietin (EPO), darbepoetin, Oxyglobin, Hemopure, and Aranesp.

(ii) Gene doping agents: a gene, genetic element, or cell that alters the expression of genes for normal physiological functions and that may produce analgesia or enhance the performance of a horse beyond its natural ability.

(iii) Any other protein or peptide based agent or drug that may produce analgesia or enhance the performance of a horse beyond its natural ability, including but not limited to toxins, venoms, and allosteric effectors.

(iv) These substances are prohibited regardless of any other provisions, including section 4043.2, of this Part.

(2) No person shall possess or use these prohibited substances on the premises of any licensed racetrack.

(3) It shall be an affirmative defense to a violation of this section that the person used the prohibited substance only in a time, place, and manner specifically permitted in writing by the commission before the administration of such substance; for a recognized therapeutic use; and subject to such appropriate limitations as the commission shall place on the return of the horse to running races.

(b) *Penalties.*

(1) A horse in violation of this rule shall be ineligible to race until it is certain that the horse is no longer affected by the prohibited substance and for not less than 180 days, after which the horse must qualify in a workout satisfactory to the judges and test negative for drugs. The minimum fixed period of ineligibility for a horse in violation of this rule shall be reduced from 180 to 30 days if the trainer had never violated this rule or similar rules in other jurisdictions and had, for any violations of Part 4043 or similar rules in other jurisdictions, fewer than 180 days in lifetime suspensions or revocations and fewer than two suspensions or revocations of 15 days or more in the preceding 24 months.

(2) A person who is found responsible for a violation of paragraph (1) of subdivision (a) of this section shall incur a penalty of license revocation in addition to any other penalties authorized in this Title.

(c) A buyer who was not aware that a horse is or may be determined ineligible under this section may void the purchase, provided that such buyer does so within 10 days after receiving notice of the horse's ineligibility.

§ 4043.13. Other prohibitions.

No person shall, attempt to, or cause, solicit, request, or conspire with another or others to:

(a) use or possess any electrical device, "joint," "battery," electric prod, or any other electrical equipment or any mechanical or other appliance not generally accepted as regular racing equipment that can be used to stimulate, depress, goad, spur, retard or condition a horse during a race or during training. The use of ultrasonic, diathermy or other electro/medical equipment is permissible until 24 hours before the start of a racing program, and whirlpool until racetime. However, the stewards may bar the possession or use of any specific equipment;

(b) freeze or ice or apply medicated packs to a horse's leg or legs within the paddock area;

(c) after a race, administer any substance except water to a horse designated for testing before the horse has been released by the State veterinarian; or

(d) administer a mixture of bicarbonate of soda and sugar in any of their forms in any manner to a horse within 24 hours of a racing program at which such horse is programmed to race. It shall be the trainer's responsibility to prevent such administration.

§ 4043.14. Restrictions on shock or pulse wave therapy.

The use of extracorporeal shock wave therapy, radial pulse wave therapy or similar treatments shall not be permitted unless the following conditions are met:

(a) The use of extracorporeal shock wave therapy, radial pulse wave therapy or similar treatments within the State:

(1) is limited to veterinarians licensed to practice by the commission; and

(2) may only be performed with machines that are:

(i) registered with and approved for use by the commission; and

(ii) used at a pre-disclosed location that is approved by the commission.

(b) Any extracorporeal shock wave therapy, radial pulse wave therapy or similar machine, whether in operating condition or not, must be registered with and approved by the commission before such machine is brought to or possessed on the grounds of a licensed race track.

(c) Trainers shall report all extracorporeal shock wave therapy, radial pulse wave therapy or similar treatments that are administered to horses trained by them, in a form and manner approved by the commission, no later than the day after the treatment. The trainer may delegate this responsibility to the treating veterinarian, who shall make these reports when so designated. A horse that is so treated shall be added to a list of ineligible horses. Such list shall be kept in the race office and be made accessible to jockeys and their agents during normal business hours. The commission may share information from such list with other racing jurisdictions.

(d) A horse that receives any such treatment is not permitted to race or breeze for a minimum of 10 days following treatment.

(e) A horse that receives any such treatment without full compliance with this section and any similar rules in any other jurisdiction in which the horse was treated shall be placed on the stewards' list.

(f) Any person who violates this section may be subjected to a fine, exclusion from all New York racetracks, and the suspension or revocation of any occupational license held by such person.

§ 4043.15. Anabolic steroids.

(a) Anabolic steroids shall not be administered except as permitted by subdivision (d) of this section. A violation of this section may be established by a finding by the laboratory conducting tests for the commission that an anabolic steroid was present in a blood sample taken from such horse, except for the following substances at concentrations that are less than these thresholds:

(1) Boldenone: All horses may have less than 100 pg/ml (including free boldenone and boldenone liberated from its conjugates) in plasma;

(2) Nandrolone:

(i) Female horses and geldings may have less than 100 pg/ml in plasma; and

(ii) Intact male horses may have less than 500 pg/ml in plasma.

(3) Testosterone:

(i) Female horses and geldings may have less than 100 pg/ml in plasma; and

(ii) Intact male horses may have less than 2,000 pg/ml in plasma.

(4) In addition, no anabolic steroid shall be administered by injection into a joint at any time.

(b) Any other anabolic steroids are prohibited to be administered.

(c) Post-race plasma samples collected from intact males must be identified to the laboratory.

PART 4044

Voluntary Exclusion from Racetracks and Restrictions on Telephone Account Wagering

Section

- 4044.1 General requirements
- 4044.2 Self-exclusion from racetrack
- 4044.3 Voluntary restriction on telephone wagering

§ 4044.1. General requirements.

(a) Each racing association or corporation shall establish a system by which a person may voluntarily exclude himself or herself from entering the premises of the race track.

(b) Each racing association or corporation that maintains telephone betting accounts for wagering on races shall establish procedures that are designed to permit an account holder to voluntarily place limits on the amount of his or her wagers. This restriction may be calculated on a daily or weekly basis.

(c) A self-excluded person or an account holder who has placed restrictions on his or her account may remove such exclusion or restrictions upon request made to the racing association or corporation. No request, however, from a person to remove any self-exclusion or limit placed on account wagers shall be effective until seven days after it has been received by the racing association or corporation.

§ 4044.2. Self-exclusion from racetrack.

(a) Each racing association or corporation shall create a list of self-excluded persons and shall post information explaining how an individual may add his or her name to the list.

(b) An individual's name may be added to the list of self-excluded persons if the individual has notified the racing association or corporation in writing or in person of his or her pledge not to visit a racetrack by filing an application for placement on the racing association's or corporation's list of self-excluded persons. The application shall be designed to include a removable label or "tear-off" with information concerning the availability of services to assist compulsive gamblers.

(c) An application for self-exclusion shall include all of the following information about the individual who is applying:

(1) full name and all aliases;

(2) physical description including height, weight, hair and eye color, skin color, and any other noticeable physical characteristics;

(3) current home address;

- (7) a photograph suitable for the racing association or corporation to use to identify the individual.
- (8) other information that the racing association or corporation considers necessary.

(d) An individual's name shall be placed on the list of self-excluded persons after all of the following have occurred:

- (1) the individual has submitted an application to be placed on the racing association's or corporation's list of self-excluded persons.
- (2) the signature of a racing association or corporation employee authorized to accept such request, indicating that the signature of the person on the request for removal from the self-exclusion list appears to agree with that contained on his or her identification credentials and that any photograph or physical description of the person appears to agree with his or her actual appearance or identification credentials.
- (3) the individual has signed an affidavit in which he or she states that he or she wishes to be placed on the list of self-excluded persons;
- (4) the individual signs a form releasing the State of New York and the racing association or corporation from any injury the individual suffers as a consequence of placing his or her name on the list of self-excluded persons.

(e) Each racing association or corporation shall file with the commission a plan for implementing this section and for disseminating the information contained in the applications for placement on the list of self-excluded persons. The plan shall be designed to safeguard the confidentiality of the information but shall include dissemination to all of the following:

- (1) the racing association or corporation managerial employee who has responsibility over the entire wagering operations; and
- (2) all security and surveillance personnel.

(f) A racing association or corporation shall not offer coupons, market its services, or send advertisements to, or otherwise solicit the patronage of, those persons whose names are on the list of self-excluded persons.

If a racing association or corporation identifies a person on the premises of their racetrack, the racing association or corporation shall, after confirming that the individual has filed an affidavit under this section, immediately remove the individual from the racetrack.

(h) A request for removal from the self-exclusion list shall include:

(2) the signature of the person requesting removal from the self-exclusion list indicating acknowledgment of the following statement: "I certify that the information that I have provided above is true and accurate. I am aware that my signature below constitutes a revocation of my previous request for self-exclusion, and I authorize the racing association or corporation to reinstate my wagering privileges at their race track."; and

(3) the signature of a racing association or corporation employee authorized to accept such request, indicating that the signature of the person on the request for removal from the self-exclusion list appears to agree with that contained on his or her previously filed identification credentials and that any photograph or physical description of the person appears to agree with that information filed previously or actual appearance if the request for removal is made in person; and

(4) no request from a person to remove himself or herself from any self-exclusion list shall be effective until seven days after it has been received by the racing association or corporation.

(i) This Part does not create any right or cause of action on behalf of the individual whose name is placed on the list of self-excluded persons against the State of New York, the commission or a racing association or corporation.

§ 4044.3. Voluntary restrictions on telephone wagering.

(a) Any holder of an account authorized pursuant to section 1012 of the Racing, Pari-Mutuel Wagering and Breeding Law may voluntarily place limits on the amount of his or her wagers. This restriction may be calculated on a daily or weekly basis.

PART 4045

Minimum Penalty Enhancement

Section	
4045.1	Definitions
4045.2	General
4045.3	Points
4045.4	Administrative action
4045.5	Start of suspension
4045.6	Adjudicatory hearing

§ 4045.1. Definitions.

The following terms, when used in this Part, have the following meanings:

(a) *ARCI Penalty Guidelines* means the penalty guidelines published in “Uniform Classification Guidelines for Foreign Substances and Recommended Penalties and Model Rule,” Version 8.0 (revised December 2014) of the Association of Racing Commissioners International, Inc., which are hereby incorporated by reference.

(b) *Equine drug rule* means any law, rule, regulation or order that restricts the administration to, or presence in, a racehorse of a drug or other substance in New York or another racing jurisdiction.

(c) *Final adjudication* means a ruling or order of a racing commission that is not currently subject to an administrative or judicial stay, and if such ruling or order is subjected subsequently to a stay, then the ruling or order existing after any such stay ends.

(d) *Precipitating equine drug rule violation* means an equine drug rule violation committed in New York that causes or may cause, depending on the final adjudication of a ruling or order of a racing commission, the penalties of this section to apply.

(e) *Racing commission* means the agency regulating horse racing in a jurisdiction that has horse racing and pari-mutuel wagering.

§ 4045.2. General.

The commission shall suspend the occupational licenses of a habitual or persistent violator of equine drug rules as an additional penalty when there is a precipitating

equine drug rule violation. This suspension shall constitute the bare minimum overall penalty enhancement that arises from a previous violation or violations of equine drug rules, wherever committed, and the commission shall continue to apply its own much broader and stricter standards when determining the appropriate penalty for the precipitating and other equine drug rule violations.

§ 4045.3. Points.

(a) When a precipitating equine drug rule violation occurs, the commission shall examine the equine drug rule violation history of the violator and assign a point value to other equine drug rule violations as set forth in this section.

(b) The commission shall assign six points, which shall accumulate permanently, for a violation involving a drug or other substance that:

(1) is classified as Penalty Class A in the ARCI Penalty Guidelines; or

(2) is not classified in the ARCI Penalty Guidelines, but has a very high potential to affect race performance and no generally accepted veterinary use in racing horses,

subject to any adjustments that apply as set forth in this section.

(c) The commission shall assign four points, which shall accumulate with points resulting from other violations committed within a three-year period, for a violation involving a drug or other substance that:

(1) is classified as Penalty Class B in the ARCI Penalty Guidelines; or

(2) is not classified in the ARCI Penalty Guidelines, but has a high potential to affect race performance and

(i) has a high potential for abuse; or

(ii) has no generally accepted veterinary use in racing horses,

subject to any adjustments that apply as set forth in this section.

(d) The commission shall assign two points, which shall accumulate with points resulting from other violations committed within a two-year period, for a violation involving a drug or other substance that is classified as Penalty Class C in the ARCI Penalty Guidelines, subject to any adjustments that apply as set forth in this section.

(e) The commission shall assign one point, which shall accumulate with points resulting from other violations committed within a one-year period, for a violation involving a drug or other substance that:

(1) is classified as Penalty Class D in the ARCI Penalty Guidelines; or

(2) does not fall within any other subdivision of this section,
subject to any adjustments that apply as set forth in this section.

(f) No points shall be assigned for a violation involving a drug or other substance that has no effect on the physiology of a racing horse except to improve nutrition or to treat or prevent infections or parasite infestations.

(g) No points shall be assigned for any violations that occurred before January 1, 2014.

(h) The point values set forth in subdivisions (c), (d) and (e) of this section are reduced by one-half for any drug or other substance that is listed in section 4043.3 of this Subchapter.

(i) If a violation involves more than one drug or substance, then the commission shall assign to such violation not less than the highest point value of any one of the drugs or substances and shall assign additional points for each drug or substance that could have the effect of substantially altering the nature or effect of such drugs or other substances on the horse.

(j) If multiple violations involving one drug or substance are committed before a licensee is notified of a positive laboratory test, then the commission may assign lesser points for the violations, although not less than the points for a single violation, when the responsible parties are able to show that the multiple violations occurred as the result of an honest and unavoidable mistake.

(k) The commission shall assign point values as of the date of a violation.

(l) Points assigned for an equine drug rule violation are not removed from a licensee's record when they serve as a basis to suspend a license. Points continue to accumulate for the time periods that are set forth in subdivisions (c), (d) and (e) of this section.

§ 4045.4. Administrative action.

The commission shall take the following administrative action after a final adjudication of the commission establishes that a licensee has committed a precipitating equine drug rule violation in New York:

(a) The commission shall calculate the points applicable to such licensee to determine whether to take any further administrative action pursuant to this Part.

(1) A licensee may be mailed a letter advising such licensee of the status of the equine drug violation record of such licensee and any possible future action that may be taken in the event of such licensee's accumulation of additional points.

(2) Although point values shall be assigned as of the date of each violation, the commission shall not initiate a suspension pursuant to this Part until after the final

adjudication of each equine drug rule violation for which points are assigned pursuant to this Part.

(3) When a precipitating equine drug rule violation results in the licensee having accumulated three or more points based on final adjudications of equine drug rule violations, the commission shall find that a licensee is a habitual or persistent equine drug rule violator.

(b) The Director of the Division of Horse Racing and Pari-Mutuel Wagering shall suspend the occupational licenses of a habitual or persistent equine drug rule violator, at a minimum, as follows:

(1) if the licensee has accumulated 3 to 5.5 points as a result of equine drug rule violations, a suspension of 30 days;

(2) if the licensee has accumulated 6 to 8.5 points as a result of equine drug rule violations, a suspension of 60 days;

(3) if the licensee has accumulated 9 to 10.5 points as a result of equine drug rule violations, a suspension of 180 days; and

(4) if the licensee has accumulated 11 or more points as a result of equine drug rule violations, a suspension of one year.

(c) Such license suspensions shall in no way affect any administration action taken under any other provision of this Subchapter, including the imposition of a penalty for the precipitating or other equine drug rule violation in New York.

(d) The Director of the Division of Horse Racing and Pari-Mutuel Wagering, on behalf of the commission, may proportionately reduce such suspension, however, when convinced by clear and convincing evidence that the commission had already enhanced, based on one or more of the predicate equine drug rule violations, the penalty imposed on the licensee for the precipitating equine drug rule violation.

(e) The State Steward may, when authorized by the Director of the Division of Horse Racing and Pari-Mutuel Wagering, add the habitual or persistent equine drug rule violator suspension when issuing a ruling upon a precipitating equine drug rule violation.

§ 4045.5. Start of suspension.

A habitual or persistent equine drug rule violator suspension shall not take effect until the commission has notified the licensee in writing of the suspension and

(a) the licensee waives in writing the right to an adjudicatory hearing;

(b) the licensee does not, within 10 days, make a written application for an adjudicatory hearing before the commission; or

(c) an administrative stay for the adjudicatory hearing has expired and no further stay has been granted to the licensee.

§ 4045.6. Adjudicatory hearing.

(a) A habitual or persistent equine drug rule violator may, within 10 days of service upon such violator of a notice of a suspension imposed by this Part, file a written application for an adjudicatory hearing before the commission. A request that is not filed within 10 days shall be null and void and the licensee shall have waived any right to an adjudicatory hearing.

(b) If a licensee requests an adjudicatory hearing for a suspension imposed pursuant to this Part, the commission shall issue an administrative stay of the habitual or persistent equine drug rule violator suspension. Such stay shall be for 45 days from the date of service on the licensee of the notice of the suspension. The licensee may request, on motion with reasonable notice to the secretary of the commission, filed in writing, an extension of such stay for good cause shown that the licensee has not been able to participate in an evidentiary hearing within such period of time. The director of the Division of Horse Racing and Pari-Mutuel Wagering shall decide such motion on behalf of the commission, and the decision of such director shall be final. Upon the completion of the evidentiary hearing, another administrative stay of the suspension shall be issued until such time as the commissioners have taken final agency action.

(c) The adjudicatory hearing shall be conducted pursuant to Part 4550 of this Chapter.

(b) If the fund finds that a person has failed to cooperate as required in this section, it may impose such sanctions as it deems appropriate, including disqualifying such person from breeder's awards, stallion awards, and purses earned in New York-bred races.

§ 4081.7. Disqualification for cruelty, abuse or neglect of horses.

(a) Any individual or any entity that is charged with the commission of a crime, offense or other violation of the law involving cruelty to, abuse or neglect of, any horses within the State of New York or elsewhere within the United States, shall be required to report such charge to the fund within 10 days thereof. Upon notice of the charge, the individual or entity may be suspended from receiving breeder's awards, stallion awards and owners awards pending final disposition of said charge. The suspension of such individual or entity shall attach upon adoption of a resolution of the board. In the event of such suspension, the Fund Board shall provide written notification to the individual or entity who may request an opportunity to be heard. Such individual or entity shall not receive any breeders awards, stallion awards and owner awards, pending the final disposition of the charge. Said monies shall be placed in an interest bearing account pending final disposition of the charge.

(b) In the event an individual or entity that is charged with a crime, offense or other violation of law described in subdivision (a) of this section is convicted, the commission shall be authorized to impose an appropriate remedy, including, but not limited to, declaring a forfeiture of awards and continuing the suspension or permanently barring such individual or entity from participating in the fund in any manner or from otherwise deriving any benefits or awards from the fund. In the event that the final disposition of a charge results in a forfeiture of awards, then any award monies that are so forfeited shall be distributed on a pro rata basis within each relevant awards category to all other participants of the fund in the year in which the final disposition occurred unless impracticable, in which event such monies shall be distributed in the following year.

(c) In the event an individual or entity that is charged with a crime, offense or other violation of law described in subdivision (a) of this section is acquitted or otherwise found to be not guilty of such a crime, offense or other violation of law, then such individual or entity, including any and all principals of such entity, shall have their suspension rescinded retroactively. In the event that the charge is finally disposed and results in the individual or entity being acquitted or otherwise found not to be guilty of such crime, offense or violation of law, then the awards plus interest that had been withheld from such individual or entity shall be paid retroactively to the date of suspension.

§ 4081.8. New York State Gaming Commission.

Nothing herein contained shall be deemed to prevent the commission upon request of the fund, or upon the commission’s own initiative, from conducting an investigation into the registration requirements established by these rules or the participation by any individual in such process.
